The Free Press says: "Local politicians are giving considerable attention to the vacant portfolio, and the changes that will come about if Mr. Sifton accepts it. That the present Attorney-General of Manitoba will be the next Minister of the Interior now seems to be an assured fact. To newspaper men, of course, Mr. Sifton says nothing about it, but to other people it is said the Attorney-General has as good as acknowledged that he has the refusal of the portfolio, and that he will accept it. His acceptance will make a vacancy in North Brandon in the Local House, and the selection of his successor there is under consideration now. A prominent citizen of Brandon has been in the city for a couple of daws to arrange for a nomination in the Liberal interests. He was closeted with Mr. Sifton yesterday, and the fact that the latter is already discussing the vacancy in his present constituency shows he must be about to join Mr. Laurelr's Cabinet." It is rumored to-night that in the event of Mr. Sifton accepting the Interior portfolio his successor in the Manitoba Cabinet as Attorney-General will be Mr. H. M. Howell, Q.C.

Hon. J. D. Cameron, Provincial Secretary, returned to-day from an extended eastern trip. Interviewed to-night, Mr. Cameron said he had nothing to add to what Mr. Sifton had given the public on the school question negotiations.

BOARD OF TRADE.

At a meeting of the Council of the Board of Trade a committee was appointed to arrange for a trip of the members of the board to the Kootenay district, if a satisfactory rate can be arranged with the railway companies. The council decided to press vigorously on the attention of the Government Government several matters they had up with the old Government. Amongst these subjects is a general two-cent letter postage rate for Canada. The board received assurances of support in pressing this matter on the Government from a large number of boards of trade between the Atlantic and the Pacific. There are also questions of the appointment of commercial agents in northern Europe, quarantine on settlers' cattle at the boundary line, removal of the Winnipeg Custom House to some suitable place in the business centre, and the improvement of St. Andrew's Rapids.

AN INSANE MURDERER.

Yesterday while a few of the inmates of Brandon asylum were in the stable milking, one named Carruthers picked up an axe, passed two others who were milking, went up to a third man, Alphonse Rennet, and deliberately killed him. No cause is given for the act. They had not quarrelled in any way. The attendant had only turned his back a moment before to drive some ducks away from the stable door.

HARVEST WORK.

A Portage la Prairie correspondent writes: Farmers are now busy in the harvest fields, and reapers are seen in every direction. The weather has not been the most favorable, but the wind on Tuesday, though somewhat chilly, helped to speedily dry the dampness consequent on the heavy shower of rain in the morning. A gentleman who recently made a tour over the Portage plains says there are some excellent fields of grain to be seen, and, while the yield per acre will not be equal to that of last season, there are many crops that will thresh out from 25 to 30 bushels per acre, and one in Macdonald district, in his opinion, will average 40 bushels. Generally the crop is light, but the sample of grain promises to be good.

At Regina harvesting is in full swing with first-class weather. The sample and yield will be the best ever had in Assiniboia, exceeding the famous yield of 1891.

Loose clothes and downy cushions bring only a negative sort of comfort to the woman who is suffering with some disease or derangement of the organs distinctly feminine. Some clothes and some positions make the pain and the discomfort seem less. Perhaps the nerves are most affected and this in turn disturbs the digestion. Nothing will ever completely relieve but a radical cure. The start of so called "female complaints" may be a very slight thing indeed. It may be that in the beginning some small hygenic measures would stop the trouble. Certainly at this time, a little bit of the right medicine would stop it. When the trouble becomes worse, it is harder to cure, but still it can be cured. Dr. Pierce's Favourite Prescription will positively cure any trouble of this character. It may be absolutely relied upon. It affords lasting relief to a woman whose natural modesty has kept her from consulting a physician.

Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

HIS EYE IS ON KOOTENAY.

Kaiser Wilhelm of Germany Sends Agents Through the Mining District for Information—Big Deals on.

Rossland, Aug. 30.—(Special to The World, via Spokane, Wash.)—Hans Geise, the German Consul at Tacoma, Wash., has been commissioned by Kaiser Wilhelm to investigate and make a report to the German Government on the possibilities of mining in the Kootenay district. The consul has just returned from a three weeks' trip throughout the district. He visited the various camps and says he has found the mineral wealth to be beyond description. Two German savants are now on their way to Rossland to make a further report to their Government.

A half interest in the Elise mine, on Wild Horse Creek, has just been sold to Seattle capitalists for $60,000.

Several other big deals are on the tapis.

All the Chinese laundries have been ordered out of Rossland on the ground that they are unsanitary.

A C. P. R. CONDUCTOR.

After Two Years' Misery was Cured by Ten Boxes of Dodd's Kidney Pills.

Prescott, (Special) Aug. 24.—For a long time much sympathy had been felt and expressed for Mr. Wm. Freeman, a very popular conductor of the C.P.R., who had been rendered unfit for duty the past few years by a peculiar and distressing form of kidney disease. It now transpires, much to the delight of his friends, that he has been enabled to resume his regular trips. He claims, as the result of using only ten boxes of Dodd's Kidney Pills, that he has entirely recovered, and that he never felt better in his life, and believes that these Pills have cured him to stay cured.

Children Cry for Pitcher's Castoria.

DOAN'S

Kidney Pills first proved to the people that Kidney disease is curable. Being the original Kidney remedy in pill form, the cures they have made, and the fame they have attained have opened the way for a host of imitations and substitutes, but those who have been cured of

KIDNEY

Complaints through the use of this wonderful medicine, those whose lame back is now free from pain, those who now have no headaches, those who have escaped from the death grip of Diabetes and Bright's disease by the use of Doan's Kidney

PILLS

are the ones whose opinion is valuable. When scores of such people come forward and tell publicly that Doan's Kidney Pills cured them after other means failed, it is evident that the only

CURE

for Kidney Disease, Bladder and Urinary difficulties, Lame Back, and the numberless results of disordered Kidneys is Doan's Kidney Pills. Be sure to get Doan's.

Price fifty cents per box.

OFFICE—FURNITURE WAREROOMS

TORONTO

INDUSTRIAL EXHIBITION.

SPECIAL NOTICE.

Visitors to the above who are musically inclined should carefully inspect The **MASON & RISCH PIANO** exhibit. Our stand is the first one on the left as you enter the Musical Pavilion. Our exhibit is not a large one, as we believe that the beautiful tones of instruments can be more fully appreciated in the quiet of our warerooms than amidst the bustle and confusion of an exhibition. We shall therefore make our principal exhibit at our warerooms, 32 King St. W., to which all visitors are cordially invited.

One of the most valuable paintings at the Art Gallery in the exhibition building will be the famous portrait of the Great Pianist Franz Lizst which was painted at his command by Baron Joukovsky, the Great Russian Artist, and presented to Messrs Mason & Risch as a tribute to the wonderful tone qualities of their Pianos. Every lover of Art should make it a point to see this painting. It is valued by experts at $5000.00.

The Mason & Risch Piano Co. L'td.

32 KING STREET, W., TORONTO.

Wood's Phosphodine.—*The Great English Remedy.*

Is the result of over 25 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of *Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants*, all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering over the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness.

Price, one package, $1; six packages, $5; by mail free of postage.

One will please, six guaranteed to cure. Pamphlet free to any address.

The Wood Company, Windsor, Ont., Canada.

Wood's Phosphodine is sold by responsible wholesale and retail druggists in the Dominion.

Mr. A. F. Hoover's School of Pianoforte will re-open Tuesday, Sept. 8th. 1w46

Peterborough Business College.

Five new students entered the Peterborough Business College to-day. The prospects are encouraging for a large attendance for the fall term.

The Mother's Reason

for buying school suits for her boys at H. LeBrun & Co.'s is that she is sure of getting good goods, stylish make and careful workmanship. She knows about these things.

Commissioner Eva Booth, Colonel Jacobs, Chief Secretary; Ensign Berry, Private Secretary, will arrive to-day, on the 5.10 p.m. train. Great Welcome meeting in Barracks, at 8 p. m. Door open at 7.15. Silver collection.

Notice of Removal.

The noted chiropodist, Prof. Signor Emilio, heretofore at the Huffman House, can now be seen at the Oriental Hotel, as he has been requested to remain another week by his many patrons. Those suffering from corns, bunions, warts, ingrowing toenails, etc., should call at once, as his time is short now.

At the Opera House.

The Wilson Dramatic Company arrived in town this morning and will occupy the boards at the Bradburn Opera House for a week. The most favourable press notices precede the company, the members of which are nearly all personally known in Peterborough. Mr. and Mrs. Wilson and Baby Florida all spent their holidays here. An addition to the company arrived this morning in the person of Miss Niva Carlotta, the little Spanish dancer. The title of this evening's play is "Queen's Evidence."

New Pump Factory at Norwood.

A new pump factory and implement repair shop has been started at Norwood, near the grist mill by Mr. William Neild, formerly of Peterborough. This should prove a great convenience to the village, as well as to the farmers in the surrounding country, as scarcely anything was more needed than a shop of this kind. Mr. Neild has been particular in securing a good site for his business, and together with the encouragement he has received from some of the principal citizens of Norwood, his success is almost assured. Mr. Neild is a practical man in the business, having been engaged in the manufacture of pumps in Peterborough for a number of years, and at the same time is well known throughout the East and West Ridings.

"DOWN WENT McGINTY."

The Damp Descent of the Redoubtable Bobby of That Ilk.

Policeman McGinty is off on his holidays, which started rather inauspiciously. On Saturday as was noted in the EXAMINER, the North Star carried on her Saturday trip little but duck hunters, campers and their equipments. Among the campers was policeman McGinty, the popular Peterborough peeler, number 002. The North Star lay to at Campbelltown to land a party of campers, among which was our friend Charlie. McGinty had gone ashore and was returning to the steamer for another load of luggage. He entered the canoe and pushed from the shore. The very moment he reached deep water flop went the canoe, out went McGinty and down went McGinty.

A universal chorus went up from the steamer's passengers:

"Down went McGinty to the bottom of the sea,
Dressed in his new suit of clothes."

In spite of the danger in which the guardian of the peace was, the situation was too pat to the facts of the famous ballad to be resisted. Charlie came to the surface puffing like a porpoise and dripping like a sea god. The first words he heard were those of the famous song, and he was literally dressed in a new suit of clothes and the blush of newness was very successfully washed off in the turbid waters of the Otonabee. McGinty did not stay "down" however—as it takes a good deal to down Charlie. He was fished out in a very moist condition, spread out to dry and suffered no serious consequences. It is to be hoped that Policeman McGinty, in spite of his aquatic gymnastics, will enjoy his holidays and return with expanded chest and strengthened muscles to wrestle with the great problem of civic justice in Peterborough. He will be able to spin thrilling yarns of his experiences at "the bottom of the sea," as represented by the oozy depths of the Otonabee, and many an hour of "off duty" at the station will be brightened for the rest of the force and the accustomed loungers by the graphic narrations of the experiences of "McGinty at the bottom of the sea."

A DIFFICULT OPERATION.

It Was Performed at the Nicholls' Hospital Saturday.

Drs. Halliday and Greer performed an interesting and difficult operation in the surgical ward of the Nicholls Hospital on Saturday.

Mr. Herb Russell, of Millbrook, was the patient and at the conclusion of the operation he was handed a large needle which had been cut out of his thigh.

For the last sixteen years Mr. Russel has been troubled periodically with intense pains in the abdomen and last year he was under the surgeon's knife twice when an endeavour was made to locate the cause of the trouble, but without success. He was in with honey at the market on Saturday morning. As the pain seemed to have shifted somewhat and descended into the thigh, he notified the doctors that he was anxious to have an effort made to locate the origin of the trouble. The operation was accordingly performed with the above mentioned result, the physicians stating as their opinion that the needle had in all probability been swallowed by Mr. Russell when a boy. The patient was able to be out this morning and is feeling most jubilant.

THE CATHOLIC EDUCATIONAL EXHIBIT.

A Magnificent Souvenir of the Chicago Exposition.

The EXAMINER has to acknowledge with thanks the receipt of numbers 4 to 8 of the splendid serial of their Catholic Educational Exhibit made at the World's Exposition. We have before referred in complimentary terms to the very high and comprehensive character of this work. The printing and paper are of the best, the illustrations unsurpassed and the descriptive text gives a graphic idea of the grand work which the Catholic church in the United States is doing in the promotion of educational interests. This work, which will be completed in 16 parts, will compose a valuable compendium of knowledge on the subject of Catholic education, besides being a work of art which will be an ornament to any Catholic household. The EXAMINER has heretofore dealt rather fully with the scope of this splendid work which is published by the Messrs. J. S. Hyland Company, of which an old townsman, Mr. J. J. Sheehy, is secretary and to whom we are indebted for copies of the parts as they appear. If merit is a condition of success this enterprise meets the conditions exactly.

ELECTRIC LIGHTING CONTRACT.

To the Editor of the Examiner:

DEAR SIR,—I had intended not further to trespass on your space in reference to the lighting contracts for the town, but if reports are correct as to the Council asking for new tenders and charging a specific sum of money for use of the streets, this to my mind is not a fair way of meeting our Company. The other Company are already several years in the field with their pole lines on almost every street and are deriving a large revenue from some. We, on the other hand, have our whole plant to instal and then find customers. Might I suggest that in equity the proper standard would be that a percentage of the earnings be paid into the Town Treasury. I think not only that, but that the Street Railway and the Water Company should be taxed in the same way. The one is just as fair as the other, and more so as it is not likely that we will ever have competition in either of these two lines. The precedent is wrong in my estimation, as if you want cheap light and a cheap town to live in, the town, through the council, must give every facility for every company to compete on equal terms. Then, and only then, will you get cheap light by competition. Any specific charge for the streets will only be taken out of the pockets of the users of light by the company. But if taken out of the profits it would not have this effect. But I would respectfully ask why all this now? Is it with a view of driving our company out of the market and bringing back the old monopoly? Had our tender for street lighting not been what it was would we have had all this bickering? I do not think there is a citizen outside of those interested in the other company but will say that we should have been awarded the contract on our first tender. Had this been done the pole line on the streets would have settled itself. The Council, however, being supreme we have now to its will and all we ask is, put upon the same terms as our opponents or competitors. On these grounds, and on these grounds only, are we prepared to tender and I think, Mr. Editor, we have a right to ask fair play from the council. I submit a report for the information of the people as to what other towns are doing in electric lighting. In Smith's Falls, where two companies are allowed to operate with all freedom and facility, the town can give on equal terms, store lighting, I was informed, is 1c per lamp of 16 candle power per night per year or less than half what it is in Peterborough. Is that not a good investment from the town's standpoint?

Montreal—Two companies, Royal and Citizens, largely same pole line by arrangement.

Ottawa—Five companies, now consolidated, but power supplied by five different power stations, all on same poles, using alternately, arc, incandescent and 500 volt power line, two telegraph companies, and district messenger service on same poles.

Smiths Falls—Two companies competing, using different systems; cheapest light in Canada.

Winnipeg—Two companies competing, using different systems.

Renfrew—Two companies competing, using different systems.

Preston—Two companies competing, using different systems.

Chelsea—Two companies competing, using different systems.

Durham—Two companies competing, using different systems.

Brockville—Two companies, now amalgamated.

Lindsay—Two companies competing, using largely same poles.

London—Two companies competing, using same poles.

Simcoe—Two companies, amalgamated.

Amherstburg town does its own arc lighting. Private company uses same poles for incandescent lighting; power transmission.

Brantford—Two companies using arc lighting and incandescent and 2000 volt alternating by arrangement between the two companies. They use the same pole line throughout the city.

Thanking you Mr. Editor for the space in your columns.

I remain yours, etc.,
W. H. MELDRUM.

OPENING OF SCHOOL.

The following provisional arrangement of the staff of teachers of the public school has been made, subject to approval by the Board of Education, for the ensuing term:

CENTRAL SCHOOL.

Mr Wm Smith, (Head Master), Fourth Class, A.
Mr J C Smith, Fourth Class, B.
Miss Nicholls, Third Class, Sr.
Miss Eyres, Third Class, Jr.
Miss E Perry, Second Class, Sr.
Miss M Richardson, Second Class, Jr.
Miss A Peters, Part II Class, Sr.
Miss E Beckett, Part II Class, Jr.
Miss B Might, Part I Class, Jr.
Miss I Noble, Part I Class, Sr.

SOUTH CENTRAL SCHOOL.

Mr H A Yenney, Fourth Class, A.
Mr M Sersolell, Fourth Class, B.
Miss B Brown, Third Class, Sr.
Miss Perrin, Third Class, Jr.
Miss S Throop, Second Class, Sr and Jr.
Miss M E Lough, Second Class, Jr and Pt II Sr.
Miss R M Finley, Pt II, Sr and Jr.
Miss S B Elson, Pt I Sr.
Miss Aldridge, Pt I Jr.

PARK STREET SCHOOL.

Mr McCreary, Second Class, Sr and III Jr.
Miss Cairns, Second Class, Jr and Part II, Sr.
Miss Jenkins, Part II Class, Jr and Part I, Sr.
Miss Thomas, Part I, Jr.

BARNARDO AVENUE SCHOOL.

Mr W H Walkey, Sr III, and Jr III Classes.
Miss Fakenham, Sr II and Jr II Classes.
Miss H Lough, Part II, Sr and Jr.
Miss Morrow, Part I, Sr and Jr.

GEORGE STREET SCHOOL.

Miss M Mark, Third Class, Sr.
Miss Hall, Third Class, Jr.
Miss C V Ames, Part I Class.

As it is important that all pupils be present on the first morning in order that the classes be arranged in accordance with the new boundaries. Parents are respectfully requested to see that their children are on hand at 9 o'clock on Tuesday morning. Pupils will please start to the school which they attended last term.

ALEX WHEBBY,
Inspector.

Fitzgerald's Coal and Wood.

Dry shingle wood at reduced prices to clear out at once. Firstclass hard wood charcoal on hand; best hard and soft coal, Lehigh, Scranton and Plymouth and Briar Hill soft coal.

COMMISSIONER EVA BOOTH.

A TYPICAL WOMAN-WARRIOR OF THE SALVATION ARMY.

Converted When Six Years Old—"War Cry" Seller—Captain—A Policemen to the Toughs—Passed Through a Baptism of Rowdyism—Conquered the Obnoxious Bye-Law—Fought at Whitchurch and Eastbourne—Led London's $1,000 Soldiers to Victory—Wonderful Triumph in New York—Now for Another Chapter of Victory Here.

Commissioner Eva Booth, the late pro tem. Commander of the United States forces of the Salvation Army, who arrived in Peterborough to-day is the General's fourth daughter.

She was converted at the age of six years and from her earliest days, in which she was able to take any part at all in the Salvation War, her whole strength and energy have been spent in some form of work or other for the salvation of the world.

When quite a little miss she used to go out selling War Crys on the streets with the women cadets in the first Training Home, carried on under the superintendence of her sister, now Consul Booth-Tucker, and before she was twenty she was able to render great service in that institution in the important work of dealing with the hearts and souls of women who afterwards became officers in the Salvation Army.

A tremendous storm burst upon the Salvation Army in London in 1885, in consequence of certain actions performed by persons belonging to it, in connection with the terrible Pall Mall Gazette revelations of social vice in the metropolis.

One of these transactions took place in a vicinity where they had a large hall, holding 4000 people, and there was a dense population of ignorant people of the so-called lower orders of life. Public feeling ran very high against the army and in this

Eva Booth, Commissioner S. A.

neighborhood Salvationists were attacked with great violence by mobs when they went out on the streets, and the corps was in a very tight place.

At this juncture the future commissioner was appointed to the command as captain, and she went there, having the help of ten or a dozen cadets. Every other house on the street where they lived was a house of iniquity of some form, but before the Commissioner had been in her quarters a fortnight she had been in every house, visiting the people and dealing with them about salvation.

One of the first announcements that she made in the hall was that she was going to be her own policeman inside the building, and that therefore the presence of officers would not be required. This was a bold step, in view of the character of the gang of toughs who had been for some little time practically in possession of the hall; but it worked all right, and within a few weeks she had won the respect, and indeed the affection of the whole crowd, and these very men not only preserved excellent order in the hall, but protected Salvationists when they were out on the march. A few months after leaving this corps, when she lay dangerously ill, one of these men pawned his vest in order to buy some hot-house grapes for her.

If any of these lads got into the hands of the police, she would visit them in the lockups, or prisons, and make them feel that they belonged to her as much as she belonged to them. Needless to say, she left a splendid and solid work behind her.

The Commissioner remained at that corps ten months, and her arduous and endless labour there brought on a dangerous illness, that kept her out of the fight for close on a year. Mrs. General Booth nursed her during the greater part of this time, and the influence of that long, close, loving, personal contact will affect the temporal and eternal destinies of millions.

The next important public conflict was that of Torquay, a health resort in the south of England. The municipal council of Torquay deprived, by passing a special by-law, the Salvation Army of its precious privilege of parading the streets on Sunday with a brass band. This right had been established by a decision of Lord Chief Justice Coleridge in the Court of Queen's Bench.

In order to maintain this right, therefore, the procession moved right along by its commander's orders. Officers, bandsmen and soldiers were arrested and cast into prison, but those who remained kept in line, and the band played on. There was great excitement in the town, and Commissioner Eva Booth was sent to Torquay to render her help in fighting the battle through to a victorious finish. She took her place in the parades, when these were attacked by both mobs and police; she personally interviewed and won over the council. She had the matter taken up by Parliament, and eventually she won by the repeal in Parliament of the obnoxious "bylaw," the right for her Army to parade all day, if it chose to do so, with its brass band in loud and close attendance. Then, again, there was Whitechurch. The issue there was the Army's right to hold open air meetings. Commissioner Eva came, saw and conquered. The Army held open air meetings, and is probably holding them yet.

Eastbourne, too, Torquay repeated on a bigger, more bitter, more extensive and much more pertinacious scale. Illness kept the Commissioner out of much of the battle she would have been in if she had been well, but she got around to the houses of the Mayor and other leading citizens, and if she did not communicate new truths to them she placed old facts before them with a force and fervour such as they had never seen before, and have never seen since. She managed to be in the biggest of the series of riots that took place, however, and came through it unharmed, in spite of the fact that a reward of $50 (if we remember aright) was offered to any man who would knock her down or who could capture her bonnet.

When she received her orders to proceed to New York on her melancholy mission of mercy and love, she was in the midst of arrangements for farewelling from the London "province"—corresponding to a chief division here. When we say that she had 350 field officers, about 200 cadets in training and 21,000 soldiers in her command, it will be seen that she must have great administrative capacity.

Her first two public appearances in America took place on the same day, and before audiences containing a large hostile element. Each meeting, however, resulted in a complete victory. Some of the people who hissed her at the beginning were cheering her before she finished.

In the whole history of the Salvation Army probably no officer of any rank ever found himself or herself in any position at all similar to that occupied by her in the first week after her arrival in New York, yet, during four of those days, she brought about a complete revolution in the feelings of at least 150 officers of various ranks, and other persons connected with the Salvation Army in the city, in regard to the position that she assumed under such trying circumstances, and this not by threats or bribes.

This colossal task having been accomplished in almost as low a physical condition as it were possible for her to be, what may we expect in the future, when her physical health shall have been restored, and when she shall be able to deal with all the manifold affairs of a vast field comprising Canada, Newfoundland and North-West America, in the possession of her full strength of body, mind, heart and soul?

REV. FATHER PHELAN'S $5 PRIZE

Creditably Won by a Separate School Pupil of North Bay.

"Colonization," a journal printed at Sturgeon Falls, Nipissing District, contains the following which will be read with interest by the many friends of Rev. Father Phelan, who has met with great initial success, implied in that of his protege, in essaying the role of a Maecenas:

"An examination of the various lists of entrance pupils revels the fact that Miss S. McKee, of North Bay, took the highest number of marks of any entrance pupil from the Districts of Algoma, Nipissing, Parry Sound and Muskoka. Miss McKee obtained, 678 marks, thereby reflecting great credit on herself and on Miss Bryson, Principal of the North Bay Separate School, by whom she was prepared. In connection with this meritorious result, it may be mentioned that Miss McKee gained—and has been presented with, the five-dollar prize promised by his reverence, Father Phelan."

"The foregoing facts furnish another striking example of the inefficiency (?) of the Separate School system, and a fitting reply to the cry for the abolition of the Separate Schools in Manitoba. Let Dalton McCarthy et al. take note."

A Mouthful of Pearls.

The teeth perhaps, more than any other feature, enhance or destroy that tangible, because complex, thing we call beauty. What more repellant than ill-kept, discoloured teeth? What unsightliness more needless and inexcusable? Ivorine is delightful, whether as a cleanser or in its property of imparting to [the teeth that dazzling whiteness so much desired and admired and as efficient does it render the breath sweet and fragrant. Ivorine is incomparable as a toilet requisite, which accounts for its recommendation by leading dentists.

REV. J. G. POTTER IN ST. ANDREW'S.

THE NEW PASTOR'S EARNEST AND ELOQUENT APPEAL.

A Large Congregation Most Favourably Impressed by the Fervour of His Words Yesterday.

Rev. J. G. Potter, St. Andrew's newly inducted minister, preached his first sermon yesterday since being placed in charge of the congregation. A large number were present from the other congregations and the new pastor made a most favourable impression, indeed. The sermons, yesterday, were directed more especially to his own congregation and were delivered with great earnestness and force.

In the morning Mr. Potter spoke from a double text:—Isaiah lxvi., 8, "Who hath heard such a thing? Who hath seen such things? Shall the earth be made to bring forth in one day? or shall a nation be born at once? for as soon as Zion travailed, she brought forth her children." And Amos ix., 13, "Behold, the days come, saith the Lord, that the plowman shall overtake the reaper and the treader of grapes him that soweth seeds; and the mountains shall drop sweet wine and all the hills shall knell."

The prophet Isaiah, said the speaker, refers to the sad and bitter experiences through which the Jews will pass, and he speaks of the great change that will take place in their condition after the return of a remnant from captivity. The burden of the Lord's message to him reveals the gradual yet sure punishment that will afflict the people of Israel for their sins, yet der the mighty hand of Jehovah deliverance will be granted. All this will typefy the glorious change in the dispensation when, though

DESPISED AND REJECTED

by the Jews, the Messiah would establish His kingdom; the Gentiles would be brought in and the Gospel of Christ reveal the great glory of God.

The prophecy of Amos was given about ninety years before that of Isaiah, and refers to the same great event, the life and experience of Israel.

In Isreal we have the picture of the struggle, the labour, the birth of the Christian church.

In Amos we have revealed the marvellous increase of the Gospel of Christ and its wonderful progress and prosperity.

1. Jehovah will no longer dwell in temples made with hands.

2. Every humble and contrite heart is a temple.

3. The ancient sacrifices, though divinely instituted, will as henceforth be as hateful as the rites of idolatory.

4. They who still cling to the "ritual" then condemned will be punished.

5. The true Israel castout and persecuted shall be glorified and the carnal Israel fearfully rewarded.

6. And on looking into the future can be seen the church of Christ travailing with a new and glorious hope bringing to every heart joy and gladness.

But this will be in God's own time and way. God does nothing abruptly—shall a land be brought forth in one day or a nation be won at once! No! never! God at the beginning created all things and has continued to direct and work through second causes. The rain and snow came down from heaven to water the earth and cause it bring forth and bud that it may give seed to the sower and bread to the eater—the gentle spring melts the ice-bands of winter and causes the earth to yield her abundant store. By a long process of generations, tribes and nations exist. No nation is born at once.

YEARS AND YEARS

are necessary according to Divine plan, but furnished by Amos is the information that there will come a time in the future church when there will be a rich outpouring of Divine love and blessing and power—"when the plowman shall overtake the reaper," etc.

Brethren, continued Mr. Potter, the world still moves on. Many of the questions relative to the future of the Christian church will still remain a mystery, as they have been in the past. "Of that day and that hour knoweth no man." The gospel of Jesus Christ reveals greater power and glory and force than it has ever done in the past. To-day in pace with the rapid movements of God's providence is the wonderful triumph of His grace Are you listening my brother for the voice or breath of God? Do you feel the inspiration of this hour? Do you catch the inspiration of the onward march of tens of thousands of the redeemed? Do you tarry at all at the mercy seat to be afresh endowed with power from on high for your daily task and daily trial? Is your soul aglow with enthusiasm for the liberty of souls, once like your own chained in the shackles of evil? Is your time at the disposal of an infinitely loving God, who desires that all men might be brought to the knowledge of His truth? Are your talents so under the domination of God's spirit that to be good and to do good and to bless others is your only care?

Above us to-day there is a larger audience and a host of choristers. Among that vast host can be seen those of every land and kindred and tongue. There are the apostles and the martyrs and the redeemed of the ages. There is

THE POOR WIDOW,

the publican, the thief upon the cross. All have triumphed and now join the melodies in the songs of the ransomed. But above all, and best of all, there is Christ, the Captain of our Salvation, Jesus our illustrious leader, whose spirit has been revealed in many noble sons and daughters—the Saviour at whose pierced feet it will be our joy ere long to cast our crowns and in the brightness, purity and love centred in Him forget our difficulties, our diseases, our differences and our trials and join hands around the throne of God in heaven content to dwell forever in the beauty of His holiness, the supremacy of the power of His love and in the liberty of the sons of God.

When the mists have rolled in splendour
From the beauty of the hills,
And the sunlight falls in gladness
On the river and the rills;
We recall our Father's promise
In the rainbow of the spray:
We shall know each other better
When the mists have rolled away.

Oft we tread the path before us with a weary, burdened heart;
Oft we toil amid the shadows and our fields are far apart,
But the Saviour's "Come ye blessed,"
All our labour will repay,
When we gather in the morning
When the mists have rolled away.

We shall come with joy and gladness,
We shall gather round the throne,
Face to face with those that love us;
We shall know as we are known.
And the song of our redemption
Shall resound through endless day,
When the shadows have departed
And the mists have rolled away.

We shall know as we are known,
Never more to walk alone.
In the dawning of the morning
Of that bright and happy day,
We shall know each other better,
When the mists have rolled away.

PERSONAL.

Mr. J. Crane is again able to preside at St. Paul's church organ.

Mr. Bert Reid, formerly of town, has been visiting friends in town for the last few days.

Miss Mann, Murray street, has just returned from a pleasant holiday spent in Cobourg.

Mr. Wm. Lech left this afternoon to spend a week with his family at his Stony Lake cottage.

Rev. Dr. Torrance is on his way home from the Old Country and is again on American soil.

Miss Lottie Thomson, of Fenelon Falls, is visiting her mother, Mrs. Wm. Thomson, 627 George street.

Mr. Wm. Madill has so far recovered from his recent attack of diphtheria as to be able to be out again.

Mrs. H. LeBrun left this morning for Montreal to take her little daughter, Miss Dot Hackett, back to school.

Crossley and Hunter, the evangelists, claim they have been the means of saving six thousand souls during the past year.

Miss Ethel Piper, of Toronto, is in town visiting Miss Sarah Robinson, George street, on her way home from Stony Lake.

The Port Hope Times says: Mr. and Mrs. Wm. Daynard arrived home yesterday from a visit to friends in Peterborough.

Miss Maud Carveth and Mr. Bert Armstrong, of Millbrook, spent Sunday in town as the guests of Miss Maud McFarlane, Homewood avenue.

Misses Jennie and Alena McDonald, of Barrie, are visiting friends in town and are at present the guests of Miss J. A. Moran, Water street.

Miss Carrie Goodfellow, of New York, who has been spending the last few weeks with friends in town, will spend the next three weeks in Port Perry.

Miss Sophia Cameron sang two solos in St. Paul's yesterday, which were greatly appreciated. They were entitled "Some Sweet Day in the Morning" and "Unanswered."

Rev. Dr. Dewart, of Toronto, was in town yesterday and took the services in Charlotte street Methodist church in the morning and in the George street Methodist church in the evening.

The Lindsay Post says: Mr. Alex. Gough, of New York, who had been the guest of his brother, Mr. B. J. Gough, for the past couple of weeks, left this morning to visit his brothers in Peterborough.

Miss Maggie Raine has returned to Peterborough, after an enjoyable month's holidays spent in Port Hope and vicinity. Miss Raine has again resumed her position in R. Fair's millinery department.

Mr. D. J. King, of Victoria, B.C., and of the Times of that city, who formerly held the brakes upon the reportorial quill of the EXAMINER, is in town for a visit. He has been spending a month in Ontario and will likely remain in Ontario for a couple of years. He has a few nuggets which he he exhibits as a proof of the richness of the gold mines of British Columbia.

Miss Nettie Moscrip, who has been in the employ of Mr. Robert Hall for some years, has gone to Victoria, British Columbia, where she has secured a responsible situation with Mr. Gordon Drysdale, a large dry goods merchant. Miss Moscrip's experience in a well-conducted establishment here will amply fit her for the success in her new situation which her numerous friends in Peterborough heartily wish she may gain.

ENDED AT LAST.

After Two Years of Misery Endured Backache Succumbs to Dodd's Kidney Pills.

Madoc, (Special) Aug. 31.—In a place like this, people suffer and sympathize, hope and mourn with each other. But her many friends here, as elsewhere, who have long been aware of the precarious health and long suffering of Mrs. J. Fergusson will be pleased to learn that her painful sufferings have ended at last, and that instead of being unable, as she says, "to turn herself in bed" she is herself once more as the result of using a few boxes of Dodd's Kidney Pills. She further says that from the third day after commencing to use these pills, she was free from all pain; and, that now she feels as well as ever before in her life.

What is it?
OXFORD
What is it?

Always Right.

J. J. Howden's beef, lamb, bacon and smoked ham have won a lasting reputation for their excellence and quality and the superior manner in which they are dressed and preserved. Nothing finer. 461 George street. Telephone 39.

SPECIALIST.
Prof. Sig. Emilio
The Celebrated Chiropodist. Headquarters:—Office 58½ King Street East, Toronto.
PROF. EMILIO—has been in the profession all his life, and during his long practice he has discovered some of the grandest secrets unknown to the world. By request of his many friends, Prof Emilio of Toronto has decided to visit the City, stopping at the ORIENTAL HOTEL for a week or ten days, where he is prepared to show his skill in the treatment of HARD and SOFT CORNS, BUNIONS, WARTS, MOLES, CHILBLAINS, all Defects of the Hands, Feet and In-growing Toe-Nails.
In all treatment KNIFE CUTTING DISPENSED WITH. All sufferers please call early, as his time is short.
Ladies Treated at their Residence if Desired.

GUNS! GUNS!

Our stock of Guns is now most varied and complete, embracing the favourite styles of the popular makers of the day.

Breech-loading and Repeating Rifles, Shot Guns, Revolvers, &c. All Ammunition Warranted. Reloading Tools, Shells, Cartridges, Etc.

ALWAYS GOOD VALUE FOR YOUR MONEY.

MICKS & COX
187 HUNTER STREET. Nearly Opposite the Post Office

QUEEN'S UNIVERSITY, KINGSTON

T. R. Glover, M.A., Cambridge, the New Classical Latin Professor.

Rev. T. R. Glover, M.A., fellow of St. John's College, Cambridge, was, says the Kingston Whig, on Friday last elected Latin professor of Queen's College, Kingston. Mr. Glover comes very highly recommended. He comes with the highest commendations both as a scholar and a successful lecturer. He graduated with high honours. Since his graduation he has been continuously lecturing and teaching, and has four times been honoured with selection as examiner in classics for his college (St. John's). The new professor will doubtless be a valuable addition to the professional staff of Queen's. He is a theological student of mark, is said to be "a man of strong conviction on religious questions and to possess the gift of persuasive speech.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Town Council to-night.

—The Board of Health meets at seven o'clock to-night.

—All fishing tackle and rods, and hammocks, selling at cost at SAILSBURY'S.

—Hereafter the Police Court will not open until ten o'clock a.m., instead of nine.

—Stanley Rightmyer, on a charge of peddling without a license, was discharged by the Magistrate this morning.

—Mr. W. H. Manning will be in his office on and after Saturday, the fifth day of September next. 10d-2w

—Query—In case of fire how would the hose be attached to the hydrant in front of the Pullman, on George street? The earth thrown up from the sewer has completely covered it.

—The last number of the Canada Gazette contains a notice of the incorporation of the "Port Hope Canning and Preserving Company." Any enterprise that "can" "preserve" Port Hope should be encouraged.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 23 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; it will freshen you up and make work a pleasure. Should be used by everybody during house cleaning. tf

On Hand

now, at A. Clegg's, another lot of those oak finish extension tables, at $3.00, $5.50, $6.00 and $6.50; common chairs, 33c.; good hard wood bedsteads, only $2.00; oak finish bedroom suites, $12.00, $13.00 and upward. Our stock is complete in every line. A. CLEGG, 427 George street.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says: "After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

PIANO AND VIOLIN TEACHING.

MISS K. HURLEY

will be prepared to receive her pupils for Violin and Piano on and after Monday, Sept. 14th. The Misses Hurley will also receive engagements for Parties and Receptions.

RESIDENCE—232 Hunter Street.

THE old man who looks out at the world with clear and healthy eyes cannot help feeling great gratification at the thought that his children and his children's children have inherited from him no weakness nor tendency to disease. The healthy old man is the man who has throughout his life kept his digestion good and his blood pure. Once in a while you find such a man who has never taken any medicine. That man has lived a perfectly natural life. Not one in a thousand does do it. Sometimes very slight indiscretions or carelessness pave the way for serious sickness. The germ theory of disease is well authenticated, and germs are everywhere. This need make no difference to the perfectly healthy man. Germs go through the healthy body without effect. They are hurried along rapidly and thrown off before they have time to develop or increase. Let them once find lodgment or let them find a weak spot, they will develop by the million and the blood will be full of them. Instead of rich, life-giving properties, the blood will be a sluggish, putrid tide of impurity. Instead of giving strength to the tissues, it will force upon them unwholesome and innutritious matter, and the man will lose flesh. The more flesh he loses and the weaker he becomes, the more susceptible he is to disease. His trouble will become complicated and serious consequences will follow. Dr. Pierce's Golden Medical Discovery is the only medicine that absolutely and infallibly cures all blood diseases, and almost all diseases are blood diseases. It isn't a medicine for some one particular so-called disease. It is a medicine for the *whole body*. It forces out all the germs of disease, replaces impurities with rich, red blood, feeds the tissues and makes strong, healthy flesh.

FOR SEASICKNESS.

A Position of the Body Which, It Is Said, Will Prevent the Trouble.

Here is something new and strange in the way of a cure for seasickness. Its discoverer explains the physiological principles on which it is based.

He is an Irishman, Thomas Moy by name. Some years ago, when crossing the Irish Channel on board a passenger steamer, with a very rough sea, it occurred to him that as the motions of the vessel produced seasickness, it might be possible to so utilize such motions as to prevent that disagreeable malady. The vessel has three kinds of motions: A rising and falling motion of the entire vessel; an oscillatory motion longitudinally about its centre of gravity; and a transverse rolling motion. Mr. Moy treated the longitudinal motions as having a tendency to drive matter, centrifugally, toward the head and stern, and the rolling motions as having a similar tendency to drive matter outward from the centre of such motions.

Now for details. "The entrance to the stomach," says Mr. Moy, "is on the left side of the body, the oesophagus end, and the exit is on the right side, the pyloric orifice; and my experiment consisted in utilizing the longitudinal motions so as to keep the food in the stomach, and utilizing the rolling motions so as to assist the natural operations of the oesophagus in propelling the food toward the pyloric orifice. This I effected by selecting a couch arranged in a line with the keel; lying with my head toward the engine room, and lying upon my left side." The experiment, Mr. Moy adds, was entirely successful, and he has always adopted it in rough seas, when a suitable berth could be obtained. It would be interesting to know whether anyone else has tried the remedy, says the New York Journal, and, if so, with what result.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentially will mail, in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply; P. O. Box 388, London, Ont.

A Scientific Failure.

Occasionally science must admit failure. One night a young man in Divinity Hall, at Yale, undertook, with a toy rifle, to hit a lamp. But his aim was poor and the ball passed through the window of an eminent and venerable professor of science and embedded itself in the wall. This was the opportunity for the professor and for science. He, too, set to work and computed the curve, and with the exact skill of infallible figures, he traced the ball right back to the room of an innocent colleague, who didn't even know the rifle had been fired. The unfledged minister flatly denied all knowledge of the affair. But men, even a minister, have been known to make denials in self-defense, and the professor had the proof with him. There was the bullet, there were the marks of its course, and there was the computation worked out. It looked as if a pulpit career was to be nipped in the bud. But the guilty student heard what was going on. He called on the professor, confessed the offense, pointed out that the man of science was 200 feet out in his computation, and advised that the matter be dropped right where it was. And that was done.—Hartford Courant.

A Boon to Humanity.

Wherever there are sickly people with weak hearts and deranged nerves, Milburn's Heart and Nerve Pills will be found an effectual medicine. They restore enfeebled, enervated, exhausted, devitalized or overworked men and women to perfect constitutional power. Weak and pale girls and women soon regain vigorous health.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c, 50c. and $1.00.

HOUSE OF COMMONS

The Members Have Settled Down to Business.

SOME PRETTY SHARP PASSAGES.

Offensive Partisans May Have Their Political Heads Taken Off—The Manitoba Census Returns Shows a Large Increase in the Population—Other Ottawa News.

Ottawa, Aug. 28.—Having got rid yesterday of the address in reply to the Speech from the Throne, the House settled down to-day to business.

Sir Hibbert Tupper introduced a bill to amend the Dominion Elections Act which he introduced at last session, but which was not passed. It is an adaptation of an English act which makes the publication of false statements about a candidate for the purpose of influencing his candidature a corrupt practice under the Elections Act, also the distribution of such false statements or the payment for their distribution.

Mr. Davin introduced a bill to repeal an Act which was smuggled through Parliament session before last by which the franchise of the North-west Territories was altered. His act is identical, he said, with Mr. Martin's Act of last session, which was read a second time, but for some reason had not become law.

Mr. Davies: The Government opposed it. The Minister of the Interior (Mr. Daly) distinctly opposed it.

Mr. Davin: I do not know as to that, certainly it ought to have passed.

Mr. Laurier moved that for the remainder of the session Government orders have precedence on Wednesdays after private bills and on Thursdays.

This was amicably discussed across the floor, and on suggestion by Mr. Foster it was amended to take only Thursdays.

Upon the motion to go into committee of supply Sir Hibbert Tupper introduced a discussion of the question as to what should be the treatment of civil servants who had actively participated in the elections.

Mr. Davies declared that he would not make an investigation, but act upon his personal knowledge. The Minister continued: "I would not discharge a man for voting for his party; that is a sacred right which ought not to be interfered with. But when a public official takes an active part in an election and makes himself politically offensive, he takes his official life in his hand, and if the party which he actively supports is unsuccessful his political head comes off."

Mr. Lister followed and was replied to by Mr. Clancy. Mr. Sutherland, Mr. Casey, Dr. Sproule, Mr. McMullen, Mr. E. F. Clarke and others took part in the discussion.

Mr. Bell moved the adjournment of the debate at 11.30.

MANITOBA CENSUS.

Great Increase in the Population of the Province—Ottawa News.

Ottawa, Aug. 28.—(Special.)—Complete returns of the Manitoba census taken last spring have been received. The total population of the province is now 193,425, or an increase of 84,785 in population in ten years. The increase for the first five years, from 1886 to 1891, was 43,866, and for the second five years, from 1891 to 1896, it was 40,919. The increase in ten years was 78.04 per cent. The census was taken so as to ascertain the proper subsidy due to the province. At 80c per head the increase in the subsidy to the province on 40,919 population, which was the increase in the last five years, will be about $32,735. By constituencies the population is as follows: Macdonald 30,404, Provencher 17,751, Brandon 32,668, Selkirk 24,810, Marquette 17,923, Lisgar 33,190, Winnipeg 31,649, making a total of 193,425.

At the Debates Committee this morning charges were preferred against Messrs. La Salle (Montreal), McLeod (Three Rivers), and Vanasse (Sorel), the three French translators, of having taken part in the late election contest. Wednesday next was appointed as the day on which the translators will appear before the committee and make an explanation of their alleged conduct. The circumstances of complaint recall similar charges preferred against R. Trembley, E. Trembley and A. E. Poirier, whose services were dispensed with at the instance of Hon. J. A. Chapleau in 1891.

Mr. Hackett, M.P., was inspector of fisheries in Prince Edward Island, but resigned the office to run for Parliament in opposition to Mr Perry. He succeeded and now Mr. Hackett sits in the Commons and Mr. Perry has been appointed fishery inspector in his place. The old gentleman left for home to-day with the appointment in his pocket.

The Department of Fisheries has been notified of the first sealing seizure in Behring Sea this season. The American schooner Jessie, which arrived at Victoria, B. C., to-day from Alaska, brought word that the sealer Beatrice of Vancouver and also the sealer Beatrice of Victoria (two of the same name) had been seized in Behring Sea and ordered home. No particulars are given.

Mr. Blair, Minister of Railways, arrived this morning. He was accompanied by D. C. Fraser, M.P., and ex-Attorney-General Longley of Nova Scotia.

Mrs. Edgar's first reception yesterday afternoon was very well attended. Several hundred callers, including a large number of members of both sides of the House, paid their respects to the wife of the new Speaker.

The Free Press gives currency to the rumor that Mr. Britton, brother of Mr. B. M. Britton, M.P., of Kingston, is likely to be appointed superintendent of the Rideau Canal.

Testing His Honesty.

Your druggist is honest if when you ask him for a bottle of Scott's Emulsion he gives you just what you ask for. He knows this is the best form in which to take Cod Liver Oil.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Baby Nearly Dead.

SIRS.—My baby was very bad with summer complaint, and I thought he would die, until I tried Dr. Fowler's Extract of Wild Strawberry. With the first dose I noticed a change for the better, and now he is cured, and fat and healthy. MRS. A. NORMANDIN, London, Ont.

How to Speak of Birds.

The correct names of the assemblages of birds are as follows: A covey of partridges; a nye, nide or nest of pheasants; a herd of swans; an exalting of larks; a watching of nightingales; a team of ducks; a muster of peacocks; a bevy of quails; a flight of doves, a flock or gaggle of geese; a spring of teals; a fall of woodcocks; a pack of grouse; a sedge of herons; a shoal of rocks; a trip of widgeons; a wisp or walk of snipe.

A Small Girl's Discovery.

"I know why it's such fun to play in the hay," said little Anne. "It's because hay tickles you and makes you laugh."—Harper's Round Table.

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

Ayer's Cherry Pectoral

GOLD MEDAL AT THE WORLD'S FAIR.

MRS. BOYLE IN JAIL

She Is Accused of Shooting William Hughes

AND IS NOW BEHIND PRISON BARS

The Woman Says Hughes Insulted and Began to Choke Her—A Wound in the Shoulder Which is Deep But Not Dangerous—Owen Sound Sensations.

Owen Sound, Aug. 28.—There is considerable excitement here to-night over a shooting case. Mrs. Michael Boyle is accused of having shot a young man named William Hughes, and is now behind the bars at the police cells, with her daughter Maggie, aged about fifteen. The facts of the case so far as can be ascertained are these: Hughes, who is not more than 19 years of age, a deckhand on the steam barge Chamberlain, which is now lying in the dry dock here for repairs, in company with another deck hand name James Elsie, had been up town purchasing some provisions, and had just crossed the swing bridge on their return to the boat, when they passed Mrs. Boyle and her daughter on Stephens-street. To a police officer after the shooting Hughes stated that he and his companion did not say anything to the woman, but Mrs. Boyle tells a different story, stating that Hughes insulted her and then began to choke her. At any rate Mrs. Boyle drew a revolver and fired at Hughes. The shot was heard by several and the street in that locality was soon filled with a large crowd. Hughes was at once taken to Dr. McCullough's office, when it was discovered that the bullet had struck the lower part of the right shoulder blade and glanced off, inflicting a deep but not dangerous wound. Chief of Police McCauley and P. C. Heron arrested the woman and her daughter at their home on Stephens-street and took them to the cells. Mrs. Boyle was under the influence of liquor. She will come before Police Magistrate Spencer at 10 o'clock to-morrow morning. Mrs. Boyle and her husband have been separated for nearly two years. Her husband was at one time a barber here, but of late years has been following the stage.

This morning A. L. Weed appeared before Mr. George Spencer, P.M., charged with having stabbed Theodore Nelson. The two men got into an altercation on Tuesday concerning a horse trade, during which Weed stabbed Nelson in the head. Very little evidence was taken and Weed was sent up for trial at the fall assizes in September.

M'LEOD SUSPENDED.

No More Track Racing for Him Until Sept. 20—Weekly Bulletin of the C.W.A.

The C.W.A. Bulletin, issued August 28, 1896, reads as follows:

Sanctions issued: Sept. 1, Sussex Fire Department, Sussex, N.B.; Sept. 5, Burrard B.C., Vancouver, B.C.; Sept. 7, Y.M.C.A., Galt, Ont.; Sept. 7, Smith's Falls B.C., Smith's Falls, Ont.; Sept. 10, Ottawa A.A.C. (evening meet), Ottawa, Ont.; Sept. 29-30, Tilsonburg Driving Park Association, Tilsonburg, Ont.; Oct. 2, Orangeville B.C., Orangeville, Ont.; Oct. 14, Beverley Agricultural Society, Rockton, Ont.

The proprietors of th. Summerside Trotting Park track at Summerside, P.E.I., have filed the required affidavit as to measurement.

Suspensions: J. R. Bailey, Windsor, N.S., pending investigation; G. Galloway, Mitchell; J. Gibson, Listowel; Norman Fleishaurer, Stratford; W. Ratz, Millbank, Newton P.O., and Simon Grosch, Milverton, until September 25th, for competing in unsanctioned races at Milverton, August 21st.

The following are transferred to the professional ranks under clause 9: D. Galloway, Mitchell; J. G bson, Listowel; Norman Fleishaurer, Stratford; W. Ratz, Millbank, Newton, P.O., and Simon Grosch, Milverton.

Permits to compete in races at Ogdensburg, N.Y., on August 20, were granted to J.K. Esmonde and H. Buckham of Ottawa and J. Morrison and B. Hutchins of Smith's Falls.

The information which resulted in the transfer of C. Walsh of Granby has been proved incorrect, and his amateur standing is restored.

F. A. Hogle, P. A. Hogle and F. Ricks competed in a professional race at Granby and are transferred as professionals.

The board does not recognize races open to boys under 16 years of age. A winner of a boys' race is therefore eligible for a novice open race, and his classification will be made from that class.

The board have investigated the protest and charge that Angus McLeod of Barnia violated sec. 27 of the track rules in late races. Reliable and conclusive evidence has been furnished to prove the violation and he is suspended from all track racing until Sept. 20th.

The following tracks have been officially measured and placed upon the association record: Twelve o'Clock Point track, Trenton; Summerside, P.E.I., driving track.

Referees are notified to watch closely the riding and actions of riders of both classes. Swearing at other competitors or officials or attendants, boisterous intimidations and shouting during a race or on the track should not be permitted. Riders or attendants who violate should be promptly excluded from the track for the meet and prompt report sent to the board.

What you want when you are ailing is a medicine that will cure you. Try Hood's Sarsaparilla and be convinced of its merit.

Covering Bare Hills.

In Chicago Gardening, Editor Falconer tells how he is treating a steep, high hillside of stiff clay and shale rock at Schenley Park, Pittsburg. The base is supported by a stout stone retaining wall. The bank was picked all over, leaving a loose surface 12 or more inches deep. On this will be put a heavy coat of manure and picked in. Along the top of the stone wall will be planted Rosa-wichuraiana, to drop as a mantle over it; also prairie, Japanese multiflora and Lord Penzance roses, sweet brier, climbing hydrangea and waxcomb, berberry, wild clematis, prostrate euonymus and others to clothe the wall, yet so fully and diversely as to appear natural. When grown, they can easily be thinned to their proper places and dimensions. Up on the bank will be planted elderberries, raspberries and blackberries, crab apples, wild cherry, thorns, maples hickories, locust, green ash, burr oak, osage orange, matrimony vine, etc., besides acrons and other nuts. For carpeting the surface there will be Virginia creeper, Japan honeysuckle, clematis, mon-of-the-earth creeper, wild hydrangeas, etc. Then there will be thousands of columbines, fox-gloves, moss pinks, yellow eschscholtzia, annual coreopsis and the like—good species, not garden flowers. Then hold off and wait for the survival of the fittest. Get the ground covered as rapidly as possible to save it from parching sun and wind, hold the rain there when it falls, and prevent washes when heavy rains come.

Windsor's Best Room.

The most beautiful apartment in Windsor Castle is the state dining room, which is decorated with cream and gold and communicates with the red drawing room.

Queen Victoria generally dines in the oak room, but when many guests are staying at the castle the state room is used instead. The Queen does not take the head of the table, but always sits with her back to the fireplace. One of the windows overlooks the eastern terrace, where the band plays on Sundays. This is the fashionable promenade of the residents of Windsor. An enormous silver-gilt punch bowl stands in this dining-room which was orderd by King George IV., and cost £10,000. It is capable of holding eight gallons, and on the occasion of the Prince of Wales' wedding was filled with 216 bottles of mulled claret.

Wide Belts Leading.

In belts the wide ones are taking the lead, and are really much more becoming to most figures than the tiny, narrow ones. There is less display in the way of buckles; one of the newest is a huge gold plate, on which is painted an exquisite miniature of Marie Antoinette.

When Adam Was a Boy.

This was years ago, for Adam has been dead quite awhile, though to be sure he has left a progeny that keeps up pretty well the family characteristics. There are wise men to-day who delve into the misty past and tell us all sorts of things, but they are silent on those events that would make Adam interesting to the modern man. What did Adam do when he ran a sliver under his finger nail? Had he to take measles and whooping cough? If he had corns did he cut them with a razor or did he stretch forth a hand in the future and get a bottle of Putnam's Painless Corn Extractor? Putnam's is the best, is sure, safe, painless, and acts in twenty-four hours.

Children Cry for Pitcher's Castoria.

From Halifax to Montreal.

Eastern Canadian yachtsmen congratulated the R.C.Y.C. on Canada's victory yesterday by wire as follows:

Halifax, Aug. 27, 1896.—S. Bruce Harman, Secretary Royal Canadian Yacht Club: Your fellow yachtsmen of Halifax extend congratulations. (Signed) Royal Nova Scotia.

Montreal, 27th Aug. 1896.—Royal St. Lawrence Yacht Club extends hearty congratulations to Canada and her crew. (Signed) Arthur C. Hamilton, secretary.

Many Armenians Killed.

Madrid, Aug. 28.—The Spanish Minister at Constantinople reports that the Mussulmans killed many Armenians during the rioting of Wednesday and dragged their bodies through the streets.

Constantinople, Aug. 28.—The Ministry of Police has appointed a commission consisting of eight Christians and Mussulmans to enquiry into the revolutionary rioting which occurred here on Wednesday.

HOW THE SUN LIFE FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely, (Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

THE WHEEL.

The following extract of interest is taken from the last issue of "Cycling":—"On Saturday, August 8th, five of the quiet contingent of the Wanderers left via C.P.R., at 9 p.m., for Peterborough, and on arriving at the "Oriental" were met by an old friend, Aleck Gibson. Aleck took us in hand, and, after receiving the usual caution, we went to bed. Sunday morning proved to be very hot and we lined up at 10 a.m., waiting for Aleck, who was to accompany us to Chemong. Aleck soon came, with his pocket full of headache powders for the secretary, who did not rest well the previous evening. Well, we started and after a short 6-mile ride, which proved very warm, Chemong Hotel hoved in sight. Here "Collie" and "Ab" started to scorch to see who would get the first hand shake from the widows, who are reported plentiful around that section. When the balance of us arrived we were delighted to meet some old friends (other than widows). Dr. Parkhurst Duthie then discovered that the sun had been tampering with his nose to an alarming extent and he bled himself to the cellar in an endeavour to counter irritate the redness which had so suddenly asserted itself, while in the meantime Aleck introduced us to Bob Neill, Peterborough's shoeman, and Andy Mercer, who kindly provided the party with bathing suits and off we went to the lake and enjoyed the luxury of a sorely needed bath. This, however, didn't improve the Doctor's nose and Bob felt very timid about entering the dining room when dinner was announced. However, his hunger was great and we finally managed to persuade him to eat with us. After we sat down the Secretary was handed a sealed envelope, which aroused great curiosity as to its contents; he being the only married man in the party, the rest of us felt slighted. On opening the missive it was discovered to be a pressing invitation from the Rev. Mr. Connor to the party to attend divine service at 3 p. m. in the park pavillion. Bob felt his nose and said he could not go; "Collie" had a lady friend; "Ab" said he had to go and look after "Collie"; Capt. Nichols had a severe headache, and the secretary, though anxious to attend, had no one to accompany him. Therefore it was decided to wait until the next time we visited Chemong, when we intend to take the whole club, so we can make a respectable showing for a church parade. After dinner "Collie's" weakness again asserted itself and taking "Ab." with him, they went to see the Widows' Home, or rather to see the widows at home in their cottages. Andy Mercer kindly took the remaining three of us in hand and we started for the lake, where we met the genial Bob Hamilton, who burst into a hearty fit of laughter at the sight of the Doctor's nose. He called his friend, Frank Matthews (another good-hearted soul), and they provided us with canoes for a sail on the beautiful waters of the lake. The Doctor said he did not care to go sailing and that he would lie on the shore and watch us. After holding a very successful 2 hours' regatta, we disembarked rather a damp party for the lake happened to be rough, and when we landed the doctor came to meet us with a huge smile. We all wondered what had happened, but after carefully following the direction of his gestures, our attention was drawn to the nose of the secretary, which had by this time attained a vigorous carmine hue. We then visited Bob Hamilton's handsome cottage. Bob is a man of our own heart, and we spent the remainder of the afternoon delightfully on his verandah with its fine view and grateful shade. "Ab" and "Collie" failed to answer the roll call for supper and the rest of us were forced to dine without them, although men were scarce and visions of a pleasant evening amongst the cottagers loomed up before us. Before leaving the hotel we were much pleased by the appearance of Geo. Hopkins, Peterborough's great fighter in the late meet campaign, and we found that George's hospitality is not confined to vote-soliciting time, so we all regretted saying good-bye to him on his leaving for town. On arriving back at the hotel the proprietor informed us that last season a party of young men, representing themselves as Toronto Wanderers, had stopped there and he, in the innocence of his heart, had given them the best rooms his hostelry afforded. He said one of them was a chubby little fellow called "Shorty," who led the rest of the party in night-shirt parades through his hotel during the whole night. Of course we didn't know anyone answering the description given, but it would not do, so we were quartered for the night in an isolated cottage in the park grounds two blocks from the hotel. At 11 p. m. we took possession and, after the doctor had bathed his nose, we organised a glee club and rendered, in a certain style, all the hymns we knew. We then turned in and waited the advent of the other two. A rainstorm soon brought them and they persisted in recounting their night's adventures, which made us feel dejected as the cold truth dawned upon us that we were not girl winners.

Next morning (Toronto's Civic Holiday) we bid good-bye to our Chemong friends and left on board the steamer "Undine" for Lakefield, the only other passenger being a gentleman, his wife and daughter from Rochester, who were on their way to Young's Point. "Collie" soon got into conversation with the daughter, and felt rather aggrieved when she told him she had never heard of the leader of the Wanderers' band. "Ab" hearing this joined them, while the rest of us captured the affections of the captain, who treated us grandly, stopping his boat whenever we wanted him and accommodating himself and his boat entirely to our comfort. The scenery of the chain of lakes through which we passed was indeed a revelation to us, and we predict this trip will be most popular when its beauty and inexpensiveness become better known to Toronto wheelmen. We reached Buckhorn at 12 30, and the captain informed up that we had one and a half hours to eat and fish. We had our dinner and provided ourselves with tackle and went fishing. Did we catch anything? Well, I should say so, but unfortunately we could not procure any ice to ship them home with, so were forced to abandon them. At Burleigh Falls we spent another half hour and here "Ab" and "Collie" felt kind of lost, for this was the one spot on earth where either of them hadn't lady friends. After some light refreshments we left and entered the beautiful Stony Lake, with its countless pretty islands and cottages innumerable. Our quiet Captain Bruce had by this time made quite an impression on the Rochester young lady and made himself most agreeable, pointing out to her all the points of interest and telling her all the legends connected with each island as we passed. At Young's Point we all much regretted saying good-bye to our American friends, and then we sped on for Lakefield, which was reached at 6.10 p.m. Here we had an all days' sail, the steamer practically to ourselves, at a total cost of 75c. per head. At the wharf where we landed was a house boat ready for a cruise around Stony Lake and having on board a cargo of good souls, etc., etc., among them Tom Dunn (he who sang The Little Indgee at the Wanderers' smoking concert in the Auditorium), Dr. Pritchard and his friend McNeil. We were invited to inspect the interior, which we did in true Wanderer style, and greatly regretted that we could not join them for the trip as it was now nearly seven o'clock and we had decided to ride to Peterborough for supper. We lined up and here we were: Brownlee, Nicholls, Sharkey, Ross and Duthie. All go. nicely started, when "Collie" and "Ab" decided to leave the party and go back to Chemong, where their widow friends were giving a dance, with the temperature 85 degrees in the shade. The rest of us thoroughly enjoyed the beautiful 9 mile ride from Lakefield to Peterborough, the road being next to perfect. After a good supper and night's rest we caught the early morning C.P.R. train and arrived in Toronto at 7 a.m., delighted with the good time we had, all for the small outlay of $5 each. Wheelmen, if you are in doubt where to go for a few days, try this trip; you'll not regret it.

RAGGEDY-WAX-GO-WAX.

A FAIR CYCLER.

See her spin down the street,
Natty from heed to feet,
Saucy, bewitching, sweet,
Gay as a linnet!
By all the gods! but I'd
Mightily like to ride
By that fair cycler's side
Just a minute!

Ah! what nymphean grace
What a poise! what a pace!
Surely, where she to race,
She could win medals!
Gown trim, yet flowing free,
Hat what a hat should be,
Boots pressing prettily
Down on the pedals.

Presto! the vision's gone,
Passed like the blush of dawn;
Seem from the scene withdrawn
Love, light and laughter,
Ble-a me! how glum I feel!
By Jove! I'll get my wheel,
Mount in a trice, and steal
Speedily after!

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally of health. The mad pursuit of place, power and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer of it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives

Sleeplessness, inertia, despondency and fatigue add their mournful notes to the "still sad music of humanity." Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increasing virgils! Health and strength are the alternatives from decay and death.

Cocoa, combined with Maltine affords that staff. It will give tone to the nervous system, strength to the nerves, sleep to the weary eyes, and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated. Maltine with Coca Wine is sold by all druggists.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

MILLBROOK.

(From Our Own Correspondent.)

The License Commissioners for East Durham held a meeting on Saturday in the Inspector's office to consider the granting of an extension to Alonzo Fee of a tavern license. The village memorialized the Lieut.-Governor in Council for permission to take a special census of the village. The permission being granted, the Council by by-law appointed James Karr to take the census, and he performed his duty and returned to the Clerk of the village the results of said census. The clerk, under the seal of the corporation, certified that the village had 1009 inhabitants, and on the strength of that certificate the Commissioners thought that they were justified in granting Mr. Fee an extension—making four licenses for Millbrook. It is only fair to say that a delegation from Millbrook opposed the granting of the fourth license. It is certainly very singular that the temperance people have never made any astempt to have the village council limit the number of licenses to be granted. The remedy is in their own hands, and if they have not backbone enough to ask the Council to reduce the number of licensed places, surely the License Commissioners are right in assuming that the majority of the residents are willing that four licenses be granted. Some one writing to the Templar from Millbrook says:—"The temperance people complain that they only ask for the enforcement of the law, and without any *SELFISH AIM*, are willing to support and encourage the officials in the performance of their duty." The italics in the above are ours and we would like to ask the anonymous scribbler who furnished the Templar with the above, if it is true that the temperance people of Millbrook have no "selfish aim" in their efforts to have the law-breakers punished.

If the good people of Millbrook wanted to lessen the drinking places within their limits, let them make an honest effort to get the village council to limit the number of licenses to be granted. Millbrook stands alone. Every other municipality within the district of East Durham has passed bylaws limiting the number of shop and tavern licenses to be granted; Port Hope would under the bylaw be entitled to 16, the limit by bylaw is eleven, and the actual number granted is seven. Hope is entitled to twelve, but two is the limit. Manvers fourteen, five is the limit. Let the temperance people try to elect a council that will limit the number of taverns, and if they fail, then perchance the License Commissioners may peradventure help those that try to help themselves.—Guide.

On Monday afternoon about four o'clock the residents of Garden Hill were struck with astonishment at the sight of a young man walking through the village at an ordinary pace, and clothed only as Adam is supposed to have been when first looking after the Garden of Eden—in his modesty only. The men of the village were so knocked out by the sight that they allowed him to traverse from one end of the village to the other without stopping him.

As soon as he had passed, several men followed, but he had disappeared. It was found later on that the young man's name was Morton, a nephew of a gentleman near Baillieboro. The poor fellow was demented and later in the evening (Monday) he was caught near the residence of Mr. Wm. Eakin, at Oak Hill. He was sent to Millbrook to be cared for by his friends. The children in the vicinity of Garden Hill were very much frightened and some of them could hardly be induced to sleep on Monday night.

Miss Edith McKee and Miss Owens wheeled up from Peterborough on Thursday last and were the guests of Mrs. H. McCartney while here. They claim to have come over in fifty-seven minutes and eleven seconds, thus beating all previous records between the two towns. The boys here, however, don't like to give credence to this, and "Zimmermon" Leach and "Johnston" Duncan declare it can't be done in less than one hour and a quarter, which is their record. The girls went back to Peterborough on the 4.40, not because they were too tired to wheel back, but they wished to see which they went the fastest on—the cars or the wheel.

On Tuesday morning last the barns and out-buildings on Reeve Pickup's farm, in the township of Hope, were completely destroyed by fire. About forty acres of crop and a new binder were consumed, on which there was very little insurance. Mr. Pickup was in Millbrook at the time and can account for the fire in no other way than incendiarism. Less than a month ago the reeve's Millbrook residence was badly damaged by fire and a good deal of the contents destroyed.

Miss Maud McFarlane, of Peterborough, is visiting Miss Kate Carveth.

The East Durham and Cavan annual fall show takes place here on Oct. 1st and 2nd.

Mrs. R. Howell, of Toronto, is the guest of Mrs. W. H. Russell.

Mrs. Wm. Might, of Peterborough, is in town visiting friends.

Miss Eva Glass, of Port Hope, spent Thursday in town, the guest of Miss M. Pickup.

Mr. Will McBean, of Winnipeg, is visiting Mr. John Dawson.

Mr. Fred Deyell and wife, of Souris, Man., are in town the guests of Mr. Robt. Deyell.

The garden party given on the parsonage lawn on Thursday evening proved to be a grand success. Miss Hendren, of Peterborough, rendered several fine selections. The Citizens band was in attendance and helped to liven up matters.

Mr. Charles Brack, of Collingwood, has engaged as assistant for the Millbrook high school.

Which is worse, imprisonment for life or a life-long disease, like scrofula, for example? The former, would certainly be preferable were it not that Ayer's Sarsaparilla can always come to the rescue and give the poor sufferer health, strength and happiness.

A Crying Evil.

Every crying evil should be promptly removed. Sick headache is a crying evil affecting thousands of Canadians, which can easily be removed by the use of Burdock Blood Bitters, the best known stomach, liver and bowel regulator and cure for sick headache from whatever cause arising.

TOUGH CLOTHES FOR THE BOYS.

Young Canada Begins Another Six Months' Schooling.

Tough clothes for boys to wear to school this Fall and Winter. That's the burden of our song. Strong clothes to stand the wear and tear of play, rough but healthy. Strong clothes to stand the work of out of doors fun in cold weather. We have just such things for the youngsters and, besides being full of wear, they are neat and shapely.

Did the last suit of clothes you bought for your boy from us, wear as well as it ought to hav worn, considering the price paid? If it did you should go to the same store for the next suit. You ge your money's worth. We deserve your patronage. We'll do better by you and by the boy than any other clothier.

5 CASES OF BOYS' NEW SUITS

These are only the advance guard of our Fall stock, for the boys. These are TWO and THREE piece Suits, and will fit boys all the way from 3 to 16 years. We sell the best of everything to keep in the heat, and keep out the cold for boys. We were boys ourselves, once,—it seems an awful long time ago.

We've all good qualities of Boys' Clothing. We've—probably—more Boys' Clothing in our store than in all the other stores put together. We've a weakness for supplying the boys. Ask yours if this isn't so?

Some idea we may give you of the value and inducement we purpose giving to buyers, when we say

A $2.00 BILL

will buy a beautiful, heavy, all wool, neatly made, well trimmed, and built of Auburn Mills Tweed Suit.

Of course we've cheaper Suits, and as low as 95c per suit. Better Suits up to $3.00 and $4.00, but

OUR $2.00 SUIT

IS A CORKER.

Just the thing for a boy's school Suit, and as good as ever sold for $3.50.

Mothers should see these Suits. You know value. You know your boy's clothes-wrecking propensities.

Come to us. We're full of economical suggestions. No matter what your money is, we'll help you to make it go as far as it can. Come! The verdict is nearly always in our favour. It isn't often that the careful buyer decides against us.

"TOUGH CLOTHES FOR THE BOYS" That's our Motto.

GOUGH BROS.

ABERDEEN-TUPPER.

Government Assumes the Responsibility

FOR HIS EXCELLENCY'S ACTION.

Todd's "Parliamentary Government in the British Colonies" Sustains the Course Taken by His Lordship Unique Circumstances Which Called for the Action Taken.

Ottawa, Aug. 31.—The course of a portion of the Conservative press in attacking Lord Aberdeen for his action with reference to the appointments Sir Charles Tupper advised him to make just before the resignation of the late Government shows a strange absence of knowledge as to the constitutional position occupied in Canada by a Governor-General. His Excellency, having found advisers to take the responsibility for his action, has completely satisfied the requirements of the constitution and of our Parliamentary system. The position which Lord Aberdeen now occupies is very clearly set out in Todd's Parliamentary Government in the British Colonies At page 459 there is the following paragraph:

"The lawful authority of the crown in connection with Parliamentary government, though apt to be disregarded by theoretical politicians, and subject to be weakened by the increasing prevalence of democratic ideas, is essential to the efficiency and stability of Parliamentary institutions. Such authority, when constitutionally exercised, is calculated to be especially beneficial in colonies where imperial interference with the rights of local self-government has been reduced to a minimum, for it then becomes the sole expression of the monarchical principle in the colonial policy.

Instances of the active interposition of the Governor-General within the proper limits of his office and authority are quite common. And the rule as laid down in Todd reads as follows:

"While as a general rule a constitutional Governor would naturally defer to the advice of his Ministers so long as they continue to possess the confidence of the popular chamber and are able to administer public affairs in accordance with the well-understood wishes of the people, as expressed through their representatives, if at any time he should see fit to doubt the wisdom or the legality of advice tendered to him, or to question the motives which have actuated his advisors on any particular occasion, so as to lead him to the conviction that their advice had been prompted by corrupt partisan or unworthy motives, and not by a regard to the honor of the crown or the welfare and advancement of the community at large, the Governor is entitled to have recourse to the power reserved to him in the royal instructions, and to withold his assent from such advice. Under these circumstances he would suitably endeavor, in the first instance, by suggestion or remonstrance, to induce his Ministers to modify or abandon a policy or proceeding which he was unable to approve. But if his remonstrances should prove unavailing the Governor is competent to require the resignation of his Ministers or to dismiss them from office, and to call to his council a new Administration."

A little later on Todd points out that the new Ministers must be willing to accept entire responsibility to Parliament for any acts of the Governor-General which have been instrumental in occasioning the resignation or affecting the dismissal of the outgoing Ministers. This principle leads Todd to declare:

"The authority of the Crown in the hands of the Queen's representative must be invariably respected; and no one subordinate to the Governor-General should attribute to him personally any act of misgovernment, his Ministers being always answerable for his acts to the Local Parliament and to the constituent body."

It will thus be seen that under the present circumstances, where His Excellency has found advisors prepared to take full responsibility for his acts, it is a reflection upon the Crown itself to cast aspersions upon Lord Aberdeen for any action which he may have taken in his capacity as Governor-General. In old days it was different, before constitutional government and the parliamentary system were established. Then the action of the Sovereign was usually arbitrary, and the exercise of personal authority. So it was with reference to the Sovereign's representatives in this country in the days of the Family Compact; but for anybody in these days to censure Lord Aberdeen for an action as to which a regularly-formed Government has taken full responsibility, and for which they are ready to answer to the people, would be to display a wanton disregard for proper constitutional principles. If the Governor-General has gone wrong, his present advisors have shared that wrong by becoming responsible for it, and any censure deserved would be deserved by His Excellency's advisors and not by His Excellency himself.

UNIQUE CIRCUMSTANCES.

It must not be forgotten that the circumstances under which the recent general election took place were unique in the history, not only of Canada, but of the English-speaking world. There was no precedent for it. The rump of a Parliament which was called last January failed to furnish supplies for the public service, and died a natural death. Sir Charles Tupper was called on to form a Government after all these things had happened, for the purpose, as it were, of acting as undertaker at the obsequies, until the sovereign voice of the people had called into life a new Parliament. His Ministry had not stood the test of a vote in the House of Commons. When he formed it there was no House of Commons to which he could appeal. He was simply delegated by the representative of the Crown to carry on Government during an interregnum, and that period having passed, and the people having declared that they did not desire Sir Charles Tupper to continue in office, the Crown then became in a very especial degree responsible to the people of Canada for seeing that this provisional Government did no harm to the public weal by reason of the trust temporarily reposed by the Crown in Sir Charles Tupper. Any conscientious ruler, like Lord Aberdeen, would bear these facts in mind, and feel that he would not be discharging his duty if he did not guard against the violation of any of the principles recognized as proper principles to govern such occasions. He had the authority of Lord Dufferin for holding that a Government defeated at the polls should only make such appointments to office as were urgent in the public interest. How could he regard as urgent the filling of offices all of a sudden which had been vacant for years under this same administration, or under administrations composed of the very same men? What urgency could there be in the creation of wholly new offices? According to Todd, it was his duty to question the motives which actuated his advisers on this occasion, and to decide whether their advice had been prompted by "corrupt, partisan or other unworthy motives." What motive led the Government to recommend the appointment of a stalwart Conservative like Mr. J. B. Walkem to a position hundreds of miles distant from where he lives, a position created at the moment for the express purpose? Senators Angers and Desjardins resigned their places in the Senate, and with all the prestige of Cabinet Ministers, appealed to the people for endorsement at the polls. Both of them were told by the people, in most decisive tones, that they were not wanted, yet His Excellency was advised to reappoint these gentlemen to positions where they would legislate for the people who had just declared that they did not want them. The Governor-General is bound to look at all the circumstances, just as the President of the United States is bound to take cognizance of what transpires in Congress and in the country when he considers the propriety of exercising the power of veto.

IN THE HOUSE OF COMMONS.

Lord Russell and Sir Frank Lockwood Were Distinguished Guests.

Ottawa, Aug. 31.—(Special.)—Lord Chief Justice Russell and Sir Frank Lockwood, M.P., had the seats of honor to the right and left of the Speaker during this afternoon's session. The distinguished visitors were there during question time and heard answers on a multiplicity of topics.

Mr. Davies, answering Mr. Maclean, said the attention of the Government had been drawn to the prospective injury to Canadian shipping by the construction of the Chicago Drainage Canal. The late Government appointed Mr. O'Hanly to report on the subject and his report had just been printed. The Government would adopt measures looking to the protection of Canadian interests.

Mr. Borden, answering Mr. Foster, said no expenditure except what was absolutely necessary had been incurred in connection with the militia camps this year.

Mr. Foster: But some expenditures have been incurred?

Mr. Borden: Those authorized, yes.

Col. Prior was informed by Mr. Davies that it was not the intention of the Government to bring down any railway subsidies this session.

Mr. Laurier told Mr. Craig the question of a plebiscite on prohibition was a part of the program of the Liberal party which would be adhered to. The date could not be fixed at this moment.

Mr. Britton was informed by Mr. Davies that there had been no departure from the contract for supplying locomotive boilers for the Intercolonial Railway.

Mr. Laurier told Mr. McInnes the Government was not aware that Chief Justice Davie took part in the recent election in British Columbia.

Mr. Davin had a question on the order paper asking as to the accuracy of a report of a speech by Mr. Laurier at Moosejaw in 1894 on the subject of freight rates, which he characterized as outrageous.

Mr. Laurier acknowledged the accuracy of the report. "I am pretty sure," he said, "I added that one of the causes of the present high rates for freight in the Territories is the present tariff, which instead of promoting trade is contracting trade, and that a reform in the tariff, by forcing an expansion of trade, would also force a lowering of the freight rates. Such a reform of the tariff in the matter of lumber in 1894 has already produced the lowering of freights on that class of articles. It is the intention of the Government, not this session but next session, to introduce legislation respecting the tariff which will tend to the lowering of freight rates as well."

Mr. Laurier informed Mr. Oliver that of the total land grant to the C. P. R. of 18,206,986 acres, the company had selected 13,844,871 acres, of which 11,338,187 acres of the selections were in the Territories.

A batch of unopposed notices of motion was disposed of. Then Mr. Oliver brought up the question of an increase of subsidies to the Territories.

Mr. Davin followed, urging a complete autonomy for the district.

Then M. C. Cameron got the floor and made a long speech against the late Government in connection with the construction of the Langevin Block.

The House adjourned at 11.25.

BEWARE OF ENGLAND'S JOSEPH!

A Buffalo Journal Warns the U.S. Administration to be Careful.

Buffalo, N. Y., Aug. 31.—Anent the approaching visit of Mr. Joseph Chamberlain to this country, Mr. Joseph O'Connor writes in to-day's Enquirer: The Administration should be very cautious in dealing with Mr. Chamberlain. When he came to this country to negotiate a fisheries treaty about nine years ago, he succeeded in making an utter fool of Mr. Bayard, who was then Secretary of State, and gulling the whole Administration. The treaty is now nearly forgotten and the international crisis which was worked up as the occasion for it has been shown by the progress of events in its true character as a mere political scarecrow, but the document should be preserved as a diplomatic curiosity. How frightened our so-called statesmen were over the depredations of the Canadian cruisers, how anxious for peace and harmony, how exultant over the kindly promise of Chamberlain and his associates to hold the awful provincials in check; how grateful for every treaty stipulation granting as a special favor every privilege already secured by international law, and when the Senate rejected the treaty now quickly the Administration took a somersault in the middle of the presidential canvass and called for retaliation upon Canada! Whence came the Murchison letter and the Sackville-West disgrace? Joe is sly, sir, devilish sly. Beware of him!

THE CONSTANTINOPLE RIOTS.

An Official Investigation Begun—British and Helpless Armenians.

Constantinople, Aug. 31.—A special judicial committee began sittings in this city to-day for the purpose of trying 400 Moslems and Armenians, who are accused of having participated in the recent rioting in and around Constantinople.

Chaker Pasha and Vehdy Pasha have been appointed to the command of the military in Constantinople and Galata respectively, with orders to summarily suppress any signs of disorder.

The Italian despatch boat Galileo has been ordered to Constantinople as a second guardship.

A detachment of British marines, who were marching from the British guardship to the English Embassy yesterday clubbed and beat back a Turkish mob who were maltreating a number of Armenians in the street. The Porte made a complaint against the conduct of the troops to Mr. Michael Herbert, British Charge d'Affaires, who replied that the marines had a perfect right to protect the Armenians if the Turkish troops did not see fit to do so.

MR. CHAMBERLAIN'S VISIT.

Colonial Secretary Coming at Special Invitation of President Cleveland.

Montreal, Aug. 31.—(Special.)—A gentleman who arrived from the States to-day told your correspondent that it was generally supposed in official circles over the line that the chief object of Hon. Joseph Chamberlain's visit to America was to confer with President Cleveland regarding the scheme to submit all disputes between England and the United States to arbitration. The correspondent's informant adds that Grover Cleveland's one dream before retiring from office is to bring this about and that Hon. Mr. Chamberlain is coming over upon the express invitation of the President of the United States.

Serious Accident to a London Boy.

London, Ont., Aug. 31.—Freddie Stephenson, living at the southwest corner of Grey and Waterloo-streets, while playing on the Michigan Central turntable yesterday afternoon, along with some companions, had his left leg dreadfully crushed by being jammed between the moving table and a railroad tie on the bank of the pit. It took nearly a quarter of an hour to extricate him from his position, but the little fellow never uttered a sound. The railway employes say the lock of the turntable was picked.

It Will Be No Trouble

TO HEAT YOUR HOUSE THIS WINTER IF YOU PUT IN A

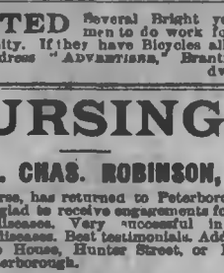
PRESTON Hot Air or Hot Water FURNACE

PUT IT IN NOW—THIS SUMMER.

1st.—Because these Furnaces combine all the Requisites for maintaining a Warm, Balmy, Spring Atmosphere throughout the Building, regardless of the severity of the winter weather outside.

2nd—Not only this—but we know of many instances where these furnaces are Comfortably Heating ENTIRE DWELLINGS with THE SAME QUANTITY OF FUEL that was previously used to Improperly Heat ONE ROOM WITH A STOVE.

3rd—Not only this—But the necessary Furnace and Attachments cost VERY LITTLE MORE than to provide stoves for the different rooms to be heated, while THE COST OF FUEL IS LARGELY DIMINISHED.



Pleasant Home
WITH RADIATOR.

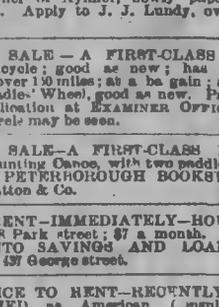
A Tubular Furnace for Coal or Wood.

Made in four sizes.

The heavy castiron Tubes in Dome add largely to the heating capacity.

We supply them brick set or portable as desired.

Constructed of castiron and heavy steel plate, and embodies the Patent Fused Joint System—no bolts, rivets or cement is required—guaranteed to prevent the escape of gas or dust.



The Marvel

A Steel Plate Furnace for Coal or Wood

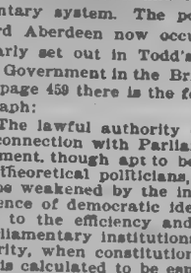
Made in six sizes, similar to "Pleasant Homes."

COMBINATION HEATER

A Hot Air and Hot Water Furnace.

Made in two sizes.

The Water Heaters, it will be seen by illustration, is so constructed that the amount of hot water supplied may be varied by using one, two or three sections as required.



HILBORN HOT-AIR
WOOD BURNING FURNACES

Made in two styles and ten sizes.

For burning wood from 3 feet up to 5 feet.

Very large feed door to admit rough, knotty, unsaleable wood, leaving all good wood to be marketed.

Farmers who have a lot of wood unfit for market will find them just the thing they need.

As will be seen the Hilborn has an enormous amount of heating surface.

OVER 200 IN USE IN THE TOWN AND COUNTY OF PETERBOROUGH.

Our large practical experience is at your command and we will cheerfully give instructions and full information to all who desire to warm their buildings efficiently and with the greatest possible economy. ESTIMATES GIVEN. EVERY FURNACE GUARANTEED.

ADAM HALL

Sole Agent for Peterborough—Town and County. 497 George Street.

Boils

It is often difficult to convince people their blood is impure, until dreadful carbuncles, abscesses, boils, scrofula or salt rheum, are painful proof of the fact. It is wisdom now, or whenever there is any indication of

Impure

blood, to take Hood's Sarsaparilla, and prevent such eruptions and suffering.

"I had a dreadful carbuncle abscess, red, fiery, fierce and sore. The doctor attended me over seven weeks. When the abscess broke, the pains were terrible, and I thought I should not live through it. I heard and read so much about Hood's Sarsaparilla, that I decided to take it, and my husband, who was suffering with boils, took it also. It soon purified our

Blood

built me up and restored my health so that, although the doctor said I would not be able to work hard, I have since done the work for 20 people. Hood's Sarsaparilla cured my husband of the boils, and we regard it a wonderful medicine." MRS. ANNA PETERSON, Latimer, Kansas.

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1.

Hood's Pills cure liver ills, easy to take, easy to operate. 25 cents.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month. $2.00 for six months.

Daily Examiner.

TUESDAY, SEPTEMBER 1, 1896.

LORD ABERDEEN AND SIR CHARLES.

Sir Charles Tupper is not easily discouraged. He signally failed to bulldose the electors last June, and confesses that he was mistaken in the policy he then pursued. And failing to coerce the subjects, Sir Charles is now trying to bulldose her Majesty in the person of her vicegerent, Lord Aberdeen. The Conservatives announce with considerable flourish of trumpets that Sir Charles is going to squelch His Excellency. He will move a vote of censure upon the Queen's representative on account of his action in refusing to accede to Sir Charles Tupper's attempts to exercise the functions of a Government, when, as a matter of fact, there was, according to constitutional usage, no government—that is, having the confidence of the people. The constitutional question must be left to the decision of high authorities, but when it comes to making choice between the alleged unconstitutional exercise of authority to prevent a great public injury, and the corrupt exercise of known unconstitutional and usurped functions, the people will have not much difficulty in making a choice. To reap a party advantage Sir Charles went to the country with the alleged claim of upholding the constitution and upon grounds which he has since confessed in Parliament were not well taken. Now he seems for the sake of party advantage to again have a burning desire to uphold the constitution with probably no better grounds than last June. Sir Charles cares as much about the constitution in one case as he does in the other. He expects to make a little political capital and no consideration of decency will restrain him.

If Lord Aberdeen, in refusing to sanction appointments or other governmental acts suggested by Sir Charles Tupper, because the latter had no warrant from the people, acted independently of precedent as is claimed, may he not have been justified in the course he took under the exceptional circumstances of a "provisional" government seeking to exercise the functions of a properly constituted government, endorsed by the people? The constitution is not a parchment record but is built up of precedent upon precedent, and certainly a precedent must have a time of establishment and affirm some new principle. May not Lord Aberdeen's late course have been the realization of the spirit of a stanza of Tennyson's address to "The Queen?":—

And statesmen at her council met
Who knew the seasons when to take
Occasion by the hand and make
The bounds of freedom wider yet.

Under the circumstances of a government, purely provisional in its nature, having been, in the main, appointed after the death of the late parliament by efflux-ion of time, trying to exercise the power of properly constituted government, would not Lord Aberdeen, if necessary, be justified in taking a course of action in the public interests which might hereafter be regarded as a precedent—and if an innovation a most wholesome and necessary one?

YOUNG'S POINT.

From our own Correspondent.

Messrs. F. M. Bothune, J. A. Barbite, Jos. Hume and C. D. Kiebel, of Rochester, N.Y., who have been rusticating at South Beach, invited the young ladies and gentlemen of our village to a garden party on Monday evening last. Invitations were issued to about twenty ladies and gentlemen, and as the night was simply perfect all availed themselves of this opportunity of showing their appreciation of the kindness of our American friends, who cordially received their guests and made the evening pass off most pleasantly. Mrs. Allen, the hospitable landlady, placed the dancing hall at the disposal of the visitors and all lovers of dancing "tripped the light fantastic" to the excellent music furnished by Seringer's orchestra, while others passed the evening in song and card playing. At midnight refreshments were served, and after singing "For They Are Jolly Good Fellows" the party dispersed, having spent an evening of thorough enjoyment.

The Football Club will hold a grand football tournament and picnic on their new grounds here, which has been fitted out for the holding of sports and games on Monday, September 7th, Labour Day. Ten dollars in gold will be offered for competition between Warsaw, Selwyn, 16th Smith, Chemong Indians and Young's Point. Young's Point and the 16th Smith will play in the forenoon and in the afternoon the remaining teams will play, after which the winning teams will play off. A number of athletic sports and canoe races will be held, for which prizes will be given. A first-class orchestra will furnish music for dancing.

Among the guests we notice at the Lakeview House this week are H. W. White, T. Dunn, J. Callahan, V. McWilliams, G. and J. Clurton, W. Davidson, G. Rackham, P. Corkery, Peterborough; H. W. Wood, T. J. Swarts, Toronto; A. E. Benjamin, M. H. Benjamin, F. R. Leavenworth, J. McKelvey, Rochester, N.Y.

Mr. J. Finlayson, Liverpool, Eng., accompanied by his sisters, Miss Finlayson and Mrs. James Stewart, of Peterborough, spent a few days visiting friends here.

Mrs. P. A. Kearney is visiting friends in Chemong.

Miss Minnie Young is spending a few days with friends in Peterborough.

Mr. P. Leroux, of Oil City, Pa., is spending a few days with his aunt, Mrs. J. Fanning.

Messrs. F. M. Bottum, J. A. Barbite, Joseph Hunn, and C. D. Kiebel, Dr. F. Smith and Dr. Hart, of Rochester, N.Y., who were the guests of the Allen House, returned home this morning with an immense catch of fish. Mr. Bottum, during his stay here, while out fishing was very fortunate in landing a five and a quarter pound black bass, being one of the largest of that kind caught this season.

HAVELOCK.

From Our Own Correspondent.

Mr. David Batters intends taking a trip to Scotland this fall.

Miss Maud Graham, of Peterborough, is visiting at the Graham House.

Mrs. T. S. Farrow, of Buffalo, is the guest of her sister, Mrs. Wm. Judson.

Mr. A. V. Fuller is spending a few weeks in Hamilton.

Mrs. (Dr.) Adams, of Plevna, is the guest of her brother, Mr. Ed. Chapman.

The weigh scales will be moved from the west end to a more central location soon.

Mr. J. N. Pettit and family left on Wednesday for Coe hill, where they will reside.

Our village rate this year was struck at 23½ mills, an increase of 2½ mills over last year.

Miss Irwin of Lindsay, is the guest of Mrs. Walter Fanning.

Miss Werden, of Campbellford, is visiting her sister, Miss Maggie Werden.

Master Willie Barlow wheeled to Belleville on Friday last, where he will visit friends for a couple of weeks.

Mr. Jos. O'Brien has left for Kingston, where he will spend a few days visiting friends in the Limestone City.

Mr. Swain of Buffalo arrived in town this week to spend a few weeks with his brother-in-law, Mr. J. A. Fox.

Mrs. S. S. and Master Russel Joyce, left on Monday for a week's visit at the home of the Reeve's parents, near Napanee.

Messrs. John Toman and W. Ross will leave by the local on Tuesday morning for Toronto, from which place they will wheel to Hamilton and London. This trip is not unpremeditated, and we presenme they have "friends" in both places.

The funeral of Miss Nora Wyman, who died while undergoing an operation in an hospital at Toronto, took place from the residence of her mother, Mrs. Pettibone at Victoria, on Tuesday. Miss Wyman was well known throughout this district and was highly respected by all with whom she came in contact.

AMERICAN INSURANCE AND CANADIAN POLICY-HOLDERS.

It is becoming a question of practical politics for Canadian policy holders in American insurance companies in which kind of money their claims will be paid when their policies mature. Should Mr. Bryan be elected and the United States go to a silver basis, American companies would have a perfect right to pay their claims—unless otherwise provided in the policy—in American silver dollars, which are now worth a trifle over fifty cents. This would mean, if this ratio were maintained, the cutting of one's life insurance in two; and the man who paid premiums on $5,000 would really leave his family only about one-half that amount.

Some American companies are endorsing their policies "payable in gold," or "payable in the lawful money of Canada." This should make them as good as ever, if the securities deposited by these companies at Ottawa remain as valuable as ever. This latter is a point for the Government to carefully investigate. It will not be worth much to a person with a claim against an American company to have his policy endorsed "payable in the lawful money of Canada," if the company does not have sufficient money on deposit at Ottawa to cover his claim. Then, supposing the company to fight his claim, he must sue the United States, and get his award in American money—i.e., Bryan silver dollars. Now this is a real enough danger if the deposits of American companies with the Canadian Government are composed in whole or in part of American securities. For with the enactment of free silver at Washington American securities will be very likely to go to a silver basis too; with the result that the American deposits at Ottawa will fall far below their face value. Thus it might come about that claims payable in Canada could not be collected in the Dominion, because the company's assets here had all been eaten up.

This is a matter for the Government Superintendent of Insurance to look to. There should be no doubt as to the permanent value of the deposits placed by the American companies in the hands of the Dominion Government. This is the keystone of the arch. To be sure of getting Canadian money for our claims we must be able to sue for them in Canada and collect the award in Canada. It is ridiculous to suppose that if the United States goes to a silver basis, and if the Insurance Companies are paying American claimants in silver, that the American courts will compel them to pay the Britisher in gold. Our only security is to keep the Canadian end of the business in Canada.

To accomplish this two things must be had—1, the securities deposited at Ottawa must not be of a character to be affected by a victory for Mr. Bryan; and, 2, all policies must be made payable in Canada and in Canadian money, or its only equivalent—gold.—Star.

Baby Nearly Dead.

SIRS.—My baby was very bad with summer complaint, and I thought he would die, until I tried Dr. Fowler's Extract of Wild Strawberry. With the first dose I noticed a change for the better, and now he is cured, and fat and healthy. MRS. A. NORMANDIN, London, Ont.

OAK HALL ANNIVERSARY GREETING. OAK HALL

OAK HALL has been with you almost a year, and we see no more fitting way of showing our appreciation of your goodwill and liberal patronage during the past twelve months, than by acknowledging our gratification for this same in advance of our initatory year in Peterborough. We intend to make an especial effort to please our large and increasing circle of purchasers by opening out for your inspection the finest Fall stock of Clothing ever offered here. The same will be found—

PLENTEOUS IN QUANTITY.
EXTENSIVE IN VARIETY.
LIBERAL IN PRICE.

It may seem chilly to talk **ULTERS** and **OVERCOATS** but it is well to think about these early.

ULSTERS are very much the same as last year, although a trifle longer. Prices start at $4.00.

DRESS OVERCOATS, Double Breasted, deep Collar, prices start at $3.50.

SUITS that smack of the very latest fall cut. Prices start at $3.25, dark shades prevailing.

BOY'S SUITS fresh from the hands of our own expert tailors and cutters. Special care has been shown in the make and finish.

CHILDREN'S DEPARTMENT. Here is where our practical men exert themselves to please the most exacting wants of parent and child.

OAK HALL

Corner George and Hunter Streets,

W. J. WATTAM, - - - - Manager.

A TEXAS DESPERADO

Captured at Ingersoll as a Tramp—He is Now Wanted at Houston, Texas, for Murder.

Ingersoll, Ont., Aug. 31.—On Aug. 27 last Chief Skirving of this town arrested at the G.T.R. station yards here at 1.06 a.m. a tramp who had broken into a sealed car. He gave the name of George C. Underwood and stated he came from Houston, Texas. Police Magistrate Morrison sent him up for 30 days for breaking into the car and he received an additional six days for trespass. During a trip to Woodstock jail he told Chief Skirving that he had been a cowboy and to the Chief's query, "I presume, like most Texans, you have killed your man," he boasted that he had and that he had shot a "nigger." At the prisoner's request the Chief instructed the postmaster at New York to forward his mail matter to Ingersoll. This happened to be a dead giveaway, for no sooner had the instructions been received in New York than the Chief of Police of Houston, Texas, was communicated with, and he in turn wired Chief Skirving to arrest Underwood for murder. Underwood is lying in Woodstock jail, and will be left under close guard until he is removed to the United States. The Houston Chief wired again late last night, "Hold Underwood at all hazards."

When Adam Was a Boy.

This was years ago, for Adam has been dead quite awhile, though to be sure he has left a progeny that keeps up pretty well the family characteristics. There are wise men to-day who delve into the misty past and tell us all sorts of things, but they are silent on those events that would make Adam interesting to the modern man. What did Adam do when he ran a sliver under his finger nail? Had he to take measles and whooping cough? If he had corns did he cut them with a razor or did he stretch forth a hand in the future and get a bottle of Putnam's Painless Corn Extractor? Putnam's is the best, is sure, safe, painless, and acts in twenty-four hours.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says: "After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

Norway Pine Syrup cures coughs.
Norway Pine Syrup cures bronchitis.
Norway Pine Syrup heals the lungs.

Eight 43s counted out.

Loose clothes and downy cushions bring only a negative sort of comfort to the woman who is suffering with some disease or derangement of the organs distinctly feminine. Some clothes and some positions make the pain and the discomfort seem less. Perhaps the nerves are most affected and this in turn disturbs the digestion. Nothing will ever completely relieve but a radical cure. The start of so-called "female complaints" may be a very slight thing indeed. It may be that in the beginning some small hygenic measures would stop the trouble. Certainly at this time, a little bit of the right medicine would stop it. When the trouble becomes worse, it is harder to cure, but still it can be cured. Dr. Pierce's Favourite Prescription will positively cure any trouble of this character. It may be absolutely relied upon. It affords lasting relief to a woman whose natural modesty has kept her from consulting a physician.

Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

THAT BIG DEAL.

The Western Union, it is Said, Owns the Controlling Stock of the American Bell Telephone Company.

Montreal, Aug. 30.—(Special.)—The alleged deal between the Western Union and the Bell Telephone Co., or the amalgamation of these two corporations, is again spoken of here. It appears that the agreement entered into 16 years ago as to rights and infringements between the telegraph and telephone companies in question will expire in Novmber, and it is a question of speculation as to what will then happen. A gentleman connected with one of the telegraph companies told The World to-day that he did not think either a consolidation or amalgamation of the Western Union and the American Bell would take place, but that the telegraph company controls the other corporation there can be no doubt. Russell Sage, while denying the story of amalgamation, admitted, however, that the Bell stock owned by the Western Union reached up into the millions. The fact is likewise commented upon that on the 27th of June the Western Union Telegraph Company obtained a charter from the New York State Legislature, incorporating a telephone company with a capital of $16,000,000. On the directorate of this new company are five members of the Western Union, and several others belonging to the Canadian and American Bell Telephone Companies. Although the engineering of this charter through the Legislature at Albany cost $16,000, the Montreal Telegraph manager says it may mean nothing, and, again, it may mean a good deal. It is generally supposed that the two companies will work independently of each other, but the Western Union will control the smaller corporation, and that they will understand each other perfectly. It appears that the policy of building long distance lines will be to an extent curtailed, and that this will be one of the results of the Bell coming under the control of the Western Union.

"The Western Union," concluded The World's informant, "is the most far-reaching corporation in America, if not in the whole world."

JONES FOUND DROWNED.

Body of the Missing Grand Trunk Gatekeeper Discovered in the Bay Yesterday Morning.

Toronto, Sept. 1.

When Mr. J. H. A. Taylor, who is camping at the Island, was rowing with his son to the city yesterday morning he saw the body of a man floating in the water just a little east of Ackroyd's boat house. He notified the police, who after fishing the body out identified it as the remains of George Jones, the missing G. T. R. gatekeeper who disappeared so mysteriously last Wednesday night. The body was taken in the patrol wagon to the Morgue, and Coroner Greig, who had been notified, issued a warrant for an inquest. The warrant, however, was withdrawn later on after Dr. J. O. Hastings had made a post mortem examination, which resulted in the discovery that the old man had died from heart failure, and not from drowning.

Coroner Greig's supposition is that the old man walked down to the dock, and being seized with an attack at the heart fell into the water. There was nothing in the appearance of the body to suggest foul play. The dead man's clothes had not been interfered with, a small amount of money and some trifling articles being found in the pockets.

Deceased was 72 years of age and had been 30 years employed by the G. T. R.

Fell From a Balloon.

Denver, Col., Aug. 31.—Sergeant Ivy Baldwin, attached to the signal service of the department of Colorado, fell from his balloon while making an ascent yesterday and will probably die of his injuries.

Which is worse, imprisonment for life or a life-long disease, like scrofula, for example? The former, would certainly be preferable were it not that Ayer's Sarsaparilla can always come to the rescue and give the poor sufferer health, strength and happiness.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Shiloh's Cure

OLD GURST WAS A RECORD.

Although 75 Years in This World He's Again Charged With Horse Stealing.

Dunnville, Ont., Aug. 31.—Humphrey Gurst, an old man 75 years of age, was arrested here Saturday night by Constables McIndoe and Stevens for horse stealing. He had left the horse about a mile east of the town, where he offered it for sale. He was taken to St. Catharines, where he was committed for trial. The horse was stolen from R. W. Gregory, a farmer near St. Catharines. Gurst has spent some 45 years at Kingston, mostly for horse stealing.

American Houses Attacked.

Constantinople, Aug. 31.—At Hassbeia yesterday the houses of a number of Americans living in that place were attacked by Turks, the male heads of these domestic establishments being absent. All of the Armenian servants in the dwellings were killed and the houses sacked. The ladies escaped to Yenolki for protection, having lost all of their personal effects.

The estimates of the number of persons killed in the recent disturbances here are increasing.

A C. P. R. CONDUCTOR.

After Two Years' Misery was Cured by Ten Boxes of Dodd's Kidney Pills.

Prescott, (Special) Aug. 24.—For a long time much sympathy had been felt and expressed for Mr. Wm. Freeman, a very popular conductor of the C.P.R., who had been rendered unfit for duty the past few years by a peculiar and distressing form of kidney disease. It now transpires, much to the delight of his friends, that he has been enabled to resume his regular trips. He claims, as the results of using only ten boxes of Dodd's Kidney Pills, that he has entirely recovered, and that he never felt better in his life, and believes that these Pills have cured him to stay cured.

The Dinner Bell.

The dinner bell has no charms for a dyspeptic or bilious person. To enjoy your food, avoid dyspepsia and have healthy action of the liver, use Laxa-Liver Pills, small, sure, never gripe. One pill after a too-hearty meal removes all ill-effects. They cure indigestion and give good appetite.

INDUSTRIAL EXHIBITION.
....
SPECIAL NOTICE.

Visitors to the above who are musically inclined should carefully inspect The MASON & RISCH PIANO exhibit. Our stand is the first one on the left as you enter the Musical Pavilion. Our exhibit is not a large one, as we believe that the beautiful tones of instruments can be more fully appreciated in the quiet of our warerooms than amidst the bustle and confusion of an exhibition. We shall therefore make our principal exhibit at our warerooms, 32 King St. W., to which all visitors are cordially invited.

One of the most valuable paintings at the Art Gallery in the exhibition building will be the famous portrait of the Great Pianist Franz Lizst which was painted at his command by Baron Joukovsky, the Great Russian Artist, and presented to Messrs Mason & Risch as a tribute to the wonderful tone qualities of their Pianos. Every lover of Art should make it a point to see this painting. It is valued by experts at $5000.00.

WE HAVE NOT CHANGED OUR DECISION

To retire from business as quickly as circumstances will permit. But, as the Fall trade approaches we find ourselves with a large and varied stock of high-class Staple Dry Goods, which cannot be moved out without being well assorted with New Fall lines of the latest, leading Novelties of 1896.

We shall continue, therefore, during the Fall and early Winter months to keep a regular assortment of the leading Novelties for fashionable

Fall Wear.

The buying has been done with extreme care, but the stocks are comprehensive enough to satisfy every need, ranging from the newest things in **SILK AND WOOL DRESS GOODS,** for the super-fashionable, to the simplest effects in the quietest materials for people to whom a dollar is a dollar, or sometimes more.

It must not be forgotten, however, that our chief object is still to get entirely out of business. This will have its full effect on prices, and the new goods will have to share in the same general reduction necessary to accomplish a prompt clearance of the entire stock.

A special meeting of Court Marmion and Court Stanley, A.O.F. will be held in the lodge rooms this Tuesday evening at 8 o'clock to arrange for the funeral of the late Bro. F. James. By Order.

GEO. RECORD, Sec. G. TREMAINE, C. R.

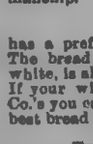
The Auburn Bridge.

A letter has been received from the Government in reference to the Auburn bridge matter. The Department wishes to know if the town is prepared to deposit an amount sufficient to cover the cost of building an addition to the proposed railway bridge to be used for the accommodation of the general public.

The Trigger and Decoy.

Duck shooting commenced this morning. Messrs. Harry Neild and party, composed principally of crack shots, such as Alex. Patterson, "Jay" Gould, and "Bobby" Gibbs, left town yesterday afternoon for the scene of battle, Rice Lake. No doubt their ammunition will have deadly effect. The Neil party is composed solely of sharp shootists, as well as up-to-date anglers.

Last Trip.

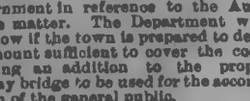


The City of Peterborough will make a round trip on Monday, Sept. 7th, Labour Day, to Jubilee, Gore's Landing and Harwood. Return tickets to Victoria Park, 25c.; to Jubilee, 40c.; to Gore's Landing and Harwood, 50c. Boat will leave Peterborough wharf at 8 a.m. and will call at Ashburnham wharf. Returning will leave Harwood at 2 p.m., Gore's Landing, 2.30 and Jubilee at 5 p.m. 4d52

Our Riflemen at the Rideau Ranges.

The annual matches of the Dominion Rifle Association began at the Rideau Ranges, Ottawa, yesterday. Peterborough marksmen found the target to good advantage, their aggregate "pot" amounting to [illegible]. In the Massey match Capt. E. B. Cleaver won a $5 prize, and Private Ritchie [illegible] prize in the same match. In the [illegible] Powder Company's match Private D. Cameron brought down a $4 prize, and in the Macdougal cup contest Staff-Sergeant Bartlett picked off a $5 prize.

Don't Forget.



On Thursday, Sept. 3rd, the North Star will run her usual trip to Highland Park, Jubilee and Harwood, leaving the Peterborough wharf at 2 p.m., sharp. The [illegible] also run on Saturday afternoons, as usual, and will leave the wharf at 2.30 p.m. Return tickets to Jubilee and Harwood, 50c. to Highland Park, 25c.

C. W. CALCUTT, Master.

NEW TENDERS WANTED FOR STREET LIGHTS.

A LETTER RECEIVED FROM THE GOVERNMENT.

It Changes the Complexion of Affairs and a Five Year Contract Will now be Awarded to the Successful Tenderer.

A special meeting of the town council was held last evening for the purpose of considering the matter of street lighting. The members present were Mayor Yelland and Councillors Best, Mills, Sawers, Hughes, W. H. White, Phelan, Denne, Moore, Langford and John White.

The reading of the minutes was dispensed with and Councillor Mills, chairman of the Committee of the Whole, presented the following report:

COMMITTEE OF THE WHOLE.

The committee of the whole council, to whom the matter of the new electric light contract was referred, beg leave to report and recommend as follows:

1. That tenders for public lighting be again asked for, and that each tender must be accompanied by an accepted bank cheque for $2,000, payable to the order of the town treasurer, to be forfeited to the town if the party whose tender is accepted refuses or neglects to execute the contract, a form of which will be in the clerk's office, and give a bond with sufficient sureties in the penalty of $5,000, to be settled by the same sureties when called upon to do so, and that the company receiving the contract be required to pay $400 per year, in four equal quarterly payments, for the privilege of placing the necessary poles on the streets, said cheques to be returned on completion of contract, and bond if a tender be not accepted.

2. That the tenders be for a five-year contract, with the option on the part of the town to terminate the contract at the end of the first or any subsequent year during the period.

3. That each and every company obtaining, or having the privilege of placing poles on the streets of the town for electrical or other purposes, pay the town the sum of $400 per year, quarterly therefor.

THE FIRST CLAUSE

was not brought in as the report now stands being slightly amended in regard to the insertion of a phrase concerning the matter of the bonds.

When the second clause came up for discussion Councillors Moore and Sawers moved that the last portion be struck out and that the contract be let for five years straight.

In amendment, Councillors Mills and Langford moved that the contract be let for a term of from two to five years, at the option of the town.

Discussion was now in order.

Councillor Langford stated that he understood a letter had been received by the Town Clerk from the Government, stating that the town would not be granted power from the T. V. C. at Nassau. He, however, did not think this decision could possibly be final and urged that the contract, therefore, be only let for a short time as he had no doubt the corporation would be able to supply its own power inside of a couple of years anyway. Other corporations had been conceded similar privileges by the Government and Peterborough could not well be refused.

As all the members had not seen the letter in question it was now called for and read by the Clerk as follows:—

THE LETTER.

SIR,—Referring to your letters of the 14th of March and 29th of July last, regarding the application of the town of Peterborough for a lease of water power at the first dam at Nassau, I am directed to inform you that after having given this matter careful consideration, this department is unable to grant a lease of the privilege applied for. I am, sir,

Your obedient servant,
JNO. W. BALDERSON,
Secretary.

Councillors Wm. H. and John White expressed their opinion that the letter was not final.

Councillor Moore thought it best in the face of such a letter that the contract be let for a term of five years, as there was no doubt but that a

MUCH BETTER RATE

could be gotten for a five years' contract than for one which terminated sooner. The government document was official and as such should be acted upon. He could see no reason why the government could be expected to change its views on the matter as the letter stated that the question had been carefully considered at Ottawa. The only reason for not acting on the letter was a doubt as to its genuineness, but on this point there could be no doubt.

The amendment of Councillors Mills and Langford was then put and lost and Councillor Moore's motion calling for a five year contract was carried, the mayor giving a casting vote in favour of it. The division was as follows:

Yeas — Councillors Moore, Sawers, Hughes, Denne, Phelan and the Mayor—6.

Nays—Councillors White, Mills, Best, Langford and White—6.

The third clause was then carried, and the report as amended adopted on motion of Councillors Mills and Sawers.

New tenders will be asked for immediately.

THE PROPERTY COMMITTEE

was instructed to advertise for coal.

Councillor Phelan stated that although he had been authorized to renovate the police cells and firemen's quarters he did not feel justified in doing so until he had secured the sanction of the council again, as the matter was likely to prove more expensive than at first thought. He submitted the following report on the condition of the cells sent in to him by the town engineer:

H. Phelan, Esq., Chairman of the Property Committee:

SIR,—In accordance with your instructions, I have examined and measured the several cells in the "lockup" to report on the required repairs, and as to its sanitary condition, as well as to the ventilation thereof. I find that each cell is provided with a wrought iron grille door by means of which with windows three of the cells are ventilated; the fourth cell, being the strong cell, is ventilated by a flue, with which the others could be ventilated if considered necessary. A bad smell pervades the place, which I discovered to a great extent proceeded from an open and disused urinal pipe leading into the sewer. This, with the saturated condition of the wooden floors of the cells, renders the air impure. The cells are also wainscotted with woodwork and there is a wooden partition dividing two of the cells, this woodwork at present giving harbourage for bugs and vermin. I would also draw your attention to the situation of the stable and its confined connection with the lockup and municipal offices; the smell from this stable pervades the entire building.

I would recommend the woodwork of the wainscot, ceilings, partitions and floors be removed and brick partitions and cement plastered wainscot six feet high and concrete floors be substituted therefor. The concrete floors should have a fall to a sewer grating in each cell connected with a trapped 4 inch iron pipe laid under the floors, connected with the sewer pipe with ventilated traps, etc. The present old sewer should be entirely taken out and new sewer connection made with the Water street sewer and the plumbing of the closets and connections examined and smoke tested. The floors being laid with concrete the cells can be flushed out with a hose pipe and this with lime-washed walls and ceilings will be my opinion keep the place pure and clean.

Some of the masonry footings of the internal partitions of the cells require repair and were disturbed by the steam heating fittings. I estimate the entire cost of the above work at the sum of $200.00.

Your obedient servant,
JOHN E. BELCHER,
Town Engineer.

As several of the councillors seemed to think that the undertaking was likely to prove even more expensive than the estimate stated by the Engineer, tenders will be asked for.

No other business was transacted as the regular meeting of the council will be held on Tuesday evening next.

PRESENTS for the Boys for the Girls

LINING UP FOR SCHOOL!

Tuesday morning, the tinkle, tinkle of the school bell will summon the scholars back to their tasks, and the army of young hopefuls will once more march in procession to their lessons, fresh from their six weeks of relaxation and play.

Played to a Large House.

The Wilson Comedy Co. opened a week's engagement at the Opera House last evening to a thoroughly filled house. It was Mr. Wilson's initial bow to a Peterborough audience at the head of his own company. To tell the truth the public did not expect to see such a performance as they witnessed last evening. Differing widely from the ordinary company there was not one stick in the entire cast. Frederick H. Wilson, the genial comedian, has lost none of his old time power to please and to-day the man with a "h'eye like a h'eagle" is the talk of the town. Barry Haney, as Matthew Thornton, was easily voted by the ladies to be the "nastiest and meanest man they ever saw." James Dunkin, as Gilbert Medland, won the hearts of all by his manly bearing. Miss Helen Minkley, as Kate Medland, and Jennie Woodworth as Ada Sidney, gave finished portrayals to difficult roles. Specialties were introduced between the acts by Messrs. Wilson, Stoneman and Furness and Miss Woodworth. Little Baby Florida was all that the bills claimed for her dainty and captivating. The little whirlwind dancer, Carlotta, proved herself to be the finest dancer ever seen in Peterborough. The company is with us all this week. Come early to night. Admission 10 and 15c.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

LACROSSE.

The Southends won a game of lacrosse from the Victorias on the circus green on Saturday by the close score of one goal to none. The teams were composed as follows:

Southends.		*Victorias.*
R Boyle	goal	M Hallahan
F Rouille	point	
G Nicholls	cover point	H Moran
A Dunn	1st defence	L Clancy
E Whitcroft	2nd "	
F Andrews	3rd "	Simons
F Connors	centre	D Brundette
J Rouille	3rd home	H Overend
J O'Brien	2nd home	F McGrath
	1st home	H King
L Connors	outside home	F D'Russia
E Mahoney	inside home	J Fraser

W Wilson, Referee.

The Peterborough Juniors were defeated at Madoc yesterday by the score of five goals to three. The boys put up a splendid game, but the Madocs were too fast for them, being assisted by Cross, McDonald, Hartley and McVey, of the Tecumsehs. The names of those outside players are not mentioned in the way of a kick, but simply to show how well the Juniors did when they played so fast an aggregation.

There will probably be an excursion to Tweed on Labour Day, when the Juniors will play the team there a return match.

The following represent the teams which played:

Madoc.		*Peterborough Juniors.*
Collinge	goal	Dobbin
Seymore	point	Lynch
O Kirk	cover point	Green
J Kirk	1st defence	Craig
Hartley	2nd "	Rickey
T Kirk	3rd "	Logan
MacDonald	centre	Thompson
McVey	3rd home	Crossely
Sutton	2nd home	King
Cross	1st home	Galley
Stoneburg	outside home	Dobbin
Burns	inside home	Rutherford
Collinge	field captain	E Hickey
Seymore	umpire	Geo Hopkins

Referee—W Cross.

Score—Madoc, 5; Peterborough, 3.

The juniors play at Marmora to-day.

The seniors are making arrangements for matches with the Tecumsehs, Madoc, Tweed and Stoufville.

The juniors are high in their praises of the Madoc team for the manner in which they were entertained after the game.

BOARD OF HEALTH.

A Verbal Report From the Medical Health Officer.

A meeting of the Board of Health was called last evening, at which there were present Messrs. B. Shortly, H. Denne, Adam Hall and Dr. Burnham.

Dr. Clarke, Medical Health Officer, reported that the work of inspection of drains, closets, etc., was going steadily forward, the work being most satisfactorily performed by the officers. Since the meeting of the Board in April there had been sixteen cases of typhoid, all mild, there being only one death; four cases of diphtheria—no deaths, and six cases of scarlet fever with no deaths. There had been a good many complaints, as usual, and all had been looked into. There was no apparent cause for the typhoid, other than the usual fall outbreak, which annually occurred in all towns. It had not centred around one district but had been scattered. The water used had been analyzed and the closets inspected but no apparent cause existed for the outbreak. There were few cases in proportion to the population as compared with other places.

The chairman expressed himself as of the opinion that the board should back up the council in enforcing a by-law regarding the use of the sewer and the closing of the closets and cess pools where connection with the sewerage system was possible. The citizens should not be allowed to utilise the creek and the river for the discharge of their sewage.

The mayor, who was present, explained that it was the idea, at present, to advertise the lowest rates at which the connections were made with the sewers in other places and to obtain a competent man to do the entire work. The citizens would have their connections made at first cost.

Mr. Hall advocated the passage of a plumbing by-law, pointing out the necessity of not allowing a tile drain to extend under the foundation of a house, as gas could easily escape. An iron pipe should be used in all cases.

The Board were under the impression that no connection could be made with the sewer for a year unless done by the contractor, but Councillor Moore, who was present, pointed out that there was a provision in the contract allowing the town to make connections with the sewer as it was completed. The corporation intended to assume the responsibility of making all connections. A chart would be kept in the Town Clerk's office showing every point at which the sewer could be tapped, the depth and nature of the soil, etc., and in a moment one could ascertain the exact cost of making a connection. This was done in order to secure uniform good work in connection with every part of the sewerage system.

The following resolution was then passed by the Board:—

That the town council be requested to pass a bylaw prohibiting the use of pits, closets, cesspools or privy vaults within a reasonable distance of the town sewers, and that the bylaw prohibit the use of the creek and river within the town, and that the citizens be requested to connect their premises with the sewers at once. Also that the council be requested to make arrangements to have the connections made at the lowest possible cost, and to pass a plumbers' bylaw regulating the plumbing within buildings.

The Board then adjourned.

YOUR OLD CREAM DRESS.

You Can Make it Fit For Evening Wear.

Many ladies have dresses made from cream-coloured Nun's Cloth, Cashmere, Serge or Silk, that have become soiled, spotted and faded. At a very small cost these dresses can be dyed with the wonderful Diamond Dyes a lovely shade of Turquoise Blue, Salmon, Shell Pink or a delicate Lilac, and made fit for evening wear.

All wise and economical women use Diamond Dyes as suggested above, and are able to save scores of dollars each year. In order to secure the best and most fashionable shade and tints for evening wear, it is absolutely necessary to use the Diamond Dyes, as crude and imitation package dyes are positively dangerous to use.

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; It will freshen you up and make work a pleasure. Should be used by everybody during house cleaning. tf

On Hand

now, at A. Clegg's, another lot of those oak finish extension tables, at $5.00, $5.50, $6.00 and $6.50; common chairs, 33c.; good hard wood bedsteads, only $2.00; oak finish bedroom suites, $12.00, $13.00 and upward. Our stock is complete in every line. A. Clegg, 427 George street.

WEDDING BELLS.

Nuptials of Miss Eleanor Brown and Mr. G. Milan Winslow.

A most pleasing event took place at the home of Mr. John Brown, ex-reeve of Belmont, on Wednesday night, August 26th, at the hour of 8 p. m., when his daughter, Eleanor R., was united in marriage to Mr. G. Milan Winslow, of Ashtabula, Ohio.

Rev. E. A. Sanderson tied the nuptial knot. The bride was becomingly attired in a dress of dove coloured silk trimmed with pink silk and lace, and was the recipient of a large number of costly presents. As was their choice their were no supporters, only the necessary witnesses.

The happy couple took the midnight train for the east to spend a few days in Montreal and among the Thousand Islands, returning to Rockdale where they will spend a few weeks with their friends before taking their departure for Ashtabula, their future home.

The following invited guests were present:—Dr. and Mrs. Jeffs, Mr. and Mrs. W. Wilde, Mr. and Mrs. T. H. Patterson, and Mr. D. Wilson, of Havelock; Mr. J.B. Pearce, Mr. Chas. Pearce, and Misses Emma, Blanche and Nellie Pearce, of Norwood; Mrs. (Dr.) Gee, Rochester; Mr. and Mrs. W. H. Gordon, Belleville; Mrs. E. H. Aunger, Ashtabula, Ohio; Rev. and Mrs. Sanderson, Mr. Frank Sanderson, Mr. and Mrs. Chas. Wilde, and Miss Mluchin, of Bialeton; Mrs. Mark Scott and Mr. Harley Scott, Preneveau; Mr. W. E. Young, Mr. F. Preston, and Mr. and Mrs. Adolphus Brown, of Rockdale.

PERSONAL.

Mr. Fred Matchkey is home from Cleveland, Ohio.

Mr. Ernie Goldsmith, of Belleville, is visiting old friends in town.

Mr. Robert Fair, head of the Golden Lion, left to day to attend the opening of the fall markets.

The Kingston Whig says:—"Rev. Father Kelly, Douro, is in Hotel Dieu hospital, suffering from gastric fever."

Mr. and Mrs. Thos. Free, and family, of Rochester, are visiting in town the guests of Mr. Wm. Johnston, 80 Weller street.

Miss Armstrong left this morning for Toronto, to attend the millinery openings and make purchases preparatory to her fall and winter openings.

Councillor Weir received a telegram, whilst attending Council last night, bearing the sad information of his daughter's serious illness in Cobourg.

Miss Neild has again resumed her position at the head of the dressmaking department in connection with Mr. Robert Fair's establishment, for the next season.

Mr. L. G. Cluxton, after camping with his brothers, H. C. and Royal, at the "Bower," Crow's Nest, Stony Lake, went to Montreal last evening to resume his duties in the wholesale establishment of Messrs. Porter, Tesky & Co.

What is it?

OXFORD

What is it?

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Oysters R ripe—Sept. 1st.

—All fishing tackle and rods, and hammocks, selling at cost at SAILSBURY'S.

—The Peterborough Bookstore will be open until 10 o'clock this evening, so as to enable the school children to get their books for to-morrow.

—Mr. W. H. Manning will be in his office on and after Saturday, the fifth day of September next. 10d-2w

—The horse attached to Messrs. Peter Connal & Co.'s delivery wagon took fright at a passing engine at the G. T. R. station at noon to-day. The outfit is left in a dilapitated condition—subject to repairs. No one injured.

—Mr. E. J. Hartley is testing his new decoy ducks, of his own manufacture, in and about the various islands in Rice Lake to-day. "Edg" knows how to build a duck. Last week he shipped six dozen—"wood," "blue bills," "red heads," and "whistlers"—to the Montreal Sporting Club. Mr. Hartley evidently knows what the sportsmen want.

People's Coal Company.

Best quality and lowest price. All coal weighed on market scales and well screened. Call and enquire. Office, 230 Charlotte street. Telephone 263.

Crafton's Youth's 3-piece Suits, short pants, light and dark colours, in All wool Canadian Tweed, sizes 28 to 32 inches chest measure, regular price $4 and $4.50, Crafton's special price $2.95.

A Handful of Earth.

To the enquiry, "Why Catholics at funerals, throw handfuls of earth upon the coffin before the grave is closed up," The Catholic Record replies that there is no command in the ceremonial rubrics of the church that this should be done. In some places it is done as private devotion to express an act of resignation to the will of God, and that the body is recommitted to the earth from which it came, in conformity with God's will.

Attractions of the Fair.

Among the leading attractions at the Toronto Fair is the guessing contest for the Heintzman piano on exhibition in the Surprise soap exhibit. Any one can guess free of charge on the weight of the big cake of Surprise soap; the correct or nearest guesser will receive the piano, the best of its kind. Three prominent merchants of Toronto will have the matter in charge, which is a guarantee of good faith and that everything will be conducted in the fairest way. It will be well worth the while of every visitor to the fair to have a look at the Surprise soap exhibit and at the big cake of Surprise.

COMMISSIONER EVA BOOTH.

HER OFFICIAL VISIT TO PETERBOROUGH.

Enthusiastic Reception at the Barracks—A Packed Audience—A Hallelujah Harvest Home Welcome — Miss Booth's Personal Appearance—Her Earnest and Soul-Stirring Address.

Monday, August 31st, was a red letter day for the local corps of the Salvation Army. It was a real slap-bang double header—the celebration of the annual harvest festival and an enthusiastic welcome to Miss Eva Booth, the commissioner for the Dominion of Canada and Newfoundland.

Miss Booth arrived on the evening train, accompanied by Col. Jacobs, her private secretary and by an adopted child, a sort of object lesson of the rescue work of the Army.

It was arranged that the harvest festival proper, the sale of the offerings sent in to the barracks to be sold for the benefit of the funds of the Army, should have been held last night, but the happy arrival of the Commissioner necessitated a change of of plan, and gave the full time of the evening to the address of Miss Booth.

The barracks had been specially and beautifully decorated for the occasion with fruits of the garden and field. Over the platform at the southern end of the hall an evergreen arch, springing from the lateral pillars stretched over it. The arch bore in large letters the legend "Welcome to Commissioner," and at various points on the wall were such mottoes as "Success to our Social Work," "Jesus, Deliverer," "God Bless our Leaders," "God Speed the Army." Besides, the walls were

GAY WITH EVERGREENS,

and here and there in tasty profusion was spread in mural decoration the grand old flag, the Union Jack, under whose folds the grand work of the army was begun in London.

In front of and grouped around the platform was a very barnful of fruits, vegetables and all sorts of offerings, to be sold and the proceeds applied to the funds to help on, particularly, the social work of the Army.

There was the usual parade preliminary to the meetings. The members of the band had their harvest festival uniform, a brown straw hat, with the brim jauntily fastened up on one side with an aigrette of oats—in the head. After the return

EVA BOOTH, COMMISSIONER S.A.

from the parade the band and soldiers took their places on the sloping platform in readiness for the reception of the commissioner, the immense auditorium being packed with people representing all Christian denominations.

As the Commissioner and her aides entered the hall the entire audience and the several ranks on the platform rose like a thousand rockets and volley after volley of energetically enthusiastic welcome rose to the rafters with echoing reverberations.

Miss Booth advanced to the platform and took her place in the middle of the space with a smile of exquisite sweetness on her charming face. She is above the medium height and slender. Her well-shaped hands are rather large, this circumstance being emphasized by the tight sleeves of the lack dress she wore, under which was a scarlet vest with the arms of the Army embroidered thereon. She wore

THE USUAL POKE BONNETT,

whose sombre hue was relieved by a bias band of scarlet ribbon across the outside of the crown. Miss Booth's rather long but delicate and refined face was framed inside her bonnet by masses of brown hair, which showed a rebellious tendency to take on the incongruous frivolity of curls. In repose her face is very fairly represented by the portrait printed in to-night's EXAMINER—that is as to outline, but no engraver's tool can reproduce the indefinable charm of sweetness that illuminates her face when her soul speaks through her lips in the soft yet penetrating English voice with its characteristic accent of distinct refinement. In repose Miss Booth's face has perhaps a sad expression, as if the burden of her responsibility weighed heavily upon her, but when she speaks it lights up brightly and her deep brown eye glows with the earnestness that so evidently animates her soul. In the beginning of her address she speaks with a level uniformity; but when she warms to her work her voice assumes a higher pitch and takes on a tense tone of yearning entreaty. The meeting was presided over by Col. Jacobs, who accompanied Miss Booth, and the religious exercises were begun by prayer punctured by volleys of hallelujah, the hearty singing of a hymn and again prayer.

This was followed by

A SACRED DUET

by Mrs. Green and Mrs. Braund, the latter accompanying with her guitar.

When Field Commissioner Booth advanced to the front of the platform she was received with another rattling volley, and was presented with two bouquets of flowers by two little girls. As she came to the front she brought with her "Little Willie," who had been left a destitute orphan, and his pitiful story had sunk so deep into Miss Booth's tender heart that she had adopted him, and takes him with her on her journeys. Then she had the little flaxen-haired fellow sing a solo, which he did very creditably, but not for long, for the enthusiasm of the soldiers broke in and little Willie's solo was drowned in the mighty chorus that made his piping warble silent.

Miss Booth found it difficult, she said, to express her pleasure at being present in Peterborough, of whose good work and generosity she had heard, as well as of the blood and fire character of the corps in this place. Though she was personally a stranger to most of those present, yet the union in the bonds of love and holiness that knit the soldiers of the Army together forbade that they should meet as strangers. She referred with pleasure to to the presence of the junior corps, for she was

PASSIONATELY FOND OF CHILDREN,

and shortly before she left London she had addressed over 14,000 children, whose names were enrolled on the Army lists, and had been rescued by the work of the Army. Then she read a selection from the 6th chapter of Micah, expounding its meaning and significance in plain, forceful language. Incidentally she defended the noise made by the Army and said it seemed to her—and she was somewhat concerned over it—that the Army did not make as much noise as it used to do, was a sign that the Army was in an unwholesome spiritual condition, as the quietness of a child is a sign of uncertain health.

Every verse was made the subject of a short, crisp sermon of a hortatory character, at times deeply pathetic and at times arousing the soldiers into hallelujah humour. It comprised a series of earnest appeals to sinners to turn from the paths of sin. At times she rose to the height of real eloquence and at times the pathos of her utterance drew tears from many a sympathetic eye. Of Miss Booth's intense earnestness there seems no room for doubt and listening to her strong appeals and her pathetic presentation of the message of mercy to fallen man—one can easily believe the stories of successful work that are told to her credit. At the conclusion of her address she very aptly thanked the vast audience for their close attention, and the attention was indeed breathless, hardly a sound, except the hearty hallelujahs of some enthusiastic warrior, being audible during the whole of her discourse, which was of such a character that any synopsis would altogether fail to convey an idea of it. It had to be heard to be appreciated. One feature that marked her address was almost entire absence of any reference to herself and her work. Her message was the uppermost idea of her theme. Her address was followed by the usual services in which sinners were invited to the penitent forms and several responded to the fervent appeals that were made.

A Mouthful of Pearls.

The teeth perhaps, more than any other feature, enhance or destroy that tangible, because complex, thing we call beauty. What more repellant than ill-kept, discoloured teeth? What unsightliness more needless and inexcusable? Ivorine is delightful, whether as a cleanser or in its property of imparting to the teeth that dazzling whiteness so much desired and admired and as efficient does it render the breath sweet and fragrant. Ivorine is incomparable as a toilet requisite, which accounts for its recommendation by leading dentists.

DIED.

MOORE.—On Tuesday, Sept. 1st, 1896, at 61 Smith street, David Moore, aged 54 years. Funeral at 2 p.m. to-morrow from 61 Smith street to Little Lake Cemetery.

ADVERTISE IN "THE EXAMINER."

Why is one woman attractive and another not? It isn't entirely a question of age or features or intellect. The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. Everybody doesn't realize just what it is that makes her womanly. She must have health, of course, because without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Health brings all these things but health means more than most people think of. Real health must mean that a woman is really a woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Upon her strength in this way depends to a large extent her general health, her good looks and her attractiveness. Some women are born stronger than others. Some are born with what is called "constitutional weakness." It is easier for some women to retain health and strength than it is for others. Some seem able to do anything they like, whenever they like, without serious results. Still, there is no reason why women should not enjoy perfect health. Those who do not, need only take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism. It is absolutely certain. There are some who have neglected themselves so long that a complete cure is next to impossible, but even these will find comfort and improved health in the use of the "Favorite Prescription." It has cured hundreds of women who have received no relief whatever from years of treatment with good physicians. It is absolutely unique in the history of medicine. Such a remedy can be discovered only once. There is nothing in the world like it, nor has there ever been. Hundreds of things that every woman ought to know, are contained in Dr. Pierce's Medical Adviser, which will be sent *absolutely free* on receipt of 31 one-cent stamps to cover customs and mailing *only*. World's Dispensary Medical Association, Buffalo, N. Y.

LI HUNG CHANG IS COMING.

Toronto Formally Included in His Tour by the Celestial Statesman—Montreal Wants Him.

New York, Aug. 29.—President Cleveland formally received Li Hung Chang to-day. The Sixth United States Cavalry acted as escort for His Excellency. Following the cavalry were the carriages containing the nation's guest and his attendants. Secretary Olney introduced the Viceroy to President Cleveland. The Ambassador, who wore a new and far more gorgeous yellow jacket that that worn upon his arrival yesterday, bowed low and shook hands with President Cleveland. All present were standing, and so remained throughout the ceremony, which was very formal. The secretary of Li Hung Chang, Lo Fung Luh, handed to His Excellency a letter from the Emperor of China to the President of this nation. It was a very elaborate affair, done in Chinese parchment, and wrapped in yellow silk covering, upon which was the Chinese dragon, worked in red, blue, green and white. The parchment resembled a large music roll. Li Hung Chang presented this letter to President Cleveland. He then made an address on his own account, which was interpreted by Fung Luh, to which Mr. Cleveland replied.

After Mr. Cleveland finished his remarks, he introduced Secretaries Carlisle, Lamont, Attorney-General Harmon, Mr. Whitney, and the other gentlemen present, whom Li Hung Chang had not met. Ex-Secretary of State John W. Foster, who met the Viceroy in Japan during the negotiations for peace between that country and China was remembered and cordially greeted by Li Hung Chang. The official interpreter, Lo Fung Luh, introduced the two sons of the Viceroy, and the others who accompanied him, to President Cleveland. After this there was some informal talk, and pleasantries exchanged. Li Hung Chang did not indulge his propensity for asking questions to any great extent, and at 11.30, half an hour after the arrival of the guest of honor, the reception terminated.

George G. Foster of Montreal, Canada, extended to the Ambassador, at noon an invitation from the Chinese of this city, and it appears that the program has been so modified that Toronto is included now in the itinerary. Li said that he would answer as to Montreal by this afternoon.

ENDED AT LAST.

After Two Years of Misery Endured Backache Succumbs to Dodd's Kidney Pills.

Madoc, (Special) Aug. 31.—In a place like this, people suffer and sympathize, hope and mourn with each other. But her many friends here, as elsewhere, who have long been aware of the precarious health and long suffering of Mrs. J. Fergusson will be pleased to learn that her painful sufferings have ended at last, and that instead of being unable, as she says, "to turn herself in bed' she is herself once more as the result of using a few boxes of Dodd's Kidney Pills. She further says that from the third day after commencing to use these pills, she was free from all pain; and, that now she feels as well as ever before in her life.

BURNED AN AMERICAN.

The Terrible Outrage Committed in Cuba by Order of the Spanish General, Known as Butcher Weyler.

Boston, Aug. 30.—Lieutenant Alvared of General Maceo's army arrived here from Cuba to-day. He says that a month ago General Weyler discovered a Cuban newspaper in the pocket of an American named Charles Churchill of Pennsylvania. By Weyler's command Churchill was wrapped in an American flag and burned to death. Four American sea captains were witnesses of this.

A Dinner to Li Hung Chang.

New York, Aug. 29.—The American Ex-Minister to China and New York merchants in the Asiatic trade banqueted Li Hung Chang at 6 o'clock last evening at the Waldorf. The affair took place in the Astor dining room and covers were laid for 60 guests. John E. Ward, the American Ex-Minister, presided.

A Farmer Murdered.

Plainfield, N.J., Aug. 29.—Harry Hogden, a farmer, 20 years old, living near Somerville, was shot and killed this morning by Elmer Clawson, a former employe on his farm. The trouble was caused by a dispute over the settlement for wages. Clawson was captured.

What you want when you are ailing is a medicine that will cure you. Try Hood's Sarsaparilla and be convinced of its merit.

A Boon to Humanity.

Wherever there are sickly people with weak hearts and deranged nerves, Milburn's Heart and Nerve Pills will be found an effectual medicine. They restore enfeebled, enervated, exhausted, devitalized or overworked men and women to perfect constitutional power. Weak and pale girls and women soon regain vigorous health.

INSANE OVER MONEY

Peculiar Case of a Toronto Engraver.

CRANKY ON THE SILVER QUESTION

He Went to Buffalo to Hear Mr. Bryan and Came Back Bereft of Reason—Received His Pay in Bills Which He Threw Away.

Toronto, Sept. 1.

On Sunday, a well-to-do Toronto man went stark mad over the silver question and was taken to the Provincial Insane Asylum.

The unfortunate is Walter B. Perry, an expert engraver, who, times being hard over the line, came to this city a year ago from Chicago and accepted a position with Barclay, Clark & Co. at $30 a week. A sad circumstance of the case is that only six months ago he went over to Chicago, married and brought back a young wife, a daughter of William Zimmack.

On returning to Toronto the couple took rooms with William N. O'Hara at 89 Carlton-street, and for a while all went well. Some weeks since, however, Perry began to take a great interest in the United States silver agitation. He read with avidity all the publications he could find on the question and became so full of the idea that he neglected his daily work. "Silver" became his mania, and everyone he met had to listen to his arguments in favor of bi-metallism.

By and by he conceived the idea of writing a speech in support of Bryan, the free silver candidate for the Presidency, and having it used by speakers across the line. Getting leave from the office of Barclay, Clark & Co., he engaged two typewriters and set to work. Finally, the speech was completed and sent to the Democratic headquarters in the Windy City for use in the campaign.

This task completed, Perry went to Buffalo to hear his idol, Bryan, speak, and on his return he stated that he there met and talked with the candidate. After this visit he was more wild-eyed than ever in the support of his hobby.

Last Saturday he called at Barclay, Clark & Co.'s for some wages that were owing to him, when Mr. Hermann Trott, the foreman, told him that his work was getting behind and that he had better come back. Whereupon Perry replied: "No, I won't work any more. There is money enough in the world for all of us now."

Mr. Trott then paid him, and Perry, observing two five-dollar bills in the money handed him, threw them away with the remark: "I don't want those old rags. Pay me in silver."

Perry then went around among the men urging them to come up to his rooms till he showed them something. At last one of the firm's employes consented and accompanied him to 89 Carlton-street, where he found Perry's wife and the two typewriters he had engaged.

With this audience of four before him, in a little room, Perry rose and said, "Now, ladies and gentlemen, we will open this meeting with the Lord's Prayer," which, having been repeated, he delivered an impassioned free silver speech.

When he sat down he asked his fellow-employe to say a few words, who, replying that he upheld a gold standard, Perry remarked impressively: "Then, you're lost!"

On Saturday evening Perry became exceedingly queer in his actions and his wife called in a neighbor to watch him during the night. The guard left early in the morning, and after this the man's condition grew worse, until his wife got afraid of him and fled to another apartment.

Perry followed, shouting "Emma," and thinking his wife had left the house rushed out into the street in his night clothes.

Some wheelmen who were passing along Carlton-st. succeeded, after a fight, in capturing the poor fellow, who, during the operation, yelled like a wild animal.

He was taken to the asylum, where the authorities say he may in time recover.

OUR BUDGET FROM HAMILTON.

Registrar Awrey Sets at Rest a Rumor Regarding His Predecessor in Office—Looking for a Stock Yard Site.

Hamilton, Aug. 31.—(Special.)—A report has been in circulation that a shortage was discovered some time ago in he accounts of the late Dr. Springer, Registrar of the County, but to-day Nicholas Awrey, the present Registrar, denied that there was a shortage. There is an account of $1127.34 due to the city as its share of the rebate the Registrar had to make from his fees to the municipalities of Hamilton and Wentworth. The late Registrar left things in a rather unsatisfactory condition and Mrs. Springer, the executrix, is having some difficulty in straightening them out. She made an effort to get the city to take curbing stone from her quarry, but the city does not require any stone this year.

The North Grimsby Township Council passed a bylaw on Saturday granting right of way to the Cataract Power Company through the township, being the last piece of right of way necessary from Decew Falls to Hamilton, and the company made application to the City Council to-night for right of way into the city.

Mayor Tuckett, Chairman Colquhoun, Ald. Hall, Robert Quinn, for the Grand Trunk, and W. N. Warburton, for the T., H. & B., spent a couple of hours this morning driving around, looking at possible locations for stock yards. Sites east and north of the Jockey Club grounds were inspected.

IT IS ALL TALK.

Yes, but it is Norwood Talk—The Kind That Tells in Norwood.

Talk that tells.
Talk that is endorsed.
Every day talk by people that know.
City talk.
Kidney talk.
Do the kidneys talk?
Well, yes, both loud and long.
You are learning the kidney language.
Backache in kidney language means kidney ache.
Lame back means weak kidneys.
Weak back means weak kidneys.
The kidneys are talking trouble.
Here is some Norwood talk:

Mr. George Taylor, well known in Norwood, says this to say about Doan's Kidney Pills:—

"For a great many years I have been a sufferer from kidney disease. Terrible pain in my side and back made my life a burden. The urine was a dark wine colour, and I was greatly troubled with frequent urination. My sleep was destroyed because of this annoying trouble.

"I have taken scores of medicines, but could get no relief, and thought that I would never be cured. Happily I heard about Doan's Kidney Pills, and got a box at J. C. Moffatt's drug store, and have continued their use for one month.

"I am thankful to say as a result that they have fixed me up. I feel like another person. I do not now have to get up at night, and in fact am entirely cured.

"I think they are the grandest medicine ever placed before the public, and I heartily recommend them to all sufferers from kidney disorder of any kind."

For sale by James Lynch, druggist, 169 Hunter street, Peterborough.

Karl's Clover Root.

the great Blood purifier, gives freshness and clearness to the Complexion and cures Constipation, 25 cts., 50 cts., $1.00. Sold by John Nugent, 359 George street.

GERMANY WON'T GIVE UP.

Said Khalid, the Usurping Sultan of Zanzibar, in Good Refuge.

Berlin, Aug. 29.—A despatch to The Cologne Gazette from Zanzibar says that the German Consul there has refused to surrender to the British officials Said Khalid, the self-proclaimed Sultan, and those of his followers who took refuge at the consulate, after being driven from the Palace by the bombardment of the British warships.

ARMENIANS ARE DESPERATE.

They Make Twelve Demands and Will Fight for Them to the Death.

Constantinople, Aug. 29.—The Armenian Revolutionary Committee have issued a manifesto, in which are embodied 12 demands, the chief of which is that autonomy be granted to the Armenians. After enumerating their demands, the manifesto goes on to declare that the Armenians will fight for their rights until the last one of them shall have been killed.

A hacking cough keeps the bronchial tubes in a constant state of irritation, which, if not speedily removed, may lead to chronic bronchitis. No prompter remedy can be found than Ayer's Cherry Pectoral. Its effect is immediate and the result permanent.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

A woman can feel perfectly at her ease in almost any surroundings, if she is stylishly and appropriately dressed. And now that increased facilities in manufacturing, combined with the enormous demand, have made it possible to sell
Fibre Chamois For 25c. a yard
it is easy for even the most economical to wear stylish costumes. For with present fashions it is not the material which counts, half as much as the grace and buoyancy of the billowy sleeves and rippling folds of the skirt. And Fibre Chamois not only gives all this jaunty stiffness in the first place, but retains it till the garment is worn out. That's why it pays to see the label on each yard because any imitation gives very disappointing and short lived results.

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

Ayer's Cherry Pectoral

GOLD MEDAL AT THE WORLD'S FAIR.

AYER'S LEADS ALL OTHER SARSAPARILLAS.

FOR A LITTLE CHILD.

MODES OF CLOTHING THE YOUNGSTERS IN THIS YEAR OF GRACE.

The Garments for the New Baby—Following Parisian Fashion, Children Are Put Into Heavy Mourning—Frocks of Airy Textiles.

With advancing summer ease of design and airiness of texture are, very properly, the distinguishing features of children's fashions. Things are getting wonderfully cheap, too, so that if one only knows where to find them, many famous bargains may be picked up for the song of proverb.

At all of the large shops certain days of each summer month are devoted to the sale of "white goods," which includes white undergarments in all sizes, trousseaux for babies and tiny frocks for small girls and boys.

SUMMER CHILDREN.

Everything at these places is cheaper than at the regular outfitters of children's wear, so the "white goods" days are well patronised by thrifty mothers.

Mothers in this country, as a rule, are not given to the benighted custom of putting their young children in mourning, and even the death of a father is considered to scarcely warrant it.

But in Paris it is the thing for mere babies to wear mourning for a near relative. Clad in deep and fashionable black from head to foot, both boys and girls will be seen, like gloomy little crows, walking in the streets beside be-ribboned nurses. And so the New York furnishers keep mourning for children—which is bought by a few silly persons and forced on helpless youngsters.

At each of these children's shops layettes are put up charmingly. The tiny clothes are divided off into half-dozens, tied with ribbons and sold in a ribbon-trimmed basket, which is also a receptacle for all the other baby paraphernalia. White or colored silk or plain or dotted Swiss will be shirred over the basket, covering it completely.

A lace-edged frill and ribbon bows finish the cover, and inside the basket there are soft puff pockets to hold the many bands and pins needed, a silk sponge, comb, brush and powder box. These last are usually of celluloid, and most commonly white.

Again, the celluloid toilet articles will be in a delicate tint to match the basket ribbons, which are generally pink for a boy and blue for a girl.

Then, if baby's papa is very well-to-do, and its mamma has frivolous tastes, there may be a big pearl or a glittering brilliant embedded in the handle of the powder puff.

The new models for infants' dresses differ little from those long seen, except that all of the tiny sleeves are now made the comfortable bishop shape. For the rest there will be a round or square yoke, from which hangs the skirt, which may be plainly hemmed or else show above a lace-edged flounce the same narrow tucks and lace insertions that ornament the yoke. Where the yoke and skirt are joined together, and for the neckband will be a tiny bias of the lawn, held down with fancy herringbone or feather stitch.

To conclude, infants' dresses are made a little shorter than formerly, but other difference are mere matters of detail. —Nina Fitch, in Chicago Record.

For Dyspepsia and Bad Blood Humors Manley's Celery-Nerve Compound is unexcelled.

Mr. Geo. Reid, G.T.R. Operator, New Hamburg, Ont., under date of March 3rd, 1896, writes as follows: "I was troubled for two years with Boils and Dyspepsia of the worst kind. Tried several medicines, but none gave much relief. Until I tried Manley's Celery-Nerve Compound my blood was in a dreadful state, but I am happy to say your medicine cured me."

Sold in Peterborough by John McKee.

A Summer Toilette.

Charmingly light and dainty are the toilettes for midsummer, says Harper's

A SUMMER TOILETTE.

Bazar, particularly when the waists are of the mousseline de soie and the skirts of silk. A gown of straw-colored peau de soie has the waist of the mousseline laid in fine pleats. A frill of the pleated mousseline is put on at the side of the embroidered band which goes down the front of the waist and forms the belt and collar.

The sleeves of the same material as the waist, are full and draped, trimmed with frills from shoulder to elbow. From the elbow to the waist the sleeve is tight-fitting and shirred, finished by a frill which falls down over the hand.

The skirt is laid in soft pleats, and the front breadth is draped with mousseline de soie embroidered in paillettes and shirred a little just below the waist.

Think it Over.

Have you heard of a medicine with such a record of cures as Hood's Sarsaparilla? Don't you know that Hood's Sarsaparilla, the One True Blood Purifier, has proved, over and over again, that it has power to cure, even after all other remedies fail? If you have impure blood you may take Hood's Sarsaparilla with the utmost confidence that it will do you good.

Hood's Pills assist digestion, 25 cts.

Some Irish Bulls.

An Irish lover remarks that it is a great comfort to be alone, "especially when yer sweetheart is wid ye."

An Irish magistrate, censuring some boys for loitering in the streets, argued: "If everybody were to stand in the street, how could anybody get by?"

"It is very sickly here," said one of the sons of the Emerald Isle to another. "Yes," replied his companion, "a great many have died this year that never died before."

An eminent spirit merchant in Dublin announced in one of the Irish papers that he had still a small quantity of the whisky on sale that was drunk by his late Majesty while in Dublin.

An old Dublin woman went to the chandler's for a farthing candle, and was told it was raised to a half-penny on account of the Russian war. "Bad luck to them!" she exclaimed, "and do they fight by candle light?"

That was a triumphant appeal of an Irish lover of antiquity, who, in arguing the superiority of the old architecture over the new, said: "Where will you find any modern building that has lasted so long as the ancient?"

An Irishman got out of his carriage at a railway station for refreshments, but the bell rang and the train left before he could finish his repast. "Hould on!" cried Pat, as he ran like a madman after the car, "hould on, ye murther'n ould stame injin; you've got a passenger on board that's left behind."

An Irishman, having feet of different sizes, ordered his boots to be made accordingly. His directions were obeyed, but as he tried the smallest boot on his largest foot, he exclaimed, petulantly: "Confound that fellow! I ordered him to make one larger than the other; and, instead of that, he has made one smaller than the other."

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentially will mail, in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P. O. Box 338, London, Ont.

A Crying Evil.

Every crying evil should be promptly removed. Sick headache is a crying evil affecting thousands of Canadians, which can easily be removed by the use of Burdock Blood Bitters, the best known stomach, liver and bowel regulator and cure for sick headache from whatever cause arising.

Children Cry for Pitcher's Castoria.

HALIFAX IS SAFE.

No Enemy's Vessel Could Enter That Canadian Stronghold—The Big Guns Can Do Good Work.

Halifax, Aug. 29.—Yesterday it was demonstrated beyond a doubt that in time of war no enemy's vessel could enter the port of Halifax. It would mean speedy and complete destruction to any craft that attempted it. The big guns at York Redoubt and MacNab's Island were fully tested and the success achieved was even greater than expected. The guns were tested upon a moving target 20 feeet long and 8 feet high, and although the range was about 3000 yards the firing was excellent. The twelve and eighteen-ton gun were brought into requisition at York Redoubt and six-inch breach-loaders were fired from MacNab's. The guns from York Redoubt sent 250 and 400-lb. shells whirling through the air, and the breach-loaders at McNab fired shells weighing 100 pounds. The marksmanship was extra good. The shells crushed right through the target and kept the staff on board the tug busy putting it in repair. An officer stated afterwards that the test was a most successful one and exceeded expectations. It plainly showed, said he, that no hostile ship could enter Halifax harbor.

Cold in the Head.

And Headache cured in 5 minutes. Catarrh cured in a week by using Dr. Hunt's Magic Snuff. 25 cents a box. For sale by J. D. Tully and H. S. McDonald and all druggists.

DODD'S KIDNEY PILLS ALWAYS CURE

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 23RD JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

BLOOD POISON

A SPECIALTY Primary, Secondary or Tertiary BLOOD POISON permanently cured in 15 to 35 days. You can be treated at home for same price under same guarantee. If you prefer to come here we will contract to pay railroad fare and hotel bills, and no charge, if we fail to cure. If you have taken mercury, Iodide potash, and still have aches and pains, Mucous Patches in mouth, Sore Throat, Pimples, Copper Colored Spots, Ulcers on any part of the body, Hair or Eyebrows falling out, it is this Secondary BLOOD POISON we guarantee to cure. We solicit the most obstinate cases and challenge the world for a case we cannot cure. This disease has always baffled the skill of the most eminent physicians. $500,000 capital behind our unconditional guaranty. Absolute proofs sent sealed on application. Address COOK REMEDY CO., 301 Masonic Temple, CHICAGO, ILL.

INVERLEA PARK GROCERY

This is not the ordinary little corner Grocery where supplies are poor and meagre, and often unsatisfactory from an economical point of view—but a full-grown, thoroughly stocked Grocery with a grand selection of new, fresh, sweet and clean Groceries and Provisions fit for the best families in the land. Prices are, of course, lower than down town, because rent, taxes and other expenses are lower—see?

Farmers' produce taken in exchange for goods and highest prices allowed

"Going to Insure."

THE Man who is simply "going to insure" is usually no better than the man who has'nt made the decision. In fact he is usually worse, because he has considered the subject and been convinced of his duty, but has not done it. "Nothing is done so long as anything remains undone." On application to either of the undermentioned gentlemen, full particulars will be furnished in regard to the Unconditional Accumulative Policy issued by the

Confederation Life Association,

H. RUSH, Local Agent, PETERBOROUGH

J. W. BENNET, District Agent, PETERBOROUGH

HOW THE SUN LIFE FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when as Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,
(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

Fairweather & Co

LEADING HATTERS.

SPAIN DOESN'T CARE.

The Government Backs Up All Weyler's Orders Irrespective of the U.S.

London, Aug. 31.—The Standard prints a despatch from Madrid, saying that the Spanish Government has expressed approval of the decree which Captain-General Weyler has decided to issue, suspending the work of gathering the coffee crop in Cuba and also of his action in forbidding Spaniards and foreigners to hold any dealings with the insurgents. The despatch also says that the American Consuls in Cuba have protested against the enforcement of the latter order upon the ground that it would prevent them from securing information that the State Department at Washington requires, and would be conducive to demands for indemnity by American citizens whose property suffered in consequence of the carrying out of the order.

A Sweeping Claim Made Many Years Ago.

Now Stronger Than Ever.

Paine's Celery Compound Still the Best and Most Reliable.

Just a few words to every suffering brother and sister in this dear Canada of ours.

Years ago, the broad and sweeping claim was made that Paine's Celery Compound was the only safe and reliable medicine—the only true life-giver and flesh-builder ever brought to the notice of suffering humanity. Years of grand and noble work—of marvellous cures, of rescues from disease and death—have fully maintained the high position claimed for Paine's Celery Compound. Tens of thousands have been made well and strong after months and years of suffering, and have given public testimony that has never been approached by letters written for other medicines.

Amongst the tens of thousands saved by Paine's Celery Compound, we have those who once suffered from nervousness, sleeplessness, liver and kidney troubles, rheumatism, neuralgia, dyspepsia, heart trouble and blood diseases.

Are you, dear reader, a sufferer from any of these diseases, or have you any of the symptoms that point to them? If you are now suffering, we lovingly plead with you to use Paine's Celery Compound, which physicians themselves strongly recommend. If you are only experiencing the symptoms that point to these diseases try one or two bottles, and be assured you will not be disappointed, for Paine's Celery Compound makes people well.

"Mikado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER Millers.

HE DIED ON THE TRAIN.

The Russian Minister of Foreign Affairs Met a Sad and Sudden Death.

Vienna, Aug. 31.—The following particulars of the death of Prince Lobanoff-Rostovsky, Russian Minister of Foreign Affairs, who died suddenly yesterday while on his way from Vienna to Dresden, have been obtained: While Prince Lobanoff was here he several times complained of feeling ill, and while paying a visit to Count Nigra, the Italian Ambassador to Austria, he had a fainting fit. After recovering from the fit Prince Lobanoff said that he had suffered for some time intensely and it was his desire to go as soon as possible to Dresden for the purpose of trying the massage treatment. He started without delay, but was overcome while on the Imperial special railway train and died as the train reached Kasatin.

M. Chichkine Takes Charge.

St. Petersburg, Aug. 31.—In consequence of the sudden death of Prince Lobanoff-Rostovsky, Russian Minister of Foreign Affairs, the Czar has summoned M. Chichkine, the chief of the Russian Foreign Office, to Kieff. M. Chichkine, in obedience to the Czar's summons, left St. Petersburg this afternoon, and in his absence Count Lambsdorf, Chief Councillor of the Foreign Office, will be in charge of the Foreign Office.

SILVER AND BIMETALLISM.

Attorney-General Longley of Nova Scotia Gives His Opinion.

Hon. J. W. Longley writes of "The Silver Question" in the September Canadian Magazine, and shows that there is a broader significance in the movement for free silver that appears on the face of things. He deals in a most thorough manner with the general features of the social discontent so manifest across the border. The editor writes of bimetallism, and shows wherein it differs from the movement for free silver in the United States. Twenty-two writers contribute to this number, and it is very bright throughout. Trinity University is the subject of one of the illustrated articles, and the frontispiece is a picture of this institution.

LAKE NEPIGON IS SAFE.

The Finest Trout Preserve on the Continent Has Not Been Leased.

Information came to The World's ears yesterday that the Ontario Government had disposed of the fishing privileges of Lake Nipegon to an American angling club, and Hon. A. S. Hardy was waited upon in reference to the statement.

The Premier said that the report was untrue. The Ontario Government had been asked several times to lease the lake, which is the finest trout preserve on the continent, but had steadfastly refused to do so.

Mr. Hardy added that the fear all along had been that the Government at Ottawa would take some step in this direction, but if the lake were leased, there would be a riot right away.

WHERE IS WHITEHEAD?

The Freed Irish Dynamiter Disappears in the Mountains Near Bantry.

Skibbereen, Ireland, Aug. 31.—Albert George Whitehead, the insane Irish-American dynamiter, recently released from Portland Prison, who on the night of Aug. 24 escaped from the home of his relatives here and disappeared, has been tracked into the mountains beyond Bantry, where his trail was lost. The parties which were organized to search for him have given up all hopes of finding him and have returned here.

PATULLO AND ADAMS

Will Fight it Out at the Polls in North Oxford Next Monday.

Woodstock, Aug. 31.—The nomination for North Oxford bye-election, made necessary by the resignation of Sir Oliver Mowat, took place at the Court House to-day. Dr. Andrew McKay, Mr. Andrew Pattullo, Mr. E. L. Sutherland, Mr. J. S. MacKay, Dr. Henry Adams, Mr. Louis Kauffman and Mr. Hugh McDonald were nominated, but all withdrew except Mr. Pattullo, Government, and Dr. Adams, Independent. Polling will take place next Monday.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally of health. The mad pursuit of place, power and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer of it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency and fatigue add their mournful notes to the "still sad music of humanity." Tired? You need aid! Your system requires a staff on which to lean, and your brain rest for increasing virgils! Health and strength are the alternatives from decay and death.

Coca, combined with Maltine affords that staff. It will give tone to the nervous system, strength to the nerves, sleep to the weary eyes, and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated. Maltine with Coca Wine is sold by all druggists.

The Wabash Railway Trains

running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service; they are complete and solid vestibuled from end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to car builder's art. They include free reclining, palace, sleeping, and dining cars of the latest and best patterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

FOOTBALL TOURNAMENT

At Young's Point on Labour Day—Athletic Sports and Canoe Races to be Held.

The Young's Point Football Club will hold a grand football tournament at Young's Point, on Monday, Sept. 7th, Labour Day, when a big time is expected, and it is expected that Warsaw, Selwyn, 16th, Smith, Chemong Indians and Young's Point Football clubs will compete.

In the morning Young's Point and 16th Smith will play at 10.30. In the afternoon the remaining teams will play after which the winning teams will play off to decide who will have the prize.

A number of athletic sports and canoe races will be held for which prizes will be given.

A first-class orchestra will furnish music for dancing and the public are cordially invited, as a good day of sport is expected. Special rates will be given on the G. T. R. and on the steamboats. Dinner and tea will be served on the grounds. Admission to grounds 15c, children 10c.

Give Your Watch A CHANCE.

The balance wheel of your Watch, if it's an American, travels 19 1-10 miles per day, or 6971/2 in a year, while all the oil that can be safely put into an oil cavity is about one-hundredth part of one drop. On this it feeds for one year. You will now see why it should be cleaned and newly oiled at the expiration of that time. If you want your watch properly repaired at a moderate price leave it with

Clarke & Gibson

Jewelers and Silversmiths.

HUNTER ST., NEAR POST OFFICE.

SALE OF BURNT TIMBER.

A quantity of pine timber, estimated at about four million feet, B. M., situated on lot 4 in the 2nd con. and lots 3 and 4 in the 3rd con. of the Township of Rathbun, north east of Wahnapitae Lake, in the District of Nipissing; and a quantity estimated at four and one half million feet, B.M., situated on the shore of Lake Biscotasing, in the District of Algoma, on the main line of the Canadian Pacific Railway, having been damaged by fire, the undersigned hereby calls for tenders for the right to cut the same.

Tenders will be received up to and including the eleventh day of September next, and must state the rate per thousand feet board measure, if made into saw logs, or per thousand feet cubic, if made into square timber, which the tenderer is willing to pay as bonus or in addition to the ordinary Crown dues of one dollar per thousand feet board measure, on saw logs, and twenty dollars per thousand feet cubic on square timber. Separate tenders should be made for each quantity, and must be accompanied by a marked cheque for $200. The party awarded the right to cut will have to give a bond, with satisfactory sureties, for the performance of all the terms and conditions which may be required by the Department.

Mr. F. Sinclair, Forest Ranger at Sudbury, will give information respecting the timber, etc, and further particulars as to conditions may be obtained from this Department.

The figures as to quantity represent the Department's estimate only, and intending purchasers must satisfy themselves as to quantities and purchase upon their own estimates. The Department does not bind itself to accept the highest or any tender. Tenders should be marked "Tenders for Burnt Timber," and addressed to the Hon. the Commissioner of Crown Lands, Toronto.

J. M. GIBSON,
Commissioner of Crown Lands.

TOUGH CLOTHES FOR THE BOYS.

Young Canada Begins Another Six Months' Schooling.

Tough clothes for boys to wear to school this Fall and Winter. That's the burden of our song. Strong clothes to stand the wear and tear of play, rough but healthy. Strong clothes to stand the work of out of doors fun in cold weather. We have just such things for the youngsters and, besides being full of wear, they are neat and shapely.

Did the last suit of clothes you bought for your boy from us, wear as well as it ought to have worn, considering the price paid? If it did you should go to the same store for the next suit. You get your money's worth. We deserve your patronage. We'll do better by you and by the boy than any other clothier.

5 CASES OF BOYS' NEW SUITS

These are only the advance guard of our Fall stock, for the boys. These are TWO and THREE piece Suits, and will fit boys all the way from 3 to 16 years. We sell the best of everything to keep in the heat, and keep out the cold for boys. We were boys ourselves, once,—it seems an awful long time ago.

We've all good qualities of Boys' Clothing. We've—probably—more Boys' Clothing in our store than in all the other stores put together. We've a weakness for supplying the boys. Ask yours if this isn't so?

Some idea we may give you of the value and inducement we purpose giving to buyers, when we say

A $2.00 BILL

will buy a beautiful, heavy, all wool, neatly made, well trimmed, and built of Auburn Mills Tweed Suit.

Of course we've cheaper Suits, and as low as 95c per suit. Better Suits up to $3.00 and $4.00, but

OUR $2.00 SUIT IS A CORKER.

Just the thing for a boy's school Suit, and as good as ever sold for $3.50.

Mothers should see these Suits. You know value. You know your boy's clothes-wrecking propensities.

Come to us. We're full of economical suggestions. No matter what your money is, we'll help you to make it go as far as it can. Come! The verdict is nearly always in our favour. It isn't often that the careful buyer decides against us.

"TOUGH CLOTHES FOR THE BOYS" That's our Motto.

HOUSE OF COMMONS.

Offensively Partisan Civil Servants Under Discussion.

SOME ARE ALREADY DISMISSED

A Man May Hold Party Opinions and Vote as He Pleases, But if He Wishes to Become a Politician He May Get an Opportunity to Do So.

Ottawa, Sept. 1.—In the House of Comons to-day upon the order of the day being calle , Sir Charles Tupper asked that the papers relating to the fast-line service should be laid on the table. The Opposition leader said that, with a question of so much importance, and one in regard to which there had been some differences of opinion expressed in the press as to the actual facts, it was very desirable that all the papers shou l be brought down.

Mr. Laurier replied that this was a question that the Government had had under consideration. Communication with the Imperial authorities had been going on. He would be in a position within a day or two to state whether the Government could lay on the table all the papers. He was himself anxious that they should be brought down.

The debate upon the question of offensive partisanship on the part of Government officials was resumed by Mr. Bell, the colleague of Sir Hibbert Tupper in the representation of Pictou. Mr. Bell discussed the general principle as to what should be the treatment accorded officials who had participated in the campaign, and then launched forth a criticism of the minister of Marine and Fisheries for having dismissed the sub-agents of the Marine and Fisheries Department, Noonan and Davis, for having engaged in the contest in behalf of himself and Sir Hibbert Tupper. Mr. Bell, a speaker of considerable fluency, declared that the sentiment of the country was adverse to the decapitation of officials under circumstances similar to those under which the Pictou dismissals occurred. To follow out such a policy, he held, would have a deteriorating effect upon the civil service of Canada.

Mr. Foster called upon the Premier to declare himself on this matter, and went on to refer to what he termed the alliance between the Liberals in Provincial and Federal politics. In this connection he asked Mr. Britton, the member for Kingston, whether or not at the time he became a candidate for the House of Commons he was an employe of the Ontario Government.

Mr. Britton said he had no objection to answer the question. He was in receipt of a salary of $3500 a year, which he sacrificed to oblige his friends in Kingston. (Government cheers.)

Mr. Lister: If he had been a Tory he would have held on to his office. (Renewed cheers.)

Mr. Foster: No, but if he had been defeated he would have been immediately reappointed to his office by the Ontario Government. (Opposition cheers.)

Mr. Britton, rising again, said he did not wish that there should be any misunderstanding. He did not resign his office, because by becoming a member of the House of Commons the statute disqualified him for retaining it.

Mr. Foster said it was then clear that if Mr. Britton had not been elected he would have retained his office under the Ontario Government. (Opposition cheers)—and once more would have been seen the not very edifying spectacle of an official of the Ontario Government running as a candidate for the Dominion House without any disability attaching to it. In conclusion, he again urged Mr. Laurier to define his position.

Mr. Laurier said it was quite true he had not rushed into the debate because he did not wish to countenance the action of the Opposition in trying to protract the session. Mr. Foster had introduced a subject which was quite foreign to the discussion. He had referred to the election in "Queensbury." Any observations on that point would have come with better taste with Mr. Blair in the House. Mr. Foster had referred to the provincial officers being candidates. The late Government allowed Mr. Vanasse, harbor master of Montreal, to run for Yamaska, and on his defeat that gentleman had been reappointed to his own position. He (Mr. Laurier) had been asked for his views on this matter. He had expressed them again and again and especially in 1891, when the highest officer under the Government, the High Commissioner himself left his post in London to come and take part in that election to the scandal of the whole population. (Loud Ministerial cheers.) After having done his duty to his party, the High Commissioner returned to his office in London, charging his expenses to the country. (Ministerial cheers and laughter.)

Personally he (Mr. Laurier) was strongly opposed to the American system embraced in the sentence, "To the victors the spoils," but he held that if an officer in the public service chose to be a politician he should be given every opportunity by his (Mr. Laurier's) Government to be a politician. (Loud Ministerial cheers.) The cause of the abominable practice in the States was that an incoming Government could not trust a man who had actively opposed them in political warfare. Personally he objected to no officer holding views in favor of one party or the other and exercising the right of the franchise, but, said the Premier, if he has worn the party badges, if he has been seen on public platforms, if he has taken part in party processions, if he has actively and offensively promoted the interests of a candidate of his party that man has taken his official life in his hands. (Loud Ministerial cheers.) The Government did not want to act arbitrarily in this or any other matter. Every man ought to have the right to be heard, but when the facts are against him he must be given every opportunity to be a politician in every sense of the word. (Ministerial cheers.)

Sir Charles Tupper said he would not have risen, but for Mr. Laurier's reference to himself. The hon. gentleman charged him with being guilty of an act of grave impropriety by coming out when High Commissioner and taking part in the elections of 1891. The circumstances, however, at the time were of a very exceptional character. (Derisive Ministerial cheers.) In 1887-88 he had at Sir John Macdonald's request come out to Canada, but before doing so he resigned the High Commissionership and accepted the portfolio of Finance Minister, and therefore took a natural and legitimate part. Under ordinary circumstances he did not think gentlemen who held the position of representative of Canada in London should take part in partisan politics. He had taken part in elections on the ground that he believed British institutions were in danger. (Oppositions cheers and Ministerial "Oh, oh's.") It would require more noise than the gentlemen opposite were making to controvert that position. What was the policy of the Liberals of that time? Unrestricted reciprocity with the United States.

Mr. Davies: The hon. gentleman previously made a proposition of that nature himself.

Sir Charles Tupper: The hon. gentleman makes a statement which does not do credit to his intelligence if he believes it.

Mr. Davies said that he had heard Sir Charles Tupper admit in 1888 that he had made such an offer to Mr. Bayard at Washington.

Sir Charles Tupper: It does little credit to the hon. gentleman's intelligence if he cannot discriminate between unrestricted reciprocity with the United States and an unrestricted offer of reciprocity. (Opposition cheers.) Continuing, he said that the effect of the Liberal policy of that time would have been to have compelled us to adopt the same tariff as the United States, and to turn our backs on the Mother Country. (Derisive Ministerial cheers.)

For proof of that statement, he would cite to them the authority, not of a Liberal-Conservative, but of the greatest man who had adorned the Liberal party since Confederation, the Liberal leader for many years in the House of Commons, Hon. Edward Blake.

Sir Richard Cartwright wanted to know what member of the civil service in England was, say, a member of a Candidate Committee.

Sir Charles instanced officers of the army who were frequently in Parliament opposed to the Government.

To this Sir Richard replied that this obtained in Canada without hindrance. Continuing, Sir Richard remarked that in 1887 Sir Charles came over, it was said, in the expectation of getting the leadership in return for his assistance, but, as it happened, the goods couldn't be delivered.

Sir Charles observed that there was not an atom of foundation for the statement.

"Then," retorted Sir Richard, "it only goes to show what very extraordinary rumors get about among very well-informed people."

After this the Minister of Trade and Commerce addressed himself to the topic of the debate, and laid down the principle that while a civil servant should not be interfered with for exercising his undoubted right to vote, if he took an active part in elections he must take the consequences, and talking about Ontario officials, what said and sustenance, he asked, did not the hon. gentlemen opposite obtain from the employes of the Quebec Government?

Sir Charles Tupper (laughing): Evidently they did very little.

They did the best they could, and what man can do more? replied Sir Richard. And, in conclusion, he reminded the House that in 1873 and 1874 the Government of Alexander Mackenzie had daily and hourly evidence that they were carrying on daily and hourly their work in a nest of traitors. Every paper that was sent to council was communicated by somebody or other to the Opposition. He would not say that every member of the civil service was guilty, but in those two years the confidence that ought to exist between the civil service and the heads of departments was flagrantly violated. Such a condition would not be tolerated again. (Ministerial cheers.)

Hugh John Macdonald rose immediately after dinner and for over half an hour held the attention of the House and crowded galleries. He was greeted with loud Opposition applause. He said that, personally, he had little to complain of on the matter of dismissals, few heads being dropped as yet in Winnipeg, whether it was because Mr. Martin had less influence with the Liberals now that he was out of the House, or that he was more merciful than others. (Cheers.) He desired, however, to call attention to the case of Mr. Baldwinson, the Icelandic immigration agent, whose work during the past 13 years as immigration agent for Canada, had been most successful, and yet Mr. Baldwinson had, without any charge being preferred against him, been dismissed on a fortnight's notice. As far as he knew, Baldwinson had not taken part in the Dominion elections, although he had in local politics. The principles of Liberals were opposed to any connection between the Dominion and provincial politics. In Winnipeg the provincial employes were active opponents of his own, but if the Conservatives attained power there, he would not ask their dismissal on that account. The candidate in Nipissing was a provincial employe and still is. The Liberal member in the House for Selkirk was, and so far as he knew, was still an official of the Manitoba Government.

Mr. McDonnell (Selkirk): I am not at this moment in receipt of a salary from the Manitoba Government.

Mr. Macdonald (Winnipeg): I am glad; rather I am sorry to hear it, for we want all the money we are able to get in Manitoba, and if they are giving double salaries, I shall be pleased if they go to such good fellows as my honorable friend. (Cheers and laughter.) He trusted the Government would deal in a just manner towards the civil servants to whom, as a body, he paid a very high tribute.

Replying to Sir Richard Cartwright's strictures upon the position of the Conservative party on the question of reciprocity, he pointed out that the party was never opposed to a fair measure of reciprocity. Neither that party nor the Canadian Parliament, but the Government of the United States had terminated the old reciprocity, the intention being to humble Canada, but instead it spurred this country to greater national activity. Even George Brown found he could not obtain reciprocity with the United States without agreeing to discriminate against the Mother Country. That Liberals would not consent to, being as loyal in sentiment as Conservatives although Sir Richard Cartwright had been willing to take chances in 1891.

Mr. McDonnell (Selkirk) expressed the opinion that the Government would have firmness enough to fire every civil servant who had taken part in the election and that without any royal commission of enquiry. Friends of the Government could give them all the necessary information and they should not mind what the members of the Opposition said about it. (Ministerial cheers.)

Before taking up the first item, Mr. Foster said he desired to call the attention of the House to a few reflections regarding the estimates brought down. It had been the contention of the Liberals for years that there were scores of useless officials throughout the country whose only duty was to draw their salaries. Mr. McMullen session after session had thundered against the Government for its great expenditure and yet to-day there was before the House a civil Government estimate for $1,300,000 out of the consolidated fund, a showing of only $12,000, as compared with the estimate brought down last session. No provision had been made for a second session of Parliament, and if the estimate had properly been made for the current year should have been $13,825,787. The leader of the present Government within the past two or three years had held out hopes of reducing expenditures one, two or three million. Mr. Laurier had even put it at four millions, but there were no evidences of retrenchment in their estimates. There was no indication that they were going to carry out their pledges and promises.

Mr. McMullen said he still believed the Government would make material reductions in the civil service, but they had required time to look into the matter.

Mr. Fielding thought the Government had gone far to put the hon. gentleman (Mr. Foster) in an amicable frame of mind by paying him the compliment of taking his estimates for the time being. There might be some ground for the hon. gentleman's criticism of the Government had presented the estimates without the statement with which, however, they had been accompanied, that the Government had been in office too short a time to be able to know whether all the money asked for would be needed, and that an investigation would be made, and no more money spent than was necessary. The hon. gentleman had prophesied that the estimates would be $41,000,000. It would be quite time enough to ask the Government to answer to $41,000,000 when they submitted estimates to that amount. The Government would get the $39,200,000 from the same place that the hon. gentleman intended to get $38,300,000. He did hope, Mr. Fielding went on, that it would be proved that all the money appropriated would not be necessary. Speaking from what he had heard and seen he believed the civil service was over-manned. After a few more remarks from Mr. Foster, Mr. Fielding cleverly turned aside the debate by intervening with the brisk, businesslike suggestion that the first item to be taken up be the item for the militia camps. Before the committee had recovered from its surprise the bone of contention which Mr. Foster has tossed upon the floor was passed aside and members were listening to the explanation of the Minister of Militia of $446,500 for annual drill camps. He explained that it was the intention to drill the whole force within the present fiscal year. The item was passed.

The committee turned back to the first of the book and took up the vote of $165,400 for charges of management. Dr. Montague asked the Government as to whether there would be any change of policy in regard to the rate of interest to be allowed upon its deposits in Government savings banks.

Mr. Fielding replied that the matter had been under consideration but no determination had been reached.

Upon the vote of $7100, for the office of the Assistant Receiver-General at Toronto Mr. Foster asked if any changes in the officials were contemplated.

The Finance Minister said that there was no disposition to make any immediate changes. Of course the Government would have to take into consideration matters as they occurred.

The vote was passed as well as two or three other items. Several items had to stand because the Ministers were not able to give information respecting them.

Mr. Lister charged the Opposition with obstruction. It was evident they wanted to spin the session out for 30 days.

Mr. Taylor said he had heard a report that the Liberals had decided today to make the session last 30 days, and to endeavor to put the responsibility on the Opposition.

Mr. Lister denied this.

The House adjourned at 11.45.

The Father's Reason

for buying school suits for his boys at H. LeBrun & Co.'s is that the prices are so low they make hard times seem prosperous and do not empty a slender purse.

That

Extreme tired feeling afflicts nearly everybody at this season. The hustlers cease to push, the tireless grow weary, the energetic become enervated. You know just what we mean. Some men and women endeavor temporarily to overcome that

Tired

Feeling by great force of will. But this is unsafe, as it pulls powerfully upon the nervous system, which will not long stand such strain. Too many people "work on their nerves," and the result is seen in unfortunate wrecks marked "nervous prostration," in every direction. That tired

Feel-

ing is a positive proof of thin, weak, impure blood; for, if the blood is rich, red, vitalized and vigorous, it imparts life and energy to every nerve, organ and tissue of the body. The necessity of taking Hood's Sarsaparilla for that tired feeling is, therefore, apparent to every one, and the good it will do you is equally beyond question. Remember that

Hood's
Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are easy to take, easy to operate. 25 cents.

Daily Examiner.

WEDNESDAY, SEPTEMBER 2, 1896.

NO PRECEDENTS NEEDED.

The Toronto Star, speaking of the correspondence over the refusal of the Governor-General to assent to certain of Sir Charles Tupper's appointments makes the following pat remarks:

"There was no precedent to guide the Governor-General, because neither in Canada nor in England had a Government ever been formed after the life of Parliament had expired, and possibly never on earth had a Premier attempted such a wholesale division of spoil as was attempted by Sir Charles in this case.

"The dilemma that confronted Lord Aberdeen was entirely new. He had to act without the guidance of authority; he had to become an authority. It might have occurred to the late Premier that a Ministry in such an unusual degree provisional as was his own should have experienced some delicacy about asserting itself. He not only formed his Ministry after the death of Parliament, his Ministry not only lacked the formal endorsation of the House, and his party and his Government had not merely been repudiated at the polls, but the very men surrounding him and bearing the hollow titles of Ministers of the Crown were in many cases men who had just been overthrown at the polls and did not even enjoy the status of private members of Parliament.

"This whole chapter of our political history is degrading and immoral. The Governor-General may be severely criticised by interested parties, but history will declare that he acted in the only way that a wholesome gentleman could. If Sir Charles presses the matter it will inevitably provoke such a searching inquiry into the whole story of Government patronage in its relation to the independence of Parliament that Sir Charles and his associates will very quickly be put on the defensive.

"I am as strongly opposed as anyone can be to interference on the part of the Governor General, but I hold that the fault in this case lies with the Premier who invited and provoked interference by attempting an unprecedented use of patronage whilst his Government was 'in an unusual degree provisional,' being dead by effluxion of time, dead by the will of the people and dead by the personal defeat of half its members."

FARMERS AND FIRE INSURANCE

During the past summer there has been an unusual number of fires arising from lightning and in the majority of cases the buildings destroyed have been the barns of farmers, in most cases filled with the crops of the season and in most cases both buildings and crops were unprotected by insurance. In these cases the loss is practically total and the farmer finds himself in a pitiable condition, with nothing in most cases to fall back upon but the good offices of his neighbours. A fair insurance on the property and crop would be at such times a great benefit, and it is natural that the neighbours of a man who has had a loss by fire, who have their own property insured, have a feeling that it is a little hard that they should pay for their own insurance and at the same time be compelled by the law of charity and neighbourliness to contribute to the help of a neighbour who has been too careless to protect himself. Of course there is some force in the plea that the rates of insurance for farm buildings are somewhat high, due in some measure to the lack of appliances for subduing a fire when started, besides other causes, and the great danger in dry seasons of loss by forest fires, which are due, in nine cases out of ten, to carelessness. But it is hardly a question that, in spite of a high rate of insurance, it would not pay the farmer to carry a reasonable insurance. Considering the risk, and in case of fire the almost certainty, of total loss, it would pay the farmer to retrench in some other way for the sake of the great benefit from insurance, not only in actual money benefit, but in the peace of mind and sounder sleep that will come to him at night, from the consciousness that in the event of accident he is protected, and from a fuller trust in the Divine providence which arises from a sense of his having done his part in recognizing the truth of the saying that heaven helps those who help themselves.

LORD ABERDEEN'S "offence" is shared by the people of Canada. They declared they had no confidence in the Tupper Government and His Excellency merely followed the popular precedent.

CONSERVATIVE politicians and newspapers of the baser sort have no respect for anybody however high, who interferes with their hold on the spoils of office. It is proper to discuss, criticise if you will, Lord Aberdeen's action in refusing to permit the Tupper government to exercise powers to which they had no right, but it should be done in a decent way. The Hamilton Spectator has done the decidedly indecent thing in dragging Lady Aberdeen's name into the controversy. Tory loyalty is very ardent, so long as it is fed on the fat spoils of office and place, but once thwart the greed of the party for loot, and we have Parliament buildings burned, a Governor-General pelted with rotten eggs and now we have a noble lady insulted by dragging her name inconsequently into an affair with which she had no more to do than the late good Queen Bess.

NORTH HARVEY.

From Our Own Correspondent.

Mr. Edward Thomas, sr., met with a heavy loss the other day. It seems that he started to burn some brush heaps near his stable to head off the bush fire then raging when a spark from the heap caught in the building and not having water, the building and contents were consumed. He lost his horse and harness and nearly all the implements he possessed. He has the sympathy of the whole neighbourhood in his loss. It is strange that people will persist in setting out fires without having means at hand to control them.

We are having considerable rain here now and all danger of bush fires is over for this season, for which most of us are very thankful. Great as the damage is it might have been worse, for, at one time, the whole country was threatened.

W. Lee and W. Arscott each got a stack of beaver hay burned last week by the fire burning up near James Ward's. It also nearly burned out Mr. Ward.

Daniel Arscott has raised a new barn this last week. It begins to look as if Dan meant business and intended to settle down permanently and join the benedicts, which we all hope he may; then we will be invited to the house warming of course. We all wish him success.

There was a paring bee at W. Beatty's the other night, when about twenty of the young people gathered and spent a jolly night. It is expected that this is only the beginning of these gatherings, as apples are plentiful here.

The two Misses Harris are home from Lindsay on a visit to their parents. They are both looking well and and seem as if both were enjoying life.

Mr. and Mrs. John Kingsborough, of Kinmount, were visiting his father, Mr. Thos. Kingsburgh.

William Late is clap-boarding his house, taking advantage of the fall in the price of lumber in Mr. M. Boyd's yard. Now is a good time for anyone to build, as lumber may take a rise again soon.

AMERICAN INSURANCE AND CANADIAN POLICY-HOLDERS.

It is becoming a question of practical politics for Canadian policy holders in American insurance companies in which kind of money their claims will be paid when their policies mature. Should Mr. Bryan be elected and the United States go to a silver basis, American companies would have a perfect right to pay their claims—unless otherwise provided in the policy—in American silver dollars, which are now worth a trifle over fifty cents. This would mean, if this ratio were maintained, the cutting of one's life insurance in two; and the man who paid premiums on $5,000 would really leave his family only about one-half that amount.

Some American companies are endorsing their policies "payable in gold," or "payable in the lawful money of Canada." This should make them as good as ever, if the securities deposited by these companies at Ottawa remain as valuable as ever. This latter is a point for the Government to carefully investigate. It will not be worth much to a person with a claim against an American company to have his policy endorsed "payable in the lawful money of Canada," if the company does not have sufficient money on deposit at Ottawa to cover his claim. Then, supposing the company to fight his claim, he must sue the United States, and get his award in American money—i.e., Bryan silver dollars. Now this is a real enough danger if the deposits of American companies with the Canadian Government are composed in whole or in part of American securities. For with the enactment of free silver at Washington American securities will be very likely to go to a silver basis too; with the result that the American deposits at Ottawa will fall far below their face value. Thus it might come about that claims payable in Canada could not be collected in the Dominion, because the company's assets here had all been eaten up.

This is a matter for the Government Superintendent of Insurance to look to. There should be no doubt as to the permanent value of the deposits placed by the American companies in the hands of the Dominion Government. This is the keystone of the arch. To be sure of getting Canadian money for our claims we must be able to sue for them in Canada and collect the award in Canada. It is ridiculous to suppose that if the United States goes to a silver basis, and if the Insurance Companies are paying American claimants in silver, that the American courts will compel them to pay the Britisher in gold. Our only security is to keep the Canadian end of the business in Canada.

To accomplish this two things must be had—1, the securities deposited at Ottawa must not be of a character to be affected by a victory for Mr. Bryan; and, 2, all policies must be made payable in Canada and in Canadian money, or its only equivalent—gold.—Star.

Baby Nearly Dead.

SIRS.—My baby was very bad with summer complaint, and I thought he would die, until I tried Dr. Fowler's Extract of Wild Strawberry. With the first dose I noticed a change for the better, and now he is cured, and fat and healthy. MRS. A. NORMANDIN, London, Ont.

ANNIVERSARY GREETING.

OAK HALL

OAK HALL has been with you almost a year, and we see no more fitting way of showing our appreciation of your goodwill and liberal patronage during the past twelve months, than by acknowledging our gratification for this same in advance of our initatory year in Peterborough. We intend to make an especial effort to please our large and increasing circle of purchasers by opening out for your inspection the finest Fall stock of Clothing ever offered here. The same will be found—

PLENTEOUS IN QUANTITY.
EXTENSIVE IN VARIETY.
LIBERAL IN PRICE.

It may seem chilly to talk **ULTERS** and **OVERCOATS** but it is well to think about these early.

ULSTERS are very much the same as last year, although a trifle longer. Prices start at $4.00.

DRESS OVERCOATS, Double Breasted, deep Collar, prices start at $3.50.

SUITS that smack of the very latest fall cut. Prices start at $3.25, dark shades prevailing.

BOY'S SUITS fresh from the hands of our own expert tailors and cutters. Special care has been shown in the make and finish.

CHILDREN'S DEPARTMENT. Here is where our practical men exert themselves to please the most exacting wants of parent and child.

OAK HALL

Corner George and Hunter Streets,

W. J. WATTAM, - - - - Manager.

To Remove Warts.

Don't torture your children, cows, horses and other helpless creatures by removing warts by tying, cutting, burning or with acids or caustic, or any of the barbarous and inhuman methods recommended by so many. It is a needless cruelty.

A simple, cheap, effective and absolutely painless method is to keep the wart, be it large or small, saturated, or at least wet it two or three times each day, with sweet oil or castor oil. In a short time the warts shrink and drop off themselves, leaving no scar.

It is quite possible, though I cannot say with certainty, having never tried it, that linseed or other oils, or even lard would answer as well. I am inclined to think that it would. The most obstinate cases yield to castor oil from two to three weeks, others much sooner, and the warts do not grow again, as is sometimes the case after the use of a knife, caustic, or acids. No sore is made, if the wart is not pulled off, and if the application of the oil is omitted or forgotten for a day or two, the cure is retarded, that is all.—Farm, Field and Fireside.

To Stop Bleeding.

To stop the bleeding of a cut or wound dip a cloth in turpentine and bind the wound.

The D. & L. Emulsion

Is invaluable, if you are run down, as it is a food as well as a medicine.

AROUSED!

Munyon's Coming Has Stirred Ontario Mightily.

WONDERFUL WORK OF THE DOCTORS.

The Offices in Toronto Crowded, While all Through the Dominion Comes Demands for the Munyon Remedies—Read What Your Toronto Neighbours Have to Say.

READ! READ! READ!

Mr. H. A. Taylor, Toronto's well-known draper, in business at 119 King street west, Toronto, says: "I was troubled with a pain in my kidneys, superinduced by a sudden chill while in the water. I began using Munyon's Kidney Cure, and as I took the medicine the pain got less each day. It is certainly a great medicine." 7

Munyon's Rheumatism Cure seldom fails to relieve in one to three hours, and cures in a few days. Price, 25c.

Munyon's Dyspepsia Cure positively cures all forms of indigestion and stomach trouble. Price, 25c.

Munyon's Cold Cure prevents pneumonia and breaks up a cold in a few hours. Price, 25c.

Munyon's Cough Cure stops coughs, night sweats, allays soreness, and speedily heals the lungs. Price, 25c.

Munyon's Kidney Cure speedily cures pains in the back, loins and groins and all forms of kidney disease. Price, 25c.

Munyon's Nerve Cure cures all the symptoms of nervous exhaustion, such as depressed spirits, failure of memory, restless and sleepless nights, pains in the head and dizziness. It stimulates and strengthens the nerves and is a wonderful tonic. Price, 25c.

Munyon's Headache Cure stops headache in three minutes. Price, 25c.

Munyon's Pile Ointment positively cures all forms of piles. Price, 25c.

Munyon's Blood Cure eradicates all impurities of the blood. Price, 25c.

Munyon's Liver Cure corrects headache, biliousness, jaundice, constipation and all liver diseases. Price, 25c.

Munyon's Female Remedies are a boon to all women.

Munyon's Asthma Cure and Herbs are guaranteed to relieve asthma in three minutes and cure in five days. Price, 50c each.

Munyon's Catarrh Remedies never fail. The Catarrh Cure—price 25c.—eradicates the disease from the system, and the Catarrh Tablets—price 25c—cleanse and heal the parts.

Munyon's Vitalizer restores lost powers to weak men. Price, $1.

A separate cure for each disease. At all druggists, mostly 25c a vial.

Your druggist will present you free with a copy of the "Guide to Health," a valuable little medical publication that should be in every home.

Personal letters to Prof. Munyon, 11-13 Albert street, Toronto, answered with free medical advice for any disease.

A TERRIBLE WAY TO DIE.

M. A. Mitchell Puts the Muzzle of a Rifle in His Mouth and Sends a Bullet Through His Brain.

Walkerville, Ont., Sept. 1.—Andrew Mitchell, a farmer living on Mr. H. A. Walker's farm, a short distance from Walkerville, committed suicide this morning. Mr. Mitchell was usually very particular about his appearance at his meals, but this morning came to his breakfast later than usual with his hair dishevelled and only partly dressed. He usually sat at the head of the table, but this morning he took a seat at the side. Upon his wife calling his attention to the mistake, he laughingly got up and took his seat at the head. After breakfast his wife told him he had better get dressed and go down town and attend to some business that had to be transacted. He did not answer her, but went into the kitchen, took some cartridges from the cupboard there and went quietly up stairs, unknown to any of the family, taking possession of a rifle from the closet, where his wife had hidden it from the children. It is supposed that he placed the muzzle of the gun in his mouth, held it in place with one hand, and pulled the trigger with the other. The hand that held the muzzle is badly burned. The ball passed through the roof of the mouth, pierced the brain and came out of the top of his head, and entered the ceiling above. Mrs. Mitchell heard the shot and, on going up stairs, found her husband lying in a heap on the floor, stone dead. An inquest was held this morning, and a verdict rendered that he came to his death by his own hand, while suffering from melancholia. Mr. Mitchell was formerly of East Douglas, Mass.

QUEER PLACE FOR A HAT PIN.

Though Five and a Half Inches Long it Was Taken From a Woman's Shoulder.

London, Ont., Sept. 1.—Mrs. Hannah Jamieson, an aged widow, is confined to her bed at her home, 150 Waterloo-street. Her case is a somewhat peculiar one, and may prove serious. Sunday a doctor was called in, and discovered that the pain she had been complaining of was caused by an old hat pin, 5 1-2 inches long, and extracted it. The pin was embedded in her right shoulder and when extracted was considerably rusted. The danger now lies in the fact that blood poisoning may set in.

Brazil Keeps Itself Right.

Rome, Aug. 30.—It is semi-officially announced that the Brazilian Government has promised Italy that active steps shall be taken to punish the persons who recently insulted the Italian flag and that no attack upon it will be permitted to go unpunished.

When Adam Was a Boy.

This was years ago, for Adam has been dead quite awhile, though to be sure he has left a progeny that keeps up pretty well the family characteristics. There are wise men to-day who delve into the misty past and tell us all sorts of things, but they are silent on those events that would make Adam interesting to the modern man. What did Adam do when he ran a sliver under his finger nail? Had he to take measles and whooping cough? If he had corns did he cut them with a razor or did he stretch forth a hand in the future and get a bottle of Putnam's Painless Corn Extractor? Putnam's is the best, is sure, safe, painless, and acts in twenty-four hours.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

The Dinner Bell.

The dinner bell has no charms for a dyspeptic or bilious person. To enjoy your food, avoid dyspepsia and have healthy action of the liver, use Laxa-Liver Pills, small, sure, never gripe. One pill after a too-hearty meal removes all ill-effects. They cure indigestion and give good appetite.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 359 George Street.

Norway Pine Syrup cures coughs.
Norway Pine Syrup cures bronchitis.
Norway Pine Syrup heals the lungs.

A LIBERAL CAUCUS.

The First Held Since Their Return to Power.

SPEECHES BY LEADING MINISTERS

Whips Chosen for the Different Provinces—A Manchester Gentleman Who Wants a Concession in Canadian Trade With England—Other Matters at the Capital.

Ottawa, Sept. 1.—The Liberals held the first caucus of the session this morning in room 16. Mr. Scriver, the veteran chairman of the caucus, presided and all the Ministers and members were present. The Premier was received with great cheering, and Sir Richard Cartwright, who entered later, got a cordial reception, amounting to an ovation. The Premier and Sir Richard Cartwright, Mr. Blair, Mr. Paterson and other Ministers addressed the gathering. The school question was not mentioned. The following whips were elected:

Ontario—Messrs. Sutherland and Gibson.

Quebec—Mr. Bourassa.

Maritime Provinces—Mr. Flint.

Manitoba and the Territories—Mr. Richardson.

British Columbia—Mr. Bostock.

Mr. Stevens, superintendent of the Manchester Ship Canal, had an interview with Messrs. Cartwright and Fisher to-day with reference to the development of Canadian trade by the Manchester route. As is well known, Manchester is now a seaport, but the shipping arrivals are not up to the expectations of the Canal Company. Manchester is anxious for a direct line of steamers from Canada. The Canal Company is prepared to offer liberal inducements in that direction.

Lord Chief Justice Russell and Sir Frank Lockwood were again interested listeners to the debates in the House this afternoon. Sir Frank is quite an artist, and took several sketches during the afternoon, among them being Mr. Laurier addressing the House; Col. Harry Smith, Sergeant-at-Arms, behind his desk, and bald-headed Clerk Roleau in a meditative attitude.

It is generally understod that at an early opportunity the Government will introduce a bill for the purpose of re-establishing third-class clerkships. The abolition of this class has caused great confusion, many prominent Ministers not being able to give their private secretaries appointments in the public service owing to the fact that no second-class vacancies existed, there being no third-class positions to appoint them to.

Arrangements are made for a big deputation to wait upon the Government on Thursday. The Toronto men who compose the major portion of the deputation will be here on the morning train, and there will be a meeting held at 10 o'clock, after which they will have their interview with the First Minister and receive from him the reply to the petition. From what fell from the lips of Mr. Laurier in the House of Commons they are certain of a favorable answer that may pave a way for a resolution looking towards the attainment of their object in the House.

Hon. Mr. Dobell is Acting Minister of the Interior, so far as the business of that department in the Commons is concerned.

Lieut.-Col. Hon. J. M. Gibson and Mrs. Gibson and Col. Moore, Hamilton arrived here this morning for the D. R. A. matches and social festivities.

Mayor Robertson of St. John is in the city.

The Lieutenant-Governor in Council has appointed Judge Bell of Chatham as the third arbitrator in the matter of the corporation of Ottawa and Carleton County Council.

Several deputations were in the city asking appropriations for public works or harbor improvements. Messrs. Belcher, Bowman and McLeod are here from Southampton in this connection, while Mayor McPherson and Col. Scott are here from Kincardine.

Solicitor-General Fitzpatrick entertained Lord Russell, Sir Frank Lockwood and a number of legal gentlemen at luncheon to-day.

Mr. B. Hayes of the House of Commons staff is a first cousin of Lord Russell.

A C. P. R. CONDUCTOR.

After Two Years' Misery was Cured by Ten Boxes of Dodd's Kidney Pills.

Prescott, (Special) Aug. 24.—For a long time much sympathy had been felt and expressed for Mr. Wm. Freeman, a very popular conductor of the C.P.R., who had been rendered unfit for duty the past few years by a peculiar and distressing form of kidney disease. It now transpires, much to the delight of his friends, that he has been enabled to resume his regular trips. He claims, as the results of using only ten boxes of Dodd's Kidney Pills, that he has entirely recovered, and that he never felt better in his life, and believes that these Pills have cured him to stay cured.

Jonah and the Conundrum Fiend.

How did Jonah feel when the whale swallowed him? Down in the mouth.

Who was Jonah's tutor? The whale that brought him up.

Who brought the whale up? Jonah.

What did Jonah think when the whale swallowed him? He thought he was going to blubber, but he didn't.

What was the difference between the Duke of Wellington and Jonah? One was brought up at Eton, the other was eaten and brought up.

Why is a dishonest milkman like the fish that swallowed Jonah? Because he finds a profit (prophet) in the water.

How do we know that Joseph was a straight as well as an upright man? Because Pharaoh made a ruler of him. —The Conundrum Fiend.

Cementing Broken Glass.

To cement broken glass dissolve a little isinglass in master varnish. Use the least possible quantity.

Which is worse, imprisonment for life or a life-long disease, like scrofula, for example? The former, would certainly be preferable were it not that Ayer's Sarsaparilla can always come to the rescue and give the poor sufferer health, strength and happiness.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says: "After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

Children Cry for Pitcher's Castoria.

How He Described It.

It takes a business man to describe a costume to his wife. A busy son of commerce, after seeing a very taking dress on a very taking young lady recently, informed the partner of his joys tha: "It was fine. The dress was made of some kind of cloth, with some kind of trimming. It was sorter lilac, or shrimp pink in color, and had for waist some sort of basque that was indescribable. She wore one of those hats you sometimes see on women, and altogether gave an effect that I wish you could have seen."

The Guildhall Library.

The city of London can be congratulated on having purchased for the Guildhall library the splendid philological library of the late Prince Lucien Bonaparte, who died a few years ago in England. It was Prince Lucien, by the bye, whose will contained the queer request that the last letter addressed to him by Queen Victoria should be placed in the pocket of the evening dress coat in which he was buried.—Marquise de Fontenoy, in Chicago Record.

Loose clothes and downy cushions bring only a negative sort of comfort to the woman who is suffering with some disease or derangement of the organs distinctly feminine. Some clothes and some positions make the pain and the discomfort seem less. Perhaps the nerves are most affected and this in turn disturbs the digestion. Nothing will ever completely relieve but a radical cure. The start of so-called "female complaints" may be a very slight thing indeed. It may be that in the beginning some small hygenic measures would stop the trouble. Certainly at this time, a little bit of the right medicine would stop it. When the trouble becomes worse, it is harder to cure, but still it can be cured. Dr. Pierce's Favourite Prescription will positively cure any trouble of this character. It may be absolutely relied upon. It affords lasting relief to a woman whose natural modesty has kept her from consulting a physician.

Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

W. C. MUDGE.

Break Up a Cold in Time BY USING PYNY PECTORAL

The Quick Cure for COUGHS, COLDS, CROUP, BRONCHITIS, HOARSENESS, etc.

MRS. JOSEPH NORWICK, of 68 Sorauren Ave., Toronto, writes: "Pyny-Pectoral has never failed to cure my children of croup after a few doses. It cured myself of a long-standing cough after several other remedies had failed. It has also proved an excellent cough cure for my family. I prefer it to any other medicine for coughs, croup or hoarseness."

H. O. BARBOUR, of Little Rocher, N.B., writes: "As a cure for coughs Pyny-Pectoral is the best selling medicine I have. My customers will have no other."

OFFICE—FURNITURE WAREHOUSE

TORONTO
INDUSTRIAL EXHIBITION.

SPECIAL NOTICE.

Visitors to the above who are musically inclined should carefully inspect The **MASON & RISCH PIANO** exhibit. Our stand is the first one on the left as you enter the Musical Pavilion. Our exhibit is not a large one, as we believe that the beautiful tones of instruments can be more fully appreciated in the quiet of our warerooms than amidst the bustle and confusion of an exhibition. We shall therefore make our principal exhibit at our warerooms, 32 King St. W., to which all visitors are cordially invited.

One of the most valuable paintings at the Art Gallery in the exhibition building will be the famous portrait of the Great Pianist Franz Liszt which was painted at his command by Baron Joukovsky, the Great Russian Artist, and presented to Messrs Mason & Risch as a tribute to the wonderful tone qualities of their Pianos. Every lover of Art should make it a point to see this painting. It is valued by experts at $5000.00.

The Mason & Risch Piano Co. L'td.

For sale by all Druggists.

WE HAVE NOT CHANGED OUR DECISION

To retire from business as quickly as circumstances will permit. But, as the Fall trade approaches we find ourselves with a large and varied stock of high-class Staple Dry Goods, which cannot be moved out without being well assorted with New Fall lines of the latest, leading Novelties of 1896.

We shall continue, therefore, during the Fall and early Winter months to keep a regular assortment of the leading Novelties for fashionable

Fall Wear.

The buying has been done with extreme care, but the stocks are comprehensive enough to satisfy every need, ranging from the newest things in **SILK AND WOOL DRESS GOODS,** for the super-fashionable, to the simplest effects in the quietest materials for people to whom a dollar is a dollar, or sometimes more.

It must not be forgotten, however, that our chief object is still to get entirely out of business. This will have its full effect on prices, and the new goods will have to share in the same general reduction necessary to accomplish a prompt clearance of the entire stock.

The Mother's Reason

for buying school suits for her boys at H. LeBrun & Co.'s is that she is sure of getting good goods, stylish make and careful workmanship. She knows about these things.

New Goods arriving daily from our own workshops, Grafton & Co., Clothing Manufacturers.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 23 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Sudden Death.

When passing through Campbellford, this morning, on his way from Marmora to Peterborough, Mr. George J. Horkins, of town; was apprised of the sudden death of his father, at Campbellford, the evening previous.

Every Man

has a preference even in what he eats. The bread and and pastry, if light and white, is always relished and appreciated. If your wife buys the flour at Mason & Co.'s you can always depend on having the best bread and pastry. 3d

The Steamer Undine,

after this week, will not continue the "Round the Lake" trips, leaving Chemong on Friday, and Lakefield on Saturday. Those desiring to make the round trip should avail themselves of the opportunity afforded this week. 1d

Found the Horse.

Mr. Robert Gibbs left yesterday to identify a horse which was found grazing in a field near Marmora and which was supposed to be the one which was stolen from him recently. This afternoon the Chief received a telegram as follows:—"Got horse but no buggy."

Hastings Contract.

Mr. Geo. Noble, plumber, has the contract for heating and plumbing the new residence of the parish priest at Hastings and in the new Union Bank recently erected in that village. Mr. Noble leaves town on Saturday to start the work on both these contracts.

HOUSE WANTED — A GENTLEMAN desiring to reside in Peterborough, wishes to purchase a centrally located Residence, with stable and driving shed in connection or with grounds on which the latter could be built. Any person having such for sale will state locality with an approximate value. All communications to be in by September 8th. E. FOSAM, EXAMINER Office.

School Opening.

No divided opinion as to the ability of the Peterborough Bookstore to serve the scholars with school books and school supplies. The newest of everything, the best of everything, and the biggest value in everything. The boys and girls have caught on to our store with open-eyed surprise and purchase with unvaried satisfaction. Our presents given away free with every purchase knocks the spots off them all.—A. H. STRATTON & Co.

People's Coal Company.

Why are so many people leaving their order with the People's Coal Co., Ltd.? Because it is the cheapest and purest hard coal in town, being free from iron, sulphur and slate. We will deliver in bags and weigh on market scales. Contrary to reports we have no connection with any other town company and our coal can only be bought through us. Do not be carried away by talk from interested parties, but try a bag for yourself. No charge unless satisfactory. We also handle Butts' Cannel, a very superior coal for grates. Office, 220 Charlotte street; Tel. 366; 1st door east of Aylmer street.

DEATH OF MR. ROBERT HAMILTON.

He Suddenly Passes Away at His Residence This Morning.

The many friends of Mr. Robert Hamilton will be deeply grieved to hear of his very sudden demise at his residence on Stanley avenue, Ashburnham, this morning.

Mr. Hamilton has not been feeling well for several months past, but was not thought at any time to be in danger. Although being seventy five years of age, he has up to the present enjoyed quite robust health. For some time past he has been at Minden with his old friend, Mr. Christopher Leary, in an endeavour to reinvigorate himself and on his return home was considerably better, though weak. He arose at his customary hour this morning, being assisted to dress by Mrs. Hamilton.

After eating his breakfast he sat reading until about ten o'clock, when his head suddenly dropped forward on the book, and the nurse feared that death had come to him thus suddenly. He revived, however, and was assisted to his room, where he gradually sank into a stupor and passed away at twenty minutes to eleven.

The deceased was married twice, his first wife having died about four years ago. He leaves a widow but no children. He was born in Ireland, but spent his youth in Yorkshire, England. Coming to Peterborough about forty years ago he established a hardware business, which he conducted for a number of years, afterwards moving to Port Hope, where he carried on a business of a like nature. Returning to Peterborough, Mr. Hamilton entered the employ of the Peter Hamilton Manufacturing Company, with whom he remained for some sixteen years, until his failing health caused his retirement.

The funeral will take place Friday from his late residence, Stanley avenue, Ashburnham, to the Little Lake cemetery, at three o'clock.

WE WILL BANQUET THE GOVERNOR-GENERAL

When He Comes to Peterborough to Open the Fall Fair on Sept. 22nd.

A meeting was called of representatives from the town and county councils and the Board of Directors of the Central Exhibition last evening in the office of the town clerk for the purpose of making arrangements for the entertainment of the Governor-General and Lady Aberdeen, on September 22nd, when Their Excellencies attend the opening of the fall fair.

Mayor Yelland was invited to take the chair and amongst those present were,—Town Councillors W. H. Moore, H. Phelan, H. Best, Warden Middleton, Reeve Forster, and the following members of the Central Exhibition Board of Directors,—President Geo. Elliott, Secretary W. J. Green and Directors H. C. Winch, James Davidson, Dawson Kennedy, T. M. Hunter, John Stothart and J. H. Garbutt; B. Shortly, President of the Board of Trade; Dr. Burnham, Chairman of the Board of Education; Lieut.-Col. H. C. Rogers and Lieut.-Col. Bell,

After a long discussion it was agreed that probably the best way to entertain the Governor-General was to banquet him, the cost not to exceed $300.00, of which sum the town, the county and the exhibition would each contribute a third. The details were left for arrangement to the following gentlemen composing a committee which will meet in the Town Clerk's office, on Saturday evening, at seven o'clock:—Mayor Yelland, chairman; W. J. Green, secretary; Councillors Best, Moore, Phelan, Langford; Warden Middleton, Reeves Forster, Anderson, Moloney, Casement, President Elliott, Directors Winch, Hunter, Kennedy and Davidson.

OUR BOYS AT OTTAWA.

57th Rangers at the Rifle Matches Yesterday.

Yesterday Ptes. J. B. Pentland and D. Cameron, in the Dominion of Canada match, scored 87 points out of a possible 105, winning $5.00 each. Staff Sergt. Bartlett scored 84 points, taking a $4.00 prize.

In the Minister of Militia match, competing against 453 marksmen, D. Cameron stood 13th, making 61 out of a possible 70. He won a $6.00 prize.

Fitzgerald's Coal and Wood.

Dry shingle wood at reduced prices to clear out at once. First-class hard wood charcoal on hand; best hard and soft coal, Lehigh, Scranton and Plymouth and Briar Hill soft coal.

Lost Child.

The little grandchild of Mr. Richard Winch strayed away from his residence this morning at 11 o'clock, and has not been seen since. Great anxiety is felt concerning the little girl's whereabouts. She is about three years old and was dressed in blue.

Telfordian Temperature Topics.

Wednesday, Sept. 2. — Temperature about the same, fine during the day and chilly at night, and again at this morning's observation the self-registering thermometer indicated 39 degrees above zero, inclining to frost which may bring rain.—THOS. TELFORD.

Last Night's Show.

The Wilson Dramatic Company is drawing tremendous houses every evening, and as all the town appears to be taking in the performance a criticism is almost unnecessary. It is sufficient to observe that naught but the most favourable comment is heard regarding the excellence with which the members of the caste assume their respective roles each evening.

Last Trip.

The City of Peterborough will make a round trip on Monday, Sept. 7th, Labour Day, to Jubilee, Gore's Landing and Harwood. Return tickets to Victoria Park, 25c.; to Jubilee, 40c.; to Gore's Landing and Harwood, 50c. Boat will leave Peterborough wharf at 8 a.m. and will call at Ashburnham wharf. Returning will leave Harwood at 2 p.m., Gore's Landing, 2.30 and Jubilee at 5 p.m. 4d52

Epworth League Convention.

The dates of the monster Epworth League convention to be held in Toronto next summer will, it is expected, be fixed for July 15, 16, 17 and 18. Rev. John Potts, D.D., who has just returned from visiting a number of summer assemblies in the United States, says that the people are so eagerly interested in the approaching international convention that they have everywhere insisted upon his giving an address upon Toronto and the big convention. He says that from all points of the United States Epworth Leaguers are coming by thousands and that it will be the biggest thing Toronto has ever known.

Private Curtis' Great Score.

The shooting with which Private Curtis, of the 57th, opened the shooting at the 500 yards range at the Dominion Rifle Association meet, at Ottawa, deserves special mention and praise. He was the first competitor at the opening of the 57th annual prize meeting of the Dominion Rifle Association this morning to finish with a clear score. He had a bullseye for sighting shot at 500 yards, five bullseyes on score, and fired three more tie shots, all of which were bullseyes, too. If Private Curtis keeps up this crack shooting through the meet, he will surely find himself looking bullseyes at Bisley next year. He's a "brick" to shoot.

PRESENTS for the Boys for the Girls

LINING UP FOR SCHOOL!

Tuesday morning, the tinkle, tinkle of the school bell will summon the scholars back to their tasks, and the army of young hopefuls will once more march in procession to their lessons, fresh from their six weeks of relaxation and play.

THE PETERBOROUGH BOOKSTORE

will, as usual, be headquarters for dealing out the accoutrements of learning.

Stacks of School Books and School Supplies.

are piled up ready for the wild rush of ambitious scholars expected during the next few days.

8 TONS OF SCHOOL SUPPLIES,
—To Start With.

10,000 SCRIBBLERS
—10 Different Kinds.

8,000 EXERCISE BOOKS
—8 Different Kinds.

Every Book Required
for Public and High School —and lots of them.

Largest Stock in Canada
and lowest prices—bar none

A fascinating Present given away to Every Scholar with every purchase. We never forget the Boys and Girls.

Bring the Boys and Girls to the PETERBOROUGH BOOKSTORE and we'll treat them as if they belonged to us.

TO RETAIN REV. J. J. RAE.

A Fourth Pastoral Term Unanimously Demanded.

A compliment was paid to the efficient work and popularity of Rev. J. J. Rae, pastor of the Charlotte street Methodist church, last night. At a regular meeting of the official Quarterly Board of the church held last night, the following resolution was unanimously passed:—

Moved by Mr. M. A. Morrison, and seconded by Mr. Joseph Batten, and resolved: That this quarterly official Board of the Charlotte street Methodist church assembled in its first regular board meeting of this conference year, desires to place on record its high appreciation of the services rendered our church during the past two years by our pastor, the Rev. J. J. Rae, and we feel that the work so successfully carried thus far will yield greater results if the pastoral term of Mr. Rae be extended to a fourth year. We therefore take this opportunity of extending a hearty invitation the Rev. Mr. Rae to remain our pastor for a fourth year, and trust that he as well as the Stationing Committee may comply with our request.

The vote was by ballot, and of the sixteen of the eighteen members who were present, every one cast his ballot for the retention of the services of Rev. Mr. Rae for a fourth year on the expiry of his present three years' term. The Board is thoroughly representative of the congregation, who will no doubt as unanimously endorse the spirit of the resolution as the Board passed it. And not only the congregation but the citizens generally, will also cast their vote to retain as long as possible a pastor, who not only by his eloquent preaching, but by his discharge of the duties of citizenship, has endeared himself to every class of the community.

When the action of the Board was made known to Rev. Mr. Rae he asked two weeks' time for consideration, and accordingly his answer to the resolution will be made at an adjourned meeting of the Board to be held a fortnight hence.

Our Children's 2-piece Suits are complete for the fall trade, Grafton & Co.

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; it will freshen you up and make work a pleasure. Should be used by everybody during house cleaning. tf

On Hand

now, at A. Clegg's, another lot of those oak finish extension tables, at $5.00, $5.50, $6.00 and $6.50; common chairs, 33c.; good hard wood bedsteads, only $2.00; oak finish bedroom suites, $12.00, $13.00 and upward. Our stock is complete in every line. A. CLEGG, 427 George street.

Fruit Jars.

China Hall has received a full carload, 1440 cases, of fruit jars. Do not buy a jar till you have seen their jars and got their price. Their jars are guaranteed not to crack in filling and will be replaced in case they do. Prices the lowest in town. See the "Beaver" or the "Bee" before buying the ordinary jar.

Mr. Dryden's Return.

The Globe says:—Hon. John Dryden, Minister of Agriculture, returned to his office yesterday, after spending some time in north-western Ontario. While there he visited the pioneer farm at Wabigoon station, on the C.P.R. Mr. Dryden is satisfied that there is a great future for that country. The crops on the farm were particularly good. A large number of settlers went up this year, and many others have signified their intention of going there in the near future. Mr. Dryden expressed a doubt as to the advisability of too many going to the vicinity of the farm, as the the accommodation there is extremely limited as yet. He also spent a few days fishing on the Nepigon River, and has as trophies two trout skins mounted and varnished, on birch bark. One of the fish weighed four pounds and the other five pounds.

COMMITTED FOR FOUR MONTHS.

W. A. Wright, of Galway, Committed for Pointing a Gun,

Constable Finlay, of Harvey, brought to the Peterborough gaol, to-day, W. A. Wright, of Galway, who has been committed to the county gaol for four months by Justices of the Peace Seymour and Crowe, of Harvey, charged with threatening and pointing a gun at Samuel Faulkner, of Galway.

It appears that the dispute arose over the right to cut beaver hay on lot No. 6, in the 7th concession of Galway. It seems that Mr. Faulkner obtained the right from the Gilmour Company to cut the hay, and posted up a notice forbidding trespass. Mr. Wright went on the lot and cut a portion of the hay, and when the owner went to protect his interests he found Mr. Wright with a Winchester, resolved upon defending what he considered his own.

The arrest, with the above-stated result, was the consequence.

A Mouthful of Pearls.

The teeth perhaps, more than any other feature, enhance or destroy that tangible, because complex, thing we call beauty. What more repellant than ill-kept, discoloured teeth? What unsightliness more needless and inexcusable? Ivorine is delightful, whether as a cleanser or in its property of imparting to the teeth that dazzling whiteness so much desired and admired and as efficient does it render the breath sweet and fragrant. Ivorine is incomparable as a toilet requisite, which accounts for its recommendation by leading dentists.

DEMONSTRATION IN NORWOOD TUESDAY.

Orangemen Assemble to Celebrate.

A BIG CONTINGENT FROM PETERBOROUGH.

The Town Gaily Decorated for the Occasion—The Procession—Programme of Lodge Competition and Sports—The Speeches.

The progressive little town of Norwood was in gala attire yesterday, the principal business street being gay with orange and red, white and blue bunting, whilst flags floated from every point of vantage.

It was the occasion of what was intended to be an Orange demonstration on a large scale, but on account of a misunderstanding in connection with the date the attendance was not as large as it otherwise would have been. The intention was to hold the demonstration on Labour Day, but through the aforesaid misunderstanding a mistake was made in the date.

A BIG ORANGE CONTINGENT,

however, went down on a special train from Peterborough, which had been arranged for by Mr. J. B. McWilliams. Half a dozen cars were crowded with enthusiastic Orangemen and their friends, leaving the station at 10.30 a.m. A number of others also went down on the express at noon. The following lodges were on the special train:—No. 321 L.O.L., Col. Saunderson, Downer's Corners, Dawson Kennedy, master; No. 45 L. O. L., Nassau, Robert Campbell, master; Nos. 49 and 80 L. O. L., Peterborough, J. A. McWilliams, acting master; Queen's Own Lodge Loyal True Blues, George Sloan, master.

At Norwood the special train, which arrived at about 11.30, was met by Norwood, No. 34, L.O.L., under S. F. Turner, Master, and the Norwood band. Forming into procession, under Marshall Wm. Hutchinson and Asst.-Marshall Wm. Creamer, they marched into the town and dispersed for dinner.

THE PETERBOROUGH BOYS

felt quite at home in the hotels, as two of them are being conducted by old Peterborough men in the persons of Wm. Clancy and Jas. Mongraw.

At two o'clock in the afternoon a procession was again formed and proceeded to the grounds, after marching through the principal streets, The order of procession was as follows:—

Marshall:
Wm Hutchinson, L O L No 34, Norwood.
Asst Marshalls:
Chas Sisson, G W Hall, P Q D C,
Col Saunderson Lodge. West Peterborough.
District Master Armstrong,
West Peterborough.
Peterborough Fire Brigade Band.
L O L Nos 49 and 80, Peterborough.
J B McWilliams, Master.
Wellington L O L No 457, Doure,
Robbert Campbell, Master.
Norwood Brass Band.
E Saunderson Marshall Juvenile
L O L No 31, Downer's Corners.
Col Sanderson Juvenile L O L No 321,
Downer's Corners,
J G Weir, Master,
Col Saunderson L O L No 321,
Downer's Corners,
Dawson Kennedy, Master.
Norwood Fife and Drum Band.
L O L No 34, Norwood,
S F Turner, Master.
J W Bell, R W, Grand Master.
Ontario Lodge.

In the procession there were also a number of True Blues and Orangemen from the different lodges in the adjacent districts, amongst them being representatives from L.O.L. 1309, Trent Bridge; L.O.L. 108, Warkworth; L.O.L. 533, South Dummer; L. O.L. 323, Havelock; L.T.B., 9, Peterborough; L.O.L., 526, Seymour West; L.O.L., 36, Campbellford; L.O.L., 63, Young's Point.

AT THE GROUNDS

a programme of lodge competitions and sports was run off with the following results:

Best marching lodge—"Col. Saunderson" No. 321, Otonabee.

Largest lodge—"Col. Saunderson," No. 321, Otonabee.

Best uniformed lodge—"Wellington," No. 457, Douro.

Boys' bicycle race—J. Andrews, Keene.

Boys' race, 75 yards—Alex. Kempt, Norwood.

Running race, 100 yds—Herb. Stephenson, Norwood.

Running jump—Herb Stephenson, Norwood, 17 ft., 7 in.

Boys' race. 100 yards—W. Brown, Norwood.

Girls' race. 100 yards—Miss Winnie Pengelly.

Hop, step and jump—Herb Stephenson, 30 ft., 3 in.

Bicycle race—J. Hender won, J. Andrews, 2nd.

The judges were J. P. Brown, Joseph Haralson and J. G. Keefer.

AT THE CONCLUSION

of the sports those present gathered around the speakers' stand, on which were seated Messrs. A. R. Anderson, J. B. McWilliams, Dawson Kennedy, Rev. A. McCamus, Rev. M. S. Gray, Graham Weir, and the speaker of the day, J. W. Bell, R. W. Grandmaster Ontario East.

The chair was occupied by Mr. A. R. Anderson who, after a few preliminary remarks expressing a welcome to those present, introduced Rev. M S Gray, of Laurel, an Orangeman of 41 years standing who now belongs to L. O. L. No. 330. When Orangemen met together, he stated, as they were assembling at that present moment, they did so to commemorate certain principles, and every Orangeman should feel it his duty to promulgate these principles until the permeated the world.

He was followed by J. W. Bell, Grand Master of Ontario East, who stated that but for an attack illness N. Clarke Wallace, Supreme Grand Master and Sovereign, would have been in attendance. This was Mr. Bell's second visit to Norwood, having been present at a former meeting of the Grand Lodge. He had never before, however, had an opportunity of seeing the town, being too much occupied with business on the former occasion. What particularly struck him now was

THE EXTREME NEATNESS

of the town and its tidy buildings. He had not known before what a manufacturing centre it was, and spoke of the roller mills, spoke and hub factory and foundry which he had visited. The educational advantages of the town also secured notice from the speaker, who dealt, too, for some time on the many pleasant homes and the pretty lawns, which attracted the attention of a stranger entering Norwood.

Mr. Bell deeply regretted that Orangeism had been so deeply shaken recently by party politics, but he was pleased to say that the order had stood the test and the cause had triumphed. He urged his brethren to stand shoulder to shoulder when the civil or religious liberties of the nation were assailed. In referring to the Remedial Bill, he stated that he was a Conservative, but would oppose the establishment of the Separate School system in Manitoba or any other province. He would have done anything to defeat the Remedial Bill, whether his own government was defeated or not. He did not, however, want a liberty that was not shared in by the Roman Catholics. He believed in equal liberties to all.

THE SPEAKER DEPRECTED

the establishment of Separate Schools as tending to keep up the old bitter feeling between the Roman Catholics and the Protestants. In the rural districts, where there was no distinction made the cry of "Hurrah for King William and to hell with the Pope" was never never heard, as the boys and girls had all gone to school together and constant association had effectually dispelled any feeling of this kind. He claimed that the Roman Catholics enjoyed many liberties which they would never have done had it not been for the Orangemen, in whose strength the nation was so secure that almost any privilege asked by the Catholics was cheerfully extended. The organization of the P. P. A., he stated, was only caused by the action of a few extremists amongst the Catholics and was regretted by Orangemen as a body.

Liberty, Loyalty and true Christianity were the foundation stones of the Orange Order. The Orangemen were not loyal to the Queen as an individual, but were only so as long as she continued to be a guardian of the Protestant faith. The Orange Order, Mr. Bell argued, was the only truly religious society outside of the church. A man must be thoroughly orthodox before he can take the obligation. "Be slow to take offence and anger no man" were in the words of the ritual.

Mr. J. B. McWilliams was called upon for an address, but declined on account of the lateness of the hour.

Other speakers who followed were Rev. A. McCamus, J. H. Campbell, Graham Weir and Dawson Kennedy.

The special train bringing the Peterborough concingent home arrived at the station about eight o'clock.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

LACROSSE.

The Juniors returned from Madoc and Marmora, this morning, more than delighted with the trip. They were never treated as well in their lives as they were in Marmora. The boys there hired a steam yacht and took them out on Crow Lake and showed them every courtesy imaginable. In Madoc the Juniors lost the first goal but scored the next three. Instead of playing a defence game at this juncture the boys were allowed to play on and as Madoc's imported men got their combination work down to a finer point they rapidly scored the next four goals. Lynch is stated to have played a grand game on the defence.

In Marmora the Juniors took the first three goals and the home team the next two.

The local teams should lose no time in getting a couple of lacrosse games on within the next two weeks.

THE TURF.

The Belleville Intelligencer says:—Mr. D. H. Ackerill, V.S., has sold his well-known trotting sire, Elm City, by Stamboul, 2.07¾, to Mr. Elmhurst, of Villiers, in the Peterborough district. The removal of this fine horse, which inherited great speed from both sire and dam (Gloriana, which has three in the list—the latest Pera, a three-year-old, in 2.20¼) will be a great loss to the breeding interests of this section.

LAWN TENNIS.

The lawns at the Toronto Athletic Club presented a brilliant appearance yesterday when the annual tournament was commenced. In the morning only novice singles were played, as the Niagara contingent arrived on the 11 o'clock boat, having waited over for the conclusion of the international tournament. All the well known players expected put in an appearance with the exception of Wrenn, and the committee were pleased to be able to announce that Neely of Chicago having arrived late had been allowed to enter in Wrenn's place. Several very close matches were played yesterday, notably that between Avery and Campbell, when Avery succeeded in winning 7—5 and 8—6 by, for him, exceedingly steady play. Other good matches were those between Ware and Anderson and Paret and Sharp, while in the novice singles a very unusual score was that in the match between Pemberton and Bascom, which required 54 games to decide.

Mr. Dave Rogers of town is participating and won in the first round of the novice singles, the score of which is appended:

Novice Singles—First Round.

Pemberton beat Bascom 7—5, 11—13, 10—8.
Osborne beat Fenwick 6—2, 6—3.
Blight beat F. J. Grant 6—1, 6—3.
Rogers beat Bowan 6—2, 7—9, 6—3.
Bell beat Medd 4—6, 6—3, 6—1.

Mr. Parker leaves to-day to join Mr. Rogers in the novice doubles.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Everybody is coming home from the Lakes.

—All fishing tackle and rods, and hammocks, selling at cost at SAILSBURY'S.

—The firm of T. J. Turner & Son, to-day received an order for a tent 40 x 100 feet in size, from London.

—Mr. W. H. Manning will be in his office on and after Saturday, the fifth day of September next. 10d-2w

—High School pupils will find every book they require at the Peterborough Bookstore. Nothing wanting—no delays. We know all about what's wanted and how to buy them.—A. H. STRATTON & Co.

—Some of our aged citizens who have been thinking of taking up bicycling should feel encouraged by the news that a man over 70 years of age recently wheeled from Toronto to Elmvale, 82 miles, in nine hours.

—Taking medical authority as a guide, we should judge that good health is now within the reach of all. We are told that grapes are a very healthy diet, and at the prices now offered the sick have a cheap and most palatable remedy at hand.

AN IMPORTANT ARREST.

About ten o'clock this forenoon, says the Lindsay Post, Chief of Police Bell received a telegram from Constable McRae, of Kirkfield, instructing him to arrest Chas. Snell and wife on the arrival of the Coboconk train. As the train had already arrived, the Chief, accompanied by Constable Wilson, proceeded to the station and found the parties wanted in the ladies' room anxiously awaiting the arrival of the Peterborough train, to which town they intended going. When placed under arrest Mrs. Snell, unperceived by the constables, slipped a wad of money containing $235 into the lap of a woman named Boerer who, with her husband, were also on their way to Peterborough. When the constables arrived at the police station with their prisoners they received another telegram from Kirkfield informing them that the prisoners were wanted on a charge of stealing $235 from the keeper of a canal boarding house, named Hermann Mayne. In a few minutes Boerer and his wife arrived at the station and deposited the stolen money, (which a few minutes before was forced into their possession), with the chief, who at once notified the Kirkfield constable of what had transpired. The latter may possibly arrive in town this evening or to-morrow morning.

PERSONAL.

Mrs. Peter Henry is visiting relatives in Chatham.

Miss Eva Carey is attending the Normal School in Norwood.

Miss Matie Owens, who has been visiting Miss Edith McKee, returned to her home in Campbellford to-day.

The family of Mr. J. B. McWilliams returned from Stony Lake yesterday, having closed their cottage for the season.

Mr. Clarence Piper, of Toronto, is spending a day or two in town at the residence of Mr. T. W. Robinson, George street.

Miss Nellie Craig, of Fergus, daughter of Mr. John Craig, M. P., passed through yesterday on her way home from Stony Lake.

Miss A. Cahill and Miss Mahoney are in Toronto visiting the fall millinery openings and looking after the interests of their patrons here.

Master Albert J. Hawkins, who has been visiting friends at Rice Lake, returned home to start his course in the Collegiate Institute.

Miss Lillie Dalton, of Deseronto, who has been spending the last week or so as the guest of Miss Hubbs, Brock street, has returned home.

Mrs. J. R. Stratton returned home last evening, after spending the summer at her Stony Lake cottage, which is now closed for the season.

The Lindsay Post says,—Miss Helen O'Brien, of Peterborough, arrived in town last evening, and will attend the Model School for the coming term.

Miss K. Rudkins, accompanied by Miss O'Neil, trimmer in her millinery department, are now in Toronto inspecting the fall openings in the wholesale houses.

Mr. and Mrs. Brock and Miss Bessie Brock passed through to Toronto this morning, after spending the summer at their Stony Lake cottage. Mr. and Mrs. Brock's cottage was the rendezvous for the Stony Lake young people on Thursday and Saturday evenings during the season.

Premier Hardy of Ontario formally opened the 18th annual Industrial Exhibition at Toronto yesterday. He referred to it as the greatest of American exhibitions. He intimated that it was not improbable that the Province might assist the Industrial in their efforts to make next year's exhibition one of a national character. Before proceeding to the exhibition grounds he was presented with an illuminated address by the City Council, of Toronto, to which he made an appropriate reply.

Mr. J. J. Ashworth, for some years connected with the Engineering Department and latterly with the Agency Department of the Canadian General Electric Company, has severed his connection with that company to enter into partnership with Mr. W. Heathcote of Toronto, in an independent consulting engineering and electrical construction business. Mr. Ashworth's leaving the Canadian General Electric Company, was made the occasion of a pleasant expression of good will, on the part of the members of the Toronto staff, embodied in the expression of a locket with monogram and a suitable address.

Mrs. S., says:—"I suffered from rheumatic pains for months, Miller's Compound Iron Pills cured me." Sold in Peterborough by Wm. Madill, druggist.

BIRTH

CHAPMAN—In Havelock, on Friday, Aug. 21, 1896, the wife of Mr. Ed. Chapman, of a daughter.

The dream of Ponce de Leon was that he might discover the fountain of perpetual youth. He died searching for it. The fountain he was looking for was an impossibility, unnatural and chimerical. The nearest thing to the fountain of perpetual youth is a fountain of perpetual, perfect health. Health keeps people young. Sickness makes them old. Health means first of all, strength and regularity in the digestive functions. Put indigestible matter into the stomach and it is likely to find lodgment in the bowels. It will stop their action. Poisonous, refuse matter, which should have been thrown off, is retained in the body, and as it cannot go any place else, more or less of it gets into the blood. That's constipation. It is such a wonderfully simple thing that people do not regard it seriously. They let it run on, let it grow worse, become chronic, and show itself all over the body in fifty ways before they consider it important. Constipation causes nine-tenths of all human ailments. Its first symptoms do not seem very serious, but even they are very disagreeable. A few of them are sour stomach, flatulence, heartburn, distress after eating, foul breath, coated tongue, dizziness, palpitation of the heart, sick and bilious headaches, general lassitude and debility. When any of these symptoms show themselves, you should immediately take Dr. Pierce's Pleasant Pellets, according to directions. They are tiny, sugar-coated granules, made on purpose to cure constipation. They do this perfectly and quickly, and they are the only preparation in the world that will do it. There are plenty of medicines that will give relief as long as you keep on taking them, but you can't stop. They don't cure; they give merely temporary relief. Doctor Pierce's Pleasant Pellets give immediate relief and produce a *permanent* cure.

PROFIT-SHARING.

The System Has Not Been so Satisfactory to Employers as Expected.

From extensive correspondence with all the firms and corporations known to have tried profit sharing in the United States, Paul Monroe has made an important resume of results up to date. The reports given, chiefly in the language of the concerns themselves, are summarized as follows: Of the fifty firms which have adopted the system twelve continue it, five have abandoned it indefinitely and thirty-three have abandoned it permanently. Those which continue the plan have an experience extending on an average through seven years. The second class average but one year, and, recognizing the insufficiency of such a trial, have not decided it a failure. The third class vary in length of trial from a maximum of eight years to a minimum of six months; the majority have tried it for a period of from two to three years. In comparison with European experience, one is struck with the brevity of the trial. As to a fundamental principal, the large majority are of the opinion that such a plan results in a financial loss to the employer, he being recouped, if at all, in noncomputable ways. Those which continue the plan do so, not as a matter of philanthropy, but as a matter of justice, if not of business. They are about equally divided in their opinion as to the direct financial benefit of the plan to the firm. While it is true with any such question one success will prove that it can be done with profit, and any number of failures not prove the contrary, yet it is, as a general type, not as an individual variation that such a system has social significance. A further study will of justice two genral conclusions: (1) That such a system will succeed only with a select few of employers, those with whom social motives have an extraordinary influence, and with a grade of skilled or intelligent labor. (2) Such a system is of some importance to society from a statical point of view but little, if any at all, from that of social progress.—American Journal of Sociology.

ENDED AT LAST.

After Two Years of Misery Endured Backache Succumbs to Dodd's Kidney Pills.

Madoc, (Special) Aug. 31.—In a place like this, people suffer and sympathize, hope and mourn with each other. But her many friends here, as elsewhere, who have long been aware of the precarious health and long suffering of Mrs. J. Fergusson will be pleased to learn that her painful sufferings have ended at last, and that instead of being unable, as she says, "to turn herself in bed" she is herself once more as the result of using a few boxes of Dodd's Kidney Pills. She further says that from the third day after commencing to use these pills, she was free from all pain; and, that now she feels as well as ever before in her life.

Balfour Visits Gladstone.

London, Aug. 31.—Right Hon. A. J. Balfour has terminated his visit to Mr. Gladstone at Hawarden, which place he left this afternoon.

Poet Morris is Ill.

London, Aug. 31.—William Morris, the celebrated English poet, is critically ill.

TORONTO MARKETS.

Flour—The market is quiet and prices are steady, with straight rollers quoted at $3 to $3.10.

Bran—The market is steady, with cars quoted at $8 west, and shorts at $9.

Wheat—The market is quiet and prices as a rule are steady. Old white wheat is held at 65c on the Northern and new sold at 62c. Red 60c to 61c for new, 63½c to 64c for old. No. 1 Manitoba hard 68c Midland, No. 2 hard 68c, and No. 1 Northern 64c Midland.

Barley—There is nothing doing, and prices are purely nominal.

Oats—The market is steady, with offerings moderate. Old white quoted at 18c and mixed at 17½c west.

Peas—The market is quiet and prices are unchanged. Sales of new at 42c west.

Oatmeal—Business quiet, with prices nominal at $4.40 on track.

Corn—The market is dull and prices quoted at 28c to 29c.

Rye—New rye is quoted outside at 32c to 33c.

MONTREAL LIVE STOCK.

Montreal, Aug. 31.—Business was about average, or a little below perhaps, in cattle this morning, although arrivals at the eastern abattoir market were plentiful enough. What business was done was done at satisfactory prices, some choice calves going as high as $10, while export cattle fetched from 3¼c to 3½c per lb., live weight. The arrivals and prices were as follows: 800 cattle at 2c to 3½c; export cattle, 3½c to 3¾c; 700 sheep and lambs at $2.50 to $3.50 for sheep (butchers') and $1.50 to $3.50 for lambs; 200 calves at $3 to $10; 50 lean hogs at $3 to $7.

Burdock Pills, small, safe and sure. regulate the liver and cure constipation.

WANTED—A LITTLE GIRL.

Where have they gone to—the little girls,
With natural manners and natural curls,
Who love their dollies and like their toys
And talk of something besides the boys.

Little old women in plenty I find,
Mature in manners and old of mind;
Little old flirts who talk of their "beaux,"
And vie with each other in stylish clothes.

Little old belles, who, at nine and ten,
Are sick of pleasure and tired of men;
Weary of travel, of balls, of fun,
And find no new thing under the sun.

Once, in the beautiful long ago,
Some dear little children I used to know,
Girls who were merry as lambs at play,
And who laughed and rollicked the live-long day.

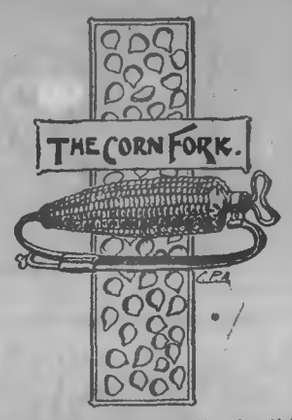
They thought not at all of the style of their clothes,
They never imagined that boys were "beaux;"
"Other girls' brothers" and "mates" were they,
Splendid fellows to help them play.

Where have they gone to? If you see
One of them anywhere send her to me.
I would give a medal of purest gold
To one of these dear little girls of old,
With an innocent heart and an open smile
Who knows not the meaning of "flirt" or "style."
—Ella Wheeler Wilcox.

A LONG-FELT WANT.

To Enable One to Eat Hot Corn Without Burning the Fingers.

What lover of hot, sweet corn, who likes to eat from the cob, has not wished for some means to partake of the succulent ear without soiling his fingers or burning them? He may rejoice now, for a corn fork has been invented to supply the want so long felt. Though it is called a fork, it does not



look a bit like the conventional article of that name.

It is a little device of wire made somewhat longer than the average ear of corn. It consists of two pieces that slide back and forth, so as to make the fork longer or shorter, to fit an ear of any size. The ear steaming hot is placed in the fork and automatically fastened by a slight pressure of the hand. The fingers grasp the wire, and do not come at all in contact with the corn. A screw at one end of the fork holds the cob fast. A turn of this screw naturally gives the cob a turn, and so it is revolved until the corn has been all eaten. It is all so simple that the smallest child can understand it, and can be fitted to a portion of an ear just as well as a whole one. The fork is made of galvanized steel wire, so that it is easily washed and will neither collect dust or rust.

What Makes a Home.

I fancy that the home was always much rarer than we think, and I do not believe that it is rarer now than ever. Indeed, if there are more comfort and more widespread ease and leisure among us, the conditions for the home are more favorable, for it is useless to deny that where there is great poverty, as where there is great luxury, the conditions for the home are bad. The home flourishes best in that middling environment where the family is held strongly together by a common feeling of its supreme value. But where the habitation is bare and squalid there can be no sense of home; and where the social and material circumstance is full of invitation outside of it, the home cannot seem the first good of life. It is the family, however, that makes the home; it is often, if not usually, one temperament, the temperament of the mother, that makes it; and this will have more effect in great poverty than in great luxury. We have all seen some woman nature holding a wretched household together, and shedding its own inner loveliness upon everything in it; and we have all seen some such woman-nature clogged with superfluity, denied its function of giving and blessing, and thrown back upon itself, in circumstances where want could not be imagined. Love expresses itself in help, and where the help is hired there must be less sense of love than where the help is given. Probably, then, there are more who look back tenderly to the house of poverty than to the house of luxury.—W. D. Howells, in Harper's Weekly.

LEND YOUR BARS

To Your Back and Listen to its Talk—A Peterborough Man Tries It.

Did you know the back could talk;
Tell you why it aches and pains;
Tell you why it's lame and weak;
Warn you of the kidney's ills;
Tell you of Doan's Kidney Pills?
Listen to them when they speak.
Relieve the kidneys, cure the ache.
Bad back, acute pains and kidney ills.
Are quickly cured by Doan's Kidney Pills.

Here is proof of it at home. The testimony of Mr. George N. Graham, the genial host of the Oriental Hotel, Peterborough, is as follows:—

He says:—"I have been a great sufferer for some time with pain across the back, extending up between the shoulders, swelling of the limbs, dizziness, loss of appetite, and in fact felt completely broken up.

"I had lost 17 pounds in three months, and thought that I would never get better. I have taken many kinds of patent medicines, and have also been treated by medical men, but did not seem to get any better at all, in fact was constantly growing worse.

"I saw Doan's Kidney Pills advertisement and got a box of them at Lynch's drugstore, and by the time I had taken one box noticed a marked change for the better.

"I have taken seven boxes altogether, and am now free from pain; the swelling in the limbs has disappeared, and my appetite is good. In fact, I feel that I am completely cured.

"I can heartily recommend Doan's Kidney Pills to those suffering from any form of kidney trouble. They are the best kidney medicine I have ever used.

Signed, GEO. N. GRAHAM.

For sale by James Lynch, druggist, 168 Hunter Street, Peterborough.

Charcoal in the House.

Charcoal is one of the best friends of the housewife. All sorts of utensils which have become musty through disuse or impregnated with the odors of strong vegetables through constant use may be purified by rinsing with water in which powdered charcoal is sprinkled. Charcoal placed in the compartments of a refrigerator in which strong-smelling foods are kept will prevent the odors from reaching the butter, milk and other odor-absorbing foods.

Quite Enough.

First chum—Why, old man, you act as though you had a little too much.

Second chum—Well, I've had enough. I got two stiff punches on the way home. Knockey gave them to me and then warned me to quit going with his girl."

A hacking cough keeps the bronchial tubes in a constant state of irritation, which, if not speedily removed, may lead to chronic bronchitis. No prompter remedy can be found than Ayer's Cherry Pectoral. Its effect is immediate and the result permanent.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognized this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

LOSS OF VOICE

After Acute Bronchitis

CURED BY USING

AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. BRAWLEY, D. D., Dist. Secretary, Am. Bapt. Publication Society, Petersburg, Va.

GOLD MEDAL AT THE WORLD'S FAIR.

AYER'S LEADS ALL OTHER SARSAPARILLAS.

MODERN MOTHERS.

Mrs. E. Lynn Linton Says They Learn Evil to Instruct Their Sons.

Among the new alms of the modern woman is that of the understanding direction of her son's life when he shall have come to manhood. By this is meant, as a necessary inclusion, her familiarity with all forms of vice and her consequent ability to advise her son as a man might—a man who himself has traveled over the same ground and therefore knows all its pitfalls, its dark corners and its dangerous places.

If modern mothers speak to you sincerely they will one and all claim the future right to know the whole of their sons' lives, to the end that they may remonstrate and prevent if they are strictly virtuous, direct and advise if they have eaten of the Tree of Knowledge and know what things must be, sympathize if they are indulgent, counsel if they are astute.

And in this new attitude of women toward the purely masculine life of men lies the whole world of difference between moral influence and what must necessarily be imperfect direction, because merely theoretical.

To judge of any question fairly we must take the normal—perhaps slightly idealised standard. The lapses are like the exceptions, the minority, for which special laws can't be made. And the normal relation betwen mother and son is, that the son believes in his

MRS. E. LYNN LINTON.

mother's untarnished purity and ignorance of certain darker passages with which, however, men have become familiar.

His wine parties and the "head" that follows—his losses at play and on the turf—his appreciation of risque songs and doubtful anecdotes—his decidedly unfastidious enjoyment of certain coarse pleasures—his acquaintance with the soiled doves of bedraggled plumage—all these are chapters in the young man's book of life that the mother must never read—never suspect. And the thought of her as she seems to the son, always untouched in the stateliness of her purity—always apart from the grosser things of sense—will do more to restrain and steady him than half a dozen sermons from the pulpit. Also the fear that she should ever know his aberrations acts as a check on his wandering steps. What she would think—what she would feel should she ever know—has turned many a lad when at the very door of the Temple of Vice—turned him away just in time to prevent his fatal fall.

He realises her profound horror should she ever be made acquainted with the seamy side which yet he and all men must perforce know, at least in part, if not wholly. And in that horror lies something of reluctance on his own account. He realises, too, the difference there must be between the sexes, and though he might hesitate to confess his escapades to his father, it would be from a different feeling, a different motive, from that which would make him so earnest to keep his mother in ignorance of the truth. The shame and humiliation he would feel in confessing to his father would be the sense of sacrilege as toward his mother.

But if that mother be a philosophic, wide-awake woman of the world, who understands all about a young man's temptations, and all about his certain slips and stumblings—a woman who has passed far beyond the limit of distress, horror, condemnation, and who can reason quietly about instincts and set morals on the broad basis of physiology—what kind of hold will she have over her son— What kind of restraining influence? He might go to her for advice; and it is doubtful if he would even do that, the masculine sense of sexual difference always working toward disbelief in the power of women to understand aright or to guide safely; but it would be advice divested of all sanctity and resting on knowledge only.

And when we have come to this, and sons make their mothers their advisers and confidantes in matters pertaining to the seething time of youth, we shall have come to the end of filial reverence and of maternal influence. That sign of the great end "when men and women shall mix indiscriminately," will be advanced nearer by just so much; and in the loss to the son of belief in his mother's sacred purity and holy innocence will be included the loss of one of the strongest restraints a young man possesses.

And it is into this Serbonian bog of foul familiarity and filthy knowledge that the women of the present day are rushing with such mad haste! Buddha found wisdom under the bo-tree; the modern woman stretches out her hands for the fruit of the Tree of Knowledge. There is to be no longer a Divine Enclosure for the pure—no longer doubtful tracts fenced off from the innocent. Women are to be initiated all the same as men, and it is only bigots and fossils who still maintain the difference between the sexes and hold to the restraining and elevating influence of pure and innocent women while deprecating the demoralising effect of a uniformity of knowledge and a concensus of philosophic toleration.

All through history we read the same thing. In those times where the women were prominent and had direct power, morals were lax and men were supine. In those where, with full legal rights so that they should not be oppressed, they were in the background rather than the forefront—in the home rather than in the arena—with moral influence rather than personal or political power—they formed a kind of bodyguard for the virtues belonging to their own sex, and the aiders and abettors of those belonging to men.

MRS. LYNN LINTON.

Women who are weak and nervous, who have no appetite and cannot sleep, find strength and vigor in Hood's Sarsaparilla.

Norway's Strange Bank

The most independent and aristocratic bank in the world is the Norges, or National Bank of Norway. Socially the bank is of considerable importance. The directors meet twice a week and the friendly gatherings are said to be most enjoyable affairs. Loans and discounts form the chief subjects of conversation. No loan or discount can be made without the approval of three of the directors. The directors are to hold a meeting one day, and you want to borrow $1000 on Monday. You apply to Norges bank and are told that the matter will be taken under consideration at the directors' meeting on Wednesday, and you may look for an answer to your application on Thursday. It does not matter in the least that you want the $1000 Monday and not Thursday; you simply have to wait, says the New York Journal.

The origin of this institution is as peculiar as its management is unusual. Soon after the nominal union of Norway and Sweden, in 1814, the latter country began to feel the need of greater money facilities to meet the demands of the rapidly increasing commerce. The problem of securing the necessary capital for a great national institution was a very simple one for the Norwegian Government. It raised stockholders for the bank just as it raised soldiers for its armies. Every well-to-do citizen was compelled to take so much stock. He was always at liberty to take more if he chose, but always in amounts divisible by five.

This national bank is also a national pawnshop. It is authorised by law to lend money on any non-perishable goods, provided they can be deposited in the bank and kept under lock and key. For this service it charges rather less than the usual pawnbroker's interest, which may, perhaps, account for the rarity of private pawnshops in Norway.

What Tommy Atkins Comes to.

Of 691 tramps relieved at the Winchester workhouse, England, in eight successive weeks, 163 were discharged soldiers.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentally will mail, in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P. O. Box 388, London, Ont.

A Crying Evil.

Every crying evil should be promptly removed. Sick headache is a crying evil affecting thousands of Canadians, which can easily be removed by the use of Burdock Blood Bitters, the best known stomach, liver and bowel regulator and cure for sick headache from whatever cause arising.

Wood's Phosphodine.—*The Great English Remedy.*

Before Taking.

Is the result of over 25 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of *Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants*, all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering over the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness.

Price, one package, $1; six packages, $5; by mail free of postage.

One will please, six guaranteed to cure. Pamphlet free to any address.

The Wood Company, Windsor, Ont., Canada.

LAKEFIELD.

(From Our Own Correspondent.)

Mrs. James Campbell has returned from Millbrook, where she was visiting friends.

Mrs. C. Bell has returned to her home at Lachine, Quebec.

Mr. and Mrs. Thomas Huckell, of Carberry, Manitoba, spent a few days in the village last week, the guests of Mr. R. Graham.

Miss Maud Cox left here on Wednesday last to take a course as nurse in the Homœpathic hospital at Rochester, N.Y.

Miss Lillie Ridpath is visiting friends in North Monaghan and Port Hope. She is accompanied by her cousin, Miss Alice Isbister, of Peterborough.

Rev. A. R. Macdonald is visiting friends at Chesley.

Miss Power, of Blackstock, spent a few days here, the guest of Mr. A. Fairbairn.

Miss Ethel Noyes, of Peterborough, is the guest of her uncle, Mr. John Noyes.

Master Edward Abercrombie, of New York, who has been spending his vacation with his aunt, Mrs. Reynolds, returned home on Saturday.

Mr. and Mrs. Henderson passed through here on their way home to Port Hope from Stony Lake, on Wednesday.

Mrs. A. Webir, of Rochester, N.Y., is the guest of her mother, Mrs. John Carveth.

Mrs. W. Mounce and family, of Toronto, are visiting her father, Mr. J. C. Carmeth.

Viamede Cottage, Mount Julian, Stony Lake:—Mr. F. Clarke, Mrs. Clarke and Norman Clarke, of Toronto.

Mr. Walter Strickland, C.E., of Toronto, spent a few days at Stony Lake, the guest of his brother, J. P. Strickland.

Mr. George Paul, son of Mr. Joseph Paul, died here on Monday morning after a very short illness.

R. Graham & Son's fall millinery opening will be held on Wednesday and Thursday, Sept. 16th and 17th—the days of the Lakefield fall fair—when they will be pleased to see all their lady friends. They will show a fine assortment of their latest millinery, feathers, novelties, trimmings, etc., also a very fine assortment of mantles and capes in the newest styles and designs.

The schools re-opened on Tuesday last with a large attendance. Miss Nellie Cox takes charge of the west school, and all the other teachers as in the former part of the year.

Mr. W. Trude's delivery wagon took a sudden run down Queen street on Thursday but was stopped before much damage was done.

Duck shooting started on Tuesday, Sept. 1st. There are large numbers of ducks at Stony lake this season.

The farmers' picnic was held on the steamer Mary Ellen to Mount Julian on Tuesday, when a very pleasant time was spent.

On Monday of next week, Labour Day, an excursion will go to McCracken's Landing per steamer Golden City under the auspices of Young Canadian L.O.L., No. 1385. There will be a football match, canoe races, dancing, etc.

At the examinations recently held in Peterborough the Lakefield Public School was again quite successful, the following candidates having passed:—

First Form—Edith Griffin.

Second Form (Pt. II.)—Ethel Blomfield.

Primary - Ernest Doidge, Harriet Louise Limbert, S. Bruce McDonald.

The following Lakefield pupils who were attending the Collegiate Institute at Peterborough passed successfully:—

Junior Leaving—Nellie Cox, W. Herbert, Graham and William Wilson.

The Lakefield Fall Fair will be held on Wednesday and Thursday, Sept. 16th and 17th, when a large exhibit will be made. The Directors are arranging for special attractions in order to make this fall show one of the best of the season.

A Million Gold Dollars

Would not bring happiness to the person suffering with dyspepsia, but Hood's Sarsaparilla has cured many thousands of cases of this disease. It tones the stomach, regulates the bowels and puts all the machinery of the system in good working order. It creates a good appetite and gives health, strength and happiness.

Hood's Pills act harmoniously with Hood's Sarsaparilla. Cure all liver ills. 25c.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c, 50c. and $1.00.

WARSAW.

(From Our Own Correspondent.)

The township council met in the town hall here on Saturday.

Robert and Archie Jury of Lakefield spent Sunday with Henry Smith.

Mrs. Tough of Hastings, who has been visiting at W. J. Doughty's, returned home on Saturday.

Mrs. Wasson, who has been ill for the last few days, is able to be out again.

Mr. Robert Knox of South Dummer, was in town on Sunday.

Mr. T. J. Drain of Norwood, passed through here on his wheel last Thursday.

Messrs. Reid, Tully and Morgan returned from the Lake on Saturday. Archie is looking better.

The new machinery for the mill has arrived and is being placed in position this week.

Mrs. Foster is spending a few days at the lake.

Mr. and Mrs. Simpson of Lakefield spent Sunday with friends in town.

Miss Lettie Foster of Peterborough, is visiting at Mr. Snyder's.

Miss Fox is spending a few days at Mr. A. R. Kidd's.

No prayer meeting was held in the Baptist church on Thursday evening on account of Rev. Mr. Macdonald's absence at Bailliboro. Mr. Elcome of Peterborough conducted the service on Sunday.

Quite a number of our young people intend taking in the Orange demonstration at Norwood this week.

The Warsaw football team will play the return match with Young's Point on Monday next. It is to be hoped the boys will have better luck this time.

Mr. W. McDonald, of Lakefield, was in on Saturday delivering a load of furniture.

Ernie Wasson, of Peterborough, was in town Sunday on his wheel.

Mrs. Smith is spending a few days with friends in Tweed.

Mr. Bert Reid has gone to Toronto for a couple of weeks.

Quite an exciting foot race took place on Water street the other day. The contestants were three or four small boys and a man. The boys had the best of the race from the start though, and won easily. The prize was a feed of apples.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally of health. The mad pursuit of place, power and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer of it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency and fatigue add their mournful notes to the "still sad music of humanity." Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increasing virgils! Health and strength are the alternatives from decay and death.

Coca, combined with Maltine affords that staff. It will give tone to the nervous system, strength to the nerves, sleep to the weary eyes, and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated. Maltine with Coca Wine is sold by all druggists.

"Mikado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER Millers.

NORWOOD.

New Court of Foresters Organized.

Mr. R. J. Stewart, Official Organizer of the Canadian Order of Foresters, doesn't allow his zeal any apparent relaxation. Another Court has been added to the long list established through his work. On Friday night Court Castleton was organized with a charter membership of twenty and the following officers:—

Bro R Walt	J P C R
" O M Alger	C R
" C W May	V C R
" C W Wilson	R S
" C F Covert	F S
" R M Walt	Treas
" J H Drinkwater	Chap
" G W French	S W
" C Allen	J W
" P Huyck	S B
" D J Arkles	J B

Bro. Chas. Nichols was recommended for D D. H. C. R.

This Court is composed of the very best material in the district.

Testing His Honesty.

Your druggist is honest if when you ask him for a bottle of Scott's Emulsion he gives you just what you ask for. He knows this is the best form in which to take Cod Liver Oil.

DOURO.

(From Our Own Correspondent.

All the schools here have reopened with a fair attendance.

Miss Katie Maloney has resigned her position as teacher of S. S. No. 4, and intends returning to resume her studies at Peterborough Collegiate Institute.

We are pleased to notice the names of Miss Aggie Maloney and Mr. Joseph Leahy among those successful at the recent Departmental examinations. Miss Maloney has passed the junior leaving examination, and Mr. Leahy the primary. Both reside in this township.

Miss Celia Wunch, of Rochester, is visiting her cousin, Miss B. O'Connor.

Miss Katie Walsh is visiting friends in Cortland and Rochester, U. S.

Miss G. Moffat, of Norwood, has been the guest of her uncle, Mr. J. Whyte, for the past few weeks.

Mr. P. G. Towns has nearly completed his fine new house and store.

Among those who recently left for Manitoba were were Messrs. J. Walsh, J. O'Brien and F. O'Connor, of this place. They will be much missed by their many friends, but we wish them a pleasant trip and a safe return.

Give Your Watch A CHANCE.

The balance wheel of your Watch, if it's an American, travels 19 1-10 miles per day, or 6971 in a year, while all the oil that can be safely put into an oil cavity is about one-hundredth part of one drop. On this it feeds for one year. You will now see why it should be cleaned and newly oiled at the expiration of that time. If you want your watch properly repaired at a moderate price leave it with

TOUGH CLOTHES FOR THE BOYS.

Young Canada Begins Another Six Months' Schooling.

Tough clothes for boys to wear to school this Fall and Winter. That's the burden of our song. Strong clothes to stand the wear and tear of play, rough but healthy. Strong clothes to stand the work of out of doors fun in cold weather. We have just such things for the youngsters and, besides being full of wear, they are neat and shapely.

Did the last suit of clothes you bought for your boy from us, wear as well as it ought to hav worn, considering the price paid? If it did you should go to the same store for the next suit. You ge your money's worth. We deserve your patronage. We'll do better by you and by the boy than any other clothier.

5 CASES OF BOYS' NEW SUITS

These are only the advance guard of our Fall stock, for the boys. These are TWO and THREE piece Suits, and will fit boys all the way from 3 to 16 years. We sell the best of everything to keep in the heat, and keep out the cold for boys. We were boys ourselves, once,—it seems an awful long time ago.

We've all good qualities of Boys' Clothing. We've—probably—more Boys' Clothing in our store than in all the other stores put together. We've a weakness for supplying the boys. Ask yours if this isn't so?

Some idea we may give you of the value and inducement we purpose giving to buyers, when we say

A $2.00 BILL

will buy a beautiful, heavy, all wool, neatly made, well trimmed, and built of Auburn Mills Tweed Suit.

Of course we've cheaper Suits, and as low as 95c per suit. Better Suits up to $3.00 and $4.00, but

OUR $2.00 SUIT IS A CORKER.

Just the thing for a boy's school Suit, and as good as ever sold for $3.50.

Mothers should see these Suits. You know value. You know your boy's clothes-wrecking propensities.

Come to us. We're full of economical suggestions. No matter what your money is, we'll help you to make it go as far as it can. Come! The verdict is nearly always in our favour. It isn't often that the careful buyer decides against us.

"TOUGH CLOTHES FOR THE BOYS" That's our Motto.

PATERSON AND BLAIR

The New Ministers Introduced to the House.

THEY GOT A ROUSING RECEPTION

Questions Asked and Answered in the House—The Abuse of Power by the Late Government—Intercolonial Railway Turned into an Election Machine.

Ottawa, Sept. 2.—The opening proceedings of the House this afternoon included the introduction of the Minister of Railways and Canals (Mr. Blair) and the Controller of Customs (Mr. Paterson). The Ministerial side gave them a rousing ovation. Mr. Paterson was introduced by Mr. Laurier and Whip Sutherland. The ex-Premier of New Brunswick was brought in by Mr. Davies and Col. Domville. It was the first view which many of the members had of the ex-Premier, and he was scrutinised with curiosity as he stood while the little formula was gone through, about his having taken the oath and signed the roll, and now demanding the right to take his seat. When these Ministers had taken their places the Cabinet array was complete, with the exception of the Minister of the Interior's seat. The sitting of the House, which terminated at 6 o'clock, because of the Russell dinner at the Rideau Club, was devoted mainly to the discussion of two subjects, one of the unfair use made by the Government of the Intercolonial Railway in the election, the other the proposed establishment of Government dairy stations in the Northwest.

QUESTIONS BY MEMBERS.

Questions by members were the first order. To Mr. Maclean, Mr. Fisher (Minister of Agriculture) said the Government was considering the establishment of a bureau of mining information in Toronto.

Dr. Landerkin asked about the ballot-stuffing in North Ontario, and Major McGillivray having been given the seat on the re-count before Judge Burnham. He wanted to know what the Government intended to do about it.

Mr. Laurier replied that when the legal proceedings in connection with the protest which had been entered against the election had been disposed of, the Government would consider the proper course to be taken, both as to the seat and the punishment of the offenders.

"Is it the intention of the Government to grant any railway subsidies on the address was concluded, and finMr. Blair replied that it is not.

To Mr. Foster, Controller Paterson gave the following information: Imports for home consumption for the year ending June 30, 1896, dutiable, $67,234,470; free, $43,348,822; sum collected for duty thereon, $20,182,393; exports of home products during the year ending June 30, 1896, $106,586,274; estimated shortage at inland ports, $3,329,053; total, $109,915,378; exports of foreign products, $11,098,205. The amount of coin and bullion imported during the year was $5,077,437, and the amount of exports $4,699,309.

To Mr. Quinn, Mr. Blair replied that John Hannin, an employe of the Lachine Canal, had been dismissed on July 20 last for being frequently absent without leave.

ABUSE OF POWER.

A most flagrant abuse of power on the part of the late Government was disclosed to the House by Mr. Domville, the gentleman who compelled Mr. Foster to retire from King's and seek election in York. Mr. Domville stated that before the election many employes of the I. C. R. had been sent away from their place of residence to enable them to vote elsewhere or to prevent them from voting. Mr. Domville moved for copies of all instructions given on the I.C.R. by the authorities to remove the employes shortly before the day of election to prevent them voting in the counties in which they resided, the names of the authorities giving such instructions and the authority therefor.

Dr. Sproule got up and said that this trick was not confined to one political party. There was an election in North Grey. On Sunday night before the polling eighteen or twenty men were hired by Mr. Spiers to go up the Georgian Bay and look after the lighthouse. But fortunately someone got wind of the scheme and succeeded in frustrating it.

Dr. Landerkin gently reminded Dr. Sproule that there was an election in East Grey on June 23. He informed the House that upon that occasion Dr. Sproule's financial agent was the inspector of Customs at Meaford.

Mr. Fraser told the House that in Pictou, the constituency represented by Sir Hibbert Tupper and Mr. Bell, books of railway passes were in the hands of boys for distribution to anybody and everybody. In Antigonish and Guysboro the same tactics were pursued. A more shameful misuse of a Government railway was never seen in Nova Scotia. A special train was run 120 miles to carry one voter to the polls.

Mr. Gibson, upon the authority of some well-known business men, said that orders were given to the Intercolonial officials to move no freight trains on election day, so that the employes might have an opportunity of voting for Government candidates.

Mr. Haggart, the ex-Minister of Railways, protested that no orders had been given or had gone out from headquarters to produce the results complained of. He did not think that any course had been pursued by the authorities of the railway different from the coure that had been followed upon like former occasions.

Mr. McMullen expressed the hope, which was re-echoed by Ministerial members, that an investigation would be held, so that the men who have assumed the responsibility of these proceedings would have punishment meted out to them.

Mr. Ellis, who redeemed the city of St. John, added to the evidence against the Government in the use it made of the I.C.R. to unfairly advance its own ends. He said that the train despatcher at Moncton had been directed to send out to vote certain men presumed to be favorable to the Government candidates.

Mr. Choquette gave the House still another instance. A joint meeting was arranged to be held in Temiscouata. He had arranged to attend and speak in behalf of Mr. Poulliot. He asked Mr. Macdonald of the I. C. R. if a special train would be run to the meeting and was answered in the negative. He went on the early morning train, but later in the day a special was sent out with the men employed in the Riviere du Loup shops, who had been taken from their work that they might be present to disturb the meeting and prevent the Liberal speakers being heard.

The discussion ended and the motion was adopted.

NORTHWEST CREAMERIES.

Mr Davin presented, not for the first time, a motion affirming the expediency of devoting $20,000 to aid in the establishment of creameries and cheese factories in the Northwest Territories, the sum to be considered as an addition to the immigration grant.

A discussion followed, in which Hon. Mr. Foster, Sir Charles Tupper, Mr. Lister and others took part, and the debate was adjourned.

Mr. Haggart moved for a return of the names of all persons who have been dismissed or removed from office, or who have resigned or been superannuated since July 11.

Mr. Laurier amended the motion so that the information dated back to June 23.

The following motion of Mr. Tolmie was adopted: "A return of all complaints made against Mr. Rae, lighthouse keeper at Point Clark, in the County of Bruce, and of all correspondence relating to such complaints, and of any action of the Government thereon."

Mr. M. C. Cameron said that this man's services should be dispensed with immediately if the complaints should be found to be well founded. The complaints were that he had let the lights go out and was one day beastly drunk.

Mr. Gibson moved for copies of all orders in council appointing persons to the several departments of Government service from May 1, 1896, to July 10, 1896, giving their names, the nature of their appointments and the salary attached or recommended there to. Also the names of all persons in the Government service recommended for promotion, the positions held, the salaries paid, the promotion and position recommended, as well as the increased salaries and the dates of such recommendations. Mr. Gibson explained that he believed this return would show that there were very few offices left when the old Government went out of office.

Sir Charles Tupper asked to have laid upon the table the list of precedents whih he had submitted to His Excellency and the list of appointments made by the Mackenzie Government between the time of their defeat and their resignation of office.

Mr. Laurier promised them for tomorrow.

Mr. Laurier replied to a question that the House will sit to-morrow and Friday, and he would announce to-morrow whether the House would sit on Monday (Labor Day.)

Mr. Foster gave the Government notice that to-morrow the Opposition would discuss the issue of Governor-General's warrants.

QUEBEC'S NEWSETTLERS.

Many People are Coming From the Old World to the French Province.

Montreal, Que., Sept. 2.—(Special.)—Although Quebec Province spends but $4000 per annum on immigration, a good many people are coming out from the British Isles every month, most of whom are located in the Eastern Townships. The following are the monthly returns for 1896: January 62, February 72, March 172, April 255, May 310, June 265, July 241, August 10, For the fiscal year ending June 30 there were 2033, divided as follows: English 1548, Irish 183, French 291, Belgian 58, Scotch 59, German 70, other nationalities 181. Of this number 1234 were Protestants, 993 Catholics and 206 of other religions.

DEALING IN GOLD.

Montreal Bankers Say Its Importation Just Now is a Profitable Transaction.

Montreal, Sept. 2.—(Special.)—European gold is making its way into Canada at a rapid rate. It was announced to-day that the Bank of British North America had imported a million in gold and quite recently the Bank of Montreal ordered $500,000 of the precious metal. As to the significance of the imports of gold into Canada, a prominent banker said this morning that at the present rates of exchange it became a profitable transaction and this no doubt was the cause of the present influx.

New Fish Hook.

A new fish hook has been invented. The bait-holding device is supplied with self-opening hooks, which are closed and concealed at their points, and which spring in opposite directions when the slightest tension is put upon the line. One of the chief advantages claimed is that when the fish are landed they can be readily released.

TO LORD RUSSELL.

The Eminent Chief Justice Honored at Ottawa

BY A BANQUET AT RIDEAU CLUB.

The Premier and Other Members of the Government Were Joined by Sir Charles Tupper and Other Prominent Men of the Opposition in Paying the Tribute.

Ottawa, Sept. 2.—(Special.)—It was a notable gathering which assembled in Rideau Club to-night to do honor to England's Lord Chief Justice. The dinner was given by the Premier and the members of the Government, and the country will commend them for their action. About 90 were present, the guests embracing privy councillors, judges and members of both houses and of the legal profession. The Premier presided. On his right was Lord Russell, the guest of the evening, and to his left Sir Frank Lockwood. Others seated at the table of honor were Sir Richard Cartwright, Sir Oliver Mowat, Mr. Fox, Mr. Crackenthorpe, Speaker Pelletier of the Senate, Chief Justice Sir Henry Strong, Hon. L. H. Davies and Hon. R. W. Scott. There were also present Hon. Dr. Borden, Hon. A. G. Blair, Hon. J. I. Tarte, Hon. Mr. Paterson, Hon. J. W. Longley, Sir Charles Tupper, Bart., Sir Mackenzie Bowell, Sheriff Sweetland of Ottawa, Senator Bernier, Senator Lougheed, Sir A. P. Caron, Sir C. H. Tupper, Senator Miller, Hon. D. Tisdale, Mr. Speaker Edgar of the Commons, Hon. W. B. Vidal, Senator Masson, Hon. E. G. Prior, Hon. Hugh John Macdonald, Hon. G. E. Foster, Hon. J. F. Wood, Hon. W. H. Montague, Mr. Justice Burbidge, Judge Musgrove, Hon. W. S. Fielding, Hon. William Mulock, Hon. C. A. Geoffrion, Sir Henry Joly, Mayor Borthwick of Ottawa, Hon. J. M. Gibson, Senator Power, D'Alton McCarthy, M. C. Cameron, M.P.; R. L. Borden, M.P.; J. McAllister, M.P.; L. P. Brodeur, Deputy Speaker of the Commons; A. Choquette, M.P.; M. O'Gara, Q.C.; L. A. G. Angers, M.P.; Senator Adams, N. A. Belcourt, M.P.; B. M. Britton, M.P.; J. G. H. Bergeron, M.P.; Senator Baker, R. G. Carroll, M.P.; Dr. A. O. Desmarais, M.P.; N. F. Davin, M.P.; Chauvin, M.P.; M. K. Gowan, M.P.; J. A. C. Ethier, M.P.; T. B. Flint, M.P.; T. Fortin, M.P.; Hon Sydney Fisher, J. A. Gillies, M.P.; Hon. W. B. Ives, Mr Justice King, Senator Kirchoffer, F. Langelier, M.P.; J. Lavergne, M.P.; H. J. Logan, M.P.; William Lount, M.P.; G. V. McInerney, M.P.; J. A. McGillivray, M.P.; W. B. McInnes, M.P.; D. Monet, M.P.; A. Morrison, M.P.; A. McNeill, M.P.; G. F. McIsaac, M.P.; E. L. Newcombe, Senator O'Donohoe, C. E. Pouliet, M.P.; R. Prefontaine, M.P.; Senator Poirier, M. J. F. Quinn, M.P.; P. V. Savard, M.P.; Mr Justice Sedgwick, Capt. Sinclair, Senator Wood and Hon. Charles Fitzpatrick, Solicitor-General.

LORD RUSSELL OF KILLOWEN.
The Lord Chief Justice of England.

In the Senate.

In the Senate this afternoon, upon the orders of the day being called, Senator Boulton rose to a question of privilege. In his speech yesterday Senator Lougheed had jocularly enumerated the Liberals in the Senate, including Senator Boulton in his list. He wished to correct this statement by saying that his political proclivities were Liberal in so far as they accorded with his principles as a Liberal-Conservative. He had dissented from his former friends when he found that they had drifted away from the Liberal principles infused by the late Sir John Macdonald into the Liberal-Conservative party into ultra-Conservatism, recognising class interests and corporate power in their legislation before the interests of the people. If Senator Lougheed would again refer to the Parliamentary compendium he would find him classed as a free trader. His principles at present were free trade with the British Empire only, giving sufficient time for our own industries to adjust themselves, and free trade with the United States as soon as they will give us the same freedom of exchange as the people of Great Britain do.

Sir Mackenzie Bowell congratulated Senator Boulton on being a Conservative, but objected to free trade being incorporated as one of the planks in the Conservative platform. The debate on the address was concluded, and finally the address was adopted unanimously. Dealing with the contents of the speech, he said that the country expected to hear a clear and explicit expression of the policy of the Government on the tariff question this session. The National Policy had fostered and built up the industries of the country.

Senator McCallum introduced a bill to amend the Railway Act, and Senator Aikens another bill to amend the act respecting building societies and loan companies doing business in Ontario.

Chief Justice of England Lord Russell had a seat on the floor of the House during Mr. Cameron's speech on the iniquity of the Langevin block. He afterwards asked to be introduced to the member for West Huron and remarked: "That was a terrible arraignment." "I only wish," replied Mr. Cameron, "that I could have tried it before Your Lordship."

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; it will freshen you up and make work a pleasure. Should be used by everybody during house cleaning. tf

Scrofula

Infests the blood of humanity. It appears in varied forms, but is forced to yield to Hood's Sarsaparilla, which purifies and vitalizes the blood and cures all such diseases. Read this:

"In September, 1894, I made a misstep and injured my ankle. Very soon afterwards,

A Sore

two inches across formed and in walking to favor it I sprained my ankle. The sore became worse; I could not put my boot on and I thought I should have to give up at every step. I could not get any relief and had to stop work. I read of a cure of a similar case by Hood's Sarsaparilla and concluded to try it. Before I had taken all of two bottles the sore had healed and the swelling had gone down. My

Foot

is now well and I have been greatly benefited otherwise. I have increased in weight and am in better health. I cannot say enough in praise of Hood's Sarsaparilla." MRS. H. BLAKE, So. Berwick, Me.

This and other similar cures prove that

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills the best family cathartic and liver stimulant. 25c

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month. $3.00 for six months.

Daily Examiner.

THURSDAY, SEPTEMBER 3, 1896.

THE EGG TRADE.

A despatch from London states that Canadian eggs are becoming an acknowledged feature on the British markets. There is no reason why they should not. It will be remembered that at the time the United States placed a tax on eggs imported to the United States which practically barred out the product of our industrious and worthy Canadian hen, it dawned upon the egg dealers that it was within the bounds of possibility that an egg trade with Great Britain could be built up. Enquiries proved, not only that this could be done, but that it offered a field which had been for some incomprehensible reason neglected. Communications with the great egg dealers in the mother land simply brought one answer—we will take any number of good eggs, you cannot send too many. One large establishment wrote a private letter, saying that they imported annually millions of eggs from Russia, the port of shipment being Odessa. The time taken in transition from Canada to Britain would be a little less than from Russia, so that the question of distance did not enter into the issue. The only condition required by this large dealer, who has warehouses in many central points in Austria and Russia, and who expressed his readiness to accommodate Canadians in like manner if the trade was boldly taken up, was that consignments must be good in quality and properly packed. The latter was stated by him to be one of the most important elements. This egg trade has been most unwisely neglected by our farmers and others, says the Ottawa Free Press. It might be as great a source of profit as butter and cheese, and without any of the hasard which, at times, attaches to that particular industry. It is one in which, as in the case of honey, the greater part of the work is done by others, and the farmer has merely to pluck the fruits. Last year there was imported into Britain the enormous number of 127,223,000 dozens of eggs, and of these the quantity sent from Canada was comparatively insignificant, some 4,000,000. It is obvious, therefore, that more attention should be given to this important subject. The Department of Agriculture has been shamefully neglected under the late regime, and the two successive occupants of the important portfolio, Messrs. Angers and Montague, have in addition shown an utter ignorance of its administration and necessities. They have practically done nothing and in the latter case it is complained that the policy was "put it off until after the general elections." The general elections are now over with most happy results, and we trust that one of the first matters to which Mr. Fisher will devote his attention will be the development of the egg trade.

EDITORIAL NOTES.

THE Green Isle has always been noted for the purity of its women, and the high standard of morality prevailing. The last report of the Registrar General for Ireland adds another proof of the truth of the statement. So very small is the percentage of illegitimate births in Catholic parts of the country that the Registrar General has thought it worthy of special comment. In Connaught, where the population is almost entirely Catholic, there is only one illegitimate birth to every thousand children born. But this ratio is unfortunately not universal in Ireland. In Ulster the illegitimate rate is thirty-nine per thousand as against the twenty-seven per thousand for the whole of Ireland.

THE Halifax Chronicle concurs in the generally expressed opinions on the course of the Governor-General in relation to the Tupper Government, and says: "It is fortunate for Canada that at a critical period in her history this country had as Governor General a gentleman well qualified to deal with constitutional questions by years of study and by association with the leading statesmen of England in dealing with a large variety of constitutional questions. It is also fortunate that His Excellency possesses the requisite knowledge and experience enabling him to decide upon the proper constitutional course, but also possessed a sufficiently resolute character to adhere to that decision in spite of the bluster and ill-concealed rage of the defeated ministry and its bullying but baffled leader."

AT THE IRISH CONVENTION.

A Motion Favoring a Union of All the Sections of the Irish Party Adopted —Edward Blake's Advice.

Dublin, Sept. 2.—The second day's session of the Irish race convention opened with a full attendance of delegates. Father Flynn of Waterford proposed the appointment of a committee composed of home and foreign delegates empowered to draft a platform upon which all sections of the Irish party could unite and work loyally. The motion was seconded by the Mayor of Waterford.

Mr. T. P. O'Connor, M.P., spoke in opposition to the proposal, and protested against the Healyites being regarded as a separate party. Every Healyite, he said, had signed a pledge to abide by the decision of the Irish National Parliamentary party or to retire therefrom. To treat with the Healyites as a separate party, he declared, would be to tear down the foundation of national unity. The convention, he continued, had met under the unanimous vote of the real Irish party. Why, he asked, was not every member present? If anyone had charges of dishonesty or trickery to make why did he not make them in the light of day?

Rev. E. Murnane of Bermondsey interrupted the speaker, saying that he considered Mr. O'Connor's speech ill calculated to promote harmony.

The chair ruled that Mr. Murnane was not in order, and Mr. O'Connor resumed his remarks, saying among other things that the convention must not be a failure, as in such an event it might result in the death of the Irish constitutional movement which was now in progress.

Hon. Edward Blake, M.P. for South Longford, followed with a long speech in favor of a reunion of the factional elements of the party. He contended that the aims of all were alike, and that there ought not to be, if personal feuds were put aside, any difficulty in the way of their uniting.

The resolution offered by Father Flynn of Waterford, proposing the appointment of a committee of home and foreign delegates to draft a platform which would be acceptable to all sections of the Irish party, was withdrawn after debate, and a resolution declaring in favor of the union of all sections of the Irish party was unanimously carried.

Just before the adjournment Mr. John Dillon, M.P., leader of the Irish Nationalist party, made a speech, in which he said that, although he had been grossly vilified by certain persons, those making the attacks upon him had failed to come into the convention and support the charges which they had made against him. Mr. Dillon declared that he was willing to withdraw from his position as chairman of the Parliamentary party, and equally ready to follow any other leader who might be selected. At the conclusion of his speech Mr. Dillon received an ovation, the cheering lasting several minutes.

Cork, Sept. 2.—The Cork Herald, an organ of the Healyite faction of the Irish National party, publishes a long article this morning commenting upon yesterday's proceedings of the Irish convention in Dublin. The convention, The Herald declares, proves to be not a meeting of the world's representatives of the Irish race, but a mere sectional gathering, the real purpose of which is to replenish the finances of a discredited section of the Irish party, headed by a discredited leader. The convention may dupe the delegates from abroad, but it cannot effect any possible good to Ireland.

GALWAY.

From our own Correspondent.

Mr. F. Dettman has partially retired from farming, and has leased the Dunbar House in Kinmount. He took possession on the first of September, and we have no doubt that he will be favoured with a fair share of the public patronage as he is well known throughout the country, and has the ability and adaptation for a good hotel keeper.

Mr. James Allen has purchased the Hamilton threshing machine previously owned by T. Dettman. He has already commenced work and is giving general satisfaction, and will no doubt take a good run.

Miss Scott, who is filling a third term as teacher for school section No. 6, and who is held in high esteem by the entire section, made arrangements to hold the annual picnic for her pupils last Friday in Mr. Robert McKee's grove, which is convenient to the school grounds. It being the anniversary of her birthday she spared no pains in making it pleasing and enjoyable for the pupils as well as their parents. All sorts of games were indulged in by the children. Messrs. W. McConnell, R. Scott and C. McMahon were the committee to carry out the programme, which they did very creditably.

The forest fires which have been raging in Eastern Galway have been subdued by the recent rains, but not until large quantities of beaver hay were consumed, which will be a great loss to the parties depending on it as supplementary to their fodder for stock.

The Kinmount cheese factory was totally destroyed by fire last Saturday morning at 3 o'clock. Cause of fire unknown. The loss will be partially covered by insurance. We trust the proprietor, Mr. Webb, and the patrons will make an effort to have it rebuilt in order to have operation by next spring.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally of health. The mad pursuit of place, power and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer of it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency and fatigue add their mournful notes to the "still sad music of humanity." Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increasing virgils! Health and strength are the alternatives from decay and death.

Coca, combined with Maltine affords that staff. It will give tone to the nervous system, strength to the nerves, sleep to the weary eyes, and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated. Maltine with Coca Wine is sold by all druggists.

Baby Nearly Dead.

SIRS.—My baby was very bad with summer complaint, and I thought he would die, until I tried Dr. Fowler's Extract of Wild Strawberry. With the first dose I noticed a change for the better, and now he is cured, and fat and healthy. MRS. A. NORMANDIN, London, Ont.

Mrs. T. S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitalizer 'Saved my Life.' I consider it the best remedy for a debilitated system I ever used." For dyspepsia, liver or kidney trouble it excels. Price 75c. Sold by John Nugent, 393 George Street.

Children Cry for Pitcher's Castoria.

ANNIVERSARY GREETING.

OAK HALL

OAK HALL has been with you almost a year, and we see no more fitting way of showing our appreciation of your goodwill and liberal patronage during the past twelve months, than by acknowledging our gratification for this same in advance of our initatory year in Peterborough. We intend to make an especial effort to please our large and increasing circle of purchasers by opening out for you inspection the finest Fall stock of Clothing ever offered here. The same will be found—

PLENTEOUS IN QUANTITY.
EXTENSIVE IN VARIETY.
LIBERAL IN PRICE.

It may seem chilly to talk **ULTERS** and **OVERCOATS** but it is well to think about these early.

ULSTERS are very much the same as last year, although a trifle longer. Prices start at $4.00.

DRESS OVERCOATS, Double Breasted, deep Collar, prices start at $3.50.

SUITS that smack of the very latest fall cut. Prices start at $3.25, dark shades prevailing.

BOY'S SUITS fresh from the hands of our own expert tailors and cutters. Special care has been shown in the make and finish.

CHILDREN'S DEPARTMENT. Here is where our practical men exert themselves to please the most exacting wants of parent and child.

CHEESE MARKETS.

Napanee, Aug. 26.—At the Cheese Board to-day there was 650 boxes of cheese boarded, 400 boxes of white and 250 boxes of coloured: 375 boxes sold at 8 5 16c; balance unsold but likely to change hands after the board closes.

Picton, Aug. 26.—At the Picton Cheese Board to-day 14 factories offered 835 boxes; 8c to 8 1-4c was offered. No sales.

Wood-tock, Aug. 26.—At the Cheese Board to-day the offerings were 3,830 boxes; 135 boxes sold at 8 1-8c, 452 at 8 1-16; the market seemed to drag. Six buyers were present.

Utica, Aug. 31.—Sales to-day—230 boxes small at 7 3-8c, 325 boxes small at 7½c. 325 boxes small at 7 5-8c, 2,790 boxes small and large at 7 9-16, 265 boxes large at 7 7-8c; market 1-4c lower, but steady at decline; 98 packages of creamery butter sold at 17c.

At Little Falls—50 boxes at 7 1-4c, 1,030 boxes at 7½c, 2,260 boxes at 7 3-4c. 139 boxes at private terms.

Campbellford, Sept. 1.—At the cheese board meeting here to-night 680 boxes were offered, of which 40 boxes were coloured. The sales were —35 boxes of white to Watkins at 8 1-2c; balance unsold. The buyers present were Messrs. Bird, McCargar, Cook, McGrath, Thompson, Naylor and Whitten.

Ingersoll, Sept. 1.—Offerings to-day, 2,165 boxes. No sales. Attendance small. Market dull 8½c was the ruling bid.

Belleville, Sept. 1.—At our cheese board to-day 1,365 boxes of white and 50 boxes of coloured cheese were boarded by 21 factories. The sales on the board were:—220 boxes of white at 8 11-16c, 1230 at 8 ¾c.

LIVE STOCK MARKETS.

MONTREAL.

Montreal, Aug. 31.—Cattle—Private cables from London say that the sales of Canadian cattle there to-day were less satisfactory than they were last week. In the Liverpool market Canadian cattle sold at 5d to 5½d and sheep at 5d. There were about 700 butchers' cattle, 1,000 sheep and lambs and 40 store hogs offered for sale at the East End Abattoir to-day. The butchers were present large numbers, but trade was dragging all round, and the prices of cattle and sheep are lower. A few choice heavies were sold at about 3½c per lb; pretty good stock sold at from 3½c to 3¼c per lb; common rough half-fatted beasts sold at from 2c to 2½c per lb, and some of the leaner old cows and hard-looking bulls brought a little over 1½c per lb. It is probable that a considerable number of cattle will not be sold to-day. Calves sold at from $2 to $6 each. Mr. Jos. Richard paid $19 for three good calves. Shippers are paying about 3c per lb for suitable sheep; the others sell at from $3 to $3 each. Lambs sell at from 3½c to 4¼c per lb. A lot of 60 buck lambs, averaging 70 lbs each, were sold at 3½c per lb; fat hogs are slightly higher in price. Large porkers sell at from 3½c to nearly 4 1-2c per lb, the latter price being paid only for choice hogs just come off the cars. Store hogs sell at from $4 to $7 each.

That hacking cough can be quickly cured by Hagyard's Pectoral Balsam. Price 25c.

THE GREAT SHOOTING

Made in the Walker Match at Ottawa.

THE HIGHEST SCORES EVER MADE

Hamilton's Battalion Won the Trophy and Simpson of the Grenadiers Topped the Score for the Individuals—Wind Spoiled the Chances in the Henshaw Match.

Ottawa, Sept. 2.—(Special.)—The Walker match was started this morning at the Rideau range. It is a match for battalion teams, and is shot, therefore, under rather more favorable auspices than the riflemen usually enjoy. The teams are of six men and these are squadded and allowed a coach. They can also help one another a good deal, and the general run of scores therefore, is high. No one, however, expected anything like the high scoring that was done to-day. It was a record-breaker.

In the individual scores, Pte. Simpson of the 10th Royal Grenadiers and Staff Sergt. Lavers of the Sixth Fusiliers tied up with 99 each, and the result was a shoot-off. The betting was what it looked—even—and the tie was shot for the cup on the extra series 600 yards' range during the Henshaw match. The result was:

Pte. Simpson ..... 4 4 5 5 5—23
Staff-Sergt. Lavers ..... 3 3 3 3 4—16

Then came the Henshaw match, which is seven rounds at 200 and 10 at 600 yards, always a big test, and one that walks into any team considerable. The third was very rough, and no scores of any account were made at 600, a few near the possible only being registered, and when 60 was reached the spectators were boisterous. This caused a 70 to win this year, as against two 78's which led last year, and a number of 68's came in the prize list, while they had to show well last year, when 65's were counted out. The scores in these matches were:

THE WALKER MATCH.

For battalion teams, a challenge cup and a similar cup to be won individually, presented by Hiram Walker & Sons of Walkerville, Ont., with six badges and $105 in cash added by the D.R.A.; open to teams of six members from any of the following: Cadets of the R.M. College, Royal schools of cavalry, artillery or infantry, any regiment, squadron or troop of cavalry, field battery or brigade of field or garrison artillery, any corps of engineers, battalion or independent company of the active militia, or of the same denomination of the Force of H.M. regular army or navy stationed in Canada, provided that all are members of the Dominion Rifle Association.

Walker Trophy and $18—13th Battalion team—Col.-Sgt. E. Skedden, 97; Sgt. T. Mitchell, 95; L.-Sergt. W. L. Ross, 93; Staff-Sgt. Taylhurst, 94; Sergt.-Major Huggins, 92; Corp. C. W. Spencer, 91. Total, 564.

$42—10th Royal Grenadiers' second team—Staff-Sergt. Brooks 82, Pte. Fowler 90, Sgt. Armstrong 97, Pte. Heller 97, Pte. Mortimer 93, Pte. Jefferies 92. Total, 551.

$36—10th Royal Grenadiers' first team—Staff-Sgt. Bell 91, Corp. Armstrong 90, Corp. Wimbutt 88, Pte. Bayles 90, Pte. Davidson 88, Pte. Simpson 98. Total, 546.

$30—First Brigade Field Artillery—Lieut. J. W. Gilchrist 87, Sgt. J. Crowe 91, Sgt. C. R. Crowe 91, Corp. W. Gould 90, Gnr. F. W. Sleeman 95, Gnr. T. Irving 91. Total 546.

$24—78th Battalion—Lieut. J. Dover 89, Corp. McLean 89, Corp. McNutt 97, Capt. Blackburn 89, Lieut. Cribb 90, Sgt. Blair 88. Total, 542.

$18—Third Victorias, Montreal—542.

Next in order—30th 540, first team 43rd 538, first team 48th Highlanders 535, 77th Battalion 535, 6th Fusiliers 534, 5th Royal Scots 534.

Walker Cup—Pte. Simpson, 10th R.G., 98.

HENSHAW MATCH.

$100 given by Lieut.-Col. Henshaw, cup given by H. Corby, M.P., and $425 added by the D.R.A., the cup, after being fired for for three successive years, to be competed for by those winning it; seven shots at 200 yards, 10 shots at 600; possible, 85; Cup and $20—Capt. W. Davidson, 8th, 70.

$18—Staff-Sergt. A. A. Smith, 59th, 75.

$15—Sgt. Broadhurst, 5th R.S., 74.

Thirteen 65's counted out.

MILITARY RIFLE LEAGUE.

Seventh Annual Meeting Held at Ottawa and Prizes Awarded.

Ottawa, Sept. 2.—(Special.)—The seventh annual meeting of the Canadian Military Rifle League was held this evening in the Russell House, Lieut.-Col. Masson, President of the League, presiding, and among those on his right and left were Col. Walker Powell, Col. Panet, Major-General Laurie and Col. Aylmer.

President Masson spoke of the increase in membership and thanked the Government for free ammunition, and the Department for the way it had been forwarded, since trouble had been occasioned by the difficulty of getting matches to suit, but it was hoped that now the Lee-Enfield rifle was to be used there would be no trouble.

Major-General Gascoigne arrived shortly after the President's speech, and was greeted with hearty applause. The secretary's minutes having been read the presentation of prizes took place by Major-General Gascoigne, Major-General Laurie, Lieut.-Col. Panet, Col. Powell, Lieut.-Col. Aylmer.

THE PRIZES PRESENTED.

The prizes consisted of sterling silver salvers, and were then presented by General Gascoigne. The General, in opening said he thought they would like to hear something of his feeling for rifle shooting. He had a greater sympathy with the league than with the meeting now going on. He believed in encouraging rifle shooting, and wanted the men armed with the best available arms. At the camps he wanted to raise the standard of rifle practice, and he believed the big associations did a great deal of good. His sympathy, however, was with the poor shot, and the original intention of these rifle associations was to work up the poor shots. The management he believed of the D.R.A. to be good, but there were improvements that could be made. He saw some taking part in shooting perhaps that were not as well dressed as if they were going on inspection. Men should get over this and learn to look their best. The General, in continuing, expressed the opinion that the riflemen should not go into little devices, such as putting bits of metal in their eyes.

GENERAL LAURIE'S REMARKS.

Major-General Laurie, in speaking, said he believed that the D.R.A. brought together many old comrades. He also thought they did much good, both the C.M.R.L. and the D.R.A., to foster and encourage shooting. Lieut.-Col. Aylmer made a humorous speech. He certainly thought that the free ammunition was a good thing. It was said he had discovered a new rifle range, but he did not pose as a discoverer. He might say there was a spot that would make a very fine rifle range, and that within a few yards of the end of the street car lines.

The prizes were then handed out amid applause.

Battalion teams, 10 men—1st prize, 13th Batt., Hamilton, Ont., 1st team, 3540; 2nd prize, 59th Batt., Cornwall, Ont., 3514; prize, 59th Bat., Charlottetown, P.E.I., 1st team, 3509; 4th, 43rd Batt., Ottawa, Ont., 1st team 3460; 5th, 45th Batt., Bowmanville, Ont., 1st team, 3447; 6th, 45th Batt., Lindsay, Ont., 2nd team, 3428; 7th, 14th Batt., Kingston, Ont., 3419; 8th, 5th B.C. Regiment C.A.N. Westminster, 1st team, 3412; 9th, 7th Batt., London, Ont., 3384; 10th, 57th Batt., Peterboro, Ont., 1st team, 3373.

Battalion teams, 30 men—Prize, 43rd Batt., Ottawa, Ont., 1st, 2nd and 3rd teams, 9755.

Battalion teams, 40 men—Prize, 43rd Batt., Ottawa, Ont., 1st, 2nd, 3rd and 4th teams, 12,545.

Battalion teams, 50 men—Prize, 43rd Batt., Ottawa, Ont., 1st, 2nd and 3rd

Battalion having largest number of teams in league series, 1896—Special prize, 30th Batt., Guelph, Ont. (12 teams or 120 men).

Rifle Association teams, 10 men—1st prize, Guelph R.A., Guelph, Ont., 3541; 2nd prize, St. John County R.A., St. John, N. B., 3455; 3rd, Truro R.A., Truro, N.S., 1st team, 3378; 4th, Sussex Vale R.A., Sussex, N.B., 1st team, 3372; 5th, King's County R.A., Kentville, N.S., 1st team, 3346.

Highest individual scores, 1st series, Winnipeg championship badges—1, Lieut. John Ogg., Guelph R.A., Guelph, Ont., 382; 2, Staff-Sergt. A. A. Smith, 59th Batt., Cornwall, 380; 3, Staff-Sergt. J. H. Simpson, Guelph R.A., Guelph, Ont., 378.

SECOND SERIES.

Ranges 200, 400 and 500 yards; Snider rifle; 7 rounds at each range.

Battalion teams, 10 men—1st prize, 77th Batt., Dundas, Ont., 1st team, 3492; 2nd, 13th Batt., Hamilton, Ont., 1st team, 3471; 3rd, 20th Batt., Oakville, Ont., 1st team, 3358; 4th, 13th Batt., Hamilton, Ont., 2nd team, 3313; 5th, 57th Batt., Peterborough Rangers, Peterboro, Ont., 1st team, 3283; 6th, 37th Haldimand Batt., York, Ont., 1st team, 3274.

Rifle Association teams, 10 men—Prize, Grand Trunk R.A., Montreal, 1st team, 3103.

Highest individual scores, 2nd series, winning championship badges—1, Sergt. John Rolston, 37th Batt., York, Ont., 378; 2, Bugler P. Metzger, 77th Batt., Dundas, Ont., 376; 3, Sergt. H. F. Rymal, 13th Batt., Hamilton, Ont., 375.

Third series, first section; 200, 500 and 600 yards; Martini-Metford or Lee-Metford carbines.

Ten men—Prize, "B" squadron, R. C. Dragoons, Winnipeg, Man., 1st team, 2769; Highest individual scores, winning championship badges—1, Sergt. Inspector Page, "A" Squadron R.C. Dragoons, Toronto, 324; 2, Lance Corp. Allen, "A" Squadron R.C. Dragoons, Toronto, 311.

Second section, 200, 300 and 400 yards; Snider and Winchester carbines, 10 men—Prize, "A" Troop Manitoba Dragoons, Virden, Man., 1st team, 3025.

Highest individual scores, winning championship badges—1, Sergt.-Major Weeks, Saskatchewan R.A., Prince Albert, N.W.T., 371; 2, Pte. C. E. Ivens, "A" Troop Manitoba Dragoons, Virden, Man., 363.

OFFICERS RE-ELECTED.

The election of officers was then proceeded with and the executive and officers were all re-elected except that Major Busteed replaces Major Simms in Quebec; Lieut. Dover, Major Weston in Nova Scotia; Major Evans Capt. Woodside and Lieut. Brown represent Manitoba and Lieut. Tite and Mr. R. Wilson act in British Columbia.

A C. P. R. CONDUCTOR.

After Two Years' Misery was Cured by Ten Boxes of Dodd's Kidney Pills.

Prescott, (Special) Aug. 24.—For a long time much sympathy had been felt and expressed for Mr. Wm. Freeman, a very popular conductor of the C.P.R., who had been rendered unfit for duty the past few years by a peculiar and distressing form of kidney disease. It now transpires, much to the delight of his friends, that he has been enabled to resume his regular trips. He claims, as the results of using only ten boxes of Dodd's Kidney Pills, that he has entirely recovered, and that he never felt better in his life, and believes that these Pills have cured him to stay cured.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

The Dinner Bell.

The dinner bell has no charms for a dyspeptic or bilious person. To enjoy your food, avoid dyspepsia and have healthy action of the liver, use Laxa-Liver Pills, small, sure, never gripe. One pill after a too-hearty meal removes all ill-effects. They cure indigestion and give good appetite.

Irish Wit.

The well from which Irish stories are drawn is inexhaustible. Here is a good example of Pat's wit and readiness: An Irish witness was being examined as to his knowledge of a shooting affair. "Did you see the shot fired?" the magistrate asked. "No, zorr; I only heard it," was the evasive reply. "That evidence is not satisfactory," replied the magistrate sternly—"stand down!" The witness turned round to leave the box, and directly his back was turned he laughed derisively. The magistrate, indignant at this contempt of court, called him back and asked him how he dared to laugh in court. "Did ye see me laugh, Your Honor?" queried the offender. "No, sir; but I heard you," was the irate reply. "That evidence is not satisfactory," replied Pat quietly, but with a twinkle in his eye. And this time everybody laughed except the magistrate.—Westminster Gazette.

Which is worse, imprisonment for life or a life long disease, like scrofula, for example? The former, would certainly be preferable were it not that Ayer's Sarsaparilla can always come to the rescue and give the poor sufferer health, strength and happiness.

A Crying Evil.

Every crying evil should be promptly removed. Sick headache is a crying evil affecting thousands of Canadians, which can easily be removed by the use of Burdock Blood Bitters, the best known stomach, liver and bowel regulator and cure for sick headache from whatever cause arising.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 249 George Street.

OFFICE—FURNITURE WAREROOMS

TORONTO
INDUSTRIAL EXHIBITION.
SPECIAL NOTICE.
Visitors to the above who are musically inclined should carefully inspect The MASON & RISCH PIANO exhibit. Our stand is the first one on the left as you enter the Musical Pavilion. Our exhibit is not a large one, as we believe that the beautiful tones of instruments can be more fully appreciated in the quiet of our warerooms than amidst the bustle and confusion of an exhibition. We shall therefore make our principal exhibit at our warerooms, 32 King St. W., to which all visitors are cordially invited.
One of the most valuable paintings at the Art Gallery in the exhibition building will be the famous portrait of the Great Pianist Franz Liszt which was painted at his command by Baron Joukovsky, the Great Russian Artist, and presented to Messrs Mason & Risch as a tribute to the wonderful tone qualities of their Pianos. Every lover of Art should make it a point to see this painting. It is valued by experts at $5000.00.

WE HAVE NOT CHANGED OUR DECISION

To retire from business as quickly as circumstances will permit. But, as the Fall trade approaches we find ourselves with a large and varied stock of high-class Staple Dry Goods, which cannot be moved out without being well assorted with New Fall lines of the latest, leading Novelties of 1896.

We shall continue, therefore, during the Fall and early Winter months to keep a regular assortment of the leading Novelties for fashionable

Fall Wear.

The buying has been done with extreme care, but the stocks are comprehensive enough to satisfy every need, ranging from the newest things in **SILK AND WOOL DRESS GOODS,** for the super-fashionable, to the simplest effects in the quietest materials for people to whom a dollar is a dollar, or sometimes more.

It must not be forgotten, however that our chief object is still to get entirely out of business. This will have its full effect on prices, and the new goods will have to share in the same general reduction necessary to accomplish a prompt clearance of the entire stock.

ROBERT HALL

385 George St.

Every Man

has a preference even in what he eats. The bread and and pastry, if light and white, is always relished and appreciated. If your wife buys the flour at Mason & Co.'s you can always depend on having the best bread and pastry. 3d

She was Found.

Mr. Richard Winch's little granddaughter was found yesterday afternoon at about four o'clock on the corner of Smith and Water streets, to which point she had wandered from Mr. Winch's residence on George street near Sherbrooke.

St. Andrew's Superintendent.

At a meeting of the officers and teachers of St. Andrew's Sabbath school held last night, Mr. G. W. Mulligan was elected by a unanimous vote to be superintendent for the coming year. Mr. Fred Ghadman will be assistant superintendent.

HOUSE WANTED—A GENTLEMAN desiring to reside in Peterborough, wishes to purchase a centrally located Residence, with stable and driving shed in connection or with grounds on which the latter could be built. Any person having such for sale will state locality with an approximate value. All communications to be in by September 5th. E. FOSAM, EXAMINER Office.

Acknowledged with Thanks.

The Committee of Management of the Peterborough Protestant Home acknowledge the following donations for the month of August:—Mrs. W. Nitney, reading matter; a Friend, basket of apples; St. John's Church, flowers; Mr. Walsh, soap.

Fruit Jar Famine.

Owing to the large crop of fruit, the stocks of fruit jars have been completely exhausted and prices wholesale have gone up $6.00 per gross. In consequence of the above we are compelled to advance the retail price, and will sell till further notice as follows: Pints, 80c.; quarts, $1: ½ gal., $1.20 per dozen. Buy quickly, as a further advance is certain.—CHINA HALL.

People's Coal Company.

Why are so many people leaving their order with the People's Coal Co., Ltd.? Because it is the cheapest and purest hard coal in town, being free from iron, sulphur and slate. We will deliver in bags and weigh on market scales. Contrary to reports we have no connection with any other town company and our coal can only be bought through us. Do not be carried away by talk from interested parties, but try a bag for yourself. No charge unless satisfactory. We also handle Butte Cannel, a very superior coal for grates. Office, 280 Charlotte street; Tel. 306; 1st door east of Aylmer street.

Not Easily Caught.

Druggists have recently had inducements held out to them to leave the Dominion and begin life across the border. The State University of Wisconsin has sent out a circular to them saying, that since druggists know so much of materia medica, and toxicology, and other subjects pertaining to medicine, that institution had decided to grant the degree of M.D. to druggists on receipt of $25. But the circular goes on to say that, as a Wisconsin degree is of no use to an Ontario man in this province, an M.D. would be conferred on a Canadian druggist on receipt of $10. No druggist, as yet, has taken advantage of the offer.

SUDDEN DEMISE.

Mr. Luke Horkins Passed Away After a Very Short Illness.

The following additional particulars concerning Mr. Horkins' death are taken from the Campbellford Gazette: Very sudden and unexpected was the demise at his late residence, Bridge street, of Mr. Luke Horkins, one of Campbellford's oldest residenters. The aged gentleman was as well as usual before 12 o'clock on Monday, but about that time was attacked by summer complaint which resulted in a complication of trouble and in his demise at 7.30 Tuesday evening. Luke Horkins was 80 years of age. He was an Irishman by birth, having been born in the county of Mayo, Ireland. He came to this country in 1840, and for a while taught school in Emily township, Victoria county. There he met and married Mary Ryan, his life long partner, who survives him. Fifty years ago he came to Seymour township. For some time he lived in Meyersburg, but forty-five years ago removed to Campbellford and has been a resident of this place ever since. Mr. Horkins kept the second store that was started in Campbellford, Mr. Gibb having established the first, and for a number of years he acted as constable in the village. Seven children, three boys and four girls, all of whom are alive, were the results of his marriage. The eldest is Mary, who is at home; Eliza is now Mrs. McLaren of Toronto; Amy is Mrs. (Dr.) Keane of Brantford; William is in Campbellford, but has been in Pittsburg, U.S.A.; Barbara is Mrs. Sullivan of Sarnia; Thomas is a merchant in town; and George J. resides in Peterborough. Mr. Horkins' long residence in Campbellford inseparably connects him with the past history of the village. With the village he grew up, thrived and prospered and at the time of his death was considered wealthy. The absence of his familiar figure will be felt amongst a very wide circle of acquaintances. During all his life the deceased was a staunch Roman Catholic. The funeral will take place to the Roman Catholic cemetery on Friday morning at 9.30 and the services will be conducted by the Rev. Father McCloskey.

57TH BATTALION ANNUAL RIFLE MATCHES.

They Will be Held on Labour Day Beginning at Nine O'clock a. m.

The annual rifle match of the 57th Battalion will be held on Monday next, Labour Day, beginning at 9 a. m. at the ranges.

Col. Bell is in Ottawa and has arranged for the shipment of the ammunition in order that it may arrive here to-morrow.

The programme will be similar to that of last year, all competitors being required to appear in uniform. It has been deemed advisable to take advantage of Monday being a holiday to hold the matches on that date.

A meeting of the Rifle Committee will be held in the drill shed at nine o'clock Saturday evening to complete the preliminary arrangements in detail.

MR. G. W. MULLIGAN'S FORTUNE.

Every Prospect of the Heirs Soon Getting the Benefit of It.

Mr. G. W. Mulligan has just received word from his father that there is now little doubt but that the big Mitchell estate of Ireland, which has been in Chancery for so many years, is at length to be handed over to the heirs.

The estate is valued at $3,000,000 and Mrs. Mulligan, mother of Mr. G. W. Mulligan, is one of five heirs, the others being her brothers and sisters.

Mr. Mulligan states that though it was always known that the family would probably some day inherit wealth, yet the action of a Court of Chancery is so slow and uncertain that it was doubted if a settlement would be reached for many years.

The citizens generally will be pleased to learn of Mr. Mulligan's good fortune.

ORDAINED A DEACON.

His Lordship the Bishop Conducts the Ceremony.

This morning a solemn function took place in the little chapel at Mount St. Joseph, when Rev. Frank Duffy of Cobourg was ordained a deacon.

His Lordship Bishop O'Connor conducted the ceremony, being assisted by Ven. Archdeacon Casey and Rev. M. O'Brien. The ordination ceremony takes place in Cobourg on Sunday next, when he will be admitted to the priesthood.

School Opening.

No divided opinion as to the ability of the Peterborough Bookstore to serve the scholars with school books and school supplies. The newest of everthing, the best of everything, and the biggest value in everything. The boys and girls have caught on to our store with open-eyed surprise and purchase with unvaried satisfaction. Our presents given away free with every purchase knocks the spots off them all.—A. H. STRATTON & Co.

Provincial Health Report.

The report of the Provincial Board of Health for July shows returns from 453 municipalities, out of a total of 745 in the Province, of depth resulting from contagious diseases. The total number of deaths for a population of 1,306,657 were 156, distributed in the following manner:—Typhoid fever 22, diphtheria 32, scarlatina 2, and tuberculosis 100. Ten of the thirteen cities made returns showing that ten deaths have occurred from typhoid, fifteen from diphtheria, and fifty from tuberculosis. The returns for July were nearly 5 per cent. more than those of June, but the report regrets that several important centres have overlooked this duty.

The Dairy School.

The Ontario government announces that the Dairy School in connection with the Agricultural College in Guelph will be opened on January 17th, 1897, and will continue in session ten weeks. This school should be of great benefit to those who are interested in the subject with which it deals. Even those who are not professional cheese or butter makers could derive much benefit from a short course here. In these days when the profits of farming are small that which does not yield a profit must be discarded, and only that which is profitable retained. The farmer can scarcely afford to ascertain for himself by time and experience what is profitable and what is unprofitable. But since these things have already been determined by experts, the knowledge of them should be disseminated as widely as possible.

For Little Boys and Big.

AN AMUSING CIRCUMSTANCE.

Prejudice Gets the Better of a Business Man's Reason.

A good joke is told on a prominent business man of the town, who is a dyed-in-the-wool Conservative.

The story goes that on the day that Laurier assumed the reins of government, the Peterborough man discovered that a red ticket had been placed in his post office box and taking great offence, roundly abused the Grit Government for dunning him for his box rent before it was due. He resolved to let the government wait for the money and did not pay any further attention to the red ticket until just the other day, when he accidentally took it out with some letters. His surprise can be imagined when he found that it was a registered letter ticket and that a neat little sum of money from a debtor had been lying at the post office for him for nearly a month. As the victim of the circumstance had taken occasion to draw the attention of numerous of his friends to the red ticket and as some of them observed his discomfiture when he ascertained what the ticket really was, an audible smile meets him at every turn.

PERSONAL.

Mr. Ed. Young of the Mary Ellen was in town to-day.

Mr. Fred Clarke is home on his holidays visiting his parents.

Miss Lizzie Kane, of Rochester, N. Y., is visiting friends in town.

Mrs. Orlando Rodgers, Lakefield, is the guest of her sister, Mrs. Thos. Larmer, Water street.

Mrs. Waller, Charlotte street, arrived home from Campbellford last night after a pleasant visit.

Mr. Sam Ray is home again after being away on a duck shooting expedition. He had no luck.

Mr. T. J. Crowley left this morning to resume his studies at St. Michael's College, Toronto.

Mr. Geo. E. Dies has returned home after a two weeks visit to New York and Upper Canadian lakes.

Mr. Dave Rogers again won at the tennis tournament in Toronto yesterday, participating in the handicap singles.

Mr. W. A. Sanderson and family have returned to town, having closed their summer cottage for the season.

Mr. Harry Nail and party have returned from Rice Lake without a single duck. The birds are reported to be very wild.

Miss Young and Miss Burns, of Chicago, who have been summering at Young's Point, passed through town yesterday on their way home.

Mrs. A. Dunsford and her daughter, May, Sherbrooke street, have gone on a month's visit to friends in Buffalo, N. Y., and Toronto, Ont.

Miss Taggart has resumed her duties as head milliner with Miss Rudkins after assisting in preparing for the millinery openings in Toronto during the past month.

Mr. S. Girven, of Norwood, has returned this week from the Old Country, where he enjoyed a pleasant visit with relatives in the old land. He visited both England and Ireland.

Mr. J. C. Jamieson, son-in-law of Sir Mackenzie Bowell, has resigned the position of president and managing director of the Intelligencer Printing and Publishing Company, of Belleville, and John W. London has been appointed to the position.

Rev. Dr. Torrance returned from abroad yesterday, after a most enjoyable vacation. He spent a week in the North of Ireland, a week in London and two weeks at some of the prettiest of the English watering places. The Doctor looks much improved in health by his trip.

IMMORTALITY.

Rev. George Sexton, L. L. D., who is well known in town, is the author of the following blank verse:

Annihilation! To die, and be
An nought. Why then am I not
As the brutes, that know not right
From wrong? Why have I reason,
And what is the subtle essence
That guides my actions, and that
I call conscience? Reason and
Conscience. Are they but attributes
Of earth, that will wither as my
Flesh decays, or are they but other
Names for soul?
No after life! Then would I rather
Be the blind, slow worm that drags
Its length into the cold, dark earth,
Shunning the light of day, if, with
This busy brain, that teems with
Visions of a glorious future, where
All is rest and peace—this beating
Heart, that throbs with love, and
Holds an aching void that naught
On earth can fill—this sentient
Soul that yearns for something
Nobler, purer, holier than earthly
Things can give, if, with all these
I die, and be as naught. Annihilation!
No, I feel, I know, that I have a
Soul, and that for that soul there
Is a great and grand hereafter.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

Fitzgerald's Coal and Wood.

A Fine Exhibit.

The Peter Hamilton Manufacturing Company has on exhibition at the Toronto Industrial Fair a full line of their deservedly popular agricultural implements. Mr. R. D. Hamilton is in charge of the exhibit.

Cold in the Head.

And Headache cured in 5 minutes. Catarrh cured in a week by using Dr. Hunt's Magic Snuff. 25 cents a box. For sale by J. D. Tully and H. S. McDonald and all druggists.

Something Strange.

Mr. W. Barry, who lives just outside of Hastings, informs us that he had a cat, some years ago, that sucked and reared a wild rabbit, along with two kittens. They caught the rabbit in the wheat field, when very small, and took it to the house and placed it with the kittens. It nursed the rabbit the same as the kittens and the cat gave it the same attention as her kittens. —Star.

Drawing Big Crowds.

The Wilson Comedy Co. scored another huge success last evening when they presented "The Little Irish Colleen." There was a full house. As usual all the caste were in fine form. Frederick H. Wilson, Barry Harvey, Jas. Darkin, John T. Shunk, Alec. Furness, Albert Storeman and Miss Helen Winkley preeminently distinguished themselves, as their parts allowed them greater scope than the others. Baby Florida captivated the house in her childish songs and dances.

Football Excursion.

The Norwood Football Club will run an excursion on the City of Peterborough, on Monday, Labour Day, Sept. 7th, to Jubilee Point, to play the Gore's Landing Club for a silver cup. Good music for dancing on the boat and at the hall. Return tickets to Victoria Park 25c, to Jubilee 40c, to Gore's Landing and Harwood 50c; children half price. The steamer will leave the C.P.R. wharf at 8 a.m., calling at Ashburnham. Returning will leave Harwood at 2 p.m., Gores Landing, 2 30 p.m., Jubilee 4.30 p.m. T. Wigmore, Secretary Norwood Football Club.

Returned From Toronto.

Miss Rudkins returned home from Toronto this morning, accompanied by Miss Taggart, her head milliner, after spending several days among the wholesale millinery exhibitions. Miss Taggert returns to resume her duties with Miss Rudkins, thoroughly saturated with all that pertains to fashionable millinery—she having devoted the past month on some of the expert trimming required for one of the principal wholesale openings in Toronto. Miss Rudkins will also have the assistance this fall of Miss L. Mahony, late of Messrs. J. C. Turnbull & Co's. show room. Miss Mahoney is now in Toronto inspecting the fashions. Ladies should be on the look out for the first early shipments of new fall novelties in millinery and mantles for Saturday's business at Miss Rudkin's store.

Fairweather & Co's. New Cash System.

With the advent of fall the enterprising firm of Fairweather & Co. have inaugurated a new cash system. At considerable outlay they have brought into requisition a complete self-adding National Cash Register, so perfect in mechanism that it systematizes into divisions all the transactions which occur between clerk and customer. To those who have never seen these registers doing their work, it is scarcely possible to describe their wonderful promptness and accuracy. The National Cash Register makes no mistakes never breaks its word, tells the truth, and handles the sales and the money so ingeniously that the customer stands and wonders at the wizardlike mechanism of this handsome machine. In addition to all the other additions it makes, it prints and issues with each sale a small numbered check ticket, each one of which the purchaser keeps and each one of which entitles the holder to the corresponding number of chances on a $100 ladies or gentleman's high grade bicycle, to be given away free by Messrs. Fairweather & Co. on the last day of the year.

MEETING OF THE SEPARATE SCHOOL BOARD.

Miss McCabe Engaged to Teach a Singing Class.

At a regular meeting of the Separate School Board, held last night, there were present the following members:—Messrs. Sheehy, acting chairman, and Lehane, Doris, Goselin and Hickey. The local superintendent, Ven. Archdeacon Casey, was also in attendance.

The minutes of the previous meeting were read and confirmed.

The following accounts were received and referred to the Finance Committee:—

The Rathbun Co. coal	$ 5 75
W H Cluxton, insurance	27 66
Examiner Printing Co, advertising	2 50
T O Smith, repairing pump	1 25

ACCOUNTS.

The following accounts paid since last meeting on the order of the Property Committee were confirmed:

S Martin, painting contract, Murray street school	$83 50
P Donoghue, repairs	5 50
T Cronin, repairs	5 00
H Carveth, repairs	67 85
S Martin, painting contract at convent	22 50
P McNamara, repairs	3 25
M O'Brien, freight and cartage	90

COMMUNICATIONS.

A communication from the caretaker of the Lake street school, asking for increase of salary consequent on increased work.—Received.

From the Superior of the Convent asking for supplies for the Convent.—Received, and referred to the Property Committee with power to act.

On motion of Mr. Goselin seconded by Mr. LeHane, the caretaker was allowed the sum of $5 for extra work done during the current year.

Moved by Mr. LeHane, seconded by Mr. Goselin, that Miss McCabe be engaged to teach a class of singing at Murray street school at $30 per annum.—Carried.

On the motion of Mr. Doris, seconded by Mr. Goselin, the Property Committee was instructed to have ink wells on the desks in the Lake street school, and that a new blackboard be supplied in the same place.

The Board then adjourned.

RAILWAY WORK.

Engineers and Surveyors Laying out a Route.

(Campbellford Herald.)

For about three weeks past engineers and surveyors have been busy in Campbellford and vicinity mapping out a route for the Cobourg, Northumberland & Pacific Railway through the village. The gentlemen at the head of this work are Messrs. W. T. Wickstead, T. Bowen and Hasen, all of whom are thoroughly versed in engineering and surveying.

In the early part of this month a trial line was run across the Trent river north of the 8th concession, a little south of Gilmour's lumber yards. This line was continued southward on the west side of the river to the English church rectory and along the base of the hill nearly parallel with Canrobert street, crossing Sebastpool at Mr. A. Donald's residence. Since that survey was made another route on the east side of the river was staked off, which ran through the Presbyterian sheds, now in course of erection, and the school grounds, thence northward to the cricket grounds, and then continued to the intersection of the original line.

Still another route has been placed on the engineers' plans, which enters the south-west boundary of the corporation and runs through Mr. Shannon's swamp northward and strikes a point near the old railway station site and along the face of the hill in front of Mr. T. Herkins' dwelling.

In last week's Sentinel-Star the following item appeared in reference to the new road:

A representative of the Sentinel-Star drove out on Wednesday to the scene of the new railway operations in company with Mr. Cecil Bowen, who is in charge of the work. A long cutting is being made southwest of Baltimore, and the earth is used for filling in for the line across the flats. A dozen wheeled scrapers and a number of waggons are engaged in the work, which has now assumed business-like proportions. Mr. Bowen expects that 2000 men will be working on the construction as soon as the sub-contracts are let.

Always Right.

J. J. Howden's beef, lamb, bacon and smoked ham have won a lasting reputation for their excellence and quality and the superior manner in which they are dressed and preserved. Nothing finer. 461 George street. Telephone 39.

Live Stock Shipments.

Messrs. Pope & Morgan, Government live stock importers, have issued the following statement of the shipment of live stock from the port of Montreal up to August 31, and also a comparative statement for the years back to 1891:

	Sheep.	Cattle.	Horses.
1896	41,393	63,938	7,245
1895	72,341	60,216	5,261
1894	80,977	55,333	3,174
1893	712	69,856	7,123
1892	18,703	71,612	1,288

A Mouthful of Pearls.

The teeth perhaps, more than any other feature, enhance or destroy that tangible, because complex, thing we call beauty. What more repellant than ill-kept, discoloured teeth? What unsightliness more needless and inexcusable? Ivorine is delightful, whether as a cleanser or in its property of imparting to the teeth that dazzling whiteness so much desired and admired and as efficient does it render the breath sweet and fragrant. Ivorine is incomparable as a toilet requisite, which accounts for its recommendation by leading dentists.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Campers are feeling the cool weather.

—Monday is Labour day, or rather no-labour day.

—Large quantities of fruit are still arriving in town daily.

—The maples have already began to assume their fall garb.

—The rain will do the root crops a lot of good and benefit the pastures greatly.

—All fishing tackle and rods, and hammocks, selling at cost at SAILSBURY'S.

—Over a hundred new pupils are in attendance at the Peterborough public schools this term.

—Mr. H. P. Kennedy is shipping this week four decks of sheep, two decks of hogs and one of cattle for export.

—Mr. W. H. Manning will be in his office on and after Saturday, the fifth day of September next. 10d 2w

—The Norwood High School has an attendance of 80 pupils, and the number is expected to increase during the coming week.

—A special meeting of the council was held on Saturday night, when the rate of taxation was fixed at sixteen mills on the dollar.—Campbellford Herald.

—The summer days are speeding fast,
Jack Frost is nearly due,
My loved one's sunburned nose will soon
Take on a tinge of blue.

—Mr. Noice, general merchant here, sold a thousand dollars' worth of butter last week. This gives one some idea of the trade done in Minden in this line.—Minden Echo.

—Last night's downpour of rain washed considerable dirt from the sewer excavation on the sidewalks of George street and the merchants were out with their shovels this morning.

—The Norwood public library received $143.60 from the Ontario Government this year, and to increase this sum for the improvement of the library a promenade concert will be held.

—The Liberal members of the Dominion Government from Nova Scotia are circulating a petition to issue an order prohibiting the sale of intoxicating liquor within the precincts of the House.

—Messrs. Squires Bros., Norwood, are erecting a fine building in the east end of the village to be used as a machine shop, pump factory and foundry. Mr. Neild of Peterborough will assume the managership.

—The duck hunters met with very indifferent success yesterday and very few ducks were the result of the day's shoot. The number of ducks this year is quite equal to former years but all are flying high.

—Coal dealers are busy supplying the different residences of the town with their winter's coal. In Toronto the dealers have advanced the price 25 cents a ton. Local dealers say that the coal will increase in price in Peterborough before long, hence the sudden demand.

—If the people on the star Sirius have telescopes powerful enough to distinguish objects on this planet, and are looking at it now, they are witnessing the destruction of Jerusalem, which took place over 1800 years ago. Of course, the reason of this is that the light which the world reflects, travelling as it does at the rate of 188,000 miles a second, would take eighteen centuries to reach the nearest fixed star. Such is the immensity of space.

—There has been made at Warrington for the New Glasgow district subway the biggest rope ever used for haulage purposes. It is about seven miles long, is four and five-eighths inches in circumference, and weighs nearly sixty tons. It has been made in one unjointed and unspliced length of patent crucible steel. When in place it will form a complete circle around Glasgow, crossing and re-crossing the Clyde in its course, and will run at a speed of fifteen miles an hour.

—"Woe unto him of whom everyone shall speak well of," was spoken by one who knew humanity from the beginning. The person who posses no mind or opinion of his own is likely to be well spoken of by the community in which he lives. But of such can you trace a thought or an act, that has bettered the community in which he resides. When death removes him, he drops out of sight and mind like a shooting star. While the man who has the courage of his convictions sets the world on fire, challenges attention, awakes interest in his advanced opinions, and is never forgotten. Opposition is the crucible, that tests and makes history.

TOO MANY DOCTORS.

One Third of Those in Ontario Could do all the Work.

The Canadian Medical Review cautions young men against taking up medicine as a profession. It will no doubt surprise the average reader to learn that in Ontario we have one doctor for every 600 of the population, men, women and children included. According to the editor of the Medical Review, one-third of the medical men now in practice in Ontario could do all the work and then not be over-burdened with professional cares. The regular sickness, maternity, inquests, insurance, all combined, will not, it is claimed, yield on an average for all the practitioners of Ontario an income better than that made by a well to do mechanic, or fairly-paid clerk. Young men should make a note of these facts and give the medical colleges a wide berth. There are scores of less pretentious occupations to which the aspiring youth of Canada had better turn their attention. Commercial travellers, bank clerks, accountants in good houses, many insurance men are all making more money, and with much less anxiety, than the bulk of medical practitioners.

On Hand

now, at A. Clegg's, another lot of those oak finish extension tables, at $5.00, $5.50, $6.00 and $6.50; common chairs, 33c.; good hard wood bedsteads, only $2.00; oak finish bedroom suites, $12 00, $13.00 and upward. Our stock is complete in every line. A. CLEGG, 427 George street.

Mrs. S., says:— "I suffered from rheumatic pains for months, Miller's Compound Iron Pills cured me." Sold in Peterborough by Wm. Madill, druggist.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

Roadmaster Ferguson, of Lindsay, wants men to work on gravel trains.

The Grand Trunk ticket agency in Lindsay has been permanently closed. In future parties requiring tickets and all information regarding routes, etc., will have to apply to Mr. Paton, G. T. R. station agent.

Monday morning Driver D. Clark and Con. Alcott brought a train load of corn from Midland elevator, and on the way down the grain commenced to heat, being of inferior quality. The train was rushed through to Belleville and thence to Montreal, where the grain was distributed in small lots to buyers.

Several ballast trains will be at work on the Lindsay division for some weeks to come. Yesterday men started work in Franklin gravel pit, and Roadmaster Ferguson has now a gang of men engaged filling in the easterly approach to the iron bridge, and when that task is completed several trestles further down the line will be taken in hand.

Mr. James Greaves, who had his hand injured while coupling cars at Belleville last week, is making rapid progress towards recovery. His medical attendant feels confident that he will have the full use of his hand again.

The following new assistant engineers have been appointed by the Grand Trunk management: William McNab, Robert Armour, Eastern Division; W. P. Chapman, Northern Division; W. B. Hollinshead, Middle Division, and George Masson, Western Division.

It is probable that further dismissals will take place on the Grand Trunk as soon as the new trainmasters and other officials along the line of the road get their districts reorganized. Under the new system of train despatching not so many operators will be wanted, and the changes will result in a number of men being let out. At present all the despatcher's messages are repeated by the operators, but under the new arrangement this will not be done, and thus the work will be very much lightened.

The Parry Sound and Ottawa Railway, which decreases by 300 miles the journey between Sault Ste. Marie and the seaports, will be completed by the end of the month.

The management of the Grand Trunk have abolished the office of inspector of bridges and masonry now held by Mr. Jas. Grant of Belleville. He ceased work on Monday last.

The Philadelphia and Reading Railroad are projecting one of the greatest engineering feats on record, namely, the tunnelling of Brood mountain, near Sahmokin, Pa., at a cost of $5,000,000. The work will occupy two years.

The Father's Reason

for buying school suits for his boys at H. LeBrun & Co.'s is that the prices are so low they make hard times seem prosperous and do not empty a slender purse.

Don't Forget.

On Thursday, Sept. 3rd, the North Star will run her usual trip to Highland Park, Jubilee and Harwood, leaving the Peterborough wharf at 2 p.m., sharp. The Star will also run on Saturday afternoon, as usual, and will leave the wharf at 2.30 p.m. Return tickets to Jubilee and Harwood, 50c, to Highland Park, 25c. C. W. CALCUTT, Master.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says: "After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c, 50c. and $1.00.

"Sine Die"

means "without naming the day." But, when you have named the Wedding Day come and get "a pointer" or two from the undersigned about the New Marriage License.

OFFICE HOURS—8.30 a. m. to 8 p.m.

Under Market Hall, 326 George Street

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out at the same scene and see nothing. One will find enjoyment in a brilliant company, in music, in dancing, in an exquisitely prepared dinner. Another will enjoy these things half as much—another not at all. The things that people see are inside them. What one sees and what one enjoys depends upon the bodily condition—depends upon the capacity for enjoyment—depends upon the health and the vitality. The sick man has pain or discomfort so impressed upon him that he has no time to think of much else. A weak man has all he can do to struggle for mere existence. He has no strength to use in procuring pleasure. His performances are limited by his strength. He can do only a few things so he can enjoy only a few things. The man who is perfectly well and vigorous enjoys life to the full. The bedridden invalid enjoys it not at all. The man who is half sick and half well gets out of life about half what he ought to. Dr. Pierce's Golden Medical Discovery makes people well. It doesn't do it in a miraculous way. There isn't anything unnatural about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order and thereby makes the blood pure and rich. It doesn't have to do anything else. Nature does all the rest. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it. That's the difference. Dr. Pierce's Golden Medical Discovery makes pure, rich blood—makes men and women strong and healthy; brings good appetite, good digestion and builds up solid, healthy flesh.

Address with 31 cents in one-cent stamps, to cover customs and mailing *only*, World's Dispensary Medical Association, Buffalo, N.Y., and get a free copy of the People's Medical Adviser.

THE D.R.A. MATCHES

Second Day's Shooting at the Capital.

LOCAL SHOTS HAD AN ADVANTAGE

But Skedden of Hamilton Topped the Score in the Dominion of Canada Match, While His Battalion Won the First Team Prize—Kickers' Meeting.

Ottawa, Sept. 1.—(Special.)—Shooting opened to-day with a nice, cool day and fair wind conditions for the continuation of the D.R.A. shooting. The attendance at the range was fair, and considerable interest was taken in the matches. The Dominion of Canada match was a good deal of a surprise to both the competitors and the public. It was not that the quality of the shooting was lessened, but that it happened that a day occurred when the cutest kind of judgment was required, and more particularly did the old heads come in when the hard wind work came on. Then, again, the 43rd Battalion of Ottawa shone, and largely because they knew every dug and every wave. They had been there many times, in fact some of them lived on the range during the season. This accounted for their having dried up the flags floating in all kinds of directions, and being able to come in in solid order in the prize list. While everyone was sorry to see that Armstrong, late of the 1st B.F.A., was beaten, still it made a fine point, and he held his lead until the last shot was fired, as Skedden was in the last squad to fire. The agony was thus kept up until the last minute. The 13th Battalion man admirably kept up his reputation, and putting in a bull at his last effort floated out in front as the man who may take the Patterson Cup next year, if he is equally successful on that occasion. The scoring, however, was nothing like last year, when there were two 97's and 35 men scored over 90. A couple of lucky 88's came in this year, whereas fellows that had elegant 87's last year failed to collect anything from the treasurer.

THE PATTERSON CUP.

Dominion of Canada Cup, presented by Hon. J. C. Patterson, to be won twice consecutively; cup by Davis & Son; D.R.A. badge; ranges, 200, 500 and 600 yards; seven rounds at each; possible, 105:

Robertson, 13th, 88; Gr. G. W. Sharpe, 2nd R.C.A., 88; Pte. G. Mortimore, 10th R.G., 88.

$5 each—Pte. J. B. Pentland, 57th, 87; Pte. D. Cameron, 37th, 87; Staff-Sergt. W. R. Inman, 90th, 87; Tr. D. McNaughton, 6th Cav., 87; Lieut. G. A. Whitty, 54th, 87; Pte. J. Perrett, 53rd, 87; Corp. C. W. Spencer, 13th, 87; Capt. L. Grant, 20th, 87; Gr. W. J. Sloan, 5th R.C.A., 87; Lieut. G. W. Gilchrist, 1st B.F.A., 87; Staff-Sergt. T. H. Hayhurst, G.M., 13th, 87; Lieut. W. C. King, 45th, 87; Major L. Thomas, R.L., 86; Corp. T. Pugh, R.C.A., 86; Sergt. A. Bell, Royal Grens, 86; Gr. T. J. Clark, 1st C.A., 86; Capt. H. A. Silver, R.L., 86; Lieut. W. L. Ross, 13th, 86; Pte. H. Heller, R.G., 86; Capt. S. W. Davison, 4th P.E.I.F.A., 86.

$4 each—Sergt. J. M. Davidson, Char. Engineers, 86; Pte. A. W. Mishaw, 48th, 86; Lieut. C. L. McAdam, 3rd Vics., 86; Capt. R. S. Graham, 32nd, 86; Lieut. T. Limpert, 29th, 85; Sergt. R. Corrigan, 59th, 85; Lieut. J. A. Williamson, 85th, 85; Pte. H. Sullivan, St. John R., 85; Pte. W. Ammand, 43rd, 85; Staff-Sergt. G. Larola, 6th Fus., 85; Capt. S. M. Rogers, 43rd, 85; Sergt. E. H. Brown, 50th, 85; Pte. W. T. Mason, 43rd, 85; Lieut. E. H. Brown, 3rd Vics., 85; Corp. W. E. Smith, 82nd, 85; Pte. J. A. McCallum, 1st, 85; Capt. A. Curran, 12th, 85; Pte. F. A. Morse, 43rd, 85; Pte. J. H. Simpson, Royal Grens., 85; Capt. G. F. Thompson, R.L., 84; Staff-Sergt. F. Bartlett, 57th, 84; Capt. F. Sutherland, 43rd, 84; Capt. T. P. Carroll, G.G. F.G., 84; Pte. G. T. Burns, 43rd, 84; Capt. M. A. Helmer, 43rd, 84; Qr.-Sergt. B. Carter, 93rd, 84; Pte. S. T. Anderson, 77th, 84; Pte. D. C. Rollins, 71st, 84; Surgeon J. Ross, 77th, 84; Sergt.-Major J. Currie, 5th R.S., 84; Lieut. R. Stewart, P.E.I., G.A., 84; Corp. C. Windatt, R.G., 84; Capt. G. A. McMicking, 44th, 84; Pte. M. D. Campbell, 45th, 84; Sergt. H. R. McNelly, 13th, 84; Col.-Sergt. R. J. Taylor, 43rd, 84; Pte. A. Wall, 71st, 84; Staff-Sergt. J. Cooper, 1st P.W.R., 83; Pte. J. Howe, 1st Berks., 83.

TEAM SCORES.

The following are the leading scores in the Dominion of Canada teams which shot yesterday:

13th Batt.—Sergt.-Major Huggins 88, Col.-Sergt. Skedden 94, Sergt. A. Miller 90, Sergt. D. Gesson 89, Sergt. T. Mitchell 90, Sergt. A. Robertson 88; total 538.

Royal Grens.—Corp. Armstrong 83, Pte. Jeffries 90, Pte. Mortimer 90, Sergt. Bell 86, Pte. Miller 86, Staff-Sergt. Simpson 85; total 523.

43rd Batt.—Capt. Hutcheson 89, Pte. C. S. Scott 89, Pte. A. T. Pearson 89, Capt. S. M. Rogers 85, Pte. Morse 85, Pte. W. T. Mason 85; total 522.

59th Batt.—Sergt. A. A. Smith 91, Pte. E. Runnions 88, Sergt. R. Corrigan 85, Sergt. E. H. Brown 85, Capt. J. L. Miller 85, Pte. H. McDonald 78; total 510.

48th Batt., Highlanders—Major Henderson 83, Capt. Orchard 80, Pte. J. McVittie 82, Corp. H. Kerr 90, Pte. D. Munro 83, Pte. A. Mishaw 86; total 504.

The next teams were the Prince of Wales' Rifles, 497; Royal Scots, 497; Q.O. R., 492; Victoria Rifles 490, Berkshire Regt., 460, and Royal Engineers, 450.

MINISTER OF MILITIA MATCH.

There were 453 competitors in the Minister of Militia match, as against 395 last year. Although the entry was much larger than usual, the scoring showed a marked falling off. Last year first honors were landed by Pte. T. C. Burns, 63rd, with 34 and 33, making 67. Capt. S. M. Rogers won the match yesterday with 64, and there were last year just 11 men who did better than this. Last year a large number of 59's came in.

The match was open to all members and teams to be selected from five previously-named members of any affiliated association whose names have been given. Ranges 500 and 600 yards, 7 rounds at each; possible 70:

$50—Capt. S. M. Rogers, 43rd, 64.

$30—Capt. M. H. Healy, 54th, 64.

$20—Pte. C. E. Ivens, Manitoba Dragoons, 63.

$12 each—Pte. Langstroth, 74th, 63; Lieut. G. A. Witty, 54th, 63.

$10 each—Major J. T. Hartt, Infantry Reserves, 63; Corp. G. MacLean, 78th, 62; Capt. R. J. Spearing, 53rd, 62.

$8 each—Capt. E. D. Sutherland, 43rd, 62; Lieut. W. S. O'Dell, 43rd, 61; Lieut. J. Dower, 79th, 61; Pte. F. W. Sleeman, 1st B.F.A., 61.

$6 each—Sergt. P. Armstrong, Royal Grens., 61; Pte. M. Campbell, 45th, 61; Sergt.-Major S. Huggins, 13th, 61; Pte. J. O. McKay, 62nd, 61.

$5 each—Pte. D. Cameron, 57th, 61; Sergt. T. Mitchell, 13th, 61; Pte. H. W. Wall, 71st, 61; Gr. J. Chamberlin, 5th R.C.A., 61; Pte. H. Keller, Royal Grens., 61; Sergt. H. Blair, 78th, 61; Surgeon J. Ross, 77th, 61; Sergt. Goodwin, 7th, 60; Capt. W. H. Orchard, 48th, 60; Lieut. G. Rider, 71st, 60; Gr. G. W. Sharpe, 2nd R.C.A., 60; Pte. W. Tillason, 43rd, 60; Capt. W. S. White, 14th, 60; T. R. Webster, R.C.A., 60; Capt. S. Dawson, G.G.F.G., 60; Pte. A. Parsons, 43rd, 60; Pte. R. H. Smith, 21st, 60; Sergt. J. C. Ross, 7th Fus., 60; Pte. A. Murdock, 15th, 59; Pte. W. Hilton, 47th, 59; Lieut. W. E. Mitchell, 32nd, 59; Sergt. R. Corrigan, 59th, 59; Lieut. J. Carmichael, 58th, 59; Pte. J. H. Acton, Chs. Engineers, 59; Lieut. G. W. Rennions, 59th, 59; J. A. Langsworthy, 4th P.E.I.C., 59.

$4 each—Mr. H. E. Graswell, Mattawa R. C., 59; Gr. G. Turnbull, 5th R.C.A., 59; Staff Sergt. D. Garson, 15th, 59; Lieut. E. H. Brown, 3rd Vics., 59; Corp. C. Spencer, 13th, 59; Pte. J. Addison, 54th, 59; Sergt. Mill, 13th, 59; Capt. O. W. Wetmore, 74th, 59; Pte. M. Kerr, 21st, 59; Pte. R. Moodie, 43rd, 58; Lieut. H. Complin, 43rd, 58; Sergt. Crowe, 1st B.A., 58; Gr. T. J. Clarke, 1st C.A., 58; Pte. W. J. Fowler, Royal Grens., 58; Capt. Manning, 62nd, 58; Lieut.-Col. Anderson, R.L., 58; Sergt. A. Miller, 13th, 58; Sergt. Monge, 65th, 58; Capt. Silverton, 45th, 58; Capt. G. A. McMicking, 44th, 58; Pte. W. Stewart, P.E.I., 58; Pte. J. W. Smith, 21st, 58; Pte. E. Lamport, 29th, 58; Lieut. I. Ogg, 1st B.F.A., 58; Sergt. E. H. Brown, 50th, 58; Capt. Blackburn, 78th, 58; Sergt. W. A. Bazzo, 43rd, 58; Pte. D. Henderson, 48th, 58; Pte. K. Matthews, 3rd Vics., 58; Major J. W. Hays, 7th Fus., 58; Gr. R. Wilson, 5th R.C.A., 58; Pte. McMartin, 56th, 58; Staff-Sergt. Mark, 6th Fus., 58; Corp. N. E. Smith, 82nd, 58; Pte. J. A. Simpson, Royal Grens., 58; Sergt. Morris, 13th, 57; Capt. A. Raybould, 67th, 57; Lieut. A. D. Crooks, F.O.R., 57; Sergt. E. H. Haywurst, 13th, 57; Lieut. Cartwright, 47th, 57. Nineteen 57s counted out.

54th Batt. R.A.—Capt. Harry 64, Capt. Spearing 62, Maj. Thomas 55, Lieut. Whalen 57; Lieut. Petty 63; total 301.

Metropolitan Rifle Association, 289, 75th Battalion 283, and Nova Scotia team 261.

THE KICKERS' MEETING.

They All Had Their Boots on, But Found Nothing Worth Kicking About.

The kickers' meeting, or, more properly speaking, the meeting of the competitors at the D.R.A. matches for the ventilation of grievances and the discussion of new ideas, took place this evening in the drill hall. There were a hundred big men there, with big boots, but, as anticipated, the kick failed to come off, very probably because a diligent search failed to find anything to kick about.

Lieut.-Col. Gibson, President D.R.A., presided. The first business was the passage of a vote of thanks to the Minister of Militia for free ammunition supplied. Lieut.-Col. Gibson stated that he thought arrangements had been about completed for a new and adequate range. There was just now a good deal of sameness in the shooting, owing to the matches being fired over the 500 and 600 yards, with no longer ranges. The new weapon would want the longer ranges of 800 and 900 yards, and this would be provided.

Lieut.-Col. Anderson suggested that the new rifle be provided with movable back sights, and his suggestion was supported by Major Perley and others. It was decided to make the recommendation.

There being no complaints to make, the meeting then adjourned, after spending the most harmonious half-hour ever put in at this meeting.

Lieut.-Col. Starke arrived in town to-night with the Kolapore Cup, which will be taken to the range to-morrow.

Sure to Win.

The people recognize and appreciate real merit. That is why Hood's Sarsaparilla has the largest sales in the world. Merit in medicine means the power to cure. Hood's Sarsaparilla cures—absolutely, permanently cures. It is the One True Blood Purifier. Its superior merit is an established fact, and merit wins.

Hood's Pills are easy to take, easy to operate. Cure indigestion, headache.

TORONTO MARKETS.

Flour—The market is quiet and prices are steady, with straight rollers quoted at $3 to $3.05.

Bran—The market is steady, with cars quoted at $8 west, and shorts at $9.

Wheat—The market is quiet and prices as a rule are steady. Old white wheat is held at 65c on the Northern and new sold at 62c. Red 60c for new and 63½c to 64c for old. No. 1 Manitoba hard 66c Midland, No. 2 hard 63c, and No. 1 Northern 64c Midland.

Barley—There is nothing doing, and prices are purely nominal.

Oats—The market is steady, with offerings moderate. Old white quoted at 18c and mixed at 17½c west.

Peas—The market is quiet and prices are unchanged. Sales of new at 48c, middle freights.

Oatmeal—Business quiet, with prices nominal at $2.40 on track.

Corn—The market is dull and prices quoted at 28c to 29c.

Rye—New rye is quoted outside at 32c to 33c.

BRITISH MARKETS.

The Ways of the Ant.

It has long been recognized that the ant is a very intelligent insect and leads a very complicated social life. There are classes among them—plutocrats, laborers and criminals.

The author of a recent work on entomology notes the curious habit of one species of ant of "turning some of their fellows into animated honey pots."

Instead of placing honey in a comb as the bees do, the ant selects a certain number of workers, and disgorge the honey obtained from the Eucalypti (on which it is deposited by coccidae and other insects) into the throats of their victims. The process being continually repeated causes the stomachs of these workers to be distended to an enormous size.

This extraordinary habit was first discovered in the case of certain ants in Mexico, and subsequently shown to prevail in Colorado. It has been found to exist in Australia also, and Mr. Froggart describes and figures three ants of the genus Camponotus that pursue this remarkable practice.

The ants containing honey are favorite food with the natives.

A hacking cough keeps the bronchial tubes in a constant state of irritation, which, if not speedily removed, may lead to chronic bronchitis. No prompter remedy can be found than Ayer's Cherry Pectoral. Its effect is immediate and the result permanent.

For cholera morbus, cholera infantum, cramps, colic, diarrhœa, dysentery, and summer complaint, Dr. Fowler's Extract of Wild Strawberry is a prompt, safe and sure cure that has been a popular favorite for nearly 500 years.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

HOW

THE SUN LIFE

FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speak for itself, was received by the under signed this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefitted by results, not by promises unfulfilled

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR,—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 13,871 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1905 and assuring you of very best wishes, I remain,

Yours Sincerely,

(Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

NOT A SICK DAY

For Over Thirty Years!

RESULT OF USING

AYER'S PILLS

"Ayer's Cathartic Pills for over thirty years have kept me in good health, never having had a sick day in all that time. Before I was twenty I suffered almost continually—as a result of constipation—from dyspepsia, headaches, neuralgia, or boils and other eruptive diseases. When I became convinced

that nine-tenths of my troubles were caused by constipation, I began the use of Ayer's Pills, with the most satisfactory results, never having a single attack that did not readily yield to this remedy. My wife, who had been an invalid for years, also began to use Ayer's Pills, and her health was quickly restored. With my children I had noticed that nearly all their ailments were preceded by constipation, and I soon had the pleasure of knowing that with children as with parents, Ayer's Pills, if taken in season, avert all danger of sickness."—H. WETTSTEIN, Byron, Ill.

APPLES FOR EXPORT.

HOW NEW YORK GROWERS LEARNED TO CATER TO EUROPE.

With Half the Chance Canadian Farmers Have, the Orchardists in Western New York Are Shipping Enormous Quantities to the Old Land.

Apples are so plentiful this year that growers of the export kinds in New York State are jubilant. They have the fruit and they know how to handle it to advantage. Because of this knowledge, gained through many years of experimental loss, they are now in a measure able to compete with Canadian grown apples. How they do it may contain a hint for more than one grower of apples in the Dominion, and this from the Fairport (N.Y.) letter to the *New York Post*, tells how they do it:

The prices for apples have probably been more regular during the last dozen years than for any other fruit, because Europe has stood ready to take all the surplus stocks at good quotations. The good market for American apples in Germany was pointed out in a recent report of the United States Consul at Chemnitz, Germany. The average price paid for good American Baldwins in Germany is $7.14 per barrel, and during times of general scarcity even more. The Germans are very fond of apples, and their own crop not only fails to supply them, but German apples are of inferior quality. American exporters of apples heretofore have confined their attention chiefly to the English markets, but if Germany and other countries of Europe are willing to pay good prices the American growers will raise all they need.

The European demand for apples has created considerable changes in the fruit industry, and old-time methods have gradually been dropped. The markets of Europe demand apples of good quality, but in order to get them there they must be of a sound character, and hardy enough to stand exposure. Shippers have found in the past that most of the apples brought to the city were unfit for export trade unless repacked, sorted and wrapped. All of this costs so much time, labor and money that most of the exporters have refused to touch the apples shipped to them. Before the fruit reached Europe half of it would be specked or totally ruined. To build up the trade, and to obviate this difficulty, the exporters issued directions to the growers, and the farmers have gradually profited by the hint. In this part of the country the farmer will have his domestic orchard and his European orchard. That is, in one orchard the apples are intended for the near-by markets, and they consist chiefly of perishable varieties, which could not stand long voyages. In the so-called European orchard the varieties are all hardy, and the fruit of a firm texture. Here one will find Baldwins in abundance, for red apples sell the best abroad; golden russets, beautiful Rhode Island greenings, the hardy Ben Davis and the Northern Spy. Other varieties less favorably known in Europe mingle more or less with the standard kinds. The trees in the European orchard are shaken freely during the growing season, so that all immature and worm-eaten apples will drop, and these are gathered up for the cider mill or for the farm animals. In this way the apples allowed to ripen are nearly all large and perfect.

When the apples are picked they have to go through a certain process that makes them suitable for the export trade. They are all gathered carefully by hand, and spread out on the ground in the orchard to sweat. This takes several days. Then they are carefully sorted into different heaps. The first grade contains only absolutely perfect apples, all large, round and of an even size. The other grades are sorted out accordingly and marked as they are placed into the barrels. After the sorting, each apple is wiped dry with a soft cloth, and placed on a bench for further moisture on the skin to evaporate. If the skin is punctured in the slightest the fruit is rejected. After being wiped thoroughly, the apples are wrapped in tissue paper the same as oranges, and then a professional packer places them in the double-headed barrels in layers. They are packed so snugly and systematically that they can not roll about when the barrel is roughly handled. Apples prepared in this way are ready for immediate shipment to Europe, and farmers who enter into the business extensively brand each barrel with a special mark. Exporters soon learn to trust certain growers, and when their apples come to the city they are not examined. The farmer's mark is a guarantee that his fruit is just as represented. As shippers cater only to the best customers abroad, the value of this mark can be appreciated.

Dyspepsia and Indigestion, common diseases, but hard to cure with ordinary remedies, yield readily to **Manley's** Celery-Nerve Compound.

W. H. Buckingham, 396 King St. East, Hamilton, Ont., says:—"I was troubled with Dyspepsia and Indigestion for a long time, and could get no relief until I tried Manley's Celery-Nerve Compound, which cured me, and I cannot speak too highly in its praise."

Sold in Peterborough by John Mellon.

CONTENTS AT KINGSTON.

McCarthy Beats Eli 44 in the Races for Free—A Recess for Blayney.

Kingston, Sept. 1.—Admirable weather made the opening day of the autumn carnival pass off successfully. The chief events of to-day were the opening of the dog show, a baseball match and bicycle races.

The Dukes of Toronto and Granites of Kingston had a baseball match, Victory was accorded to the local team by 9 to 3.

The bicycle races occurred on the clay track. Results:

One-mile novice—T. A. Murphy, Kingston, 1; J. C. Cleary, Wolfe Island, 2; Norman Robinson, Kingston, 3. Time 2.55 3-5.

Half-mile open, amateur—George B. McKay, Kingston, 1; R. O. Blayney, Toronto, 2; Hulse, Toronto, 3. Time 1.21 3-5.

Half-mile open, professional—T. B. McCarthy, Toronto, 1; Cecil Elliott, Toronto, 2; Roy Gordon, Toronto, 3. Time 1.19 2-5.

Two-mile club race, Herald trophy—Geo. F. Smith, Kingston, 1; A. McIntosh, Kingston, 2. Time 6.14½.

One-mile open, amateur—J. A. Moore, Toronto, 1; Hulse, Toronto, 2. Time 2.39.

One-mile open, professional—T. B. McCarthy, Toronto, 1; Cecil Elliott, Toronto, 2; Roy Gordon, Toronto, 3. Time 2.36½.

Quarter-mile open, professional—T. B. McCarthy, Toronto, 1; Cecil Elliott, Toronto, 2; Roy Gordon, Toronto, 3. Time .39 1-5.

THE WOMEN TOO.

Back Talk Not Man's Monopoly.

Mrs. Jemima Cole, Havelock, told the following wonderful story:—"For a great many years I have suffered from disease of the kidneys. The pains in my back and side were sometimes excruciating.

"My limbs were so swollen that I could scarcely lift my feet from the floor, and I was in great agony nearly all the time. I thought that I would surely die from the pain.

"I have taken dozens of advertised remedies, but got no better during their use. I was also treated by several doctors, but am sorry to say they did me little or no good. In fact they stated that they could do me no good, which made me despair of ever getting better.

"When I saw Doan's Kidney Pills advertised I sent to W. H. Jeff & Co's. drugstore and got a box thinking I would try them as a last resort.

"The change from the start was very great and now after one month I am free from all pain. The swelling has gone down and I feel quite strong and healthy.

"I was also troubled with rheumatism and neuralgia which have completely disappeared, thanks to the use of Doan's Kidney Pills. In fact I do not think there is a medicine in the world that in such a short time could have taken me from the almost dying condition in which I was to the healthy and vigorous state that I am in now.

"I recommend Doan's Kidney Pills for their wonderful virtues in curing kidney troubles."

For sale by J. J. Lynch, druggist, 168 Hunter street, Peterborough.

Shiloh's Cure

A $100 BICYCLE FREE.

A Mechanical Wonder.

Machinery beats the human mind. Our new purchase of the Latest National Cash Register.

A Magnificient Present.

"Its the spirit behind the guns that does the bu-iness."

Our New Gift of a $100 High-Grade Bicycle.

THIS CONCERNS YOU AS WELL AS US.

We have placed in our store one of the very Latest National Cash Registers. For every cash purchase you make it prints a small coupon Ticket, WHICH YOU RECEIVE, showing the Date of Sale, Who Made the Sale, the Amount of Your Purchase, and also Numbers each of these Tickets consecutively from 1 up.

In order to place the merits of this up-to-date way of doing business before all wide-awake shoppers we are giving away FREE, on Dec. 31st, a **$100 Ladies' or Gent's High-Grade Bicycle,** to the customer who holds the Ticket Number that entitles them to it. With every purchase you get a Numbered Ticket or Check and the more Checks you hold the better your chance.

Come and see this new machine work. It does everything but talk. It Registers Who Made the Sale, the Amount of Sale, the Date of Sale, the Number of Sale, the Amount of Cash Paid Out, the Amount Received on Account, whether the sale was Cash or Credit, the Amount made by each Salesman, adds all together and displays it at glance the total amount of Sales for the day. It cannot make a mistake; it can't talk but you have only to touch the button and it does the rest.

Be sure and get your Check—preserve it for it is valuable—for every cash purchase, no matter how small, the register issues a ticket.

OUR STOCK OF LATEST STYLE FALL HATS is here and will repay inspection by any intending purchase of a New Fall Hat.

Now is the time for OLD FURS to be INSPECTED, REPAIRED, RE-DYED or RE-ALTERED into New Styles.

AMERICAN INSURANCE AND CANADIAN POLICY-HOLDERS.

It is becoming a question of practical politics for Canadian policy holders in American insurance companies in which kind of money their claims will be paid when their policies mature. Should Mr. Bryan be elected and the United States go to a silver basis, American companies would have a perfect right to pay their claims—unless otherwise provided in the policy—in American silver dollars, which are now worth a trifle over fifty cents. This would mean, if this ratio were maintained, the cutting of one's life insurance in two; and the man who paid premiums on $5,000 would really leave his family only about one-half that amount.

Some American companies are endorsing their policies "payable in gold," or "payable in the lawful money of Canada." This should make them as good as ever, if the securities deposited by these companies at Ottawa remain as valuable as ever. This latter is a point for the Government to carefully investigate. It will not be worth much to a person with a claim against an American company to have his policy endorsed "payable in the lawful money of Canada," if the company does not have sufficient money on deposit at Ottawa to cover his claim. Then, supposing the company to fight his claim, he must sue the United States, and get his award in American money—i.e., Bryan silver dollars. Now this is a real enough danger if the deposits of American companies with the Canadian Government are composed in whole or in part of American securities. For with the enactment of free silver at Washington American securities will be very likely to go to a silver basis too; with the result that the American deposits at Ottawa will fall far below their face value. Thus it might come about that claims payable in Canada could not be collected in the Dominion, because the company's assets here had all been eaten up.

This is a matter for the Government Superintendent of Insurance to look to. There should be no doubt as to the permanent value of the deposits placed by the American companies in the hands of the Dominion Government. This is the keystone of the arch. To be sure of getting Canadian money for our claims we must be able to sue for them in Canada and collect the award in Canada. It is ridiculous to suppose that if the United States goes to a silver basis, and if the Insurance Companies are paying American claimants in silver, that the American courts will compel them to pay the Britisher in gold. Our only security is to keep the Canadian end of the business in Canada.

To accomplish this two things must be had—1, the securities deposited at Ottawa must not be of a character to be affected by a victory for Mr. Bryan; and, 2, all policies must be made payable in Canada and in Canadian money, or its only equivalent—gold.—Star.

When Adam Was a Boy.

This was years ago, for Adam has been dead quite awhile, though to be sure he has left a progeny that keeps up pretty well the family characteristics. There are wise men to-day who delve into the misty past and tell us all sorts of things, but they are silent on those events that would make Adam interesting to the modern man. What did Adam do when he ran a sliver under his finger nail? Had he to take measles and whooping cough? If he had corns did he cut them with a razor or did he stretch forth a hand in the future and get a bottle of Putnam's Painless Corn Extractor? Putnam's is the best, is sure, safe, painless, and acts in twenty-four hours.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

LACROSSE.

Yesterday afternoon a telegram was received from President O'Loughlin, of the C. L. A., notifying the Peterboroughs that the tie with Port Hope must be played off on Monday next on neutral grounds and that if a place was not mutually agreed upon by to-day the President himself would select the grounds.

It would appear by the message that the disputed game in Port Hope has been awarded to the Port Hope team, as the telegram states that it is a "tie" which is to be played off. Port Hope favours either Cobourg or Millbrook as the spot in which to play the game, but Peterborough would not consent to either, as the grounds in Millbrook are too rough and it would be as bad as going to Port Hope to play in Cobourg, as it is in too close proximity to the home of the Ontarios. Peterborough proposes Lindsay as a suitable spot, but Port Hope will in all probability object to going to a place which cannot be considered as a halfway point.

If the matter is left to the president he will probably pick upon Toronto, which, on the whole, would probably be the most satisfactory point, as with police protection the Peterborough boys can win "hands down" from the Ontario's. Another good point about playing in Toronto is that the C.L.A. officials would themselves watch the game, and Port Hope would be unable to run in any "ringers" without being spotted. With a fair field and no favour our Peterborough boys are not in the least alarmed about what the result will be, and if a cheap excursion is run up to Toronto on Monday hundreds of the citizens will go up to see the fun, as it is Labour day. The rate to Toronto is already down to $1.75 for the day.

Tutton of Port Hope has been suspended by the president of the C.L.A. for playing under the assumed name of Swinerton with the Humber club on Aug. 27th against the Richmond Hill club.

FOOTBALL.

The Gore's Landing football club have challenged the Norwood club to a match game of football on Labour Day. The Norwood club have accepted the challenge. The game is for a handsome silver cup presented by Commodore H. Calcutt, and will be decided on the Jubilee ball ground. As these clubs are old antagonists the game will be for blood.

THE WHEEL.

Peterborough wheelmen may be interested in the following, taken from the London Daily News:—The latest local novelty in wheeling made its appearance yesterday on Dundas street, with two of the Goodwin boys astride of it. The Goodwins called it the "bicycle triplet," and it took them at least half an hour to master it, although they are both expert wheelmen. The bicycle triplet is really a bicycle and a half. It is two ordinary wheels joined in one in the following manner:—The front wheel of the rear bicycle is taken off, and the forks are fitted into the hub of the rear wheel of the front bicycle. This makes a skittish wheel to ride, as the balancing principle works entirely differently from the single wheel. The man in the front saddle has nothing to do but keep the handle bars straight; the rear man does the balancing. When a turn is to be made the front man turns the foremost wheel in the required direction, but the second man has to lean to the outside instead of the inside, as on a single wheel. After half an hour's practice the Goodwin boys ran races with the trolleys, turned, and in fact did almost everything that can be done on a single wheel on their strange three-wheeled machine. The Goodwins disclaim any intention of patenting the idea, but it is plainly a wheeling innovation, and permits of great possibilities. With wheels of the same make tandems can be constructed at will, and Maud and Charlie can wheel together one night, and by replacing the spare wheel Maud can take a spin with George the next night. Or if a wheel gives out on the road, it will be an easy matter to double up and let one of the riders carry the broken wheel.

RUBBING IT INTO CHICAGO.

Philadelphia Ledger:—That the American boat is a staunch craft there is no doubt, but it is evident that she was not built, as was the Canada, for the one object of winning the trophy. This, however, should have been the case, and the ambitious Chicago yachtsmen will doubtless know better next time. Meanwhile these gentlemen are saying nothing now about entering the lists with an America Cup defender in the event of a challenge being received from abroad. This, it will be remembered, was the "staked-out" programme in the event of the Vancedor winning.

Toledo Journal:—"Fools rush in where angels fear to tread," 'tis said, and I fear me the Chicago people forgot that they represented us, in a large sense, and undertook to accomplish that which wiser men would have hesitated to assume. In the matter of measurement, regulations and other minutiæ which yachtsmen regard as of importance, the Canadians gained the best of the Yankees; did them up before they began, as it were, and our winning became then a matter of battling against odds. I do not mean by this to blame the Canadians, nor to attempt in the smallest degree to detract from that which their genius and ability gave them, but merely to suggest that the Chicago men failed to recognize the difficulty under which they laboured, and did not measure wisely the antagonists against whom they were to be pitted. . . . When our Chicago brethren took it upon themselves to stand for the nation, they assumed a heavy load. It was not that a private gentleman of means believed that his boat was the best made, and was willing to stake his time, his money and his reputation on the result, but that the United States was pitted against Canada, and that this was a matter of national import. All over this continent, and throughout Europe, the public was watching this event and understanding that it was the tiny people across the border pitted against the richest and most important nation of the earth. It was this country, and therefore an affair in which we all have the right to take a deep interest and criticize according to our notions.

A foul breath is one of the greatest afflictions that a man or women can have. An affliction not only to themselves, but to those with whom they come in contact. A foul breath is a great discourager of affection. It would probably be more so if people only realized just what bad breath means. Bad breath is one of the symptoms of constipation. Some of the other symptoms are sour stomach, loss of appetite, sick and bilious headache, dizziness, heartburn and distress after eating. These things mean indigestion. They all start with constipation, and constipation is inexcusable because it can be cured—cured easily, quickly and permanently by the use of Dr. Pierce's pleasant Pellets. They give to nature just the little help that she needs. There is no case of biliousness, constipation, indigestion, "heartburn," or any of the rest of the night-mare breeding brood, that these little "pellets" will not cure.

Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser" illustrated.

TOUGH CLOTHES FOR THE BOYS.

Young Canada Begins Another Six Months' Schooling.

Tough clothes for boys to wear to school this Fall and Winter. That's the burden of our song. Strong clothes to stand the wear and tear of play, rough but healthy. Strong clothes to stand the work of out of doors fun in cold weather. We have just such things for the youngsters and, besides being full of wear, they are neat and shapely.

Did the last suit of clothes you bought for your boy from us, wear as well as it ought to hav worn, considering the price paid? If it did you should go to the same store for the next suit. You ge your money's worth. We deserve your patronage. We'll do better by you and by the boy than any other clothier.

5 CASES OF BOYS' NEW SUITS

These are only the advance guard of our Fall stock, for the boys. These are TWO and THREE piece Suits, and will fit boys all the way from 3 to 16 years. We sell the best of everything to keep in the heat, and keep out the cold for boys. We were boys ourselves, once,—it seems an awful long time ago.

We've all good qualities of Boys' Clothing. We've—probably—more Boys' Clothing in our store than in all the other stores put together. We've a weakness for supplying the boys. Ask yours if this isn't so?

Some idea we may give you of the value and inducement we purpose giving to buyers, when we say

A $2.00 BILL

will buy a beautiful, heavy, all wool, neatly made, well trimmed, and built of Auburn Mills Tweed Suit.

Of course we've cheaper Suits, and as low as 95c per suit. Better Suits up to $3.00 and $4.00, but

OUR $2.00 SUIT IS A CORKER.

Just the thing for a boy's school Suit, and as good as ever sold for $3.50.

Mothers should see these Suits. You know value. You know your boy's clothes-wrecking propensities.

Come to us. We're full of economical suggestions. No matter what your money is, we'll help you to make it go as far as it can. Come! The verdict is nearly always in our favour. It isn't often that the careful buyer decides against us.

"TOUGH CLOTHES FOR THE BOYS" That's our Motto.

SALE OF BURNT TIMBER.

A quantity of pine timber, estimated at about four million feet, B. M., situated on lot 4 in the 2nd con. and lots 3 and 4 in the 3rd con. of the Township of Rathbun, north east of Wahnapitae Lake, in the District of Nipissing; and a quantity estimated at four and one half million feet, B.M., situated on the shore of Lake Biscotasing, in the District of Algoma, on the main line of the Canadian Pacific Railway, having been damaged by fire, the undersigned hereby calls for tenders for the right to cut the same.

Tenders will be received up to and including the Seventh day of September next, and must state the rate per thousand feet board measure, if made into saw logs, or per thousand feet cubic, if made into square timber, which the tenderer is willing to pay as bonus or in addition to the ordinary Crown dues of one dollar per thousand feet board measure, on saw logs, and twenty dollars per thousand feet cubic on square timber. Separate tenders should be made for each quantity, and must be accompanied by a marked cheque for $300. The party awarded the right to cut will have to give a bond, with satisfactory sureties, for the performance of all the terms and conditions which may be required by the Department.

Mr. F. Sinclair, Forest Ranger at Sudbury, will give information respecting the timber, etc. and further particulars as to conditions may be obtained from this Department.

The figures as to quantity represent the Department's estimate only, and intending purchasers must satisfy themselves as to quantities and purchase upon their own estimates. The Department does not bind itself to accept the highest or any tender. Tenders should be marked "Tenders for Burnt Timber," and addressed to the Hon. the Commissioner of Crown Lands, Toronto.

GOLD DEMOCRATS

Put Presidential Candidates in the Field.

SENATOR J. M. PALMER OF ILLINOIS

Chosen for the First Position and Ex-Governor Buckner of Kentucky for the Vice-Presidency—Business Was Rushed at Indianapolis—The Platform.

Indianapolis, Sept. 3.—With the nomination of Senator John M. Palmer of Illinois for President and General Simon Buckner of Kentucky for Vice-President and the adoption of a platform, the Convention of the National Democratic party, the anti-free silver wing, adjourned sine die.

The platform states that the Democratic party is pledged to equal and exact justice to all men of every creed and condition; to the largest freedom of the individual, consistent with good government; to the preservation of the Federal Government in its constitutional vigor, and to the support of the States in all their just rights; to economy in the public expenditures; to the maintenance of the public faith and sound money, and it is opposed to paternalism and all class legislation. It says in regard to taxation, that posed only for public purposes, and tariff, excise or direct, is rightfully imnot for private gain. Its amount is justly measured by public expenditures, which should be limited by scrupulous economy.

It is declared that the demand of the Republican party for an increase in tariff taxation has its pretext in the deficiency of the revenue, which has its causes in the stagnation of trade and reduced consumption, due entirely to the loss of confidence that has followed the Populist threat of free coinage and depreciation of our money and the Republican practice of extravagant appropriations beyond the needs of good government. It goes on to say: We, therefore, denounce protection and its ally, free coinage of silver, as schemes for the personal profit of a few at the expense of the masses, and oppose the two parties which stand for these schemes as hostile to the people of the Republic, whose food and shelter, comfort and prosperity are attacked by higher taxes and depreciated money. In line, we re-affirm the historic Democratic doctrine of tariff for revenue only.

We demand that henceforth modern and liberal policies towards American shipping shall take the place of our imitation of the restricted statutes of the eighteenth century, which have been abandoned by every maritime power but the United States, and which have driven American enterprise to the use of alien flags and alien crews, have made the Stars and Stripes an almost unknown emblem in foreign ports, and have virtually extinguished the race of American seamen.

We oppose the pretence that discriminating duties will promote shipping; that scheme is an invitation to commercial warfare upon the United States, un-American in the light of our great commercial treaties, offering no gain whatever to American shipping, while greatly increasing ocean freights on our agricultural and manufactured products.

The gold standard is emphatically endorsed, and the further maintenance of the present costly system of national paper currency is denounced as a constant source of injury and peril. The necessity of such intelligent currency reform as will confine the Government to its legitimate functions, completely separated from the banking business, is set forth, and the platform calls for a uniform, safe and elastic bank currency, under Governmental supervision, measured in volume by the needs of business.

The Gold Democrats endorse President Cleveland's administration for the enforcement of laws, and for the reforms in the civil service. They demand that these reforms be sustained and that the spoils system of appointments shall be eradicated.

The platform favors arbitration for the settlement of international disputes, and a liberal policy in the matter of pensions to deserving soldiers and sailors.

The independence and authority of the Supreme Court must be maintained, says the platform, and in conclusion it is declared that "the Democratic party ever has maintained and ever will maintain the supremacy of law, the independence of its judicial administration, the inviolability of contract and the obligations of all good citizens to resist every legal trust, combination or attempt against the just rights of property, and the good order of society, in which are bound up the peace and happiness of the people.

TO HARNESS THE RICHELIEU.

A Big Project to Supply Montreal With Electrical Power.

Montreal, Sept. 3.—The Richelieu River at Chambly is to be harnessed in order to secure electrical power for Montreal. A contract has been given by Montreal capitalists to a Dayton firm to do the work for $1,000,000, and the western firm are sub-letting contracts to the value of $550,000, and a concrete dam 1100 feet in length and 28 feet high will be built across the Richelieu, generating a force of 20,000 horse-power, the contract to be completed by October, 1897. The distance to Montreal will be 15 miles and it is quite probable that the Victoria Bridge will be used in getting the electric wire across the St. Lawrence. Permission will be asked at Ottawa to-morrow to dam the Richelieu, but the promoters do not expect any difficulty in that direction. Amongst those interested in this new undertaking are President Holt of Montreal Gas Company and several of the directors of the Royal Electric Company, the latter, it is said, having engaged to take half the power produced in the Richelieu. The new company at the Lachine Rapids will also have 12,000 horse-power to dispose of by the end of the year.

A despatch from Rossland, B.C., to a gentleman in this city states that a very valuable strike has been made in the California mine and that the Josie has the biggest showing of ore of any mine in the Rossland camp.

A day or two ago a man named John Gore was fatally injured while working at the Canadian Pacific East End depot, and to-day Coroner Mahon gave orders for the arrest of the foreman, Mr. T. H. Beck, the jury having found him wanting in prudence.

Lord Russell of Killowen was entertained to-day at lunch at the St. James Club, the number of judges and lawyers present being between 70 and 80. Hon. J. E. Robidoux presided and the Lord Chief Justice of England delivered an admirable address.

TO CONSIDER MR. LAURIER'S OFFER

The Greenway Cabinet to Take Up the Proposed School Settlement To-Day—Mr. Martin Goes to Ottawa.

Winnipeg, Man., Sept. 3.—(Special.)—At to-day's session of the General Synod of the Church of England in Canada, the primate delivered a lengthy charge. Then Dean Carmichael took the chair in the lower house and conducted the opening. The Dean of Montreal was chosen prolocutor on motion of Rev. Dr. Langtry. To-night the delegates were tendered a public reception at Hotel Manitoba.

Premier Greenway announces that his Cabinet to-morrow morning will formally begin the consideration of Mr. Laurier's proposition for a settlement of the school question. Important announcements are expected in a few days.

Joseph Martin has been suddenly summoned to Ottawa. He was in the Kootenay mining country, but will reach here to-morrow and proceed to the Capital without delay. It is believed a new deal is on in connection with the vacant portfolio.

The Portage Review, a newspaper published at Joseph Martin's home, says editorially: "If Clifford Sifton is made Minister of the Interior it will hasten a proper conception of his selfishness and lack of appreciation of the rights of others. When the political history of Manitoba is written it will be learned that the present is not the first time Mr. Sifton has ignored the services of Joseph Martin and stepped into office at the suppression of the latter. We believe the choice of Mr. Sifton will be disastrous to the Liberals of Manitoba. It will engender discontent and mistrust and will cool the ardor of many enthusiastic supporters of the Government."

29 Men's Canadian Tweed and Serge Suits, light and dark colours, well made, good trimmings, regular $4.50 to $5, Grafton's sale price for Friday and Saturday..... $2.98

AS TO PROHIBITION.

Alliance Delegates Wait Upon the Government.

A SATISFACTORY REPLY GIVEN.

Plebiscite to be Taken After Next Session—The Premier Points Out Differences That are Sometimes Overlooked—Remarks of Hon. Mr. Fisher and Sir Oliver Mowat.

Ottawa, Sept. 3.—The greatest and most successful prohibition delegation which ever assembled at Ottawa listened to the promise of the Government this morning to take immediate steps to carry out their policy of a plebiscite. Among the large number present were the following: Hon. J. C. Aikins, Messrs. J. J. Maclaren, Q.C.; J. R. Dougall, Montreal; Walter Paul, Montreal; Dr. Christie, M. P.; S. J. Carter, A. M. Featherstone, S. P. Leet, J. H. Carson, Rev. John McKillican, E. L. Bond, all of Montreal; Rev. W. L. Scott, Ottawa; William H. Orr, F. S. Spence, John T. Moore, James Scott, all of Toronto; John Gemmill, Lanark; W. W. Buchanan, Hamilton; T. D. Craig, M.P.; S. Gillies, Alisa Craig; Rev. Dr. Saunders, Ottawa; Mr. Hale, M.P.; Mr. Canong, M.P., New Brunswick; Joseph Kidd, Prospect; Thomas Coates, Prescott; Ald. Stewart, Ottawa; Miss Mary Scott, Mrs. Alexander, Ottawa; J. Kilpatrick, Ottawa, and a large number of others.

The delegates assembled in the Railway Committee room of the House of Commons. Senator Vidal, President of the Dominion Alliance, presided at a preliminary meeting of the delegates at 9.30. He opened the meeting in a few remarks, in the course of which he said that he considered a plebiscite an expensive and unnecessary way of getting an opinion. A discussion ensued as to the best means of addressing the Government, and it was resolved on a vote that three delegates address the Government. Mrs. Alexander was chosen to represent the ladies, and Mr. J. J. Maclaren was next selected. The names of both Mr. W. W. Buchanan of Hamilton and Mr. John Dougall of Montreal were mentioned for the third spokesman, and on a vote Mr. Dougall was elected.

THE SPEECHES.

Shortly after 10 o'clock the Premier and Hon. Sidney Fisher entered the room and were heartily applauded. Senator Vidal urged the supreme importance of this question in a brief address. He was followed by Mr. Maclaren, who put himself en rapport with the Premier at once by alluding to the fact that Mr. Laurier was one of the promoters in 1875 of the Dominion Alliance Convention in Montreal. He referred to Mr. Fisher as one of their warmest friends and supporters. After speaking of the vote on the provincial plebiscite he added that the new Government had been endorsed on their policy at the polls by a large majority; the Government were pledged to a plebiscite. That, however, was merely a means. They came to ask for prohibition, which they believed to be of such great consequence.

Mrs. Alexander of Ottawa next addressed the Government. She said she represented the W.C.T.U., an organised body of 10,000. She dwelt on the helplessness of women and children. In the past it had been said that women wept because men made the laws, but happily they had fallen on better days, and she was quite willing to leave their cause in the hands of the new Premier. (Loud cheers.)

Mr. Dougall was the last official speaker. He expressed the pleasure it gave the deputation to meet a Government composed of men who have shown such sympathy with the movement and such a determination to face the question and take the wisest steps to bring about the great result as early as possible. Believing that the plebiscite program would be carried out, they had every confidence in the people of Canada that when opportunity was afforded they would show which side they were on.

Premier Laurier, after listening to the deputation, said: "I fully recognize the great importance of the meeting and the delegation which I see before me, and of the object they have in view. I fully agree with every word spoken by Mr. Maclaren and Mrs. Alexander, as well, when they said that the cause of temperance was perhaps the greatest and most important in all civilized communities at the present time. (Cheers.) I am glad to say, though perhaps you have not yet reached the point you are aiming at, that I can bear my testimony to the fact that the cause of temperance has made immense progress in the last twenty or twenty-five years. As a gratifying evidence I will tell you that as leader of the Opposition I have held no less than 300 meetings in all parts of Canada, and I am here to bear witness that in all these meetings, with the exception of three, I never saw a man under the influence of liquor. (Cheers.) Such a thing was impossible thirty or perhaps even fifteen years ago. Let us hope that the leader of the Opposition twenty-five years hence will be able to bear the same testimony without making even three exceptions.

"But what is temperance? We are here as rational men. You hold that it is absolute abstinence. Many people believe that temperance is moderation, and this we cannot forget. When the Liberal convention met here in 1893, having to deal, as we thought we had to deal, with the interests of our common country, we thought to have the opinion of the people properly tested, so as to ascertain what the feeling of the country was, whether it should mean absolute abstinence, as you think, or moderation, as some others think. We thought the taking of a plebiscite the best way, and we decided to divest it of every other question which might more or less buy up the judgment of the people. We thought it better to go even further than Sir Oliver Mowat's Government went when it took a plebiscite in connection with municipal elections. We wished the question divested of every other consideration, so that we might have the judgment of the people on this question itself. There are other views.

The people of Canada are not a unit on the question of abstinence or moderation, and there are also local in-

(Continued on Third Page.)

It Will Be No Trouble

TO HEAT YOUR HOUSE THIS WINTER IF YOU PUT IN A

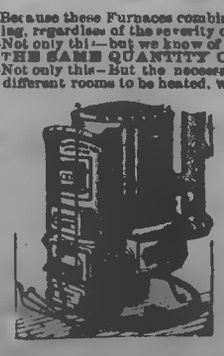
PRESTON Hot Air or Hot Water FURNACE

PUT IT IN NOW—THIS SUMMER.

1st.—Because these Furnaces combine all the Requisites for maintaining a Warm, Balmy, Spring Atmosphere throughout the Building, regardless of the severity of the winter weather outside.

2nd—Not only this—but we know of many instances where these furnaces are Comfortably Heating ENTIRE DWELLINGS with THE SAME QUANTITY OF FUEL that was previously used to Improperly Heat ONE ROOM WITH A STOVE.

3rd—Not only this—But the necessary Furnace and Attachments cost VERY LITTLE MORE than to provide stoves for the different rooms to be heated, while THE COST OF FUEL IS LARGELY DIMINISHED.



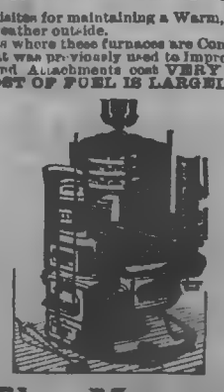
Pleasant Home
WITH RADIATOR.
A Tubular Furnace for Coal or Wood.

Made in four sizes.

The heavy castiron Tubes in Dome add largely to the heating capacity.

We supply them brick set or portable as desired.

Constructed of castiron and heavy steel plate, and embodies the Patent Fused Joint System—no bolts, rivets or cement is required—guaranteed to prevent the escape of gas or dust.



The Marvel
A Steel Plate Furnace for Coal or Wood

Made in six sizes, similar to "Pleasant Homes."

COMBINATION HEATER
A Hot Air and Hot Water Furnace.

Made in two sizes.

The Water Heatery, it will be seen by illustration, is so constituted that the amount of hot water supplied may be varied by using one, two or three sections as required.

HILBORN HOT-AIR
WOOD BURNING FURNACES

Made in two styles and ten sizes.

For burning wood from 3 feet up to 5 feet

Very large feed door to admit rough, knotty, unsawable wood, leaving all good wood to be marketed.

Farmers who have a lot of wood unfit for market will find them just the thing they need.

As will be seen the Hilborn has an enormous amount of heating surface.

OVER 200 IN USE IN THE TOWN AND COUNTY OF PETERBOROUGH.

Our large practical experience is at your command and we will cheerfully give instructions and full information to all who desire to warm their buildings efficiently and with the greatest possible economy. ESTIMATES GIVEN. EVERY FURNACE GUARANTEED.

ADAM HALL

Sole Agent for Peterborough—Town and County. 487 George Street.

Sour

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

"For over 12 years I suffered from sour

Stomach

with severe pains across my shoulders, and great distress. I had violent nausea which would leave me very weak and faint, difficult to get my breath. These spells came oftener and more severe. I did not receive any lasting benefit from physicians, but found such happy effects from a trial of Hood's Sarsaparilla, that I took several bottles and mean to always keep it in the house. I am now able to do all my own work, which for six years I have been unable to do. My husband and son have also been greatly benefited by Hood's Sarsaparilla—for pains in the back, and after the grip. I gladly recommend this grand blood medicine." MRS. PETER BURRY, Leominster, Mass.

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1.

Hood's Pills cure all Liver Ills and Sick Headache. 25 cents.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month, $2.00 for six months.

Daily Examiner.

FRIDAY, SEPTEMBER 4, 1896.

AN APPROACHING JUBILEE.

That the Prince of Wales should grow daily a more interesting figure is as natural as that time on the wing. On June 20 the Queen entered upon the fifty-ninth year of her reign, having ascended the throne upon the 20th of June, 1837. But she will have to reign until Wednesday, the 23rd of September next, to equal the long reign of her grandfather. George the Third was crowned October 25, 1760, and died January 29, 1820, thus having been enthroned for fifty-nine years and ninety-six days.

People are curious to know how the sixtieth year of Her Majesty's reign will be celebrated, if at all. As the autumn is an inauspicious time, it is probable that nothing will take place until the following birthday. But the point is, that the years are on the gallop, and the Queen is seventy-seven. Her Majesty has had a year of depressing family troubles, as well as joys—a daughter widowed, and a grand-daughter just wedded—as well as eventful cares of state, never since the Crimea war more fraught with anxiety. She is in robust health, as old age goes, but any day might spring with extreme cogency the question of the succession, which everyone in England shrinks from the discussion of. It is known to be to the Queen a very distasteful one. Her Majesty's one desire is to go on peacefully and quietly until the day when she will resign the throne into the hands of H. R. H. When that may be, who can tell? But it is certain that if the Queen was for any length of time incapacitated, she would abdicate in his favour.

SENATORSHIPS.

It has already fallen to the lot of Mr. Laurier to fill four senatorships since he assumed office; a fifth is now vacant, and the indications are that a sixth vacancy will be created at a very early date. It will thus be seen that the five paltry Liberal senatorships that Lord Aberdeen found to exist will have been doubled by the time the first division of the session takes place in the upper chamber.

But although the Liberal strength in the Senate is being considerably reinforced, it still plays a very insignificant part when placed in opposition to the phalanx of Conservative appointees led by Sir Mackenzie Bowell. It is doubly important, therefore, that the men who are now appointed should not be of an ornamental character, but should be capable of taking an active part in the debates and work of the Senate, and rendering adequate support to Sir Oliver Mowat in his efforts to reform the Senate and to present and uphold from time to time the Government policy on the various questions of the day.—*Brantford Expositor.*

It is all very fine for politicians, says the Ottawa Journal, (Independent), to talk of chopping off the heads of offensive political partizans, but some of those who have come to Ottawa with knives and axes sharpened for the fell purpose have found some necks too stubborn to bow to the block. Only the other day a deputation from Wayback demanded a certain outside official's head, and waited on their representative elect with platter and vinegar, ready to "souse the caput." Imagine their disgust when the M. P. pitifully replied: "Gentlemen, how can you expect me to chop off his head? His son is going to marry my daughter!" In another instance a man was appointed by the new Minister to a place on the Intercolonial Railway. When he went to assume his duties he was sent to work shovelling ashes. He complained that such work was not the sort of work he was appointed to perform, but got no satisfaction and resigned. Now, he says that the officials are a close corporation who can make the lot of the new-comer so disagreeable that he is glad to get out. This is where the pinch comes. Appointees of the new government say they must go among men who are determined to keep them out by hook or crook. It is further alleged that there is not a department or branch of the civil service, inside or outside, but is controlled more or less by a clique. Even ministers have been told that, if they are not particularly sharp, far-seeing and determined, they will find themselves thwarted and their efforts for reform made abortive, yet they will not know how the thing was done. The newly-appointed may be men of ability, perfectly capable in every respect, but if those under whom he has to serve like him not, or desire some other person of their own selection for the place, he will find a hard row to hoe.

THE LEAN HOG QUESTION.

The Hog the Packers are Asking for and That is the Most Profitable to Raise.

The National Provisioner, published at New York, has the following on the hog and pork question:—"There is no cessation to the interest manifested among packers, commission merchants and shippers regarding the question of lean hogs. Yesterday we received a very interesting letter on the subject, which gives details of such a character and so good an object lesson as to force conviction to the most optimistic. We print the communication below:—

"In your issue of August 1st I notice the remarks of Thomas Shaw, in the Prairie Farmer, all of which, no doubt in my mind, is correct as regards the breeding and feeding of hogs. I have been preaching the same thing since the year 1876, when I first got my eyes open to this subject. At that time I was packing hogs and shipping live stock across the water. I was much struck with the appearance of the live hogs which I saw in Liverpool, Manchester and Sheffield and other markets in England. My brother is in the live stock business there, and handles large quantities of Irish, Danish and English hogs. One day I passed the remark to him that the hogs in those markets were a very poor quality and not fit to compare with the hogs of our country. Long legged, long backed, slab sided, lobe eared razorbacks would not be sold in our markets at any price.

My description of those hogs did not meet my brother's views, and he tauntingly dared me to bring some of our fancy American hogs over, as he had not seen any of our fancy bacon to warrant my boasting. On my next trip I took a sample lot of the best I could get, which consisted of 200 of as fine young hogs as could be got together, weight 250 lbs. and thoroughbred "Berkshire." I took them over on the steamer along with sheep and horses. The hogs landed in fine condition and looked fully as well, if not better, than when first put on board at Montreal, but how shall I express my surprise on their landing to see the disgust on my brother's face as soon as he saw the hogs. He welcomed me by telling me I, "knew nothing about hogs," and that he was at a loss to know what to do with them. They were no good for the Liverpool or London market. He would divide them in two lots, himself taking 100 to Sheffield and I taking 100 to Manchester, he telling me what salesman's hands to put them in. When yarded among a lot of Irish hogs, with their lobe ears and deep slab sides my hogs went up 3c. per lb. in my estimation, but on being sold did not fetch as much by 2c. as my slab sided friends. I was not yet satisfied, but saw them killed and cut along side of Irish hogs. We were not in it, as any butcher or packer could see at a glance; there was no excess of fat in the Irish hog; bellies deep, thick and full of lean meat, back thin and full of meat of good colour and fine grain, fat, firm and white, hams lean, but hog full of leaf lard; in fact better leaf lard than was in my excessively fat hogs. I found I had something to learn about hogs yet. The hogs they cross with in England are, as Mr. Shaw says, the Yorkshire and Tamworth. As to feeding there is no question. This is from actual experience, as far as quality of pork goes—oats first, peas and barley next, then wheat and last corn."

This communication tells its own story and points a moral.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally of health. The mad pursuit of place, power and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer of it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency and fatigue add their mournful notes to the "still sad music of humanity." Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increasing virgils! Health and strength are the alternatives from decay and death.

Cocoa, combined with Maltine affords that staff. It will give tone to the nervous system, strength to the nerves, sleep to the weary eyes, and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated. Maltine with Coca Wine is sold by all druggists.

SURVEYING DISPUTED GROUND.

Governor Hemming of British Guiana Goes Over the Northwestern Districts.

London, Sept. 3.—The St. James' Gazette says that Sir Augustus Hemming, the new Governor of British Guiana, made a tour of the disputed northwestern districts of Guiana during the month of August, steaming up the Barima River to Acarabisca, thence to Arakaka. He found the output of gold from the Barima mine was increasing and that the whole country was rich with gold deposits. When Governor Hemming and his party visited the frontier station at Amacura they were objects of great interest to the Venezuelans on the opposite side of the river.

BLACK EYE FOR HAMMOND.

The London Standard Calls the American Engineer Down a Bit.

London, Sept. 3.—The Standard this morning, commenting upon the statement of John Hays Hammond, says editorially: We fail to see that Dr. Jameson was under any obligations to remove the impression of cowardice created by the Johannesburg reformers' own conduct. With becoming generosity he assumed the full responsibility for the raid. Many hard things have been said of the reform leaders, but nothing so damning as the defence set up by Mr. Hammond.

A Mouthful of Pearls.

The teeth perhaps, more than any other feature, enhance or destroy that tangible, because complex, thing we call beauty. What more repellant than ill-kept, discoloured teeth? What unsightliness more needless and inexcusable? Ivorine is delightful, whether as a cleanser or in its property of imparting to the teeth that dazzling whiteness so much desired and admired and as efficient does it render the breath sweet and fragrant. Ivorine is incomparable as a toilet requisite, which accounts for its recommendation by leading dentists.

Hidden Foes.

Among the many foes to human health and happiness dyspepsia and constipation are twin maenies greatly to be feared. With B.B.B. to drive them out of the system, however, no danger need be anticipated, as every dose brings the sufferer a long step further on the road to perfect health and strength, and a permanent cure always results.

WORKING ON THE QUIET.

The Syndicate Boring for Oil in Bothwell are Keeping Quiet, But are Buying Up Options.

Windsor, Sept. 3.—Hiram Walker is one of a syndicate that is boring for oil at Bothwell, whose oil boom of 20 years ago came to such an untimely end. The presence of Mr. Walker at the fields yesterday gave rise to the report that immense finds had been made, but the members of the syndicate would only say that operations thus far are only experimental, and any premature assertions as to the supply of oil would only give rise to false hopes and induce people to invest unwisely and so lead to another boom and thus cause another wreck. This sounds very philanthropic, but some of the farmers are inclined to the view that rich wells have been struck, and that the syndicate is simply lying low until it can secure all the options on land that it requires. Hiram Walker already controls between 1300 and 1500 acres of land and other members of the syndicate are reported to have acquired as much more, thus giving them control of nearly all the desirable land in the vicinity. Property is increasing in value and proprietors are holding on. The product of this district is said to yield a much higher percentage of refined oil than that produced in Petrolia and to be almost equal to that of Pennsylvania.

ENDED AT LAST.

After Two Years of Misery Endured Backache Succumbs to Dodd's Kidney Pills.

Madoc, (Special) Aug. 31.—In a place like this, people suffer and sympathize, hope and mourn with each other. But her many friends here, as elsewhere, who have long been aware of the precarious health and long suffering of Mrs. J. Fergusson will be pleased to learn that her painful sufferings have ended at last, and that instead of being unable, as she says, "to turn herself in bed" she is herself once more as the result of using a few boxes of Dodd's Kidney Pills. She further says that from the third day after commencing to use these pills, she was free from all pain; and, that now she feels as well as ever before in her life.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell. 25c, 50c. and $1.00.

That hacking cough can be quickly cured by Hagyard's Pectoral Balsam. Price 25c.

Return Tickets, 50c.

T. E BRADBURN, General Manager.

SALE OF BURNT TIMBER.

A quantity of pine timber, estimated at about four million feet, B. M., situated on lot 4 in the 2nd con. and lots 3 and 4 in the 3rd con. of the Township of Rathbun, north east of Wahnapitae Lake, in the District of Nipissing; and a quantity estimated at four and one half million feet, B.M., situated on the shore of Lake Biscotasing, in the District of Algoma, on the main line of the Canadian Pacific Railway, having been damaged by fire, the undersigned hereby calls for tenders for the right to cut the same.

Tenders will be received up to and including the Seventh day of September next, and must state the rate per thousand feet board measure, if made into saw logs, or per thousand feet cubic, if made into square timber, which the tenderer is willing to pay as bonus or in addition to the ordinary Crown dues of one dollar per thousand feet board measure, on saw logs, and twenty dollars per thousand feet cubic on square timber. Separate tenders should be made for each quantity, and must be accompanied by a marked cheque for $300. The party awarded the right to cut will have to give a bond, with satisfactory sureties, for the performance of all the terms and conditions which may be required by the Department.

Mr. F. Sinclair, Forest Ranger at Sudbury, will give information respecting the timber, etc, and further particulars as to conditions may be obtained from this Department.

The figures as to quantity represent the Department's estimate only, and intending purchasers must satisfy themselves as to quantities and purchase upon their own estimates. The Department does not bind itself to accept the highest or any tender. Tenders should be marked "Tenders for Burnt Timber," and addressed to the Hon. the Commissioner of Crown Lands, Toronto.

J. M. GIBSON.
Commissioner of Crown Lands.

Munyon's Nerve Cure is a wonderful nerve tonic. Price, 25 cents.

Munyon's Vitalizer restores lost vigor. Price, $1.

A separate cure for each disease. At all druggists, mostly 25c a vial.

Personal letters to Prof. Munyon, 11-13 Albert street, Toronto, answered with free medical advice for any disease.

COOPER GETS THE MONEY

And He Can Easily Afford to Pay the $50 Fine for Fouling Bald.

Springfield, Sept. 3.—The greatest honors of this year's Springfield bicycle meet have gone to Butler and Cooper. Yesterday Tom Butler won handily from all the flyers in the half mile and mile international; to-day Tom Cooper had everything his own way, and surprised everybody by easily taking the half mile open and the mile record race—the two big professional events. Bald gave Cooper his hottest rub. That was in the half mile open. From his $345 of prize winnings Cooper will have no difficulty in paying the $50 fine which Referee Robinson imposed upon him yesterday. One of the surprises of the day was the taking by F. C. Hoyt of this city of second place in the mile record. Hoyt has only this season ranked as a professional.

In the record trials Ivers, Randenberg and Munger pedaling a triplet covered the half mile with flying start in 53 2-5 seconds, thereby clipping numerous seconds from the record of one minute flat made in '94 by Murphy, Kennedy and Saunders. The half mile handicap amateur record was broken by E. C. Blake, who won his race in 1.00 3-5. The record heretofore was 1.01, made in '95 by Frank Bryne of San Jose.

Half mile open, amateur, won by C. C. Ingraham of Dixon, Ills., A. M. Curtis of Meridan 2; Joe Harrison of Asbury Park, N.J., 3. Time 1.03.

Half-mile handicap, professional—Won by W. F. Saunders of Boston (50 yards); G. L. Bates, Springfield (60 yards), 2; Arthur Gardiner, Chicago (scratch), 3. Time 1.01 3-5.

Mile record, amateur—Won by M. Curtis, Meriden; C. C. Ingraham 2; R. F. Ludwig of Chicopee, 3. Time 2.08 1-5.

Mile record, professional—Won by Tom Cooper; F. C. Hoyt, Springfield, 2; W. C. Sanger, 3. Time 2.05 1-5.

Mile, 2.20 class, professional—Won by H. D. Hutchins of Dorchester; Watson Coleman of Springfield, 2; F. E. Weinig, Buffalo, 3. Time 2.07 2-5.

Half-mile handicap, amateur—Won by E. M. Blake of Keene, N.H. (15 yards); W. L. Lewis of Westboro, Mass. (45 yards), 2; C. C. Ingraham, Dixon, Ills. (scratch), 3. Time 1.00 3-5.

Half-mile, open, professional—Won by Tom Cooper; E. C. Bald, 2; Otto Zeigler, 3. Time 1.00 1-5.

Mile handicap, professional—Won by W. F. Saunders of Boston (95 yards); J. B. Bowler, Chicago (105 yards), 2; C. J. Lewis, Northampton (135 yards), 3. Time 2.03 2-5.

AS TO PROHIBITION.

(Continued From First Page.)

terests. Take the Province of Quebec, which has had a prohibitory law, which dates from the year 1864. Previous to Confederation, municipal councils were empowered and are still empowered to enact prohibitory by-laws within the municipalities. There is no need to appeal to the people, but the council has the right to enact a prohibitory law, and in some sections of the province this power has been largely exercised. In the Counties of Lotbiniere, Drummond, Arthabaska, Portneuf and Megantic the sale of liquor under the sanction of law is almost unknown. In Arthabaska, out of 18 municipalities there has not been a drop of liquor sold under the law or a single license issued except in two. In Megantic, out of 14 municipalities my impression is that the same thing is true, except in one municipality. In Lotbiniere there is not a single license, and the same is true of Portneuf. (Cheers.) It remains to be seen whether the people there are in favor of a change and the plebiscite will show that. The plebiscite is part of the Liberal program adopted at the convention of 1893. Our policy has been before the people, who have pronounced upon it. It now becomes our duty to carry our our program, and I say frankly it is our intention to do so. (Cheers.)

As to the time when it should be done my answer is this: It is the intention of the Liberal party to carry out to the letter every article of its program within the very shortest possible limit. There is no intention to delay. On the contrary, speaking even politically, it is perhaps the best policy of all to deal with the question within the shortest time. It is not our intention this session, but I have every hope that next session and not later we shall introduce the legislation we have promised. (Loud cheers.) This is a question in which the women are, perhaps more than the men, interested. Mrs. Alexander has not the right of suffrage, but all will admit that she could not more influence the Government of this country if she had a vote than she can do simply by speaking. (Cheers.)

Mr. Fisher welcomed the deputation as one who had always been a warm friend of the cause and if his leader had chosen him to be present to-day, it was because he represented to a certain extent the temperance sentiment of the country. (Cheers.) The Premier's answer was plain, sincere and distinct. The Government had no intention of postponing beyond the next general election the taking of a plebiscite. He considered it essential to the success of a plebiscite that it should be held free from all other questions. He hoped that what he called "the success of our cause" would be promoted by to-day's proceedings.

Sir Oliver Mowat had entered the room while Mr. Fisher was speaking and received an ovation. He was called on by the delegates to address them. He said that if prohibition was a practicable thing it was also a right thing. He did not pretend to feel perfectly certain about it being a practicable thing, for they could not be certain that public sentiment is such that a law of that kind could be enforced throughout the country. It was a very important, in fact an essential, thing to have popular sentiment in such a condition that a prohibitory law could be enforced. It was also important that popular opinion should be obtained on this question free from anything that might detract the attention of the voters. The Government wished to have that vote as early as possible. They wanted to know the opinion of the people, also to know whether the people are willing to bear the burden implied by the adoption of prohibition. The object was well worth the burden—(cheers)—but did our people feel that way? Was the sentiment strong enough to enable them to bear the burden and privations—if there were privations—attending such a law? The active agencies to bring about this state of things were the temeprance organizations, and he was sure that they all felt it to be absolutely necessary that whatever could be done to make that sentiment a general one shared in by the greater portion of the community should be done. That was essential to the success of what they desired. He rejoiced to think that in his native country all those habits so prejudicial to the country, which involved so much misery to families, should be wiped away. (Cheers.) He thought there was no doubt that drinking habits were different to what they were some years ago, and a large part of that was due to agitations and literature of the temperance organizations. Whether the result proved that the country was ripe for prohibition, at all events the progress made was of the most valuable kind. (Cheers.)

The deputation then withdrew, after thanking the Ministers.

At a meeting of the Dominion Alliance to-day Senator Vidal announced that the Internal Economy Comittee of the House of Commons this morning had passed a resolution abolishing the bar of the House, the order to go into effect today. The announcement was received with cheers.

A resolution was passed calling upon the members of the Senate to take similar action in regard to their bar.

On motion of Walter Paul, of Montreal, another resolution was passed expressing satisfaction at the promise of the Premier to enforce a plebiscite and calling upon all temeprance people to prepare for the work before them.

General Ottawa Notes.

Ottawa, Sept. 3.—(Special.)—The debate on the Governor-General's warrants for money without the consent of Parliament, which commenced today, will not conclude until Tuesday, when division will be taken. Mr. Foster moved a want of confidence motion in amendment to supply.

It is learned that the present Government has withdrawn the Thousands Islands from sale with the view of their being acquired by the Government of Ontario for park purposes.

A C. P. R. CONDUCTOR.

After Two Years' Misery was Cured by Ten Boxes of Dodd's Kidney Pills.

Prescott, (Special) Aug. 24.—For a long time much sympathy had been felt and expressed for Mr. Wm. Freeman, a very popular conductor of the C.P.R., who had been rendered unfit for duty the past few years by a peculiar and distressing form of kidney disease. It now transpires, much to the delight of his friends, that he has been enabled to resume his regular tripe. He claims, as the results of using only ten boxes of Dodd's Kidney Pills, that he has entirely recovered, and that he never felt better in his life, and believes that these Pills have cured him to stay cured.

A Crying Evil.

Every crying evil should be promptly removed. Sick headache is a crying evil affecting thousands of Canadians, which can easily be removed by the use of Burdock Blood Bitters, the best known stomach, liver and bowel regulator and cure for sick headache from whatever cause arising.

Children Cry for Pitcher's Castoria.

GERMANY AT THE BOTTOM

Of the Insurrection in the Philippine Islands—Insurgents Routed.

Madrid, Sept. 3.—An official despatch from Manilla, capital of the Philippine Islands, announces that 3000 insurgents have collected at Cavite. The troops have routed 300 insurgents at Bacoore, killing fourteen of them and capturing eighteen. Reinforcements have been summoned from Nue Vaceig. Signs of insurrection are apparent at Bulacan, Pampanga and Batangas.

Rumors are current here to the effect that the leaders of the uprising in the Philippine Islands are Germans, who comprise the Executive Committee or a secret society which is alleged to be responsible for the whole trouble. It is further stated that a pamphlet hostile to Spain, which has been circulated among the inhabitants of the Philippine Islands, was printed in Germany.

Which is worse, imprisonment for life or a life long disease, like scrofula, for example? The former, would certainly be preferable were it not that Ayer's Sarsaparilla can always come to the rescue and give the poor sufferer health, strength and happiness.

TORONTO INDUSTRIAL EXHIBITION.

SPECIAL NOTICE.

Visitors to the above who are musically inclined should carefully inspect The **MASON & RISCH PIANO** exhibit. Our stand is the first one on the left as you enter the Musical Pavilion. Our exhibit is not a large one, as we believe that the beautiful tones of instruments can be more fully appreciated in the quiet of our warerooms than amidst the bustle and confusion of an exhibition. We shall therefore make our principal exhibit at our warerooms, 32 King St. W., to which all visitors are cordially invited.

One of the most valuable paintings at the Art Gallery in the exhibition building will be the famous portrait of the Great Pianist Franz Liszt which was painted at his command by Baron Joukovsky, the Great Russian Artist, and presented to Messrs Mason & Risch as a tribute to the wonderful tone qualities of their Pianos. Every lover of Art should make it a point to see this painting. It is valued by experts at $5000.00.

We shall continue, therefore, during the Fall and early Winter months to keep a regular assortment of the leading Novelties for fashionable

Fall Wear.

The buying has been done with extreme care, but the stocks are comprehensive enough to satisfy every need, ranging from the newest things in **SILK AND WOOL DRESS GOODS,** for the super-fashionable, to the simplest effects in the quietest materials for people to whom a dollar is a dollar, or sometimes more.

It must not be forgotten, however that our chief object is still to get entirely out of business. This will have its full effect on prices, and the new goods will have to share in the same general reduction necessary to accomplish a prompt clearance of the entire stock.

ROBERT HALL

885 George St.

DR. M. A. MORRISON

Daily Examiner.

FRIDAY, SEPTEMBER 4, 1896.

LOCAL NEWS.

The Seventh Day Adventists.

The meetings in the mission tent on the corner of George and McDonnel streets, still continue. Bible study on Saturday at 3 p.m.; preaching at 8. All are welcome. No meeting to-night.

150 Boy's two-piece Suits in Canadian and Imported Tweeds, well made and trimmed, all sizes and different patterns, from 23 to 28 sizes, regular $1.50 to $2.50, Grafton's Sale Price for Friday and Saturday..... **98c**

Always Right.

J. J. Howden's beef, lamb, bacon and smoked ham have won a lasting reputation for their excellence and quality and the superior manner in which they are dressed and preserved. Nothing finer. 461 George street. Telephone 39.

The Street Lighting.

A meeting is called of the Committee of the Whole Council and the Fire, Water and Light Committee in the Clerk's office this evening. The tenders for the street lighting will be opened, it is understood, as they are now in the hands of the clerk.

Remembered His Friends.

Mr. W. J. Drope, though away from town, has not apparently forgotten his old friends here, as yesterday there arrived from Grimsby two baskets of fruit—one of pears and one of plums, addressed to the staff of the Collegiate Institute. The gift was thoroughly appreciated and suitably acknowledged.

Tomatoes for England.

Acting upon the suggestion of the experimental farm at Ottawa, a number of fruit growers at Brighton shipped on Tuesday 400 bushels (800 crates) of choice tomatoes, hand picked, for the English market. The railway and steamship companies have met the exporters very generously in offering, should the enterprise net a loss, to bear their share of it. The result of the shipment will be looked forward to with much interest, as a new market for tomatoes may thereby be secured.

Crowds at the Fair.

Great crowds are seen about the Surprise soap exhibit examining the big cake of Surprise soap on which there is a guessing contest. Whoever guesses the weight receives the handsome Heintzman piano on exhibition near the big cake. Anyone can guess free of charge. The makers of Surprise soap are having attention called to their soap in a very striking way. Everyone is impressed with the handsome piece of soap. If all cannot get the piano each one can at least be able without any trouble, to get Surprise soap. Three prominent merchants have charge of the guessing contest so that everything is conducted in the fairest way.

Street Crossings and Sewer Work.

Complaints have been received by the EXAMINER as to the condition of the crossings on the line of sewer construction on George street, especially that at the northern Simcoe street crossing on western side where the earth is piled to a height of five or six feet, making it an impossibility for a lady to cross. There is no means of easily crossing the street between Charlotte and Hunter. The contractor's attention has been called to the matter, but the rampart still remains. It is for the street authorities to enforce the clause in the contract requiring the contractor to keep the street crossings passably clear; it is the duty of the town to see this clause enforced. Merchants have dull days enough without having the public barricaded from their shops, especially on a busy day like Saturday—a harvest day with merchants. Sewers we know come high but the embankment at several street crossings on George street is altogether too high—almost as high as the merchants' pains—to remain over Saturday. Will the street authorities take this hint? Is the convenience of contractor or public paramount?

TOOK WOOD FOR HIS STEAMER.

It Was Very Expensive For Captain Hull, of the Idle Hour.

Constable Cochrane yesterday arrested Thos. Hull, the proprietor of the steamer Idle Hour, of Stony Lake, on a charge of stealing wood for his boat from William Trude, of Lakefield.

Mr. Trude complained of losing about three cords of the wood which was piled near the wharf and as Mr. Hull had taken the wood quite openly, it was no trouble to issue a warrant for him. The matter was settled by Mr. Hull paying $16 for the three cords of wood, although his statement to the effect that he only visited the wood pile once, is generally believed and others are suspected of having helped themselves at various times.

In the case of George Hull, who has been arrested charged with being connected with the robbery of Mrs. Lovelace's trunks at the mica mines, the prisoner has been remanded until Tuesday, by County Constable Edmison. The trunks, it seems, were left on the shore for a few hours and were opened. Amongst the missing articles was a gold dollar attached to a watch chain, and this coin has been found and traced back to the prisoner. As a quantity of ladies' appare, was also taken a woman is also suspected of participating in the theft, and the county constable is doing his best to get to the bottom of the whole matter.

THROWING STONES.

The Police Should See That There is Less of It.

The small boys of the town are becoming altogether too much addicted to the promiscuous throwing of stones and in consequence numerous complaints are heard of windows which are mysteriously broken. An accident even more serious very nearly took place last evening, the consequence being attended with most unpleasant results, though not of as serious a nature as might otherwise have been expected. A lady was driving in her carriage from the north end of the town and as she turned from Smith street to come down George she was suddenly struck full in the cheek by a stone, the size of an egg. Although the injury received was very painful, yet this fact is almost lost sight of in the thought of what the consequence would have been had the stone struck the temple with as much force.

RAILWAY NOTES.

Sparks From the Wheels—Cinders for the Eye.

The results of the sight and colour test among engineers on the New York Central were a surprise to many. It is said that in Buffalo nearly everyone of the engineers failed to passed the colour examination, and will, therefore, be suspended or given positions in shops. It is related of a certain engineer, who lives in Albany, that he earned for many years a salary of $156 a month, living up to every cent of it, and two weeks ago was suspended because of colour blindness, and is now wiping engines at West Albany for $6 a week.

PERSONAL.

Miss McManus is visiting her sister, Mrs. John Curran, Port Hope.

Mrs. F. J. Taylor of Deseronto, formerly of town, is visiting friends in Peterborough.

Mrs. R. Leitch, of Marine City, Mich., is in town and will spend the next two weeks visiting friends in this vicinity.

Mr. R. Nimmo, dentist, leaves to-day for a short holiday trip, and his dental rooms will consequently be closed for a few days.

Mr. R. C. Fair, G. T. R. ticket agent at Victoria Road, formerly of Peterborough, is in town, the guest of Mr. R. F. Morrow, Dalhousie street.

Mr. J. J. Sheehy, secretary of the J. S. Hyland Publishing Company, Chicago, is in town. He will remain about a week. His numerous friends are delighted to renew old associations with a young gentleman who was at one time one of our most popular citizens.

Mr. Robert Fair and the heads of his millinery department, have just returned from attending the openings of the wholesale millinery establishments in Toronto, where they became au fait with the latest fashions in this special department, to which Mr. Fair gives so much attention.

Rev. J. H. Long, a former well-known resident of Peterborough and recently the pastor of a Unitarian church in Hamilton, is removing to Windsor. The London News says in respect of this:—"Rev. Mr. Long, of Hamilton, is going to Windsor to edit the Review, in which he has purchased an interest. The reverend gentleman is a pronounced Imperial Federationist, and when he bumps into the annexation sentiment in Windsor and vicinity, he will feel that the end of all things is near. It is somewhat difficult for an outsider to realise just what that sentiment is."

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Are we going to have an early fall?

—All fishing tackle and rods, and hammocks, selling at cost at SAILSBURY'S.

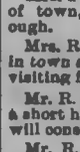
—Chief Horsey, of Kingston, has asked the police to be on the lookout for a Remington bicycle stolen from there yesterday.

—Mr. W. H. Manning will be in his office on and after Saturday, the fifth day of September next. 10d-2w

—Now the fisherman is silent,
Anglers' yarns are not worth shucks,
Sportsmen can't command attention
If they do not talk of ducks.

—The Port Hope Times says,—Mr. Moffat, of Peterborough, shipped to-day for Montreal, a car load of first class horses bought in this section.

Fruit Jar Famine.



Owing to the large crop of fruit, the stocks of fruit jars have been completely exhausted and prices wholesale have gone up $6.00 per gross. In consequence of the above we are compelled to advance the retail price, and will sell till further notice as follows: Pints, 80c.; quarts, $1; ½ gal., $1.20 per dozen. Buy quickly, as a further advance is certain.—CHINA HALL.

Nine Times Out of Ten.

A good way for farmers to test a swindling scheme is to offer a non-negotiable note. When the time for signing comes, mark out the words "or order" or "or bearer," which always follow the blank line on which is written the name of the person to whom the note is given. Make it payable to him alone. That saves you alright. If the note is given with the view of a contract which the other party offers, just write on the note ahead of your signature these words:—"The payment of this note is made conditional upon the performance of a contract for which it was given." Always remember that no matter what oral contract you have made will have nothing to do with the payment of the note unless it appears on the face of the note. You will never get an agent of any fake or swindling scheme to take a note payable to him or referring on the face to the contract he makes. It is not always a sign that a swindle is attempted when a negotiable note is demanded; but in regard to dealing with strangers it may safely be said that you will win nine times where you will lose once by refusing to deal with them or their agents at all.

PRESENTS for the Boys for the Girls

LINING UP FOR SCHOOL!

All this week the tinkle, tinkle of the school bell will summon the scholars back to their tasks, and the army of young hopefuls will once more march in procession to their lessons, fresh from their six weeks of relaxation and play.

THE PETERBOROUGH BOOKSTORE

will, as usual, be headquarters for dealing out the accoutrements of learning.

Stacks of School Books and School Supplies.

are piled up ready for the wild rush of ambitious scholars expected during the next few days.

8 TONS OF SCHOOL SUPPLIES,
—To Start With.

10,000 SCRIBBLERS
—10 Different Kinds.

CLOSE SEASON FOR GAME IN ONTARIO.

The close season for deer, elk, moose, reindeer and caribou is from 15th November to 1st November of the following year, but no moose, elk, reindeer or caribou must be hunted or killed before 25th October, 1900. No dogs must be allowed to run deer in the close season. No person must kill more than two deer in the season. Hunting or killing deer by what is known as "crusting" or while they are "yarding" is forbidden. No common carrier or other person shall transport or have in possession for that purpose any deer, or raw skin thereof, save only from 1st November to 22nd November in each year, unless accompanied by an affidavit that same was taken during the hunting season.

The close season for grouse, pheasants, prairie fowl, partridge, woodcock, snipe, rail, plover, or any other water fowl or game bird or animal, including black or grey squirrels and hares, is from 25th Dec. to 15th September in the following year. For quail or wild turkeys from 15th December to 15th October of the following year, but no wild turkeys must be killed before 15th October, 1897, and no prairie fowl or English or Mongolian pheasants before 15th September, 1897.

The close season for swans and geese is from 1st May to 15th Sept., and for ducks of all kinds from 15th Dec. to 1st Sept. following. No person shall kill more than 400 ducks during the season.

No wild fowl must be killed or shot at between half an hour after sunset and half an hour before sunrise, nor on the Lord's day.

No snipe, woodcock or partridge shall be sold or purchased before 15th Sept. 1897. No quail or wild turkey shall be sold or purchased before 15th Oct., 1897.

No beaver or otter shall be hunted, taken, killed or had in possession between 1st April and 1st Nov., nor trap set for them during that period, and no muskrat between 1st May and 1st Jan. But no beaver or otter shall be hunted, taken or killed before 1st Nov., 1897.

No person except residents of Ontario or Quebec shall be entitled to hunt without first procuring a license from the Provincial Secretary, the cost of which will be $25.

The game laws do not apply to Indians or to settlers in unorganized townships or territory not divided into townships who kill game for food.

NOTE.—For further particulars address E. Tinsley, chief game warden, Parliament buildings, Toronto.

What is it?

OXFORD

What is it?

School Opening.

No divided opinion as to the ability of the Peterborough Bookstore to serve the scholars with school books and school supplies. The newest of everthing, the best of everything, and the biggest value in everything. The boys and girls have caught on to our store with open-eyed surprise and purchase with unvaried satisfaction. Our presents given away free with every purchase knocks the spots off them all.—A. H. STRATTON & Co.

A WORLD'S FAIR MEDAL.

Mrs. Wm. Wilson, formerly cheese maker in the Apsley factory, has just received the medal and diploma awarded by the directors of the World's Fair, for coloured Cheddar cheese exhibited in the October competition of 1893. Mrs. Wilson's success as a cheese maker has been phenomenal, as with very little previous experience in the business she took charge of the factory with such success that her cheese was used to fill the best orders of the exporters, and took a higher standing at the World's Fair than that of many of the best makers in the Provinces.

The following table shows the maximum points obtainable and the points obtained by the cheese of Apsley factory:

	Max.	Obtd.
Flavour	45	43
Texture and body	30	29.5
Colour	15	15
Finish	10	9.5
Total	100	97

The success of the cheese industry in that vicinity is almost entirely due to the enterprise of Mr. Wilson, who built and equipped the factory at his own expense and operated it until established on a satisfactory basis.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 23 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

booth where they can see and taste the delicious doughnuts made from the celebrated Pure Gold Baking Powder.

MONEY TO LEND.
$20,000
TO LOAN on First-class Town or Village Property at low rates of interest and on easy terms. Apply to
J. R. STRATTON
"Examiner" Office

Daily Examiner.
FRIDAY, SEPTEMBER 4, 1896.

LOCAL NEWS.

22 lbs. Granulated for $1.00.

We have received a sugar which we consider equal to standard granulated and are selling it at 22 pounds for $1.00. For preserving this sugar is equal to any other. MASON & Co., 429 to 431 George street. 2d

Telfordian Temperature Topics.

Friday, Sept. 4.—At this morning's observation the self-registering thermometer was down to only 36 degrees above zero with a sharp white frost and considerable crust on low land; garden stuff will suffer.—THOS. TELFORD.

Pretty Fixtures.

Mr. E. Rutherford has imported four of prettiest combination electric light and gas fixtures yet seen in town. They are for Mr. R. Neill's residence on Simcoe street, where they will shortly be placed in position. They will be lighted on exhibition at Mr. Rutherford's office, Brock street, this evening.

Complimentary Band Concert.

Next Tuesday night the Fire Brigade band concert takes place, and a notable feature of the programme will be an euphonium solo by Mr. L. M. Maxson, late bandmaster of the 22nd regiment of United States infantry, who is spending a few days in town en route to Watertown, N.Y., where he takes charge of a regimental band. Mr. Maxson is a splendid musician and his playing on Tuesday night will be a decided musical treat.

An Infant in an Incubator.

The only grand-daughter of Phil Armour, the millionaire meat packer, is fighting for life in an incubator. The infant was born last Tuesday to Mr. and Mrs. J. Ogden Armour. It was delicate that the doctors decided the only way to prolong its life was to confide it to an artificial nurse. Phil's other grand-children were boys, and they are heirs of $500,00 each. Should the little girl live she may have her dot doubled.

Football Excursion.

The Norwood Football Club will run an excursion on the City of Peterborough, on Monday, Labour Day, Sept. 7th, to Jubilee Point, to play the Gore's Landing Club for a silver cup. Good music for dancing on the boat and at the hall. Return tickets to Victoria Park 25c, to Jubilee 40c, to Gore's Landing and Harwood 50c; children half price. The steamer will leave the C.P.R. wharf at 8 a.m., calling at Ashburnham. Returning will leave Harwood at 2 p.m., Gores Landing, 2 30 p.m., Jubilee 4.30 p.m. T. Wigmore, Secretary Norwood Football Club.

Harvest Excursions.

In order to give everyone an opportunity to see the grand crops in the Western States and enable the intending settler to secure a home, the Chicago, Milwaukee & St. Paul R'y has arranged to run a series of harvest excursions to South and North Dakota and to other States in the West, Northwest and Southwest on the following dates:—August 4 and 18, September 1, 15 and 29 and October 6 and 20, at the low rate of two dollars more than one fare for the round trip. Tickets will be good for return on any Tuesday or Friday within twenty-one days from date of sale. For rates, time of trains and further details apply to any coupon ticket agent in the East or South, or address A. J. Taylor, Canadian Passenger Agent, 2 King street E., Toronto, Ont. law

Resigned.

Rev. S. Macdonald, says the Minden Echo, who has been in charge of the Presbyterian mission here during the past few years, announced to his congregation on Sunday last that he had tendered his resignation to the Presbytery, to take effect the last of September. Mr. Macdonald has been an earnest worker in the Master's cause in this mission, and his loss will be deeply regretted; but the field is too large and the travelling too toilsome for a man advanced in years. His charge included Haliburton village, Allsaw, Twelve Mile Lake and Minden congregations, which is too extensive a field for any one man to undertake and do justice either to himself or the people he serves. The distances are too great to keep in constant touch with the people he ministers to, and systematic visitation over such an immense field is a most laborious work taken in connection with the other duties devolving upon him. We do not wonder that Mr. Macdonald has become discouraged by the herculean task imposed upon him under such circumstances.

Importing Tailors and Outfitters.

Y.P.S.C.E. NOTES.

Paragraphs of Local Interest to Endeavourers Supplied by the County Union.

WORLD'S CHRISTIAN ENDEAVOUR PRAYER CHAIN.

"For the Christian Sabbaths," pray that the Christian Sabbath may be preserved to those who come after us as a day of rest and worship and spiritual refinement.

A little lesson in the school of prayer. The Sabbath of our fathers, the Sabbath of our God is in danger. Everywhere the forces of darkness are combining against it to level it down to the plane of other days. They know full well that to overthrow the Sabbath is to overthrow much of the power of Christianity. So a thousand cunning devices have been arranged against God's holy day. Most dangerous of all, this divinely appointed institution is being assailed, perhaps unconsciously, by some who bear Christ's name. The laxity of Christians concerning the Sabbath is most alarming. A score of Sunday practices that a generation ago would have abhorred, are now in common use among many followers of our Lord. How can this distressing state of affairs be remedied? A noble army of Christian reformers have set themselves to the the task of rescuing the Sabbath, but they alone cannot do it. No, there must be more than human power. He who made the Sabbath must preserve it. Christians will accomplish much by their labours, but more by their prayers. Throughout this month let yearning petitions rise to the Heavenly Father in behalf of our imperilled rest-day. Cease not to cry out to Him day and night for this boon. May the great importance of the object weight all our supplications. Let us bind up the broken Sabbath with a chain of prayers."—The Golden Rule.

SALEM SOCIETY.

We have been lately assuming rather a backward position in regard to reports of our little society here, but we are still alive and likely to be according to present prospects. Now that the harvest is settled, and our members generally have the privilege of a breathing spell again, we feel sure that our meetings will be better; —better every way, now that our new president has returned from her holidays and assumed her position as head of our Society. Although our meetings have not lost much of their interest during the summer, yet there is room for improvement. I would like to ask, Why is it so few young men attend the Christian Endeavour meetings, not only in the country but also in the towns? We think there is ample room for young men of every class and standing in society to show forth their powers for good in the meetings of the Endeavour Society. God will hold every man responsible for how he spends his time and talents. At Salem there is a marked improvement amongst our young people since our Endeavour has been organized. With God's help we are looking forward for greater and grander things to come in the line of advancement spiritually.

WASHINGTON ECHO MEETINGS.

The dates arranged for these meetings are as follows,—Springville, Sept. 2nd; Salem, Sept. 8th; Lakefield, Sept. 11th; The convention music will be used at the rallies. Bring your note books and gather pointers on committee work. These gatherings are open to all. Endeavour to get outsiders to attend, so that they may learn more about Christian Endeavour.

BOOM IN THE TRANSVAAL.

The recent disturbances in the Transvaal, as far at least as they affected the industrial development of the country, have run their course. The condemnation of Jameson and his comrades has practically settled the political agitation also, and the country is again on the road towards prosperity. "The indications of the moment," says Bradstreets', "are in fact that the gold output of South Africa and of the Witwatersrand district of the Transvaal in particular, will reach proportions hitherto unparalleled. As a result of the better political relations between the Boers and Uitlanders there have been some important modifications under which the mines of the Rand worked. The rates upon the railways which supply the Johannesburg district with fuel and timber have been reduced, an intelligent educational bill has been passed affording instruction to the children of the foreign population in English, and it is now proposed to give the town of Johannesburg a municipal council, which would remove one of the most legitimate causes of discontent on the part of the Uitlanders. Moreover, the labour situation has been greatly ameliorated both by legislation and natural causes.

"Under these circumstances it is worthy of note that an increase in the output has already declared itself. In the month of July the Rand mines made a new record. Their aggregate output for the month reached the enormous total of 203,873 ounces of gold, which exceeds by 300 ounces the largest previous monthly return made in August, 1895, when the aggregate was 203,500 ounces. As compared with June the increase for July was over 10,000 ounces, and in contrast with July, 1895, the gain is no less than 4,400 ounces."

A foul breath is one of the greatest afflictions that a man or women can have. An affliction not only to themselves, but to those with whom they come in contact. A foul breath is a great discouragor of affection. It would probably be more so if people only realised just what bad breath means. Bad breath is one of the symptoms of constipation. Some of the other symptoms are sour stomach, loss of appetite, sick and bilious headache, dizziness, heartburn and distress after eating. These things mean indigestion. They all start with constipation, and constipation is inexcusable because it can be cured—cured easily, quickly and permanently by the use of Dr. Pierce's pleasant Pellets. They give to nature just the little help that she needs. There is no case of biliousness, constipation, indigestion, "heartburn," or any of the rest of the night-mare breeding brood, that these little "pellets" will not cure.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser" illustrated.

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

LACROSSE.

The secretary of the Peterborough's received word to day that they would be expected to play off their tie game with Port Hope on Monday next in Campbellford. As the boys will get a fair show there they are well satisfied with the decision and arrangements are being made to run a big excursion to that point. If possible a special train should be procured, leaving here at about noon.

It is to be hoped that a capable referee with plenty of firmness will be chosen to keep unruly players in order.

The Port Hope Guide in regard to the matter says,—"The President of the C. L. A. has ordered that the final between the Ontarios, of Port Hope, and Peterboroughs to be played on Monday, and left the place of combat to be decided between the two clubs. This was to be done by to-day, but as the Ontarios could not make an agreement with Peterborough team, the President will decide. The place will likely be Cobourg or Toronto, while even St. Catharines is talked of. Campbellford was suggested by the northern club but that is calculated to be an unhealthy place for the Ontarios, being too easily visited by Peterborough's admirers. Ottawa was suggested to Peterborough, but at this they got upon their ear and would play anywhere outside of Cobourg and the place where they met such a settler on August 21st."

Yet it is dollars to doughnuts that after all their talk the Port Hope team will not show up at Campbellford at all.

THE TURF.

New York, Sept. 2.—In the presence of 8,000 spectators at Fleetwood Park to-day Wm. Simpson's pacing stallion, John R. Gentry, defeated Robert J., Frank Agan, and Star Pointer, in the fastest harness race on record, the gallant little son of Ashland Wilkes stepping the first heat in 2.03¼, the second heat in 2.03¼, and the third in 2.03½. All of the finishes were very close and exciting, and the contest was from every point of view a great one, surpassing in interest and importance any harness race of the present campaign.

John R. Gentry is owned in New York, and his victory was as popular as it was unexpected. Had the public foreseen the brilliant race which took place probably 20,000 persons instead of 8,000 would have witnessed the contest, but Robert J. has beaten his rival so often of late, and he was known to be in such splendid form just at present that everybody, including the keenest circuit followers, expected him to win the champion nurse at Fleetwood. The odds were 10 to 3 on his chances before the first heat and so confident were his backers that he would win that the record holder remained a favourite until the end, starting at even money against the field in the final heat.

Marvellous is the only word which describes the performance of John R Gentry. The day was too chilly to favour fast time, and a stiff wind retarded the horses in the home stretch. Fleetwood, never a fast track, was in good condition, although not quite at its best, the soil giving way in places under the flying feet of the pacers. It was a rousing killing struggle for the wire in the last heat, and the three great pacers were necks apart at the finish, but little Gentry's nose was there first in 2.03¼, and the greatest harness race on record was his.

BASEBALL.

Cincinnati has been distanced in the race for the National League pennant by Baltimore, and only leads Cleveland by a narrow margin. Chicago has fourth place cinched. Boston and Pittsburg are very close together in fifth and sixth places.

What is it?
OXFORD
What is it?

People's Coal Company.
Why are so many people leaving their order with the People's Coal Co., Ltd.? Because it is the cheapest and purest hard coal in town, being free from iron, sulphur and slate. We will deliver in bags and weigh on market scales. Contrary to reports we have no connection with any other town company and our coal can only be bought through us. Do not be carried away by talk from interested parties, but try a bag for yourself. No charge unless satisfactory. We also handle Butts' Cannel, a very superior coal for grates. Office, 230 Charlotte street; Tel. 366; 1st door east of Aylmer street.

THE COUNTERSIGN WAS "MARY."

'Twas near the break of day, but still
The moon was shining brightly;
The west wind as it passed the flowers
Set each one swaying lightly;
The sentry slow passed to and fro,
A faithful night-watch keeping;
While in the tents behind him stretched
His comrades—all were sleeping.

Slow to and fro the sentry paced,
His musket on his shoulder.
But not a thought of death or war
Was with the brave young soldier.
Ah, no! his heart was far away,
Where on the western prairie,
Across twined cottage stood. That night
The countersign was "Mary."

And there his own true love he saw,
Her blue eyes kindly beaming.
Above them, on the sun-kissed brow,
Her curls like sunshine gleaming.
And heard her singing as she churned
The butter in the dairy.
The song he loved the best. That night
The countersign was "Mary."

"Oh, for one kiss from her!" he sighed,
When up the lone road glancing,
He spied a form, a little form,
With faltering steps advancing.
And as it neared him silently
He gazed at it in wonder;
Then dropped his musket to his hand,
And challenged, "Who goes yonder?"

Still on it came. "Not one step more,
Be you man, child or fairy,
Unless you give the countersign.
Halt! Who goes there?" "'Tis Mary,"
A sweet voice cried, and in his arms
The girl he'd left behind him
Half fainting fell. O'er many miles
She bravely toiled to find him.

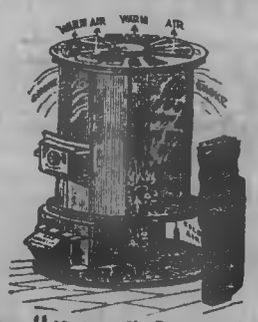
"I heard that you were wounded, dear,"
She sobbed, "my heart was breaking;
I could not stay a moment, but
All other ties forsaking,
I travelled, by my grief made strong,
Kind heaven watching o'er me,
Until—unhurt and well?" "Yes love,"
—"At last you stood before me.

"They told me that I could not pass
The lines to see my lover
Before day fairly came, but I
Pressed on 'ere night was over,
And as I told my name, I found
The way free as our prairie."
"Because, thank God! to-night," he said,
"The countersign is Mary."

Fitzgerald's Coal and Wood.

Dry shingle wood at reduced prices to clear out at once. Firstclass hard wood charcoal on hand; best hard and soft coal, Lehigh, Scranton and Plymouth and Briar Hill soft coal.

The Most Economical ..House Warmer



The "Kelsey" Corrugated Warm Air Generator.

Any ordinary Hot Air Furnace will produce heat if you will only supply enough fuel. The "Kelsey" has several special and valuable features but most important is that it will give more heat with less fuel and is the most durable heater made.

The "Kelsey" fire pot being constructed of several upright, tubular, corrugated, cast iron sections (see cut) around which the fire passes and up through which the cold air passes while being heated, and this entire section being wrapped with a heavy steel casing which becomes heated by the fire striking it when passing down outside of upright sections towards smoke pipe, it in turn warms the air that passes up between this steel casing and the galvanized iron casing, this explains why the "Kelsey" has three times more radiating surface and warm air capacity than an ordinary Furnace. The "Kelsey" heats every room evenly, wherescever located, with a nice, mild, healthful warm air that will not injure your furniture.

The "Kelsey" will heat rooms 60 feet distant.

The "Kelsey" does not heat your cellar.

The "Kelsey" is absolutely gas and dust proof.

PULLMAN HOUSE
Frank Fairen, PROPRIETOR. 38 George Street Peterborough.
Fresh air and exercise are all right, Boys, but you want a little something occasionally for the stomach's sake. You can always count on getting it good at the Pullman. But be temperate, Boys, and let your motto be "moderation."

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances; just the same as a man might suffer for the same reasons. Nine cases in ten, however, her headaches come from disorders peculiar to her sex. Possibly the apparent cause of the headache will be nervousness or indigestion, while the cause of these is not thought of. The organs distinctly feminine are more vital than any other organs in a woman's body. Any trouble of those affects the whole body. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times, women have been treated for the disorders thought to be indicated by these symptoms, when the real trouble was much deeper and more serious. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving womankind of the ills and pains very commonly considered the uncomfortable inheritance of her sex. It cures where really good physicians have failed. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success. The afflicted woman will find immediate relief and ultimate cure in the "Favorite Prescription." There is no doubt about it—there is no question about it. The woman who hesitates is invited to send 31 one-cent stamps for customs and cost of mailing a copy of Dr. Pierce's Common Sense Medical Adviser. This celebrated work contains full information about Dr. Pierce's medicines, with the reproduced photographs of hundreds of people who have been cured by these world-famed remedies, also giving their names and addresses, besides plain, clear information about all of the organs of the human body and their functions. It has reached the unprecedented sale of 680,000 copies at $1.50 a copy. Thus the expense of preparation has been defrayed, and now 300,000 copies will be absolutely given away. Remember that this book is not a mere advertising pamphlet, but a genuine standard work of 1008 large pages, over 300 illustrations, some of them in colors. Address, World's Dispensary Medical Association, Buffalo, N.Y.

THE GLOBE-TROTTING RECORD.

It Will Be Done in Three Weeks, One Hundred Years Hence.

One of the most popular spectacular pieces on the European stage has been for many years the dramatization of Jules Verne's "Trip Around the World in Eighty Days." Theatrical managers should, however, look around for a new piece of the kind, since the fancied 80-days record of Mr. Fogg has in practice been repeatedly smashed, once or twice even by women. Soon it will be possible to do the trip in one-half that time, or less, and then the old spectacular play, with its several thousand performances, will only deserve interest from the standpoint of antiquity. As soon as the Trans-Siberian Railroad will be completed it will be possible to travel around the globe in about 40 days, and that at an expense of only $550, or thereabouts. The voyage by rail from Hamburg via St. Petersburg and over the Trans-Siberian Railway to Port Arthur will take about 12 days. The steamers of the new Russian-American Steamship Company will forward passengers arriving by the Trans-Siberian Railway to San Francisco in seven days. The trip from San Francisco to London has frequently been made in 12 days or less, and 24 hours are certainly enough for the short trip from London to Hamburg. Furthermore, one astronomic day will be saved by traveling from west to east. This would leave a week for stops at interesting points. If the means of transportation and the increase in the speed of trains and steamers will show as much progress in the next half-century as in the one just passed, the voyage around the globe in 1940 should be a matter of 20 days, or at most three weeks.

Deadening the Circular Saw's Noise.

The circular saw frame should be fixed on a brick or stone bed and the shaft or bearings kept clear of the wall, so that the sound is not carried by contact into the wall. If the wall is not built we recommend a hollow wall with iron ties, and the space filled with sawdust, no opening of any kind being made. If the wall is built, and of single brick, line it with another single brick wall, inserting sawdust between or a layer of hair felt. If the wall is of wood quartering, lath and plaster it on both sides, and fill in between with sawdust, or coat over the studding with hair felt, and lath and plaster over the face of it. In fixing the quartering, if attached to wood at the top or bottom, bed the fixing points or parts in hair felt. Sound will travel with air; therefore cut off all connection of air. Sound will travel through glass, wood, or stone, except it be of great thickness; therefore intercept it by sawdust or hair felt, which are non-conductors. If you have a circular saw on one side of a wall, and you want a point of silence on the other, you must stop all direct communication, and cause the sound-laden air to travel in long and circuitous routes, and give out its vibrations before it reaches that point.

When Adam Was a Boy.

This was years ago, for Adam has been dead quite awhile, though to be sure he has left a progeny that keeps up pretty well the family characteristics. There are wise men to-day who delve into the misty past and tell us all sorts of things, but they are silent on those events that would make Adam interesting to the modern man. What did Adam do when he ran a sliver under his finger nail? Had he to take measles and whooping cough? If he had corns did he cut them with a razor or did he stretch forth a hand in the future and get a bottle of Putnam's Painless Corn Extractor? Putnam's is the best, is sure, safe, painless, and acts in twenty-four hours.

The Dinner Bell.

The dinner bell has no charms for a dyspeptic or bilious person. To enjoy your food, avoid dyspepsia and have healthy action of the liver, use Laxa-Liver Pills, small, sure, never gripe. One pill after a too-hearty meal removes all ill-effects. They cure indigestion and give good appetite.

Children Cry for Pitcher's Castoria.

MR. CHAMBERLAIN

Grants an Interview to New York Newspaper Men, But is Wary and Diplomatic in His Utterances.

New York, Sept. 2.—The Right Hon. Joseph Chamberlain, the British Colonial Secretary, arrived in this city this morning on the steamship Teutonic, which left Liverpool on Aug. 16. When asked whether his visit had any political significance Mr. Chamberlain screwed his gold-rimmed monocle further into his eye, smiled all over his face and said: "Now, really you must excuse me. You see I am simply over on a vacation. I expect to stay in New York but a few hours, intending to go on to my wife's home near Boston as soon as possible. Once there I hope to take a good rest and enjoy my outing. No, I hardly expect to see Mr. Olney during my stay in the United States. I have made no engagements with him, and do not even know in what part of the country he is spending the summer."

"You may be sure, though, that the Venezuelan question will cause no more trouble between England and the United States. The question will be settled in a manner satisfactory to both countries. The Venezuela matter is not in my department," continued Mr. Chamberlain, "though of course I am interested, as British Guiana is a British colony. The impression among the American people that I and not Lord Salisbury is managing the negotiations with the United States is pure invention. Lord Salisbury is in charge. It rests entirely with him. I trust the Venezuelan matter will be amicably adjusted. Of course the action of the commission formed by the United States Government is not and cannot be binding. As Mr. Cleveland himself says, the findings of the American commission are not binding; but we should look for their report with as much interest as you in the States and hope that it will show such a bright light on the whole matter of dispute that the affair can be readily and easily adjusted to the satisfaction of both sides."

Commenting on the cable news, he said: "I see the Germans have recognized a protectorate in Zanzibar and that thy are protecting the uprising Sultan. Well, I do not think we care much for him."

"How about the convention of representatives of the Irish which is now in progress in Dublin?" "That is Dillon's convention. It is not Healy's. Without Healy the Irish party would be similar to Hamlet without the Prine. The convention is simply Dillon's conceit. Healy and Redmond are accepted as the better quality of the Irishman by Irishmen."

Of the silver question he said: "You seem to be somewhat agitated over the question of free silver. Speaking as an English observer of Englishmen I believe we are, as a nation, monometallists. We are in favor of a gold standard though, and fear America would make an error should she adopt silver. The baser metal is almost certain to drive out gold. Englishmen believe, however, that an agreement between nations might solve the problem of silver."

The South African question and the common school bill were spoken of interestingly by the Secretary. Of the first he said: "In reference to the South African Republic, the sending of a diplomatic agent, instead of a regular representative, was only because the question demanded diplomatic agency. England has great interests in South Africa and what she does must be diplomatic. The situation warranted the sending of such a man."

Asked if he intended to retire from the Colonial Ministry, a report of which has been cabled here, he said: "Not a word of truth in it. You say it has been cabled. Who cabled this alleged information?"

"The newspaper correspondents in London," was the answer.

"Then perhaps the news, as they choose to call it, came from the Tory newspapers. I know nothing of it."

Of the six bills the Queen sent to the House of Commons he said that the common school bill is considered by the Government to be a defeat. The Queen sends a great many bills which are defeated, he said, and this in the natural course of events was one. Mr. Chamberlain declined to speak of English politics or to discuss foreign diplomatic relations except in a general way.

A PREACHER ROBBED.

Rev. Arthur Duckworth Lost Some Big Bank Notes on Board Ship.

Montreal, Que., Sept. 2.—(Special.)—The public are warned against receiving or the negotiation of a letter of credit issued by the London and Westminster Bank for £22, also 30 circular notes of £10 each in favor of Rev. Arthur Duckworth, the same being stolen from his luggage on the way from Liverpool to Montreal.

Shiloh's Cure, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25c. Children love it. Sold by John Nugent, 359 George Street.

AN AWFUL EXPLOSION.

Four White Men and Eight Chinamen Blown to Atoms at the Drying House of the California Powder Co.

San Francisco, Sept. 2.—By an explosion in the drying house of the California Powder Company at Hercules Station yesterday, four white men and eight Chinamen were blown to atoms. Fifteen Chinamen were more or less seriously injured and it is believed that some of them will die. The loss to the company will reach $200,000.

Army of English Speakers.

English is spoken by 45,000,000 persons in the British Isles, by probably 57,000,000 of the 60,000,000 inhabitants of the United States, by 4,000,000 persons in Canada, by 3,000,000 in Australia, by 3,700,000 West Indians and by 1,000,000 in India and other British colonies, bringing the total of the English-speaking race to over 100,000,000.

A hacking cough keeps the bronchial tubes in a constant state of irritation, which, if not speedily removed, may lead to chronic bronchitis. No prompter remedy can be found than Ayer's Cherry Pectoral. Its effect is immediate and the result permanent.

For cholera morbus, cholera infantum, cramps, colic, diarrhœa, dysentery, and summer complaint, Dr. Fowler's Extract of Wild Strawberry is a prompt, safe and sure cure that has been a popular favorite for nearly 500 years.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

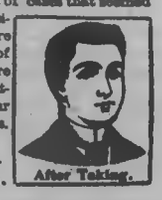
Wood's Phosphodine.—*The Great English Remedy.*

Is the result of over 35 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of *Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants*, all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering over the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness.



Price, one package, $1; six packages, $5; by mail free of postage.

One will please, six guaranteed to cure. Pamphlet free to any address.

The Wood Company, Windsor, Ont., Canada.

Wood's Phosphodine is sold by responsible wholesale and retail druggists in the Dominion.

"Going to Insure."

THE Man who is simply "going to insure" is usually no better than the man who has'nt made the decision. In fact he is usually worse, because he has considered the subject and been convinced of his duty, but has not done it. "Nothing is done so long as anything remains undone." On application to either of the undermentioned gentlemen, full particulars will be furnished in regard to the Unconditional Accumulative Policy issued by the

Confederation Life Association,

NOT A SICK DAY

For Over Thirty Years!

RESULT OF USING

AYER'S PILLS

"Ayer's Cathartic Pills for over thirty years have kept me in good health, never having had a sick day in all that time. Before I was twenty I suffered almost continually—as a result of constipation—from dyspepsia, headaches, neuralgia, or boils and other eruptive diseases. When I became convinced

that nine-tenths of my troubles were caused by constipation, I began the use of Ayer's Pills, with the most satisfactory results, never having a single attack that did not readily yield to this remedy. My wife, who had been an invalid for years, also began to use Ayer's Pills, and her health was quickly restored. With my children I had noticed that nearly all their ailments were preceded by constipation, and I soon had the pleasure of knowing that with children as with parents, Ayer's Pills, if taken in season, avert all danger of sickness."—H. WETTSTEIN, Byron, Ill.

AYER'S PILLS

Highest Honors at World's Fair.

Ayer's Sarsaparilla Strengthens the System.

NOTHING LIKE UNTO IT.

Borax Is Pre-eminently a Valuable Household Remedy.

No one article within our reach possesses the virtues of borax for general purposes in the household.

Chemically speaking borax is a salt, and in appearance closely resembles table salt. It also has similar preservative qualities, and is equally harmless in its effects on the system. It differs, however, from common salt in being a biborate of sodium instead of a chloride.

Borax is produced by that wonderful process of nature crystallization, and in appearance is white and translucent.

As a simple domestic remedy for the many ailments of the household borax is unrivaled. If the eyes, from exposureto the light, cold or other causes are weak or inflamed, a daily washing with a mild solution of borax will strengthen and cool them. For sore throat and hoarseness, a small quantity of powdered, dissolved in the mouth and swallowed is effective.

A cold in the head can be relieved by snuffing powdered borax freely, and the same treatment will be found excellent for catarrah in the head.

Acidity of the stomach can be corrected by taking a small pinch of borax several times a day.

Borax applied to canker spots inside the tongue, or used as a wash for a sore mouth will effect a speedy cure. The bites of insects, as well as summer rashes will cease to give pain if bathed in a solution of borax, which is quite as efficacious in curing burns, scalds and other hurts of the family.

For a wound, borax is nature's best remedy, being antiseptic, disinfectant, emollient and safe to use in every way.

Corns and bunions may be cured by wetting frequently with a strong solution of borax, and tender feet relieved from itching and burning by the same application. Being cleanly, cooling and sedative in its effects, borax may be relied upon as useful in almost every ill of the household, and should always be kept on hand for emergencies.—Eliza E. Parker, in San Francisco Call.

Are You Tired

All the time? This condition is a sure indication that your blood is not rich and nourishing as it ought to be and as it may be if you will take a few bottles of the great blood purifier, Hood's Sarsaparilla. Thousands write that Hood's Sarsaparilla has cured them of that tired feeling by giving them rich, red blood.

Hood's Pills act easily and promptly on the liver and bowels. Cure sick headache.

A Boon to Humanity.

Wherever there are sickly people with weak hearts and deranged nerves, Milburn's Heart and Nerve Pills will be found an effectual medicine. They restore enfeebled, enervated, exhausted, devitalised or overworked men and women to perfect constitutional power. Weak and pale girls and women soon regain vigorous health.

Captain Sweeney, U. S. A., San Diego, Cal. says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50c. Sold by John Nugent, 359 George Street.

AN OPEN SECRET.

It is for women to know that for all their ailments and disorders INDIAN WOMAN'S BALM is pre-eminently the remedy. Tired women, weak women, sick women—it cures them all. Never known to fail. Price $1.00.

The Latest Humor.

WHAT TO WEAR ON YOUR WEDDING DAY.

(By a Confirmed and Cantankerous Celibate.)

Married in white,
You have hooked him all right.
Married in gray,
He will never get away.
Married in black,
He will wish himself back.
Married in red,
He will wish himself dead.
Married in green,
His true color is seen.
Married in blue,
He will look it, not you.
Married in pearl,
He the distaff will twirl.
Married in yellow,
Poor fellow! Poor fellow!
Married in brown,
Down, down, derry down.
Married in pink,
To a slave he will sink.
Married in crimson,
He'll dangle your whims on.
Married in buff,
He will soon have enough.
Married in scarlet,
Poor victimized varlet.
Married in violet, purple or puce,
It doesn't much matter, they all mean—the deuce. —Punch.

Collector—This account must be settled, Mr. Shorts. It has been running a long time."

"Well, let it stand a while."—Truth.

After the spanking—Mother—It hurts mother more than it does you, my son.

Willie—Why don't you holler, then? —New York World.

Fat visitor—Charming suburb, my boy—charming; but, I say, do you always walk to the station?

"Oh, no, indeed; very often, I run."—Life.

He—Darling, we'll have a lot to contend with when we are married.

She—Yes, dear; we'll have each other.—London Judy.

"Let's see," said the teacher. "Your name is Peter Marmaduke Jones?"

"Yessum," said Peter. "But that ain't my fault. Poppy and mommy did it."—Harper's Bazar.

"Strange about that burglar getting arrested while dressed as a woman."

"Nothing queer about that; he couldn't find his pistol pocket."—Chicago Record.

"It is simply astonishing the way the bicycle is displacing the horse."

"It is, indeed! Yesterday I found a piece of rubber tire in my sausage." —Cincinnati Enquirer.

Helen—What makes you think Eve rode a bicycle in the garden of Eden?

Larkins—Merely inference. The Bible says she was the first woman to fall. —Town Topics.

He—I'm sure I don't know what to say to him.

She—Just say, "Mr. Smith, I want to marry your daughter." Papa will say the rest.—Pick-Me-Up.

Editor (to aspiring writer)—You should write so that the most ignorant can understand what you mean.

Aspirant—Well, what part of my paragraph don't you understand.—London Tit-Bits.

"Is it hard to learn to write shorthand?"

"No. Anybody can write it, all you have to do is to go to work and learn to read what you have written."—Chicago Tribune.

"I think all children should learn early to say 'No.'"

"Yes, boys should, of course; but the girls there are times when they should be prepared to say 'Yes.'"—Chicago Record.

Not over twenty years ago some teacher told McKinley to be a good little boy, and he would be President some day, and the teacher knew then he was lying.—Wichita (Kans.) Eagle.

Doctor—You are suffering from a complication of diseases, my dear sir—at least six.

Humorous Invalid—How much discount do you give me on half a dozen, doctor?—London Tit-Bits.

Teacher—Who was the wisest man?

Tommy—Noah.

Teacher—Noah?

Tommy—Yes'm. He was the only man who knew enough to come in when it rained.—Indianapolis Journal.

"So Jessie Westside married him at last."

"Yes; he promised her a wheel if she would, you know."

"So she took him for wheel or woe." —Buffalo Times.

Tommy—Pop, what's a critic?

Tommy's Pop—A critic, my boy, is a man who gets paid for telling other people how they ought to do things that he couldn't possibly do himself. —Philadelphia Record.

A man who stuttered badly went to consult a specialist about his affliction. The expert asked: "Do you stutter all the time?"

"N-n-n-no," replied the sufferer; "I s-s-stut-t-ter only when I t-t-t-talk." —Harper's Bazar.

Mrs. Blinkers—Well, did you go to the doctor to see about that sting on little Jimmy?

Mr. Blinkers—Yes. He said we should put mud on it. He charged me $2 for the prescription, but he gave me the mud for nothing.—New York Weekly.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers, that if written to confidentially will mail, in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor after years of suffering from nervous debility, sexual weakness, night losses and weak, shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P. O. Box 288, London, Ont.

Children Cry for Pitcher's Castoria.

To Prevent Tarnish on Brass.

An excellent tarnish preventive for brass bedsteads and other articles is made as follows: Take a quarter of an ounce of shellac and a quarter of a pint of methylated spirits, place these ingredients in a glass bottle and cork. Shake the bottle well, and keep it in a warm place for a few days. Pour off the clear fluid and apply it to the brass with a camel's hair brush. The brass should be well cleaned, polished, and also, if possible, heated before the varnish is applied.

A Great Blast.

Probably one of the largest blasting operations ever performed in a quary was carried out recently at Dinorwic quarry, in Wales. Three and a half tons of Nobel's gelatine dynamite were exploded at once. It took two days and nights to put the explosive in place, and when it was fired some thousands of tons of hard granite were displaced.

Cold in the Head.

And Headache cured in 5 minutes. Catarrh cured in a week by using Dr. Hunt's Magic Snuff. 25 cents a box. For sale by J. D. Tully and H. S. McDonald and all druggists.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says: "After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

Burdock Pills, small, safe and sure, regulate the liver and cure constipation.

DODD'S KIDNEY PILLS ALWAYS CURE

AFTER TEN YEARS SUFFERING

Two Box Cure

MILVERTON, 28TH JULY, 1895.

Gentlemen,—For the last ten years I had been troubled with kidney disease, being so bad at intervals that I could not lie in bed at night nor stoop to the ground.

I had tried all the remedies I could find without effect, but heard of Dodd's Kidney Pills and procured a box.

I am most happy to say it for my own sake as well as for others that I am perfectly cured after using four boxes.

W. C. MUDGE.

THEY COUNT BY THE SCORE

Yea, By the Hundreds, Those Who Have Been Cured of Dire Disease By South American Nervine.

A Remedy Widespread and Universal in Its Application.

Where Other Medicines Have Failed and Doctors Have Pronounced the Cases Beyond Cure, This Great Discovery Has Proven a Genuine Elixir of Life.

The Same Verdict Comes From Old and Young, Male and Female, Rich and Poor, and From All Corners of the Dominion.

If it is the case that he who makes two blades of grass grow where only one had grown before is a benefactor of the race, what is the position to be accorded that man who by his knowledge of the laws of life and health gives energy and strength where languor, weakness and anticipation of an early death had before prevailed? Is not he also a public benefactor? Let those who have been down and are now up through the use of South American Nervine give their opinions on this subject. John Boyer, banker, of Kincardine, Ont., had made himself a hopeless invalid through years of overwork. At least he felt his case was hopeless, for the best physicians had failed to do him good. He tried Nervine, and these are his words: "I gladly say it: Nervine cured me and I am to-day as strong and well as ever." Samuel Rice, of Meaford, was cured of neuralgia of the stomach and bowels by three bottles of this medicine. Jas. Sherwood, of Windsor, at 70 years of age, suffered from an attack of paralysis. His life, at that age, was despaired of. But four bottles of Nervine gave him back his natural strength. A victim of indigestion, W. F. Bolger, of Renfrew, says: "Nervine cured me of my suffering, which seemed incurable, and had baffled all former methods and efforts." Peter Eason, of Paisley, lost flesh and rarely had a good night's sleep, because of stomach trouble. He says: "Nervine stopped the agonizing pains in my stomach the first day I used it. I have now taken two bottles and I feel entirely relieved and can sleep like a top." A representative farmer, of Western Ontario, is Mr. C. J. Curtis, residing near Windsor. His health was seemingly completely destroyed through la grippe. No medicine did him any good. "To three bottles of Nervine," he says, "I attribute my restoration to health and strength." Neither man or woman can enjoy life when troubled with liver complaint. This was the sentiment and feeling of W. J. Hill, the well-known bailiff of Bracebridge. "I was so bad," says he, "that one of my medical attendants said that I was dying, but, thank God, I am not dead yet. From the first few doses I took of Nervine I commenced to feel better, and am to-day restored completely to my usual health." A resident of the Maritime Provinces, in the person of S. Jones, of Sussex, N.B., says: "For twelve years I was a martyr to indigestion, constipation and headache. The treatment of several physicians did not help me. I have taken a few bottles of Nervine, and can truthfully say that I am a new man."

A shrewd observer of human nature has said: "The hand that rocks the cradle moves the world." How important it is, then, that health and strength should be made the lot of the mothers of this country. The women of Canada are ready by scores to tell of the benefits that have come to them through the use of South American Nervine. Mrs. R. Armstrong, of Orillia, wife of the colporteur of the Bible Society of that town, suffered for six years from nervous prostration. Medical assistance did not help. "In all," she says, "I have taken six bottles of Nervine, and can truthfully say this is the one medicine that has effected a cure in my case." Mrs. John Dinwoody has been for 40 years a resident of Flesherton, and has reached the allotted three-score years and ten. Three years ago her system sustained a severe shock through the death of a daughter. Nervine was recommended. She perseveringly took 12 bottles of medicine, with the result that she is to-day again strong and hearty. Hundreds of women suffer from impoverished blood and weakened nerves. "All vitality," says Mrs. J. Fallis, of Brampton, "seemed to have forsaken my system. I was unable to get relief from any source until I commenced taking South American Nervine. The results are most satisfactory—greater far than I could have hoped for." It came within the way of Mrs. H. Stapleton, of Wingham, to treat under the best physicians, both in Canada and England, for heart disease and nervous debility, but she failed to get any relief. "I was advised," she says, "to take South American Nervine, and must say I do believe that if I had not done so I would not be alive to-day."

Newspaper space is too valuable to permit of further additions to these earnest words of testimony from those who know just what they are talking about. In the common language of the day, they have been there, and are speaking from the heart. The dozen or more witnesses that here speak have their counterparts by the hundreds, not only in the province of Ontario, but in every other section of the Dominion. South American Nervine is based on a scientific principle that makes a cure a certainty, no matter how desperate the case may be. It strikes at the nerve centers from which flows the life blood of the whole system. It is not a medicine of patchwork, but is complete and comprehensive in its application.

With every purchase you get a Numbered Ticket or Check and the more Checks you hold the better your chance.

Come and see this new machine work. It does everything but talk. It Registers Who Made the Sale, the Amount of Sale, the Date of Sale, the Number of Sale, the Amount of Cash Paid Out, the Amount Received on Account, whether the sale was Cash or Credit, the Amount made by each Salesman, adds all together and displays it at glance the total amount of Sales for the day. It cannot make a mistake; it can't talk but you have only to touch the button and it does the rest.

Be sure and get your Check—preserve it for it is valuable—for every cash purchase, no matter how small, the register issues a ticket.

OUR STOCK OF LATEST STYLE FALL HATS is here and will repay inspection by any intending purchase of a New Fall Hat.

Now is the time for OLD FURS to be INSPECTED, REPAIRED, RE-DYED OR RE-ALTERED into New Styles.

WANTED TO LYNCH DILLON.

Lively Time at the Irish Convention—The Leader Sought Refuge in a Hotel to Escape From the Mob.

Dublin, Sept. 3.—The third day's session of the Irish Race convention was opened to-day, Right Rev. Patrick O'Donnell, Bishop of Raphoe, presiding. Michael Davitt read messages from societies and individuals in New York, Queensland and elsewhere, expressing hopes that a complete union of the sections of the Irish party would be effected.

Dean Harls of Toronto protested against the conduct of a Dublin newspaper in describing Chevalier Heney, a Canadian delegate to the convention, as a companion of Le Caron, the spy and informer. (Cheers.)

Canon McCartan supported a resolution setting forth that it was the prime duty of the Irish party to maintain its absolute independence of the English and to preserve its perfect freedom to oppose anything that the best interests of the National cause may dictate.

Hugh Murphy of Glasgow expressed his belief that the convention would conclude that John Dillon should remain the leader of the Irish National party at home and abroad, with full power to insist that the minority must be ruled by the majority.

Mr. Loughlin of Bradford held that as long as there was a Home Rule plank in the platform of the Liberal party the Irish were bound to support the Liberals.

Canon McCartan declared that there should not be any alliance that would have the effect of enslaving the Irish party.

Michael Davitt denied that there ever had been any slavish alliance with any English party.

Rev. Dr. O'Donnell of Montreal urged the necessity of complete union of the party sections.

Mr. Costigan, delegate from Ottawa, said that the assemblage present gave assurance that union had been practically established. He himself, he said, would take back a message declaring that the convention was a genuine and representative meeting of the Irish of the world, convened in regular form and from the proper quarter. Majority rule, he declared, must prevail.

Delegate Fitzgerald of Bermondsey proposed an amendment declaring that the time will come when the Irish National party will no longer treat with any English party upon the question of obtaining Home Rule for Ireland, but rather the energies of the party will be devoted to making an English Government in Ireland impossible until the British Government have conceded to Ireland the right of a Home Parliament of her own in Dublin.

The motion was not seconded, and it was therefore dropped.

William O'Brien, formerly member of Parliament for Cork City, predicted that the convention would confirm the people in unstinted confidence in the Irish party, effacing any man or set of men who should refuse to stand by the decision of the convention.

Mr. T. J. Ryan of New York National Federation supported Mr. O'Brien's assertion, expressing himself in similar terms.

Hon. Edward Blake, M.P., made a statement favoring the having of the administration of the Irish Parliamentary funds exclusively to the Irish Parliamentary party. The suggestion was approved by the convention.

Mr. Michael Davitt moved that the convention declare in favor of the granting of amnesty to all Irish political prisoners. In speaking to his motion Mr. Davitt strongly condemned the brutal treatment to which Irish political prisoners were subjected. During his own confinement in prison he declared he had never ceased to feel the pangs of hunger.

Rev. Father Phillips of Pennsylvania supported Mr. Davitt's motion, and in the course of his remarks urged that renewed efforts be made to reconcile those sections of the Irish party which were holding themselves aloof from the convention, which, he said, would open its ranks to every one who was willing to come in. The resolution was adopted.

Resolutions were adopted in favor of establishing a Catholic University for the purpose of preserving the Irish language, after which the convention adjourned.

"Mikado" Still in the Market.

We take pleasure in informing the public that we have completed arrangements by which we can supply our old brands of flour manufactured with every care to suit the requirements of our trade. We can guarantee the same satisfaction that our flours have always given, as we are having them made from our own blends of wheat and under our personal supervision. Orders will be taken as usual at our down town office, corner of Simcoe and Bethune streets. Telephone No. 113. MELDRUM & MCALLISTER Millers.

AMERICAN INSURANCE AND CANADIAN POLICY-HOLDERS.

It is becoming a question of practical politics for Canadian policy holders in American insurance companies in which kind of money their claims will be paid when their policies mature. Should Mr. Bryan be elected and the United States go to a silver basis, American companies would have a perfect right to pay their claims—unless otherwise provided in the policy—in American silver dollars, which are now worth a trifle over fifty cents. This would mean, if this ratio were maintained, the cutting of one's life insurance in two; and the man who paid premiums on $5,000 would really leave his family only about one-half that amount.

Some American companies are endorsing their policies "payable in gold," or "payable in the lawful money of Canada." This should make them as good as ever, if the securities deposited by these companies at Ottawa remain as valuable as ever. This latter is a point for the Government to carefully investigate. It will not be worth much to a person with a claim against an American company to have his policy endorsed "payable in the lawful money of Canada," if the company does not have sufficient money on deposit at Ottawa to cover his claim. Then, supposing the company to fight his claim, he must sue the United States, and get his award in American money—i.e., Bryan silver dollars. Now this is a real enough danger if the deposits of American companies with the Canadian Government are composed in whole or in part of American securities. For with the enactment of free silver at Washington American securities will be very likely to go to a silver basis too; with the result that the American deposits at Ottawa will fall far below their face value. Thus it might come about that claims payable in Canada could not be collected in the Dominion, because the company's assets here had all been eaten up.

This is a matter for the Government Superintendent of Insurance to look to. There should be no doubt as to the permanent value of the deposits placed by the American companies in the hands of the Dominion Government. This is the keystone of the arch. To be sure of getting Canadian money for our claims we must be able to sue for them in Canada and collect the award in Canada. It is ridiculous to suppose that if the United States goes to a silver basis, and if the Insurance Companies are paying American claimants in silver, that the American courts will compel them to pay the Britisher in gold. Our only security is to keep the Canadian end of the business in Canada.

To accomplish this two things must be had—1, the securities deposited at Ottawa must not be of a character to be affected by a victory for Mr. Bryan; and, 2, all policies must be made payable in Canada and in Canadian money, or its only equivalent—gold.—Star.

To Tired Ladies.

When you are exhausted and feel played out take a glass of Calcutt's Porter; it will freshen you up and make work a pleasure. Should be used by everybody during house cleaning tf

The Wabash Railway Trains

running every day in the year between Detroit, Chicago, St. Louis and Kansas City are the finest known to the railway service; they are complete and solid vestibuled from end to end, the entire train being a moving palace of connected apartments, all furnished with the most luxurious elegance and perfection of accommodation known to car builder's art. They include free reclining, palace, sleeping, and dining cars of the latest and best patterns. Call on or write any railway agent for tickets and all information or address J. A. RICHARDSON, Canadian passenger agent, north-west corner King and Yonge street Toronto

ACTOR BECOMES A PREACHER.

Josh M. Chapman of the Harry Lindley Company Will Conduct a Mission Service—General Hamilton Notes.

Hamilton, Sept. 3.—(Special.)—Josh M. Chapman, a Hamilton actor, who is at present filling an engagement with the Harry Lindley Company at Ottawa, has decided to abandon all things worldly, and go into the evangelistic work with Rev. Walter A. Dunnett. On Wednesday Messrs. Dunnett and Chapman will begin revival meetings at Niagara Falls, after which they will go to Kingston, then to Toronto and then Hamilton. The actor was converted here last winter at Evangelist Dunnett's meeting.

The trouble in St. Paul's Presbyterian Church over the choosing of a pastor may result disastrously for the church. Last night John Knox, who is opposed to the call, went to the church to get the names of those who signed the Beavis call. John Alexander tried to prevent him from getting them, and it looked as if there would be trouble, but it was averted by the Beavis faction allowing Mr. Knox to copy the names.

Samuel Quiversl, a rag gatherer, left the gate of William Strack, West Flamboro, open the other day, when coming out. Stock chased and caught him, made him shut the gate, and then slashed the man with a whip. The latter had him summoned, and P.M. Jelfs imposed a fine of $10 this morning. Mike Connolly was charged with stealing John Bartlett's boots and other articles while they were sleeping off a drunk in a vacant house the other night. Connolly was remanded to Saturday.

When the mission workers were charged at the Police Court the other day with disturbing the school, they promised to allow the school to continue without further trouble and were allowed to go. But they have announced that they will issue a writ against the school trustees for a declaration that the property in question belongs to the mission people.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Mrs. S., says:— "I suffered from rheumatic pains for months, Miller's Compound Iron Pills cured me." Sold in Peterborough by Wm. Madill, druggist.

TOUGH CLOTHES FOR THE BOYS.

Young Canada Begins Another Six Months' Schooling.

Tough clothes for boys to wear to school this Fall and Winter. That's the burden of our song. Strong clothes to stand the wear and tear of play, rough but healthy. Strong clothes to stand the work of out of doors fun in cold weather. We have just such things for the youngsters and, besides being full of wear, they are neat and shapely.

Did the last suit of clothes you bought for your boy from us, wear as well as it ought to have worn, considering the price paid? If it did you should go to the same store for the next suit. You get your money's worth. We deserve your patronage. We'll do better by you and by the boy than any other clothier.

5 CASES OF BOYS' NEW SUITS

These are only the advance guard of our Fall stock, for the boys. These are TWO and THREE piece Suits, and will fit boys all the way from 3 to 16 years. We sell the best of everything to keep in the heat, and keep out the cold for boys. We were boys ourselves, once,—it seems an awful long time ago.

We've all good qualities of Boys' Clothing. We've—probably—more Boys' Clothing in our store than in all the other stores put together. We've a weakness for supplying the boys. Ask yours if this isn't so?

Some idea we may give you of the value and inducement we purpose giving to buyers, when we say

A $2.00 BILL

will buy a beautiful, heavy, all wool, neatly made, well trimmed, and built of Auburn Mills Tweed Suit.

Of course we've cheaper Suits, and as low as 95c per suit. Better Suits up to $3.00 and $4.00, but

OUR $2.00 SUIT IS A CORKER.

Just the thing for a boy's school Suit, and as good as ever sold for $3.50.

Mothers should see these Suits. You know value. You know your boy's clothes-wrecking propensities.

Come to us. We're full of economical suggestions. No matter what your money is, we'll help you to make it go as far as it can. Come! The verdict is nearly always in our favour. It isn't often that the careful buyer decides against us.

"TOUGH CLOTHES FOR THE BOYS" That's our Motto.

MATTERS AT OTTAWA

Meeting of Committee on Standing Orders.

DR. LANDERKIN CHOSEN CHAIRMAN

A Number of Petitions Reported on—Extension of Trade With Foreign Countries—The Commons Bar Again Discussed—A Great Year for Fruit.

Ottawa, Sept. 4.—The first meeting of the Select Committee on Standing Orders was called together this forenoon. Dr. Landerkin was the unanimous choice for chairman. The following petitions were reported on:

The Hamilton Powder Company, for increase in the stock and in the number of directors.

The Canadian Pacific and Grand Trunk Railways, to confirm agreement by which the C.P.R. may make use of the G.T.R. tracks between Toronto and Hamilton.

The Ottawa, Arnprior & Parry Sound Railway, confirming a deed of amalgamation with the Parry Sound Colonization Railway.

Eastern Trust Company, in regard to securities for investment of funds.

Hudson Bay and Pacific Railway Company, for an act of incorporation to build a line from Fort Churchill to Calgary.

Hudson Bay Navigation Company, for the building of a canal between the Nelson River and Hudson Bay.

Mather Bridge & Power Company, for power to construct a bridge over the Niagara River at Fort Erie.

St. Clair & Erie Ship Canal Company, to revive an old act of incorporation and extend the time for the completion of the work.

Albert Nordheimer, for a bill of divorce from his wife, Edith Nordheimer.

Sir Henri Joly de Lotbiniere left by to-night's train for Niagara Falls, where he is to join the Chinese Viceroy, Li Hung Chang. He has invited the Controller of the Chinese, Mr. Parmalee, to accompany him on the trip, and the latter will take with him a petition from the Chinese of Victoria praying Li Hung's intercession with the Canadian Government for the appointment of a consul at that port. The two will bring the distinguished visitor over to Toronto. From Toronto they will proceed to North Bay, going further west. From that point he will be taken in hand by Dr. Horsey, a former Liberal candidate in North Grey, who will go to the coast with the party and see them aboard the Empress of China on the 14th. Dr. Horsey has resided in Japan for years as the agent of an insurance company.

The Motocycle Company of Canada, with a capital of $150,000, and headquarters at Montreal, is applying for letters patent; also the S. S. Ryckman Medicine Company of Montreal.

Senator Boulton in a letter to The Free Press this evening says: "My politics are free trade with the British Empire, the same free trade that Great Britain accords to us, and those politics are not inconsistent with the principles of a Liberal Conservative, and I can assure the editor of The Free Press it will not be long before public opinion veers round to my view."

Mr. Bostock gives notice of the following resolution to-day: "That in the opinion of this House it will be in the interests of immigraton and the development of the Dominion that the Government should collect, through the Department of Agriculture all information possible with relation to the mining interests of the Dominion and publish it."

Matters of internal economy are usually discussed with closed doors, and it was only through a misunderstanding that the Speaker's announcement about the closing of the bar was made in open session yesterday. To-day the customary precaution was observed of keeping the doors closed after prayers in order that this topic might be discussed in private. The subsequent proceedings were of course confidential, but it has leaked out that the abolition of the bar was again referred to. It is said Mr. Foster drew the attention of the Speaker to the fact that this order had not resulted in preventing the sale of liquor in the restaurant of the House, and wanted to know if the order was to be *actually enforced*. The explanation of the Government was to the effect that the "abolition of the bar" would not interfere with the privilege of members to obtain liquor with their meals. Now, as this savors of the importing into the presence of Parliament of those hypocritical devices whereby the restraints of prohibition are overcome elsewhere, it is not unlikely that the question will be brought squarely before the House and a straight vote taken on the desirability of doing away with intoxicants in the restaurant altogether. Mr. Craig has now upon the order paper a notice of a resolution "That an order be issued prohibiting the sale of intoxicating liquor within the precincts of this House." Of course this will have no effect upon the Senate, where the "corner stone" is a permanent attraction and accessible by several convenient routes from the Commons quarters.

The Senators also discussed the "bar" question to-day. Senator Vidal gave notice that when the Senate meets again he will propose a resolution to the effect that the bar attached to the Senate be closed.

Sir Mackenzie Bowell remarked they understood there was no bar in the usual acceptation of the word attached to the Senate. A similar resolution to that given notice of had been passed by the Commons some years ago, but it had not prevented members from getting what they wanted. If it was desirable to accomplish the object sought by the resolution the only way to do it would be to prohibit the sale of spirituous liquors within the precincts of the Houses of Parliament altogether.

The Senate Divorce Committee reported to that House yesterday that preliminary notices had been duly served on the application of Albert Nordheimer of Toronto for a divorce from his wife, Edith May Vankoughnet. A divorce bill on this case was then introduced by Senator Clemow and referred to the committee.

The time for receiving private bills in the Senate was extended from the 9th to the 16th instant.

Sir Oliver Mowat introduced a bill intituled an act to authorize the appointment of judges of the Supreme Court ad hoce in certain cases. The act, he said, was urgently required in order that the legal business before the court should be disposed of. One of the judges, Mr. Justice Gwynne, was now away on sick leave and Mr. Justice Taschereau had applied for leave on account of illness. It was essential that if the business was to be transacted judges should be appointed ad-hoc in certain cases. The bill was read a first time and stands for a second reading. The Senate adjourned until the 14th.

The speakers in the debate to-day were Messrs. Russell (Halifax), McCarthy, Clancy, Britton, Davis, Sproule, La Riviere and Bell. Mr. McCarthy will vote with the Government. There will be no sitting of the House Monday. Mr. Haggart will resume the debate on Tuesday and there will be a division on Tuesday evening.

Reports have reached here that the Government of Ontario had leased Lake Nepigon, the greatest trout lake on the continent, to a United States angling club. If this report be correct it is a violation of the understanding with the Dominion that until the question of jurisdiction over the inland waters of Canada as regards fishery purposes is settled no leases of lakes for sporting or other purposes were to be issued by either Government. Under any circumstances it would be a matter of great regret if Lake Nepigon were to become the exclusive fishing property of any one club. Mr. Dyment is investigating the matter

Sir Henry Joly, Controller of Inland Revenue, and Mr. Parmalee, Controller Chinese Immigration, left for Niagara Falls to-night for the purpose of meeting the great Chinese Vicero, Li Hung Chang. The two gentlemen named will accompany the visitor as far as North Bay, whence they will return to Ottawa. Mr. Parmalee will present the petition of the Chinese residents of British Columbia for the location of a Chinese consul in that province. Dr. Horsey, Asiatic agent for the Sun Life Insurance Company, and a former resident of Owen Sound, will accompany the great Li to the coast.

It is understood that the Speaker has under consideration the decapitation of certain sessional clerks of the House. One of them, Mr. Edward Aube, who was recently fired from the Public Works Department, has received his second walking ticket, this time from the House of Commons on the alleged ground of active participation in favor of the Conservatives at the general elections.

Mr. Craig, M.P., is not satisfied with the regulations that the Internal Economy Committee of the House of Commons adopted yesterday abolishing the bar in the basement. He has a motion on the order paper for the prohibition of the sale of liquors in the precincts, and states that yesterday's action changes the situation very little. Therefore he will bring his motion on at the earliest possible date, and will press it regarding the abolishing of the bar on the Senate side, which is being sought after by Senator Vidal. The prospect is that there will be much greater opposition than was met on the Commons side.

The Minister of Agriculture was present at the meeting of the members interested in agricultural development of the country held this morning. Rev. Mr. Douglas, Patron member from East Assiniboia, presided. Recommendations were made urging the Government to take action in regard to the freight rates, tariff reductions and cold storage. Mr. Fisher made a speech in which he expressed the hope that next season would see the establishment of a fairly good line of cold storage from the producer in Canada to the purchaser in England.

The following letter from the Deputy Minister of Trade and Commerce has been received by Ottawa Board of Trade: "I am directed by the Minister of Trade and Commerce to request you to call the attention of your board to the subject of the possible extension of the trade of the Dominion in various directions. The Minister will be pleased to receive and consider any suggestions which you or your colleagues may see fit to offer as to the methods whereby in your opinion existing trade can be increased or new traffic developed in any direction. In particular he would be glad to be advised whether you have to report any material alterations within the past year in quantities and values of principal articles now exported from your section of the Dominion to other countries.

"Secondly—Whether in your opinion the traffic in any of these articles could readily be increased, and if so in which class and to what countries.

Thirdly—Whether there are any other articles which you consider might be exported to advantage, and if so which and to what market."

The Board will consider it on Tuesday.

Mr. Laurier laid on table of the House yesterday a return of appointments made by the MacKenzie Government from the time of their defeat on September 12th, 1878, and their resignations on the 8th October following. The total number of such appointments was 34.

The Premier also presented the House with the list of precedents which Sir Charles Tupper handed to His Excellency shortly after June 23rd, as showing the course pursued in Great Britain on the defeat of a government.

Mr. Craig, horticulturist of the Experimental Farm, has just returned from an extended tour through the fruit regions of the Niagara peninsula. He says that this will be certainly the best fruit year in Canada for many years. He believes that three million barrels of apples will be exported. Grapes will be more than an average crop as well as peaches. The spraying experiments, wherever tried, had been most beneficial. Some fruit growers who sprayed their trees last year and did not do so this are now sorry for it.

Mr. Thompson, secretary of the American Angling Association, Alexandria Bay, has made application to the department for an extension of the limits within which American sportsmen may fish without license fee. At present the area extends from Prescott to Snake Island light, west of Kingston. Now the Americans want the limits to be extended some miles further west and to include Horse Island and Reid's Bay. Before the Government accedes to the request, the New Yorkers should be required to carry out their share of the compact reached last year, namely, that there would be a suspension of the operation of the alien labor law as against Canadians employed in United States waters from Ogdensburg west to the boundary limit. So far no action has been taken by the New Yorkers to carry out their share of the bargain.

CANADIANS AWAY AHEAD

On the Conclusion of the First Innings of the Cricket Match.

Philadelphia, Sept. 4.—The annual international cricket match between Canada and the United States began here to-day on the grounds of the Germantown Cricket Club, and when play for the day ceased Canada had scored 87 runs for the first innings and had lost one wicket for 32 in the second. In their first innings the home players were retired for a total of 52 runs.

While the team that played for Canada is not the strongest the Dominion can get together, it is a fairly representative eleven. The American team is supposed to be an all-United States team, but in fact it is only an all-Philadelphia eleven, as only Quaker City cricketers are represented, and still it is doubtful if a stronger team could be got together by Uncle Sam.

The weather was perfect to-day, but only about 300 persons were present at any time.

The wicket was in excellent condition, but slightly favored the bowling. The main feature of to-day's play was the bowling; but, while this was excellent, it cannot account for the small scores made by two teams composed of so many good batsmen. But one explanation for the low figures can be made, and that is that both teams were afflicted with a regular rot, and batsman after batsman marched to the wicket only to return to the club house in a moment or so.

When the Philadelphians had all been retired for their first innings, there still remained an hour's time for play, and the Canadians went in for their second. McGiverin lost his wicket almost immediately, after scoring one run, but Cooper and Goldingham, by cautious work, held their wickets up until stumps were drawn. Play will be resumed to-morrow morning. The score of to-day follows:

— Canada—First Innings. —

W H Cooper, b Patterson	22

Every man should read the advertisement of Thos. Slater, on page 3 of this paper.

REV. T. DE WITT TALMAGE

In one of his wonderful sermons very truthfully said, "My brother, your trouble is not with the heart: it is a gastric disorder or a rebellious liver. It is not sin that blots out your hope of heaven, but bile that not only yellows your eyeballs and furs your tongue and makes your head ache but swoops upon your soul in dejection and forebodings,"—and

Talmage is right! All this trouble can be removed! You can be cured!

How? By using

Warner's Safe Cure

We can give you incontrovertible proof from men and women, former sufferers,

But to-day well, and stay so.

There is no doubt of this. Twenty years experience proves our words true.

Write to-day for free treatment blank. Warner's Safe Cure Co., Rochester, N.Y.

The Daily Examiner is delivered to all parts of the Town for 10c. a week 35c. a month, $2.00 for six months.

Daily Examiner.

SATURDAY, SEPTEMBER 5, 1896.

THEY MUST LEARN BY EXPERIENCE.

In yesterday's issue we printed an extract from the Ottawa Journal, Independant Conservative, to show how civil servants appointed by the late government thwarted the present government's aim to improve the service by making it unpleasant and impossible for new officials to perform their duties. This seems to be an old trick of the Conservatives when the people decide against them. Sir Richard Cartwright concluded his address on the civil service question in Parliament, on Tuesday, as follows:—

"It was my duty to take part in the first Administration of Mr. Mackenzie, and I have this to say, and I say it with considerable right:—We had a most overwhelming proof that all through the civil service we were carrying on our daily work in the midst of a nest of traitors. I had daily and hourly proofs that for months and months not a paper went to our Privy Council which was not communicated by some one or other of the civil service to the hon. gentlemen opposite. We expressed surprise at the extreme leniency on the part of Mr. Mackenzie, that he took so very few steps to purge the service of these members. I speak of what I know. I do not for a moment pretend to say that a majority of the civil service would be guilty of such practices, but in 1873-74, and even after that, the honourable confidence which should exist between members of the civil service and heads of the departments had been time and again violated. With those examples before us, yea, with members of the civil service earning the bread of both parties, and deliberately interfering in elections for the purpose of aiding one political party—if that they so—I repeat that they must be considered to take their political lives in their hands and accept the consequences of their own acts, and the good sense of the people of the country and their natural sense of equal justice will not merely justify but demand at the hands of the government that they should make an example of them." (Applause.)

And it is this discredited class of civil servants that a discredited government wishes retained in order that they might injure the interests of the country they are paid to serve. But, with all reverence, we might suggest the lesson of the language of holy scripture—"Let him that standeth take heed lest he fall." Mr. Laurier has declared that offensive, partizan and obstructive civil servants must go. If they cannot appreciate the duty of loyalty to the country they must have practical demonstration that loyalty to their bread and butter is a condition of eating it.

EDITORIAL NOTES.

CIVIL servants must be taught to be civil.

RAINY river should be called the Pactolus—it runs over sands of gold.

IF public servants refuse to discharge their trust the government will discharge them. Which form of "fire" will they elect?

IF government employees in their own interests offensively and aggressively help to promote the interests of the government of the day, they should in loyalty accept a reverse. When the government is dismissed by the people they should expect to share the fate of their superiors.

DURING the debate upon the question of offensive partizanship on the part of Government officials, Sir Richard Cartwright applied the tu quoque argument upon Sir Charles Tupper, making the latter an advocate of the present Government position. Sir Richard quoted from the remarks of Sir Charles in reference to the dismissal of a Mr. Wade, of Digby, N. S. Sir Charles said:—"That is Mr. Wade of Digby. I am sorry to say that he so far forgot the position he occupied as to go out and take a prominent part in holding public meetings and denouncing the Government of the day. I think that there is no gentlemen in this House on either side who will say that any public officer holding any office under the Government or Parliament should adopt such a course, or if he does accept it, that he should be retained in the public service, if we are to carry on public affairs in the way in which I am sure hon. gentlemen would like to see them carried on. There is no doubt that public officers, especially under the ballot have a perfect right to go to the polls and record their vote for or against any person, as they may please, or as they may consider it their duty, but I do not believe any gentleman in the House will sustain any public officer in going out and taking an offensive course in reference to the Government of the day, whoever may be in power."

THE HEAVENS FOR SEPTEMBER.

The sun enters Libra on September 22nd the autumnal equinox, and autumn commences. In this month the mornings decrease 46 m., and the afternoons 1 hr. 6 m. New York mean time.

Mercury is an evening star, but, owing to its southern declination, and setting nearly with the sun, it cannot be easily observed. It is very near Spica Virginis on the 15th of September. It is in opheilon on September 4th, at 5 p. m.; in conjunction with the moon, on September 9th, at 7.7 a. m., at its greatest elongation east 26 deg. 43 min. on September 13th at 5 a. m.

Venus is an evening Star throughout the month. It is in conjunction with the moon on September 8th at 4 50 p.m.

Mars is in Taurus, situated near Aldebaran, and the Pleiades during the early part of the month. It is in conjunction with the moon on September 28th, at 4.31 p.m.

Jupiter is a morning star, and is in conjunction with the moon on September 6th, at 12 41 a.m., and in conjunction with Regulus on September 19th at 11 a.m.

Saturn is an evening star. It is conjunction with the moon on September 11th, at 12.12 p.m.

The moon.—New moon, September 7th, at 8.47 a.m. First quarter, September 13th, at 11.14 p.m. Full moon, September 21st, at 5.53 p.m. Last quarter, September, 29th, at 9.2 p.m.

ENDED AT LAST.

After Two Years of Misery Endured Backache Succumbs to Dodd's Kidney Pills.

Madoc, (Special) Aug. 31.—In a place like this, people suffer and sympathize, hope and mourn with each other. But her many friends here, as elsewhere, who have long been aware of the precarious health and long suffering of Mrs. J. Fergusson will be pleased to learn that her painful sufferings have ended at last, and that instead of being unable, as she says, "to turn herself in bed" she is herself once more as the result of using a few boxes of Dodd's Kidney Pills. She further says that from the third day after commencing to use these pills, she was free from all pain; and, that now she feels as well as ever before in her life.

Iron Worth More Than Gold.

Iron and steel are so common that it seems absurd to say they ever are worth more than gold. But it takes 754 hair springs used in watches to weigh an ounce of 437 1-2 grains and 27,000,000 will weigh a ton. If each hair spring is worth but 1 1-2 cents, the ton of hair-springs is worth $405,000.

The barbed instruments used by dentists for extracting nerves from the teeth are even more expensive, representing a rate of $2,150 000 a ton.

Some piano wire was sold in England for $43.20 a pound, or $8,640 a ton. The labor required to produce this fine wire, the hair springs and dentists' barbed instruments, give the high value to the product, for the first cost of the iron from which the steel is made is less than $40 a ton.

All Run Down.

This is the condition of thousands. Squanderers have they been of sleep, rest and finally of health. The mad pursuit of place, power and pelf leaves them broken in spirit, weak in body, shattered in nerve. In the world, but no longer of it, their days are spent in desire, impotent and purposeless, for they have bankrupted health. Thousands are on the road. They heed not the warning that nature gives.

Sleeplessness, inertia, despondency and fatigue add their mournful notes to the "still sad music of humanity." Tired! You need aid! Your system requires a staff on which to lean, and your brain rest for increasing virgils! Health and strength are the alternatives from decay and death.

Cocoa, combined with Maltine affords that staff. It will give tone to the nervous system, strength to the nerves, sleep to the weary eyes, and rest to the tired brain. Maltine with Coca Wine will build up the body and give strength, vigor and health to the weak and debilitated. Maltine with Coca Wine is sold by all druggists.

The Wide Awake Swiss.

Alternating current trolley lines, which are destined to supersede the present continuous current trolley, on account of attendant economics of operation, especially on long distance interburban traffic, has received its first application at Lugano, Switzerland.

A $6,000 International Prize.

The commissioners in charge of the design and construction of an electric railway to the top of snow-clad Jungfrau, in Switzerland, have offered an international prize of $6,000 for the best solution of certain detail problems in the construction of the road.

Insist on having just what you call for when you go to buy Hood's Sarsaparilla, the One True Blood Purifier and nerve tonic.

Hidden Foes.

Among the many foes to human health and happiness dyspepsia and constipation are twin enemies greatly to be feared. With B.B.B. to drive them out of the system, however, no danger need be anticipated, as every dose brings the sufferer a long step further on the road to perfect health and strength, and a permanent cure always results.

Sky and Weather.

Boys who live on farms are generally good weather prophets. They can "guess" with better results than city-bred boys, for weather is a very important thing on a farm, and the boys in the country know scores of "signs" which tell them what to expect in the way of sun, rain and wind.

They look upon the sky as the best of weather forecasters, and it is a fact that the color of the sky, at particular times, is a good guide to the weather conditions to be expected within the coming twenty-four hours.

A rosy sunset indicates good weather, but if you see a ruddy sunset look out for bad weather.

A bright yellow sky in the evening indicates wind; a pale yellow sky is a hint to take an umbrella with you.

If the sky is of a dull gray color in the morning, it will be safe to go ahead with the picnic, for a dull gray morning sky indicates good weather.

Relief for Lung Troubles

The D. & L. EMULSION

In CONSUMPTION and all LUNG DISEASES, SPITTING OF BLOOD, COUGH, LOSS OF APPETITE, DEBILITY, the benefits of this article are most manifest.

By the aid of The "D. & L." Emulsion, I have got rid of a hacking cough which had troubled me for over a year, and have gained considerably in weight. I liked this emulsion so well I was glad when the time came around to take it.

DAVIS & LAWRENCE CO., LTD., MONTREAL

For Mothers, Wives and Girls.

The Ablest of Women Journalist Indorses Paine's Celery Compound.

Mrs. H. B. Sperry, who is now the eminent and respected president of the Woman's National Press Association of the United States, is a lady journalist of note and reputation.

The active profession of journalism has kept Mrs. Sperry up to date in information and progressive in thought. When there was evident need of a remedy in her family she was well aware that Paine's Celery Compound was the best medicine to use. The following enthusiastic letter, sent to Wells & Richardson Co., shows the happy results from the use of this best of all medicines:

DEAR SIRS,—A few weeks' use of Paine's Celery Compound by my 83-years-old mother has been of great benefit to her, and proved to my satisfaction that there's nothing like it for the headaches and sleeplessness incident to impaired digestion. A niece in my family was also cured of insomnia by using one bottle of Paine's Celery Compound.

Yours very truly,
HANNAH B. SPERRY.

In every part of Canada and the United States women are now strongly advocating the use of Paine's Celery Compound. Women, old and young, know well that this medicine is specially adapted for all the ills peculiar to their sex. When it is used, the sick and suffering ones are seen to gain steadily in health, strength and vigour. No room is left for doubt to the skeptic and stubborn-minded individual. The joyous transformation from sickness to health is going on in thousands of homes all over this broad Canada of ours, and those once alarmed about the safety of of loved and dear ones now rejoice as they see the bloom of returning health lighting up and beautifying features once pallid and wan.

Dear sick friends, remember that you cannot trifle much longer with life. Your troubles, if not banished at once, may take you off at any moment. Bear in mind that Paine's Celery Compound is guaranteed to cure; it will meet your case no matter how bad it may be. May heaven give you faith sufficient to use at least one bottle of nature's curing medicine, in order that you may be convinced that it is what you need. To cure and make you well you must get "Paine's;" substitutes and imitations will never do the good work.

GZOWSKI CUP MATCH

Won by the 48th Highlanders of Toronto.

THE BRITISH CHALLENGE SHIELD

Carried Off by the Royal Grenadiers—Presentation of Prizes Won at the Dominion Rifle Association Meeting at Ottawa—Complimentary Speeches Made.

Ottawa, Sept. 4.—(Special.—The D.R.A. meeting is over, and it is probably the last on the Rideau ranges. The first thing this morning the statistical officers were able to declare the military matches of yesterday and they resulted in a surprise. The Governor-General's Foot Guards had always been looked on as winners, but when the list was declared they fell behind. The results of the military matches were as follows:

GZOWSKI MATCH.

Gzowski military match—Challenge cup presented by Sol. Sir Casimir Gzowski, with $245 added by D.R.A.:

	Skirmishing.	Volley Firing.	Total.
Challenge cup and $50.			
48th Highlanders	306	78 84	468
$45 43rd	280	83 84	447
$40 Royal Grenadiers .	283	76 83	441
$35 G. G. F. G.	269	73 88	430
$30 P. of W. Rifles ..	258	71 97	426
$25 57th Batt.	280	66 66	412
$20 5th Royal Scots ..	258	63 83	404

Teams next in order: 13th Batt., 403; 5th R.C.A., 400; 3rd Vics., 390; 53rd Batt., 385; Royal Berks., 324.

BRITISH CHALLENGE SHIELD.

Following the Gzowski match the contest for the British challenge shield was begun. This is purely a skirmish match, 20 rounds to be fired and prizes awarded to the seven teams making the highest aggregate. Fifteen teams of four men each entered. Victory rested with the 10th Royal Grenadiers.

British Challenge Shield—shield presented by the auxiliary forces of Great Britain and the active militia of Canada, with $185 added by the D.R.A.:

Shield and $40, first team Royal Grens., 201.
$32, 13th Batt., 256.
$28, 43rd Batt., 245.
$25, P. of W. Rifles, 234.
$22, first team 48th Highlanders, 232.
$20, 5th R.C.A., 220.
$18, Royal Scots, 224.

Teams next in order: 48th Batt. second team, 224; G.G.F.G. second team, 224; G. O.F.G. first team, 223; Royal Berkshires, 250; 3rd Vics., 230; 57th Batt., 206; 53rd Batt., 190; Royal Grens. second team, 180.

GOVERNOR-GENERAL'S PRIZE.

Then came the event of the meeting, the 10 men who competed for the Governor-General's prize. Pte. McNab of the 5th Royal Scots won the tail-end position by beating his dozen opponents in the shoot off. The shooting was fine and so was the weather. There was a tie between the first two men and a tie for third place in the money prizes. Only ten men have prizes of any kind and five men tied for the last four places. Lieut. Kinnear, a nursery shot, was the unfortunate one, and the Governor-General's resulted as follows:

Special badge and $250, Pte. W. E. Forbes, 73rd, 94.
$150 and badge, Lieut. W. L. Ross, 13th, 94.
$100 and badge, Pte. J. H. Simpson, 10th R.G., 93.

Badge each—Staff-Sergt. W. Harp, 48th, 93; Lieut. A. D. Cartwright, 47th, 92; Lieut W C King, 45th, 92; Pte. W Swaine, 14th, 91; Capt. M Cope, 3rd Vics., 91; Capt. J L Weller, 50th, 91; Sergt. H C Blair, 78th, 91.

In the shoot off between Pte. Forbes and Lieut Ross for the first honors the score was: Pte. Forbes—5 5 5 5 4—24; Lieut. Ross—3 5 4 3 2—17.

The scores made in the Governor-General's match added to those of the grand aggregate give the following as the first 35 from which, in the order of scores, the Canadian team for Bisley are chosen:

Sergt. H C Blair, 78th, 472; Lieut R J Davidson, 8th RR, 469; Lieut G S Kinnear, 8th Hus, 466; Tr A Langstroth, 8th Hus, 466; Sergt J Broadhurst, 5th RS, 463; Col-Sergt E Skodden, 13th, 463; Corp H Kerr, 48th, 462; Lieut W King, 45th, 461; Lieut W S Ross, 13th, 460; Surg-Maj Ross, 77th, 460; Capt W S B White, 14th, 458; Sgt. R Corrigan, 59th, 458; Sergt W Swaine, 14th, 457; Sergt D Garson, 13th, 457; Staff-Sergt J W Marks, 6th Fus, 457; Corp C A Windatt, 10th RG, 456; Capt W H Davidson, 8th RR, 456; Gr H Miller, 5th R C.A., 455; Staff-Sergt A A Smith, 59th, 455; Sergt J Drysdale, 1st PWR, 454; Lieut R Carter, 93rd, 454; tPe J H Simpson, 10th RG, 453; Capt. T A Backburn, 78th, 452; Capt R D Sutherland, 43rd, 452; Sergt T Mitchell, 13th, 452; Capt J B Hutcheson, 43rd, 452; Pte J O McKay, 62nd, 452; Maj T H Hartt, Res In, 451; Pte T A Pearson, 43rd, 451; Pte H Heller, 10th RG, 451; Staff-Sergt W M Goodwin, 7th Fus, 451; Pte L A Langstroth, 78th, 451; Lieut C L McAdam, 3rd Vics, 450; Corp C Armstrong, 10th RG, 450; Pte W E Forbes, 73rd, 444.

LONDON MERCHANTS' CUP.

Following the chairing of the successful young nursery shot and lunch came the London Merchants' Cup match, open to teams of eight men from provincial associations; ranges 300, 500 and 600 yards. The result was:

Cup and $100—Province of Ontario, 666.
Lieut.-Col Ross, 13th, 92; Lieut Cartwright, 47th, 91; Snr-Maj Ross, 77th, 89; Lieut King, 45th, 88; Pte J H Simpson 10th, 88; Staff-Sergt Smith, 59th, 85; Col-Sgt Skedden, 13th, 85; Capt Hutcheson, 43rd, 84.

$80—Province of Quebec, 661.
Capt Davidson, 8th, 85; Lieut. R J Davidson, 8th, 85; Lieut C L McAdam, 3rd Vics, 86; Capt H Pope, 3rd Vics, 85; Sgt J Drysdale, 1st PWR, 84; Sgt J W Marks, 6th Fus, 87; Sgt J Broadhurst, 5th RS, 90; Pte McNab, 5th RS, 82.

Next in order: Nova Scotia, 678; British Columbia, 671; New Brunswick, 665; Prince Edward Island, 658; Manitoba, 646.

The presentation of prizes and the reception by Mrs. Gibson, wife of the president of the D.R.A., was the social event of the meeting. This was to have been the important final event of the meeting, but, owing to unavoidable postponement the attendance was not quite as large as expected. The reception took place in the Council tent, the band of the G.G.F.G. rendering a fine selection of music during the afternoon.

Hon. Mr. Gibson presided at the presentation, and in his opening remarks said that on this occasion the D.R.A. could consider themselves recipients of the prizes instead of the donors, as the Bisley team were giving them the Kolapore Cup. (Loud cheers.) He was pleased to see that Commandant Starke, Adjutant Bruce and the Canadian team that had brought this high honor to Canada, were present.

Lieut.-Col. Starke, in acknowledging the kind remarks of the president, spoke a few words of thanks in behalf of himself and the team for the kind way in which the victory had been received.

His Excellency said that the team had covered themselves with glory, and not only themselves but the Dominion of Canada by their successful shooting in this most important match. This competition, which they had conducted so successfully, in England had a deeper significance. It was the means of binding together the influence of Engand and Canada, and making them all brother subjects of her illustrious Majesty the Queen.

The prizes were then presented by His Excellency, Lady Aberdeen, Lady Russell, Sir Frank Lockwood, Mme. Laurier, Mrs. Gibson, Hon. Sir Oliver Mowat, Hon. Sir Mackenzie Bowell, Lady Majorie Gordon and Their Excellencies' sons.

Honor for Mr. Blue.

Mr. Archibald Blue of the Ontario Bureau of Mines has received word from Buffalo that he has been elected secretary of Section I (statistics) of the American Association for the Advancement of Science.

the doctors

approve of Scott's Emulsion. For whom? For men and women who are weak, when they should be strong; for babies and children who are thin, when they should be fat; for all who get no nourishment from their food. Poor blood is starved blood. Consumption and Scrofula never come without this starvation. And nothing is better for starved blood than cod-liver oil. Scott's Emulsion is cod-liver oil with the fish-fat taste taken out.

CANADA AND BELGIUM.

Arrangements Completed For a Steamship Service Between Antwerp, Cologne and the Dominion.

London, Sept. 4.—Arrangements have been completed between the Belgian Steamship Company and the Canadian Government for a steam service between Antwerp and Cologne and Canada. The British steamer Greta Holme will open the service, sailing from Antwerp on Monday, September 7. The steamers will sail fortnightly from each terminal point.

"GIVE ME PROFIT!"

The Motto of Those Who Retail Common Package Dyes.

There are still a few business men in Canada who care more for money profits than they do about satisfying their customers.

These are the business men who sell inferior and imitation package dyes for home dyeing. They buy these common dyes from the makers two or three dollars per gross less than the Diamond Dyes cost, and then retail them at full price—10 cents—asked for the reliable and genuine Diamond Dyes.

This is deception pure and simple. The women of the country can soon put a stop to this kind of swindling business if they continually insist upon having the Diamond Dyes. Poor dyes mean dingy and smutty colours, ruined goods and lost time and money. Diamond Dyes are easy to use, and you always get a grand return for the small amount of money you expend.

Baby Nearly Dead.

SIRS.—My baby was very bad with summer complaint, and I thought he would die, until I tried Dr. Fowler's Extract of Wild Strawberry. With the first dose I noticed a change for the better, and now he is cured, and fat and healthy. MRS. A. NORMANDIN, London, Ont.

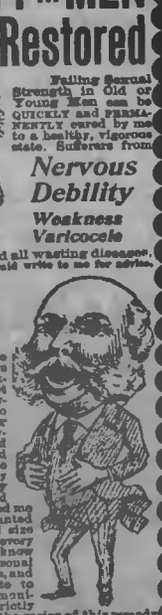
VITALITY in MEN Restored

Failing Sexual Strength in Old or Young Men can be QUICKLY and PERMANENTLY cured by me to a healthy, vigorous state. Sufferers from

Nervous Debility
Weakness
Varicocele

and all wasting diseases, should write to me for advice.



I have been a close student for many years of the subject of weakness in men, the fact is, I was a sufferer myself. Too bashful to seek the aid of older men or reputable physicians, I investigated the subject deeply and discovered a simple but most remarkably successful Remedy that completely cured me, and fully enlarged me from a shrunken, stunted condition to natural size and strength. I want every young or old man to know about it. I take a personal interest in such cases, and no one need hesitate to write me, as all communications are held strictly confidential. I send the recipe of this remedy absolutely free of cost. Do not put it off, but write me fully at once, you will always bless the day you did so. Address,

TOUGH CLOTHES FOR THE BOYS.

Young Canada Begins Another Six Months' Schooling.

Tough clothes for boys to wear to school this Fall and Winter. That's the burden of our song. Strong clothes to stand the wear and tear of play, rough but healthy. Strong clothes to stand the work of out of doors fun in cold weather. We have just such things for the youngsters and, besides being full of wear, they are neat and shapely.

Did the last suit of clothes you bought for your boy from us, wear as well as it ought to hav worn, considering the price paid? If it did you should go to the same store for the next suit. You ge your money's worth. We deserve your patronage. We'll do better by you and by the boy than any other clothier.

5 CASES OF BOYS' NEW SUITS

These are only the advance guard of our Fall stock, for the boys. These are TWO and THREE piece Suits, and will fit boys all the way from 3 to 16 years. We sell the best of everything to keep in the heat, and keep out the cold for boys. We were boys ourselves, once,—it seems an awful long time ago.

We've all good qualities of Boys' Clothing. We've—probably—more Boys' Clothing in our store than in all the other stores put together. We've a weakness for supplying the boys. Ask yours if this isn't so?

Some idea we may give you of the value and inducement we purpose giving to buyers, when we say

A $2.00 BILL

will buy a beautiful, heavy, all wool, neatly made, well trimmed, and built of Auburn Mills Tweed Suit.

Of course we've cheaper Suits, and as low as 95c per suit. Better Suits up to $3.00 and $4.00, but

OUR $2.00 SUIT IS A CORKER.

Just the thing for a boy's school Suit, and as good as ever sold for $3.50.

Mothers should see these Suits. You know value. You know your boy's clothes-wrecking propensities.

Come to us. We're full of economical suggestions. No matter what your money is, we'll help you to make it go as far as it can. Come! The verdict is nearly always in our favour. It isn't often that the careful buyer decides against us.

"TOUGH CLOTHES FOR THE BOYS" That's our Motto.

WE HAVE NOT CHANGED OUR DECISION

To retire from business as quickly as circumstances wi l permit. But, as the Fall trade approaches we find ourselves with a large and varied stock of high-class Staple Dry Goods, which cannot be moved out without being well assorted with New Fall lines of the latest, leading Novelties of 1896.

We shall continue, therefore, during the Fall and early Winter months to keep a regular assortment of the leading Novelties for fashionable

Fall Wear.

The buying has been done with extreme care, but the stocks are comprehensive enough to satisfy every need, ranging from the newest things in **SILK AND WOOL DRESS GOODS,** for the super-fashionable, to the simplest effects in the quietest materials for people to whom a dollar is a dollar, or sometimes more.

It must not be forgotten, however that our chief object is still to get entirely out of business. This will have its full effect on prices, and the new goods will have to share in the same general reduction necessary to accomplish a prompt clearance of the entire stock.

ROBERT HALL

Provisions For Sunday and Monday.

Kennedy's meat market will be closed on Monday, Labour Day. Better lay in provisions enough to-night for the two days. This evening special bargains will be given in meats. Every Saturday meats are sold by the quarter or in large cuts at wholesale market prices. If you want some spring chicken or lamb, or the best of beef for holiday eating leave your orders to-night at Kennedy's meat market.

Two No-Labour Days.

Remember your Sunday reading to-night and your Labour Day reading as well. The Peterborough Bookstore has all the September illustrated monthlies in stockw Munsey, Cosmopolitan, Metropolitan, Masseys,Scribner's, etc. Also the illustrated weeklies and stocks of standard works and miscellaneous books. Fine writing papers for correspondence, writing tablets, pens, inks, envelopes, etc.—A. H. STRATTON & Co.

New Hardware and Stove Firm.

Fortye & Harper is the style of a new firm of hardware merchants—Mr. R. H. Fortye and Mr. James Harper. They will, about the 1st of October, open out a general hardware and stove store in the premises formerly occupied by Mr. John Cameron. The stock of the new firm will consist of shelf and heavy hardware, stoves, furnace heating and plumbing supplies and plumbing work will be done. They will be agents for Gurney's Oxford line of stoves, ranges and furnaces. Both members of the firm are young men of energy and business experience in the special line in which they propose to deal. They are well known to the community and should receive a liberal patronage.

They will Remain.

The statement that the Wilson Dramatic Company intended remaining another week in Peterborough, was received with great applause at the opera house last night. During the present week the company has won golden opinion from all who have attended the performances, and each succeeding night the audiences have grown, until the climax was reached last evening when the opera house was full to the doors. The claim made by Mr. Wilson that there in not a "stick" in the entire company, has been substantiated during the week, as each and every play has been produced in a manner deserving only of praise, and that in no unstinted manner. The theatre-going public of Peterborough will learn with pleasure of Mr. Wilson's intention to remain in town for another week on account of the cancellation of the dates in another town. Mrs. Wilson has joined the company, and as her talents are too well recognized to need any comment thereon, the opera house will probably be crowed each evening next week.

STREET LIGHTING.

The Town Will Purchase a Plant of Its Own.

At the meeting of the Committee of the whole Council last night, at which tenders were to have been opened for the lighting of the streets, considerable surprise was expressed when the clerk announced that not a single tender had been received. A communication was read from the Peterborough light and Power Company stating that the conditions imposed in the contract blanks were too stringent and therefore the company had refrained from tendering.

The councillors discussed the situation for some time and finally decided that under the circumstances the best thing the town could do was to invest in a plant and supply its own light. The Mayor and Councillors Best and Mills have been appointed a committee to ascertain the cost of a plant suitable for the purpose.

Mr. T. E. Bradburn, of the Light and Power Company, was seen this morning and stated that the reason the company did not tender was that the contract was of such a nature that instead of receiving money for the light the company would probably be paying for the privilege of lighting the town. The principal clauses objected to in the contract were those in which the company would be obliged to pay $400 a year for having poles on the streets, would be compelled to paint its poles at an estimated cost of $1,200, and in case of a lamp being unlit would have to pay a fine of fifty cents, besides losing the pro rata cost of the light.

Mr. W. H. Meldrum on being seen stated that on account of the manner in which his last tender was treated by the council, being not accepted, although the lowest, he decided not to again tender and was strengthened in this resolution by the hard and fast conditions of the contract which would have to be made. No company, he stated, could comply with the conditions without losing money on the transaction.

THE ELECTRIC LIGHTING MATTER.

What is the Secret of the Sudden Lull?

A short time since the town council advertised for tenders for the lighting of the town by electricity. Tenders were, as is known, received, and the matter was referred back by the council to the committee to call for new tenders which were asked for on certain conditions, and last night the committee of the whole council met to open the tenders. However, no tenders were submitted, both companies declining to tender. The committee has therefore referred the whole question to a sub-committee to make enquiries with a view of the town erecting a plant of its own.

The question to day among the ratepapers is, What is behind the whole affair, and how the decision was arrived at that both companies should so suddenly retire fom the pursuit of what only a few days ago they were so anxious to secure If the conditions of tender were prohibitory, it is regarded as strange that neither company asked for a reasonable modification of the conditions. It is equally strange that two corporations that were lately so bitterly at cross purposes should show such cordial unanimity in dropping out of the pursuit of an important and presumably profitable contract.

Which is worse, imprisonment for life or a life long disease, like scrofula, for example? The former, would certainly be preferable were it not that Ayer's Sarsaparilla can always come to the rescue and give the poor sufferer health, strength and happiness.

SUCCESSFUL PUPILS.

Local Scholars who Took Matriculation Honours in Toronto.

The staff of the Collegiate Institute feel much elated over the splendid standing taken by the pupils at the recent departmental examination, and Peterborough has reason to feel proud of the high position amongst provincial institutes which the local one has taken.

In to-day's city dailies the following names are mentioned as having passed the Matriculation examinations at Toronto University and taken honours as well :

Miss J. F. Robinson, first class honours in English and Chemistry ; 2nd class honours in German, History, Geography, Mathematics, Biology and Physics.

Miss E. Mathieson, first class honours in English, German, French and Mathematics; 2nd class honours in History and Geography.

Miss M. E. O'Connell, first class honours ing in French and German ; 2nd class honours in English, Mathematics, History and Geography.

29 Men's Canadian Tweed and Serge Suits, light and dark colours, well made, good trimmings, regular $4.50 to $5, Grafton's sale price for Friday and Saturday..... **$2.98**

Our Marksmen.

In the Kirkpatrick Challenge Cup Match in Ottawa on Thursday, Pte. Fitzgerald won an $8 prize and Staff-Sergt. Bartlett, $6.

Telfordian Temperature Topics.

Saturday, Sept. 5th.—At this morning's observation the thermometer indicated 40 degrees above zero. The white frost yesterday morning will likely bring more rain, as it generally does.—THOS. TELFORD.

A Diamond Exhibit.

Beyond doubt the greatest exhibit of diamonds ever seen in this country is now displayed at the Industrial Fair in Toronto. It is the propert of the well house of Ryrie Bros., of Diamond Hall, and is a marvel of elegance. The articles displayed range all the way from $5.00 to $30,000.00 each. The last named piece is a magnificent necklet containing 154 diamonds, the total weight of which is 50 per cent. heavier than the celebrated Kohinoor Diamond now in possession of her Majesty Queen Victoria. Another piece which is attracting most favourable comment is a diamond and sapphire brooch, which is an exact duplicate of one presented by the Czar of Russia to H. R. H. Princess Maud of Wales on the occasion of her marriage in July last. The display of rings is almost bewildering and includes everything from a neat little solitaire diamond at $5.00 up to $600.00 each—all manner of styles and combinations. Those visiting this great fair will miss one of it best features unless they make a point of seeing the exhibit of Ryrie Bros., of Diamond Hall.

A PRETTY WEDDING.

Nuptials of Mr. Harry Foote, of Town, and Miss Ella Brown, of Trenton.

An interesting ceremony took place on Thursday last at the residence of Mr. H. Brown, just outside the town of Trenton, when his daughter Miss Ella F. Brown was united in marriage to Mr. Harry Foote, of Peterborough.

The ceremony was performed by Rev. Mr. Horton, of Trenton, the bride being assisted by Miss Mamie Foote, sister of the groom. The office of groomsman was performed by the bride's brother, Mr. J. J. Brown.

The drawing room in which the wedding took place was most profusely decorated with flowers and potted plants for the occasion. The bride was most tastily gowned in a robe of white silk, with garniture of chiffon and wore a veil and orange blossoms. A most handsome shower bouquet of white Bride roses was carried. The bridesmaid looked charming in a gown of lemon coloured silk, with silk trimmings and also carried roses.

At the conclusion of the ceremony the guests were invited to partake of a tastily arranged wedding breakfast, after which Mr. and Mrs. Foote left for their bridal trip east.

The groom's many Peterborough friends will join with the EXAMINER in extending the heartiest of congratulations.

Good morning, have you read Thos. Slater's advertisement for men on page 3?

PERSONAL.

The Misses Dench, of Lakefield, were in town yesterday.

Rev. J. T. Dowling, of Woodstock, is in town for a few days.

Rev. Mr. Cragg has returned after a visit to friends in Omemee.

Miss Belleghem is visiting friends in Cobourg and Port Hope.

Miss Maud Nugent, of Millbrook, is on a visit to relatives in Ashburnham.

Mr. and Mrs. Jas. Douglas, of Galt, are visiting at Mrs. Wm. Scott's, Ashburnham.

Mr. Ed. Roy is improving slowly at the Belleville hospital after a violent attack of typhoid fever.

Mrs. J. G. S. Terrill, of Belleville, is spending a week in town with her son, Mr. Alf. Terrill, of the EXAMINER.

The Port Hope Guide says : Mrs. (Rev.) M. E. Wilson, Baltimore, was in town this morning. She went north to Peterborough.

Messrs. E. Hall, G. Dawson and E. Bamfield left this morning on a tour to Toronto, Hamilton and Niagara Falls on their wheels.

Dr. Clarence Piper is spending a few days in town before returning to Toronto from Stony Lake, where he has been duck shooting.

Mr. J. T. Wright, Stewart street, Ashburnham, who has for some weeks been seriously ill is, we are pleased to state, recovering rapidly.

Mr. Maitland Roy Stewart street, has returned from Belleville, where he was in attendance at the sick bed of his father-in-law, Mr. Thos. Wragge, who is seriously ill.

Mrs. and Misses Florence and Mary Craig, of Fergus, are spending a few days in town on their way home from Stony Lake, their cottage being now closed for the season.

Rev. O. G. Langford, B. A., of Georgetown, a former resident of Peterborough, will occupy the pulpit of the Murray street Baptist church to-morrow morning and evening.

The Minden Echo says : — Mr. Wm. Steinkrauss, of Lutterworth, returned home from Peterborough on Friday evening last, where he had been attending the wedding of his sister-in-law.

The friends of Mr. Wm. Madill, druggist, were pleased to see him out yesterday for a drive, after his recent illness, from which he has entirely recovered. He expects to resume his duties at the store in a few days.

The Rev. J. A. McCamus, pastor of the Norwood Methodist church, will preach in the Mark street church, Ashburnham, to-morrow, both morning and evening. The Rev. W. C. Beer will be preaching in Norwood.

Miss Bryan and the Misses Middleton, of Mobile, Alabama, who have been visiting Mrs. and Miss Grant, of Bethune street, during the summer, have left for home, but will spend some time in Toronto en route.

The friends of Dr. Kempt will be grieved to hear that serious doubts are entertained as to whether he will recover his eyesight, after an attack of inflammation in his sole remaining eye, the first one having been destroyed some years ago. He is at present in Toronto under the direct care of Dr. Burnham, the specialist.

Mr. Rogers, manager of the local branch of the Bank of Montreal, and Mr. G. A. Smith, of the Central Bridge Works, intend leaving this evening to wheel to Toronto. Mr. Rogers will be absent for a ten-days' wheeling trip, being accompanied as far as Toronto by Mr. Smith, who returns on Monday.

Miss Cahill, Miss Marks and Miss Mahoney have returned from attending the fall millinery openings in Toronto. Miss Mahoney has also been attending a number of the openings in the United States. Ideas have been gained concerning the very latest novelties of the season, and Miss Cahill's millinery parlours promises to rival any in Peterborough this year.

A CLERGYMAN'S PRAISE.

Of Ryckman's Kootenay Cure.

Mr. S. S. Ryckman, Hamilton, Ont.

Dear Sir,—I take great pleasure in giving you a statement regarding my case of rheumatism, with which I was afflicted for over thirty years. For the past five or six years the pain had gradually approached my breast and affected me so that I could not sleep on my left side. Another trouble I had was a kind of dyspepsia, known as gastric indigestion, from which I suffered considerably. I had to be very guarded as to what I ate, otherwise I paid the penalty. At present, since taking your valuable remedy known as Ryckman's Kootenay Cure, I am able to eat my meals without any bad effects and sleep all night without any pain or bad feeling.

In addition, let me add that my rheumatism was so bad at times that I could not move myself. I am now like a different man and conscientiously recommend your medicine, Kootenay Cure, to anyone suffering from rheumatism or stomach trouble. I am glad to have found the remedy and am willing furnish you with this information that it may help others who are similarly afflicted. Wishing you success, I remain, yours truly, George Braun,

Pastor of the Evangelical Association.

Hamilton, August 10th, 1896.

Residence, No. 146 Market street.

Is Your Piano in Tune?

The change of season affects pianos as well as anything else. Mr. Geo. Gumpricht, practical piano maker and tuner, with 28 years experience, attends to all orders left at Mr. H. S. Macdonald's drug store.

People's Coal Company.

Why are so many people leaving their order with the People's Coal Co., Ltd.? Because it is the cheapest and purest hard coal in town, being free from iron, sulphur and slate. We will deliver in bags and weigh on market scales. Contrary to reports we have no connection with any other town company and our coal can only be bought through us. Do not be carried away by talk from interested parties, but try a bag for yourself. No charge unless satisfactory. We also handle Batts' Cannel, a very superior coal for grates. Office, 230 Charlotte street ; Tel. 366 ; 1st door east of Aylmer street.

BLOCKING THE STREETS.

To the Editor of the Examiner :

A ratepayer writes—enquiring if the sewer contractor will be permitted to block up Hunter street as has been done on Simcoe for a week or two.

The proper authorities should see that this unnecessary inconvenience to the citizens of Peterborough be put a stop to. At a very small expense the contractor with a few planks and scantlings could make a temporary roadway which would be much used on this busy corner.

RATEPAYER.

PROPPED UP BY PILLOWS FOR EIGHTEEN MONTHS.

A Terrible Experience With Heart Disease. Yet Cured by Dr. Agnew's Cure for the Heart.

Do not our largest sympathies well out to those who suffer from heart disease? It comes so suddenly, and its symptoms are usually so distressing that their direct agony is experienced by the patient. The case of Mr. L. W. Law, of Toronto Junction, Ont., who was unable to lie down in bed for eighteen months owing to smothering spells and palpitation, is by no means exceptional. Who would have thought the case could be cured, and yet one bottle of Dr. Agnew's Cure for the heart removed trouble in this case. It gives such speedy relief, that even where the symptoms are less dangerous, it ought at once to be taken as a means of driving this terrible disease from the system. For sale by H. S. Macdonald.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—Monday being Labour Day there will be no issue of the EXAMINER.

—All fishing tackle and rods, and hammocks, selling at cost at SAILSBURY'S.

—Mr. W. H. Manning will be in his office on and after Saturday, the fifth day of September next. 10d-2w

—A fine looking black horse was astray yesterday and wandered around the vicinity of the George street church for some time.

—The famous imported Clydesdale, "Louie Gordon," formerly owned by J. H. Wilson of Lifford, and lately by Messrs. Hassard, Grandy & Shaw of Millbrook, has been sold to parties in Keene for a good figure.

—Lord Aberdeen will arrive here on the 21st to open the Central Exhibition. He will come by the G. T. R. and depart by the C. P. R., an evidence of His Excellency's impartiality, which everybody but Sir Charles Tupper believes in.

—No ; the figures with automatic heads in Mr. W. J. Green's shop window do not, because their heads are loose upon their shoulders, represent "fresh" Ottawa civil servants. They are simply an advertisement for the People's Coal Company.

A C. P. R. CONDUCTOR.

After Two Years' Misery was Cured by Ten Boxes of Dodd's Kidney Pills.

Prescott, (Special) Aug. 24.—For a long time much sympathy had been felt and expressed for Mr. Wm. Freeman, a very popular conductor of the C.P.R., who had been rendered unfit for duty the past few years by a peculiar and distressing form of kidney disease. It now transpires, much to the delight of his friends, that he has been enabled to resume his regular trips. He claims, as the results of using only ten boxes of Dodd's Kidney Pills, that he has entirely recovered, and that he never felt better in his life, and believes that these Pills have cured him to stay cured.

Cheese Factory Burned.

The Kinmount cheese factory fell a victim to the torch of the incendiary on Saturday morning last about 3 o'clock. The building, machinery and cheese on hand were all destroyed or supposed to be so, the only plausable reason given for its destruction would seem to be to cover theft. We understand there was an insurance of $700 on the building and contents.

Mothers

Anxiously watch declining health of their daughters. So many are cut off by consumption in early years that there is real cause for anxiety. In the early stages, when not beyond the reach of medicine, Hood's Sarsaparilla will restore the quality and quantity of the blood and thus give good health. Read the following letter:

"It is but just to write about my daughter Cora, aged 19. She was completely run down, declining, had that tired feeling, and friends said she would not live over three months. She had a bad

Cough

and nothing seemed to do her any good. I happened to read about Hood's Sarsaparilla and had her give it a trial. From the very first dose she began to get better. After taking a few bottles she was completely cured and her health has been the best ever since." MRS. ADDIE PECK, 12 Railroad Place, Amsterdam, N. Y.

"I will say that my mother has not stated my case in as strong words as I would have done. Hood's Sarsaparilla has truly cured me and I am now well." CORA PECK, Amsterdam, N. Y.

Be sure to get Hood's, because

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are purely vegetable, reliable and beneficial. 25c.

TAX SALE OF LANDS IN PETERBOROUGH.

OWNERS OF LAND LIABLE TO BE sold for Taxes, are notified that by paying arrears, now, they will save advertising and other further expenses.

F. BROWNSCOMBE,
Town Treasurer.

AUGUST SALE.

This is not a clearance of old-stock but downright bargains in brand new goods. Choose quickly for you will not get such value offered again, and our stylish, perfect fitting garments will not be old fashioned or out of shape by any means next spring or summer.

Any garment made up by our Practical Cutter and Tailor will fit perfectly and have a stylish appearance when it is worn thread-bare.

BALL & CO

is the place for bargains.

Cox's New Block, Water St.

THE PETERBOROUGH BOOKSTORE. **A. H. Stratton & Co** 417 GEORGE ST. PHONE 285.

PETERBOROUGH, AUGUST 29th.

Office, School and Desk!

The first week of September has been a bloodless one—the behaviour of the brigades of Scholars during the first three days of the week as they trampled in and out in regiments in their eager struggles for School Books, being admirable, good natured, and all that could be desired.

But, if the week has been bloodless, it has also been busy and blithesome. School Books and School Supplies were "on the fly." How those Scribblers flew, especially the "ATLAS" with the handy maps on the cover. A thousand or more went off in three days. And the "OXFORD" too, with its specially fine paper for advanced scholars—took like hot cakes.

New stock **"A. H. S." Writing Tablets,** only 10, 15 and 25c. "A. H. S." Pencils 2 for 5c. Splendid lines of new Note Papers, specially got up for PETERBOROUGH BOOKSTORE. Kid surface in azure cream and helitrope shades, worth 50c, for 25c. Old style Vellums and Superfines.

We welcome two other of the newest Novelties in Stationery, namely :—Paul's Inks and Mucilage, put up in new and improved Automatic Ink Stands and Brushes. Come in and test them. We are sole agents for them.

TO TEACHERS:

It will pay Teachers to come in and have a quiet chat with us. We have aids and pointers for teaching that will help them to economize their time and assist in their work.

A. H. STRATTON & CO.

PETERBOROUGH BOOKSTORE.

Agent for Butterick's Patterns. Telephone No. 285

Special Offerings —OF— NEW FALL GOODS —AT— HALL, GILCHRIST & CO'S.

We have always in the past been noted for having on hand the latest styles and best values in the trade. We have never been better prepared to serve you than we are this season. Our New Goods are forward earlier than usual and you can rely on the values we offer, as we will not be undersold. You are always welcome to call and see the styles whether you wish to buy or not.

New Dress Goods, Silks and Silk Velvets.

1000 yards New Tweed Dress Goods, in lovely patterns, special price 25c.

300 yards Boucle Camels hair tweed, sale price 40c.

ANOTHER RICE LAKE SERPENT MOUND.

ASPHODEL FURNISHES THE SECOND GREAT FIND.

A Futile Search for a South Shore Mound — The North Shore Has a Monopoly of Mounds — The Significance of the Serpent and Egg Typified in Prehistoric Mounds — World-Wide Kinship of Prehistoric Peoples in Regard to Worship—The Asphodel Mounds.

David Boyle, the curator of the Archæological Museum of Ontario, Toronto, has an insatiable appetite for aboriginal and prehistoric bones equalled only by the legendary giant of juvenile lore—

Be he live or be he dead;
I'll grind his bones to make me bread.

and after the ophidian triumph of Roach's Point—the identification of the serpent and egg mound last month—he longed for more worlds to conquer. Accordingly, accompanied by a callow archæological acolyte in the person of an EXAMINER representative and an amateur enthusiast, Mr. A. F. Hunter, of Barrie and ske, of Toronto University, he boarded Conductor Staunton's train on Wednesday for Keene, the "McIntyrian" medium of access to Gore's Landing, where Mr. Boyle had been advised that the indications of another serpent mound bristled in the "Happy Valley" immortalized by Mrs. Traill's prolific pen in the "Canadian Crusoe"—according to local legend. An overland journey, through the medium of a pair of ponies whose sleek condition had not been imperilled by reckless impulses to inordinate speed, brought the trio to Hiawatha, the Capital of the Mohawk Indian reserve, with its post office of modest, and its church of towering—and tin-capped at that — proportions. From here Robert Remigius conveyed us in Squire Thompson's trusty shallop to Gore's Landing, by the way, one of the prettiest points on Rice Lake, and the elevated hostelrie of mine host Braithwaite, where a meal of the squarest dimensions, susceptible steak and palatable accessories, rewarded the quest of archæological hunger and suggested the canonization of the cook. The inner man pleasantly fortified, a stroll was taken westward by way of a green lane, boulder strewn, bower roofed, and flanked midway by an Anglican church charged with the Major share of religious responsibility of the vicinity, to the "happy valley,"

A MILL GIRDLED GLEN

of about ten acres area and about a quarter of a mile from the wharf, at the water front of which nestled the brown but hospitable residence of Mr. Reginald Drayton, an English gentleman, upon whose demesne reposed the supposititious serpent mound.

In a word here was the spot, which Mr. Drayton had informed Mr. Boyle had been reported as the probable site of a serpent mound. But before beginning scientific operations, the graceful and genial hospitality of Mr. Drayton, the host of the expedition, must be warmly acknowledged. The party was made free of his pleasant home, whose drawing room, in addition to a fine collection of archæological specimens indigenous to the vicinity, had its walls covered with water colour sketches and oils of considerable merit, of local scenes and of Stony Lake scenes, by the hosts' own clever hand, intermingled with a stray and rare specimen of the old masters, including a portrait of the spiritualle style of Sir Peter Lely, painted by his own courtly hand—an unexpected presence in this secluded valley, "far from the madding crowd's ignoble strife," as well as regular postal communication. This valley, which local legend identifies with the "Happy Valley" of Mrs. Catharine Traill's "Canadian Crusoe," is well deserving, in scenic beauty and capabilities of quiet enjoyment, its felicitious title. Diagonally through this valley from south-west to north-east stretches a sinuous ridge of such peculiar configuration as to suggest to the archæological mind, a "serpent mound" analagous to that identified by Mr. Boyle at Roach's Point. It is six hundred feet in length with gracefully sweeping serpentine curves and terminates, as to its head, near a point, where, according to theory, the "egg," represented by the site of Mr. Drayton's residence, should be situated. And colour is lent to this inference by the fact that in excavating the foundation of this house a skeleton was unearthed whose skull had been apparently fractured by a blow from a tomahawk. But Mr. Boyle, who has as much interest in disproving as in confirming the theories of sanguine temperaments as to aboriginal remains, made excavations and sections of the mound with the result that the peculiar mound or embankment

WAS SHOWN TO BE A REEF

formation, caused by glacial action or by alluvial deposit in the form of a receded shore at a period of previous higher altitude of the waters of the lake. This experience shows that merely serpentine shape without the corroborative evidence of internal composition and the presence of interment remains such as characterise the Otonabee serpent and egg mound to be mentioned latter, may be a reason for regarding the so called "serpent mound" of Adams County, Ohio, as possibly, though perhaps not probably, a phenomenal freak of nature.

Mr. Boyle and his attendants then recrossed the lake to give a little attention to the mounds he had discovered and investigated on the northern shore, which afford most interesting archæological information.

His researches show the Rice Lake region to be one of the most, if not the most, interesting in Ontario, in relation to archæological remains. In this sense this district extends, so far as research has been made, from Jubilee Point, on the north shore of Rice Lake and at the debouchement of the Otonabee River, on the west, to the mouth of the Trent River, on the east. This unique interest arises from the fact that this district is the meeting place of the mound and ossuary systems of aboriginal interment. The former, it is known, extends along the provincial water front from the vicinity of Montreal on the east, westward to the head of Rice Lake, while the system of ossuaries extends from Rice Lake westerly along the water front to Georgian Bay, as well as through many parts of Ontario south of Georgian Bay and Goderich.

The Rice Lake mound system embraces, so far as explored scientifically, about a dozen examples of this aboriginal predilection for elevated burial places. About a dozen so far have been identified and more or less explored by Mr. Boyle,

ALL ON THE NORTHERN SHORES

of Rice Lake. Beginning at the west, and excluding one reputed mound on the west side of the Otonabee at its mouth, there are four mounds situated on the farm of Mr. James Miller, of Keene, on the Mohawk Reserve, about a mile and a half west of the church in Hiawatha, the village of the Reserve. All these mounds contain human remains, and two strata of these—one prehistoric and one dating since the later occupation of the country. One of these mounds is unique, as occupying a low position in a valley at the foot of the slope containing the other mounds; but it is well defined, both as to elevation and contour. Peculiar interest attaches to this, which has been named "the Shell Mound" of the group, from the fact of a peculiar shell having been found among the osseous and other contents. This was the shell of a buoyeon, rudely shaped in the form of a turtle and crudely ornamented with engraved figures, the most significant of which was the central one, consisting of two concentric circles, drawn with evident ignorance or disregard of the value of centric and circumferential points as aids to symmetrical results. The other three mounds in this group were similar in character and contents to the valley mound, save the shell incident.

About five miles eastward along the north shore, on Roach's Point, near the mouth of the Indian River, a bold point, almost a bluff, contains seven mounds. Six of these are of the normal type, but the seventh—a significant number—is remarkable as being one of the only two undoubtedly certain serpent mounds so far discovered on this continent.

The serpent and egg mound is one of the most unique and interesting features of archæological occurrence in this country. These mounds are found commonly in the remains of Europe and the old world and are regarded as evidences of the prevalence of serpent worship one of the earliest forms of adoration amongst primitive peoples, suggestive of religious reminiscence of the serpent incident of Eden, doubtless the germ idea of this form of worship. Hence it came that serpent and egg mounds—the one the symbol, in various forms, of eternity and the other, the egg—as it is to this day even amongst Christian peoples—the symbol of life or reproduction. The serpent as a concrete expression of the idea of

AN OBJECT OF WORSHIP

is also found in the rude sculptures, temples, etc., of archaic peoples. Hence it is a matter of deepest interests that the presence of a serpent and egg mound on this continent such as the Otonabee mound, identified by Mr. Boyle, should prove the truth of Shakspeare's words, that "one touch of nature makes the whole world kin;" that the oneness of untutored human aspiration after god like objects of veneration should almost instinctively suggest the same forms, those of the egg and serpent; that, in fine, of one blood God created all the nations of the earth.

The serpent and egg mound at Roach's Point is a most interesting monument; it has been an object of popular curiosity for years and was regarded variously as the remains of a fort or a simple burial place. It has been explored for a long time at intervals in a desultory way, for the mere sake of getting bones and no doubt with the expectation of securing some objects of value, possibly of gold or silver. But it is as well, in order to check the vandalism of wanton destruction of these monuments to state Mr. Boyle's assertion that there is nothing of monetary value to be found in any of these mounds—nothing but bones and a few pipes or other remains of only scientific or archæological value.

Up to the date of Mr. Boyle's visit there was no idea that the mound had any peculiar significance. Mr. Boyle first saw it without any preconceptions as to its true character as a serpent and egg mound. He visited the locality for the purpose of exploring the numerous ordinary mounds that exist all over the neighbourhood and the fact of its true character was literally forced upon him. The situation of the mound in relation to the vicinity, as well as its tortuous shape, forbade the possibility of its being considered a fortification—it would afford no defence by its position. He was standing on the top of the mound at its western end and studying its length, when its serpentine character suddenly presented itself and further investigation led him to

THE IMPORTANT CONCLUSION

that the structure, which afforded unmistakeable evidence of artificial character was a veritable serpent and egg mound, the cis-Atlantic counterpart of somewhat similar mounds that abound in the Old World. He was further convinced by a simple test. An Indian of the vicinity, who had just landed from his canoe, came to where Mr. Boyle was standing and the native was asked what the mound looked like. After a careful survey of the structure from Mr. Boyle's point of view he replied that it looked like a snake. To ascertain if its internal character corroborated the evidence of the outside, Mr. Boyle caused excavations to be made in such a way as to disclose the fact that the mound was of artificial formation. A face of a section was carefully smoothed and the mottled appearance indicated that the mound had been built up of small portions of soil deposited by different workers and procured from different places, and consequently of different characters and colours. There was an entire absence of regular stratification, such as is invariably found in mounds of natural formation, and in addition, at the base of the mound the vegetable mould was found continuous with the uncovered mould outside the mound at its base.

This mound is situated about 300 feet, measuring on the slope, above the lake shore, and about 75 feet above its level, and lies in a due east and west direction. The serpent is 190 feet in length from the head to the tip of the tail. In front of the head and 25 feet distant is the "egg," 35 x 40 feet. The height of the body is an average of four or five feet, though the surface is somewhat uneven, owing to the removal of soil caused by the uprooting of a large oak tree, several of which grow on the top of the mound. The serpentine shape is

VERY DECIDEDLY MARKED.

The sinuosities occur at regular intervals of 40 feet, and the head itself is of about the same length. Exploration of the disclosed the presence of several skeletons, both prehistoric and modern—or intrusive—and similar skeletons were found in a slightly enlarged portion of the body about 40 feet from the tip of the tail. The The presence of skeletons at this point and the increased size of the body near the tail have a most interesting symbolical significance, which will be referred to later. In addition to the double layer of skeletons found in the head and near the tail, there were several found in the egg, the pre historic or lower skeletons, having been buried in a sitting position and the recent or "intrusive" skeletons had been placed on the side with the knees drawn upwards towards the chin.

Mr. Boyle, after a careful study of the situation, comes to the conclusion that the mound at Roach's Point is a genuine example of the serpent and egg mound and analagous to similar ones found in the old world. He is most positive in the belief of the absolute genuineness of what he has named the "Otonabee serpent and egg mound." He regards it as a discovery of the greatest archæological importance. Surveys of the mound and its surroundings will at once be made with a view of preparing an exact model of this interesting monument of a prehistoric people on this continent.

In the vicinity of this mound at Roach's Point are found several other mounds of the ordinary character, similar to those on the Miller farm referred to above. In these were found both ancient and modern skeletons, but nothing of special importance, except a skull which had the phenomenon, of an extra suture of the occipital bone, which defined a portion of it, altogether too large to be considered a Wormian bone.

ANOTHER SERPENT MOUND IDENTIFIED.

Important as was the identification of the Otonabee mound, the identification of another of like character at Cameron's Point, Asphodel township, at the mouth of the Trent River, is peculiarly important, affording, as it does, points of resemblance which are regarded as placing the serpent and egg character of both beyond dispute. This was identified yesterday by Mr. W. G. Long, of Toronto, a gentleman of considerable archæological experience, who has been co-operating with Mr. Boyle. The latter sent him down to Cameron's Point last Monday to investigate the character of a peculiar mound at that place. The result of Mr. Long's researches and excavations has been to demonstrate the existence of another serpent and egg mound on the north shore of Rice Lake. Mr. Cameron's conclusions were corroborated by the opinion of Mr. A. F. Hunter, who visited the spot yesterday, Mr. Boyle having been engaged in directing explorations in another place in the vicinity. The Asphodel serpent mound is situated in the township of Asphodel, and on a steep slope close to the water, so close that the erosive action of the elements has worn away a portion of the mound near the middle of the body on the waterward side. While differing in the character of the sinuosities from the Otonabee mound, the serpentine character of this mound is clearly defined. It

PRESENTS ALL THE EVIDENCE

given by the Otonabee mound of its artificial character, in the nature and disposition of the soil, absence of strata, etc. It is 138 feet in length and has fewer sinuosities than the other mound, but it has the same character of head and of tail, in both the presence of stones being a conspicuous feature, and in both at these points skeletons are found. In the Asphodel head there were twelve skeletons covered with stones, that is the prehistoric, the more recent being above the stones. In the tail were found five skeletons. The "egg" was 25x75 feet, placed in front of the head, and contained, as far as uncovered, three skeletons covered with stones. This mound has not been seen by Mr. Boyle and he is not prepared to give a decided opinion as its character, but there is little doubt but that it is a veritable serpent mound from its presenting salient characteristics in common with the Otonabee mound.

These points of resemblance may be noted: Both mounds lie due east and west, and both are situated at or near the mouth of a stream, which must have formed, at the time of their construction, important means of travel, facilities for reaching them as

CENTRES OF VENERATION.

Then another evidently important point of correspondence is the presence in both of skeletons associated with stones in the head and also in the tail end at a point that would correspond to the anal orifice in a living serpent. As this tail point in both is a distinct enlargement of the body, it may be assumed to symbolize the position of the posterior termination of the alimentary tract, which would not be visible with the serpent in its natural position.

Then both mounds, as well as all the mounds in this district, so far as investigation has progressed, are on the north shores of the lake, and the groups of the series are placed approximately equidistant, the mounds on the Miller farm, at the mouth of the Otonabee, being near the mouth of the Otonabee and five miles distant from the Otonabee mound, near the mouth of the Indian River, while seven miles distant is the Asphodel serpent and egg mound. But in an article written in the ordinary routine of newspaper work it is impossible to present all the circumstances as they will be presented in

THE REPORT OF MR. BOYLE,

which he is preparing and which will, in respect of this district, constitute one of the most important contributions to scientific knowledge in the field of Canadian archæology that has yet been made. We may expect a visit to the Rice Lake region from the members of the British Association on their coming visit, to see for themselves evidences of forms of expression of crude religious ideas, cognate to those found in their own country, though separated by three thousand miles of, then impassable, sea.

Young men and old should not fail to read Thos. Slater's advertisement on page 3

Football Excursion.

The Norwood Football Club will run an excursion on Monday, Labour Day, Sept. 7th, to Jubille Point, to play the Gore's Landing Club for a silver cup. Return tickets to Victoria Park 25 cents, to Jubilee 40 cents, to Gore's Landing and Harwood 50 cents; children half price. The steamer will leave the C. P. R. wharf at 8 a. m., calling at Ashburnham. Returning will leave Harwood at 2 p.m., Gores Landing, 2 30 p.m., Jubilee 4.30 p.m. T. Wigmore, Secretary Norwood Football Club.

PYNY-PECTORAL
Positively Cures
COUGHS and COLDS
in a surprisingly short time. It's a scientific certainty, tried and true, soothing and healing in its effects.
W. C. McCOMBER & SON, Bouchette, Que., report in a letter that Pyny-Pectoral cured Mrs. C. Garceau of chronic cold in chest and bronchial tubes, and also cured W. C. McComber of a long-standing cold.
MR. J. H. HUTTY, Chemist, 528 Yonge St., Toronto, writes: "As a general cough and lung syrup Pyny-Pectoral is a most invaluable preparation. It has given the utmost satisfaction to all who have tried it, many having spoken to me of the benefits derived from its use in their families. It is suitable for old or young, being pleasant to the taste. Its sale with me has been wonderful, and I can always recommend it as a safe and reliable cough medicine."

OFFICE—FURNITURE WAREROOMS

THE workman often eats his lunch on the same bench where he does his work. The office man snatches a few minutes from his occupation and turns his desk into a dining-table. Neither gets the exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both gets out of order.

Nature works as hard as she can, but there are some things she cannot stand. If a man gets some foreign substance into the works of his watch, he doesn't expect the watch to run until the impediment is removed. His own digestive system is a much more wonderful and delicate mechanism than that of his watch, and yet he neglects it and abuses it. He lets it get out of order, and refuses to help it. In the end his neglect reacts with terrible force upon himself. The reaction comes on gradually, however, so that sometimes he scarcely suspects the cause.

The cause of nine-tenths of the sickness of the world is constipation—a condition so common that four people out of five take it as a matter of course. From this one cause come indigestion; disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will cure it. Dr. Pierce's Pleasant Pellets are tiny, sugar-coated granules. They give to nature just the little help she needs. They are as gentle as they are efficient, and will perfectly cure the worst cases of constipation. There is nothing in the world like them, so there can be nothing "just as good." The druggist who tries to sell you something else has his own interest in view and not yours.

For a free sample package of from 4 to 7 doses, address World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

Any one sending 21 one-cent stamps to cover cost of customs and mailing *only*, will receive free a copy of Dr. Pierce's Common Sense Medical Adviser. The expense of producing this wonderful book has been paid by the sale of 680,000 copies at the regular price, $1.50. It has now been decided to give away *absolutely free*, an edition of 500,000 copies. Address as above.

MORE BIG SCORES

Made at the D.R.A. Meeting at Ottawa.

RAIN BESMEARED THE TARGETS

And Firing Had to be Postponed for a Couple of Hours—Corporal Pugh of British Columbia Put on Ten Straight Bullseyes—The Scores.

Ottawa, Sept. 3.—(Special.)—Rain came on last night and the result was that the D.R.A. meeting had to be postponed for a couple of hours. The Kirkpatrick match was on hand, the men were ready, but the targets were not in presentable shape, and consequently it was 10 o'clock before the riflemen were able to make a start. A right wind was steady enough at times to blow away the smoke that lay heavy in the valley. At intervals, however, the rain and smoke made the atmosphere thick. Good scoring proved to be the rule, with an occasional blank sandwiched in.

Corp. T. Pugh, 5th R.C.A., B.C., with his ten shots made ten bullseyes and the possible score of 50 points. Other good scores were made by Gunner W. Miller, 5th R.C.A., 49; Capt. Moore, 20th, 49; Sergt. R. Corrigan, 59th 48 Lieut. J. Ogg, 1st B.F.A., came back to his old-time form with 48, and Pte. W. E. Bennett, 43rd, made 47. At the end of this range Sergt. Broadhurst was leading with 340, and Montreal looked like being right in it. The 13th Batt. were also most aggressive, with Col.-Sergt. Skedden and Capt. Hutchinson. The 43rd was also right in the ring with several others.

At 90 *Oyards* there was some big smashing done and bullseyes were frequent. Broadhurst went down at the long range, and from leading in the grand aggregate he dropped down to a tie for a fifth place with three others. Sergt H. Blair and Trooper A. Langstroth, 8th Hussars, with 581 each, tied for first place. The surprise of the meeting, however, was Lieut. Kinnear of the 8th Hussars, a nursery snot, who not only knocked out his dad at every stage of the game, but managed to get no less than eight in the grand aggregate. Pte. Heller of the Royal Grenadiers was well up with 372, and he had the same score as Corp. Kerr, 48th. The scores were as follows:

KIRKPATRICK CHALLENGE CUP.

And individual prizes. The cup for teams of five men from military districts; ranges 500 and 600 yards; 10 shots at each.

$20—Pte. C. Scott, 43rd, 94.

$25, fourth military district, 50th batt., 410.
Grand aggregate score will appear tomorrow.

THE IRISH CONVENTION.

Foreign Delegates Issue a Joint Declaration to the Effect That the Gathering Was a Success.

Dublin, Sept. 4.—The foreign delegates to the Irish Race Convention, which concluded its three days' session yesterday, have issued a joint declaration, in which they say: "We deem it our duty to record our grateful appreciation of the courtesy and kindness with which we have been treated here. We came here without any bias toward any section and with a determination to form an independent opinion based upon our own observations. The delegates who were responsible for the arrangements for holding the convention scrupulously abstained from any attempts to influence our judgment. We have kept separate our own organization, and asked nobody connected with the home movement to attend our conference. We are satisfied that the convention in its composition and its character voiced the Irish national spirit. We watched the proceedings of the convention throughout, and heard therein the fullest and freest possible discussion, and we were especially impressed with the unanimity that was displayed for genuine party unity, necessarily involving discipline and respect for the rule of the majority. We record our own entire belief in unity, based upon the only foundation possible—submission to the majority—and we earnestly call upon the people to stand together for the cause of unity and discipline in the Irish party in Parliament. As citizens of countries enjoying free government, we affirm that no other effective line is known than submission to the rule of the majority in political organizations.

"Upon returning to our home we shall convey to our people a sense of the magnitude, authority and order of the convention, and we pledge ourselves to give our unfailing support to the Irish Parliamentary party until self-government has been won for Ireland."

Dillonite Supplants Healyite.

Dublin, Sept. 4.—The Irish National League of Great Britain held a meeting here to-day and elected Patrick Aloysius McHugh, member of Parliament for the north division of Leitrim, a Dillonite, as vice-chairman in the place of Timothy D. Sullivan, M.P. for West Donegal.

Thos. Slater has a message for every man on page 3. Don't fail to read it.

HER CROWN OF GLORY.

A Dissertation Upon Beautiful Hair and Its Keeping.

To be the possessor of long and beautiful hair is the dream and hope of nearly every woman with scanty tresses, says Viola Virginie Antley in the August Home Queen. This is not always attainable, but a little time and attention, judiciously bestowed, will improve the appearance and quality of any suit of hair and render it "a crown of glory" to its wearer.

In washing the hair use the best quality of castile soap and tepid water; a pinch of bicarbonate of soda added to the rinsing water assists materially in cleansing it. Rub gently, but thoroughly, with a towel, and allow it to flow loose until perfectly dry. Never coil or braid the hair while it is the least bit damp; not only is it apt to give cold, but also causes an odor that is far from agreeable.

In dressing the hair I do not advise the use of a fine-toothed comb, as it is to apt to irritate the scalp, and thus cause it to become diseased. Instead I recommend a coarse comb for the purpose of untangling the hair, then brush with long, even strokes, using a brush with soft bristles. Most women with handsome tresses use the coarse-toothed comb and soft brush.

In regard to the arrangement of the hair, I advise every woman to wear it in the style most becoming to her, regardless of the prevailing fashion. There are very few to whom the simply parted locks are really becoming. If you look best with a few wavy tendrils upon your forehead, by all means wear them, no matter what your age may be.

Because your youth lies in the past is no reason you should wear your hair in quakeress-like severity. No woman ever grows too old to arrange her tresses becomingly.

A few waving locks about the forehead, temples and ears suit nearly every face, either full or thin. A high coiffure is best adapted to evening wear, but the soft coil, either high or low, at the back of the head, is always in good taste, and never make the mistake of wearing too many ornaments. Simplicity is often the expression of perfect taste.

When Adam Was a Boy.

This was years ago, for Adam has been dead quite awhile, though to be sure he has left a progeny that keeps up pretty well the family characteristics. There are wise men to-day who delve into the misty past and tell us all sorts of things, but they are silent on those events that would make Adam interesting to the modern man. What did Adam do when he ran a sliver under his finger nail? Had he to take measles and whooping cough? If he had corns did he cut them with a razor or did he stretch forth a hand in the future and get a bottle of Putnam's Painless Corn Extractor? Putnam's is the best, is sure, safe, painless, and acts in twenty-four hours.

That hacking cough can be quickly cured by Hagyard's Pectoral Balsam. Price 25c.

Two Views

"What a weary world!" signed a hen forlorn,
All in ruffled plumes complaining;
"Not a happy hour have I known since morn,
For its raining, raining, raining!

"If I venture out with my downy brood,
In the mud they'll soon be slipping;
"Why the rain should fall, I don't see at all,
With its dripping, dripping, dripping!"

"What a splendid world!" laughed a lively duck,
"Mother hen, what is the matter?
Come my go-den bills, for we are in luck;
How we'll spatter, spatter, spatter!"

Then she led them down to the river side,
And they plunged in without winking.
"Funny world," quacked she, "if alike were we
In our thinking, thinking, thinking!"
—San Francisco Call.

Dawson's Golden Chaff.

The Michigan Farmer states that the new variety of wheat known as Dawson's Golden Chaff, grown at the Michigan Experiment Station, is what is called by the millers a strong wheat—that is, has a large amount of gluten in proportion to starch. It is in every way a promising variety.

A hacking cough keeps the bronchial tubes in a constant state of irritation, which, if not speedily removed, may lead to chronic bronchitis. No prompter remedy can be found than Ayer's Cherry Pectoral. Its effect is immediate and the result permanent.

For cholera morbus, cholera infantum, cramps, colic, diarrhœa, dysentery, and summer complaint, Dr. Fowler's Extract of Wild Strawberry is a prompt, safe and sure cure that has been a popular favorite for nearly 500 years.

M. L. HENRY & CO.

TORONTO INDUSTRIAL EXHIBITION.

SPECIAL NOTICE.

Visitors to the above who are musically inclined should carefully inspect The **MASON & RISCH PIANO** exhibit. Our stand is the first one on the left as you enter the Musical Pavilion. Our exhibit is not a large one, as we believe that the beautiful tones of instruments can be more fully appreciated in the quiet of our warerooms than amidst the bustle and confusion of an exhibition. We shall therefore make our principal exhibit at our warerooms, 32 King St. W., to which all visitors are cordially invited.

One of the most valuable paintings at the Art Gallery in the exhibition building will be the famous portrait of the Great Pianist Franz Liszt which was painted at his command by Baron Joukovsky, the Great Russian Artist, and presented to Messrs Mason & Risch as a tribute to the wonderful tone qualities of their Pianos. Every lover of Art should make it a point to see this painting. It is valued by experts at $5000.00.

Few people, however nervous, are otherwise than pleasantly affected by drinking properly prepared

"Tetley's" TEAS

"FROM ANCIENT INDIA AND SWEET CEYLON."

NOT A SICK DAY

For Over Thirty Years!

RESULT OF USING

AYER'S PILLS

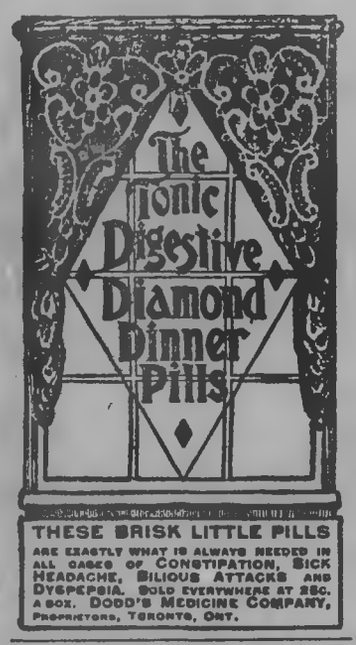
"Ayer's Cathartic Pills for over thirty years have kept me in good health, never having had a sick day in all that time. Before I was twenty I suffered almost continually—as a result of constipation—from dyspepsia, headaches, neuralgia, or boils and other eruptive diseases. When I became convinced

that nine-tenths of my troubles were caused by constipation, I began the use of Ayer's Pills, with the most satisfactory results, never having a single attack that did not readily yield to this remedy. My wife, who had been an invalid for years, also began to use Ayer's Pills, and her health was quickly restored. With my children I had noticed that nearly all their ailments were preceded by constipation, and I soon had the pleasure of knowing that with children as with parents, Ayer's Pills, if taken in season, avert all danger of sickness."—H. WETTSTEIN, Byron, Ill.

AYER'S PILLS

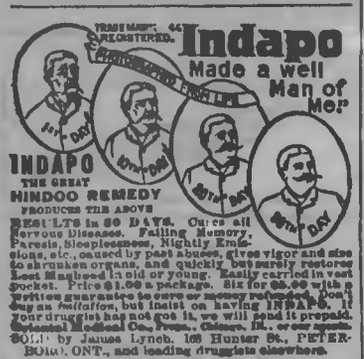
Highest Honors at World's Fair.

Ayer's Sarsaparilla Strengthens the System.



THESE BRISK LITTLE PILLS

ARE EXACTLY WHAT IS ALWAYS NEEDED IN ALL CASES OF CONSTIPATION, SICK HEADACHE, BILIOUS ATTACKS AND DYSPEPSIA. SOLD EVERYWHERE AT 25C. A BOX. DODD'S MEDICINE COMPANY, PROPRIETORS, TORONTO, ONT.



INDAPO THE GREAT HINDOO REMEDY PRODUCES THE ABOVE RESULTS in 30 DAYS. Cures all Nervous Diseases. GORE'S LANDING

And Peterborough

The Steamer Beaver

Will ply between Harwood, Gore's Landing and Peterborough, every Saturday, leaving Harwood at 6.30 a.m., Gore's Landing at 7 a.m., arriving at Peterborough at 10 a.m., connecting with trains from the north at noon, and east and west trains, and leaving Peterborough on the return trip at 3.45 p.m., sharp.

On other days in the week the Beaver may be chartered for Excursion Parties at reasonable rates. THOS. HARRIS, Proprietor Gore's Landing P.O.

A GARDEN NOTEBOOK.

A Systematic Record an Invaluable Gardener's Accompaniment.

A correspondent of Vick's Monthly Magazine calls attention to the desirability of noting in a book the details of garden work, crops, products and prices. He says:

This little book is one of the greatest conveniences a gardener can have. It can be very elaborate, containing information on everything pertaining to the garden, or can have just the bare facts recorded week by week. People with plenty of time to use in making up the book often enjoy recording the temperature, amount of rain-fall, dates of first and last frosts as well as any other little items of interest. In our book only the more important facts are noted, and those are mostly in the line of our own experience. In the first place we had an idea of making the book to aid in determining the relative value of three strawberry beds, one, two and three years old.

The book was ruled, dated and the picking from each bed recorded each in the proper column. Another part of the book was used for placing the dates of ripening of the different sorts, about thirty in all; this table showed the earliest and latest dates of picking each variety. The plan of recording the number of boxes picked each day during the season, the date and price of berries on that day is kept up each year. At the end of the strawberry season the columns are footed up and by referring to the notebook we can tell at a glance just how many boxes were picked from each, how much money they would have brought had all been sold, how many boxes were sold and how much was received for them.

Another space in the book was used to record the dates of ripening of about fifty varieties of grapes which we raised. This was left so that the dates could be filled in each year, thus showing the difference in the time of ripening of the several sorts each year. Despite the change in seasons, early or late spring, much rain or drought, the dates do not vary so much as one would suppose.

It is often interesting to note down a few items, such as time of starting the hotbed, planting the several kinds of seed, setting out cabbage, tomato and celery plants, etc. These facts often are useful the next season.

Our book is useful for a variety of purposes: When plants, seeds or bulbs are ordered the lists are copied in the book and dated, so we know what is ordered and can refer to it when the stock comes. It is also useful sometimes in after years to know just what year certain trees, vines or berry bushes were set out, and the book can tell us.

We raise a great number of gladioli, often planting 600 to 700 bulbs; many of these are named varieties, and it is a hard task to keep them separate. When planting it seems almost impossible to tag them all, so I adopted the plan of writing down the list of names in the note book and then planting the bulbs in the order given. By marking the pages of the book "north, south, east, west," to correspond with the points of the compass, I have my bulbs where I can locate them.

The handiest way to do about this book is to have a good-sized blank book, with pencil attached. As it has a very demoralizing effect on such a book to carry it into the garden, it is best to have a small folding slate or celluloid tablet and pencil to carry in the pocket. The entries can be made in the book at your leisure, and the notes erased, leaving the slate or tablet ready for use.

We keep account of everything bought for the garden or sold from it, but it is almost impossible to keep a strict account of the supplies used by the family. It is enough to know, however, that our family has little fruit and few vegetables to buy the year round, and a garden is kept for that purpose, not to sell the products.

Plant-Lice in Oats.

The little pale green plant-lice (Aphides) seem to have little choice in their diet, as they are from time to time found infesting all sorts of crops. Last year great numbers were noticed upon the fall wheat about te time the heads were filling, but they did little apparent damage. Just now we notice several fields of oats in Middlesex Co., Ont., badly infested. They literally cover some of the heads, and are doing considerable damage. They seem to cluster upon the fine, hairlike threads supporting the grains, which are falling off in great quantities. They seem to have discovered where the most concentrated sap is to be found, viz., just before it enters the grain. So destructive threatens the attack in one field, its owner will likely cut it green for fodder in order to save further loss by the pest. The "lady bug" (Coccinella), or "ladybird," as sometimes called, is their great enemy, and will likely prevent an increase of the lice.—Farmer's Advocate.

Think it Over.

Have you ever heard of a medicine with such a record of cures as Hood's Sarsaparilla? Don't you know that Hood's Sarsaparilla, the One True Blood Purifier, has proved, over and over again, that it has power to cure, even after all other remedies fail. If you have impure blood you may take Hood's Sarsaparilla with the utmost confidence that it will do you good.

Hood's Pills assist digestion. 25c.

A Boon to Humanity.

Wherever there are sickly people with weak hearts and deranged nerves, Milburn's Heart and Nerve Pills will be found an effectual medicine. They restore enfeebled, enervated, exhausted, devitalised or overworked men and women to perfect constitutional power. Weak and pale girls and women soon regain vigorous health.

Mr. G. R. Blount, Methodist minister, Dresden, Ont., says: "After a prolonged attack of la grippe, I was very nervous and weak, and troubled with severe pains. I took one box of Miller's Compound Iron Pills and am perfectly well now." Sold in Peterborough by Wm. Madill, druggist.

Children Cry for Pitcher's Castoria.

A REGULAR CRIPPLE

THE STORY OF AN OLD SETTLER IN DUFFERIN COUNTY.

Suffered Terribly With Rheumatism, and Had to Use Mechanical Appliances to Turn in Bed—Friends Thought he Could Not Recover.

From the Economist, Shelburne, Ont.

Almost everybody in the township of Melancthon, Dufferin Co., knows Mr. Wm. August, J.P., postmaster of Auguston. Mr. August, now in his 77th year, came to Canada from England forty years ago, and for thirty eight years has been a resident of Melancthon. During some thirty years of that time he has been postmaster, and for eleven or twelve years was a member of the township council, for some years holding the position of deputy reeve. He has also been a justice of the peace since the formation of the county. It will thus be seen that Mr. August stands high in the estimation of his neighbours.

In the winter of 1894-95 Mr. August was laid up with an unusually severe attack of rheumatism, being confined to the house and to his bed for about 3 months. To a reporter of the Economist, Mr. August said: "I was in fact a regular cripple. Suspended from the ceiling over my bed was a rope

which I would seize with my hands, an thus change my position in bed to rise to a sitting posture. I suffered as only those racked with rheumatic pains could suffer, and owing to my advanced age, my neighbours did not think it possible for me to recover. I had read much concerning Dr. Williams' Pink Pills, and at last determined to give them a trial. I commenced taking the pills about the 1st of Feb., 1895, taking at the outset one after each meal and increasing to three at a time. Within a couple of weeks I could notice an improvement, and by the first of April I was able to be about as usual, free from the pains, and with but very little of the stiffness left. I continued the treatment a short time longer and found myself fully restored. It is now nearly a year since I discontinued taking the Pink Pills, and I have not had any return of the trouble in that time. I have no hesitation in saying that I owe my recovery to Dr. Williams' Pink Pills."

These pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, all nervous troubles, palpitation of the heart, the after effects of la grippe, diseases depending on humors of the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, overwork or excesses. Dr. Williams' Pink Pills may be had of all druggists, or direct by mail from Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N.Y., at 50c. a box, or six for $2.50. See that the company's registered trade mark is on the wrapper of every box offered you, and positively refuse all imitations or substitutes alleged to be "just as good." Remember no other remedy has been discovered that can successfully do the work of Dr. Williams' Pink Pills.

Electric Fans for the Sick Room.

Such weather as Philadelphia has recently experienced, while enervating enough to healthy people, is particularly prostrating to those in ill health, and some scheme of obtaining a cool draught of air in the sick room is in many cases a matter of great importance. Obviously one of the best ways to secure this is by means of an electric fan, but unfortunately an electric circuit with which to operate it is usually not available. To overcome this difficulty a Philadelphia company rents an outfit consisting of a storage battery and electric fan, which will run continuously for more than a week at a time without attention, and which may be then replaced by another and the discharged battery sent back to be recharged. Though this business of renting storage batteries for such purposes is a new one, it is undoubtedly destined to wide usage in this and other directions. For instance, many people would be glad to have a fan in the dining room during this extremely oppressive weather, and this company affords a means to secure this with slight expense and no trouble.

NO EQUAL IN THE WORLD.

Rev. W. H. Withrow, D.D., now Touring Europe With a Canadian Party, is one of Many to Talk Favourably of Dr. Agnew's Catarrhal Powders.

There are few more noted travellers than the Rev. W. H. Withrow, D. D., editor of the Canadian Methodist Magazine, and of other publications of the great Methodist church of this country. He is a wide traveller, and enjoys the opportunities that travel gives of judging broadly of the merits of any article. He has expressed the writen opinion that Dr. Agnew's Catarrhal Powder is a most excellent remedy for cold in the head and various catarrhal troubles. One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrhal Powder, diffuses the powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsilitis and Deafness. 60 cents. For sale by H. S. Macdonald.

Mrs. T. S. Hawkins, Chattanooga, Tenn says: "Shiloh's Vitalizer 'Saved my Life. I consider it the best remedy for a debilitated system I ever used." For Dyspepsia, liver or kidney trouble it excels. Price 75c. Sold by John Nugent, 280 George Street.

As a blood maker, blood purifier, health giver and system renovator **Manley's** Celery-Nerve Compound is unrivalled.

"The eruptions on the face particularly have been removed, and the trouble in my back as well, and I feel like a new man. I consider Manley's Celery Compound better than doctor's medicine for blood and liver troubles, as it has proved so in my case." Isaiah Leffler. Waterford, Ont.

Sold in Peterborough by John McKee.

WANTED TO LYNCH DILLON.

A Dublin Mob of 1000 Roughs Scared the Irish Leader Badly.

Dublin, Sept. 3.—Following the adjournment of the Irish National Convention today there was almost a riot in Sackville-street, and John Dillon and a number of his friends were compelled to seek refuge in the Imperial Hotel. After leaving Leinster Hall, Mr. Dillon, escorted by fifty or sixty members of the convention, walked up Sackville-street, which was densely crowded. The delegates were followed by a noisy mob of about 1000 Dublin ruffians, who had been gathered about the hall, and who were evidently not in sympathy with the Dillonites. The leaders of the mob kept shouting: "To —— with Dillon," etc., and stones and other missiles began flying through the air. To these cries the Dillonites replied by singing, "God Save Ireland," increasing the riotous demonstration and largely adding to the number of the mob following them up the street. The police on duty were not able to cope with the roughs and reinforcements had to be hurried to the scene. The police soon turned into Sackville-street in strong numbers, and were just in time to stop a growing riot which might have had most serious consequences, for there were threats of lynching, thrashing and ducking Dillon causing him and his party hurriedly to take refuge in the Imperial Hotel, which was afterwards surrounded by a strong force of police who kept the rioters at bay.

Do not fail to read Thos. Slater's advertisement on page 3 for men.

For depression of spirits, nervousness and general weakness, Miller's Compound Iron Pills are a sure cure. 50 doses, 25 cents. Sold in Peterborough by Wm. Madill, druggist.

THE KEY MEDICINE CO.

306 Yonge St, Toronto

For sale by all Druggists.

It's a treat to everybody who likes stylish clothing—and what women doesn't?—to now be able to buy

Fibre Chamois For 25c. a yard

You can always rely on its charming, stylish stiffness being durable for nothing seems able to destroy it. Neither the crushing or hard usage of travelling, nor the dampness of the sea shore will alter its flexible buoyancy in the slightest degree. You will always find your gowns and wraps with their first original jaunty stiffness, till the material is worn out, when you use this popular interlining.

Articles of such well tried merit always have poor imitations, that's why you should look for the label when buying, to avoid disappointment.

Y. W. C. A. Notes.

A board meeting will be held in the rooms on Monday afternoon, Sept. 7th, at 3.30 o'clock. Every member on the board should be present at this meeting, as business of interest to all will be discussed.

Remember, girls, Saturday evening is the social evening in the rooms. Come and bring a friend with you.

A foul breath is one of the greatest afflictions that a man or women can have. An affliction not only to themselves, but to those with whom they come in contact. A foul breath is a great discourager of affection. It would probably be more so if people only realised just what bad breath means. Bad breath is one of the symptoms of constipation. Some of the other symptoms are sour stomach, loss of appetite, sick and bilious headache, dizziness, heartburn and distress after eating. These things mean indigestion. They all start with constipation, and constipation is inexcusable because it can be cured—cured easily, quickly and permanently by the use of Dr. Pierce's pleasant Pellets. They give to nature just the little help that she needs. There is no case of biliousness, constipation, indigestion, "heartburn," or any of the rest of the night-mare breeding brood, that these little "pellets" will not cure.

Send 31 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N.Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser" illustrated.

Assaulted the President.

An Italian named Barsoddi is undergoing a sentence of 30 days in the Minden gaol, having been convicted before Police Magistrate Fielding of assaulting Mr. Pusey. It appears the prisoner and seven other Italians stood on the track of the I. B. & O. railway on the approach of the "pup," a small engine sometimes used on that road. They were expecting the president along the line and wished an interview, which they obtained in this way, and Barsoddi, as spokesman of the party, undertook to use a club as an interpreter, to which the president naturally enough objected and prosecuted him for assault with the above result.—Echo.

PILL-ANTHROPY

SPORTING PASTIMES.

Wheel Talk and Items of Local and General Interest to Sportsmen.

LACROSSE.

The Port Hope Times speaks as follows: "The final game which was to determine the supremacy of the Ontarios of Port Hope and the Athletics of Peterborough for this season will not be played. Some time has now elapsed since the last lacrosse (?) game was played on the Athletic grounds here between Port Hope and Peterborough, which resulted in the referee giving the game to Port Hope. As no meeting place could be mutually agreed upon for the final contest, the president of the C.L.A., urged on no doubt, by Peterborough lacrosse men, ordered the game to be played off at Campbellford. Campbellford! A village of 2,300, conveniently situated near Peterborough, offering no doubt superior (?) lacrosse accomodation. Railway tickets from Peterborough there for the usual Peterborough complement of toughs would certainly not be as expensive as in the last Port Hope trip. All things considered the Port Hope team have rightly decided not to play, and will consequently forfeit their game to Peterborough. They're welcome to it, and no doubt will not worry at the manner in which it was obtained—get used to anything after a while. Mr. Dave Hoosy, the field-captain of the Ontarios, stated to-day to a Times reporter that they were willing to meet Peterborough either at Millbrook, being a centre place, or in Toronto, but when it came to Campbellford that was going a little too far, and nothing but a refusal could be expected to such a proposal. Perhaps if the president of the C. L. A. was better acquainted with Peterborough's sporting circles he might possibly have decided on another town.

The Port Hope Guide has the following to say on the subject:—The Ontarios are wondering if the President of the C. L. A. knows where Campbellford shows up on the map and if he is aware of its close proximity to Peterborough, being about 15 or 20 miles distant from the latter place and about three or four times that distance from Port Hope. The decision, as it is, is also responsible for the opinion held by the Ontarios "that there is something rotten in Denmark," when, contrary to their statement that they would play any place but in Campbellford, that town has been chosen upon and in the face of the fact that although Peterborough slightly objects to Cobourg or Millbrook those two places would have been far more accessible and neutral to both teams, while a goodly number of supporters could be brought from each contesting town. Setting these two places aside, but considering them as more judicious to both teams had they been chosen, if the president of the C.L.A. had witnessed the last contest between these two teams, he would have also seen the advisability of playing the telling final as far away from their native towns as it would be possible to get and where no outside influence would be brought to bear upon the game. It is not only essential that the grounds be neutral but also the spectators. We say again, there is something "rotten" about the affair, and it will undoubtedly be looked into by the supporters of the Ontarios. How much did it cost you George?

[Anyone not acquainted with the circumstances of the case might be led to believe that there was some weight in the arguments of the Port Hope papers, but an entirely different light is thrown on the matter when it is stated that, when a tie game was to be played off in 1894 between these two clubs, Port Hope had its way and the game was arranged to be played in Millbrook. Port Hope, however, defaulted and although the Peterboroughs lined up on the field the Ontarios did not put in an appearance. They felt they were too weak to cope with the Peterboroughs. A similar state of affairs exists to-day but Port Hope hates to acknowledge the corn, and by kicking against the point selected for the game hopes to avoid the ridicule which was earned by their faint-hearted players in 1894.

The Peterboroughs will go down to Campbellford and if the Port Hope team does not appear a game will be played with the Madoc team, which will also be there. A big crowd will go down on the chance of seeing the Port Hopers beaten.

ST. JOHN'S NOTES.

The Bible Classes will re open to-morrow at three o'clock, both in St. John's and in the Mission building.

The rector will preach at the 11 a.m. service to-morrow, and Rev. B. C. H. Andrews in the evening.

Rev. Carl Smith will officiate both morning and evening at the Mission Building.

Rev. E. V. Stevenson will take duty to-morrow in the Church of the Holy Trinity, Toronto. Mr. Stevenson will return to his work early next week.

The annual Harvest Festival will be held on Thursday, Sept. 17th.

The different societies will resume work next week. It has been found necessary, however, to postpone the meeting of the Woman's Auxiliary until Monday week, 14th inst.

Kalamazoo, Mich., is famous for celery. See Thos. Slater's advertisement on page 3

Dread Kidney Disease Quickly Removed

To even bunch the many words of praise written of South American Kidney Cure would consume large newspaper space. But take at random a few:—Adam Soper, Burk's Falls, Ont.:—"One bottle of South American Kidney Cure convinced me of its great worth." Michael McMullen, Chesley, Ont.:—"I procured one bottle of South American Kidney Cure, and taking it according to directions got immediate relief." D. J. Locke, Sherbrooke, Que.:—"I spent over $100 for treatment, but never received marked relief until I began the use of South American Kidney Cure." Rev. James Murdock, St. John, N. B.:—"I have received one hundred dollars worth of good from one bottle of South American Kidney Cure." Sold by H. S. Macdonald.

ONE THING IS CERTAIN PAIN-KILLER KILLS PAIN

PAIN-KILLER

THE GREAT

Family Medicine of the Age.

Taken Internally, It Cures

Diarrhœa, Cramp, and Pain in the Stomach, Sore Throat, Sudden Colds, Coughs, etc., etc.

Used Externally, It Cures

Cuts, Bruises, Burns, Scalds, Sprains, Toothache, Pain in the Face, Neuralgia, Rheumatism, Frosted Feet.

No article ever attained to such unbounded popularity.—Salem Observer.

We can bear testimony to the efficacy of the Pain-Killer. We have seen its magic effects in soothing the severest pain, and know it to be a good article.—Cincinnati Dispatch.

Nothing has yet surpassed the Pain-Killer, which is the most valuable family medicine now in use.—Tennessee Organ.

It has real merit; as a means of removing pain, no medicine has acquired a reputation equal to Perry Davis' Pain-Killer.—Newport News.

Beware of imitations. Buy only the genuine "PERRY DAVIS." Sold everywhere; large bottles, 25c.

VERY LARGE BOTTLES, 50c.

ALUMINUM

AND ITS USES.

I have just seen one of the prettiest boxes made out of this remarkable metal. It looked like a large jewel case and I was curious as to its contents. Within was the Medal of the World's Columbian Exposition, awarded to Messrs O. Newcombe & Co., for Grand and Upright Pianos, the only Toronto Pianoforte makers who exhibited their work in competition with the world, and received the highest honours. Be sure to see the Newcombe Pianos at South-West corner of the Music Pavilion at the Toronto Exhibition, or at the Warerooms, 107-9 Church Street.

PIANO AND HOME

THE PIANO IS NO LONGER CLASSED AS ONE OF THE LUXURIES OF THE HOME TO BE ENJOYED ONLY BY THE RICH. IT HAS BECOME A NECESSITY AND THE PART IT PLAYS AS A SOURCE OF PLEASURE AND INSPIRATION IN THE HOME HAS MADE IT ONE OF THE ESSENTIALS IN MODERN HOME LIFE. BUYING A PIANO FOR THE HOME IS A LIFETIME INVESTMENT. GREAT CARE SHOULD BE EXERCISED IN ITS SELECTION. A POOR PIANO IS A NEVER ENDING SOURCE OF TROUBLE. A GOOD PIANO COSTS BUT LITTLE MORE TO BUY AND COSTS LESS TO KEEP, AND ALSO IMPROVES IN TONE AND ACTION WITH USE. THE BEST IS THE BEST INVESTMENT. THE REPUTATION OF THE MAKER IS ITS BEST GUARANTEE.

THE GERHARD-HEINTZMAN AND THE KARN PIANOS

ENJOY THE ENVIABLE AND WORLD-WIDE DISTINCTION OF BEING THE HIGHEST OF HIGH-GRADE INSTRUMENTS, AND THEIR REAL MERIT HAS BEEN ESTABLISHED BY YEARS OF EXPERIENCE AND DOWN-RIGHT HONESTY IN THE MINUTEST DETAIL OF CONSTRUCTION, WHILST ALL THAT STANDS FOR PURITY, POWER AND MELLOWNESS IN TONE, PERFECTION IN TOUCH, SWEET SINGING QUALITY, DELICACY AND DURABILITY, ARE TO BE FOUND IN THESE TWO FAMOUS PIANOS, FAMOUS THE WORLD OVER TO THE HONOR OF CANADA. Write us for Piano Catalogues.

SOME BARGAINS—Dunham Piano, $50; Holling & Spangenberg, $125; Great Union, N.Y., $145; Heintzman & Co., $180; Steinway, $233.

A NUMBER OF USED PIANOS TAKEN IN EXCHANGE FOR THE ABOVE MAKES AND ABOUT 50 SECOND-HAND ORGANS TO SELL AT A SACRIFICE.

Gourlay, Winter & Leeming
